Independent Auditor's Report

To the Plan Administrator
Turner Retirement Investment Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Turner Retirement Investment Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C)"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Turner Retirement Investment Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Turner Retirement Investment Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Turner Retirement Investment Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Turner Retirement Investment Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Turner Retirement Investment Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule of Assets (Held at End of Year) (Schedule H, Line 4i), as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of Plan

The following brief description of the Turner Retirement Investment Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's information.

General

The Plan is a defined contribution plan covering all eligible employees of The Turner Corporation (the "Company"). The Company's Board of Directors established the Plan effective January 1, 1986. The Plan was established to allow employees of the Company to elect to set aside a portion of their salaries on a pretax basis in order to accumulate capital for their retirement. The Plan is designed to comply with Sections 401(a), 401(k), and 501(a) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by the Pension Administration Committee (the "Committee"), which is comprised of not less than three persons appointed by the Company's Human Resources Committee which was established by the Board of Directors. The Trustee of the Plan is Fidelity Management Trust Company (the "Trustee").

Eligibility

Salaried employees who are at least 21 years of age are eligible to participate in the Plan on the first day of the month immediately following or coincident with their date of hire.

All newly hired employees eligible for the Plan are automatically enrolled as participants in the Plan with a 5% deferral election unless the employee declines participation before the deadline specified in their automatic enrollment letter.

Employee Contributions

Eligible employees may elect to contribute to the Plan between 1% and 25% of their base salaries, not to exceed the maximum allowed by the Code. Participants have the option to make Roth contributions to the Plan.

The Plan requires an automatic enrollment and an initial pre-tax deferral contribution of 5% to be made by newly eligible employees one month after the date of hire unless they elect not to make contributions.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain Code limitations.

Employer Contributions

For every participant dollar contributed up to the first 5% of the employee's eligible compensation, as defined by the Plan, the Company adds 50% to the participant accounts for employees with less than five years of service, 75% for employees with five years but less than 10 years of service, and 100% for employees with more than 10 years of service.

An earnings-based contribution equal to 3% of compensation up to the Social Security Taxable Wage Base, plus 6% of compensation above the Social Security Taxable Wage Base, not to exceed the limit established by the Internal Revenue Service ("IRS"), is also contributed by the Company.

Employees with a hire date prior to April 1, 1991, are grandfathered under a different earnings-based contribution which is based on age and years of service with a range from 3.5% to 9.0% of their annual base salary.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contributions, an allocation of the Company's contributions, an allocation of investment fund earnings (losses), and administrative expenses that are paid by the Plan. Allocations of investment fund earnings (losses) are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of all contributions to the Plan among the investment choices available under the Plan. The Plan currently offers mutual funds, common/collective trust funds, and self-directed brokerage accounts as investment options for participants.

Benefit Payments

Upon a participant's termination of employment for reasons due to death, disability or attainment of normal retirement age, the participant is entitled to receive the full amount of the vested balance in their account. In the event of a participant's death, the beneficiary of the participant shall be entitled to receive the entire balance in the participant's account.

Participants who have attained age 59-1/2 may request an in-service withdrawal of amounts from their pretax contribution, rollover contribution, and vested employer matching and earnings-based contribution accounts as prescribed in the Plan at any time by filing a request with the Trustee of the Plan.

In-service withdrawals prior to age 59-1/2 are available from the participant's pretax contributions, and rollover contribution accounts in the case of financial hardship. These withdrawals are subject to penalties and income taxes as defined by ERISA and IRS rules and regulations.

Vesting

Participants are required to have three years of service, based on adjusted service date, as defined by the Plan, to be 100% vested in Company matching contributions and earnings-based contributions. Participants leaving the Company before completing three years of service will forfeit the Company's matching contributions and earnings-based contributions, and associated earnings. Participants are immediately vested in their contributions and earnings thereon. Provisions are made for treating certain terminations and subsequent reemployment as leaves of absence without loss of previously accumulated years of vested service or benefits. Participants are entitled to receive the full amount of the vested balance in their account upon termination of employment for reasons due to death, disability, or attainment of normal retirement age.

Forfeitures

Forfeitures may be used to restore contributions (or account balances) required for reinstated participants, or to reduce employer contributions. At December 31, 2025 and 2024, the accumulated non-vested accounts available for future use totaled $729,044 and $510,508, respectively. For the year ended December 31, 2025, forfeitures used to reduce employer contributions were $2,836,109.

Notes Receivable from Participants

Participants are allowed to borrow from their eligible account balance for two general purpose notes and one home note. Notes are limited to 50% of a participant's vested eligible account balance up to a maximum of $50,000. The notes are secured by the balance in the participant's account and bear interest at the rate of Prime

plus 1%, which the plan administrator deems to be commensurate with local prevailing rates as required by the Plan document. Such notes and the related interest are repaid through payroll deductions over five years for general-purpose notes and 15 years for home notes. As of December 31, 2025, notes receivable from participants accrued interests at rates between 4.25% and 9.50%, and loans have maturities through 2040.

Plan Amendments

Effective as of January 1, 2025, the Plan was amended by adding the following:

- Definitions for SECURE Act and SECURE 2.0 Act.
- Replacement each reference to "72 (70½ for Participants who attained that age before January 1, 2020)" with "73 (72 for Participants who attained that age before January 1, 2023 but after January 1, 2020, and 70½ for Participants who attained that age before January 1, 2020)".
- Non-Hardship that a participant may take qualified distributions in accordance with the SECURE Act or SECURE 2.0 Act.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in mutual funds, common/collective trust funds, and self-directed brokerage accounts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investments in shares of mutual funds are valued at the quoted market prices that represent net asset value ("NAV") of shares held by the Plan at year end. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investments in common/collective trust funds are stated at NAV as a practical expedient for fair value, which has been determined by each fund's respective issuer, based on the fair value of the underlying investments. This NAV represents the Plan's fair value since this is the NAV at which the Plan transacts with the funds. This

practical expedient is not used when it is determined to be probable that the funds will sell the investments for an amount different than the reported NAV.

Investments in self-directed brokerage accounts primarily consist of mutual funds that are valued on the basis of readily determinable market prices.

Interest-bearing cash consist of accounts bearing interest at a rate determined by the custodian of the Plan.

Individual participant accounts invested in the funds are maintained on a unit value basis. Participants do not have beneficial ownership in specific underlying securities or other assets in the funds, but have an interest therein represented by units valued as of the last business day of the period. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawal payments from the funds are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

One of the common/collective trust funds is a stable value fund which is stated at NAV per share as a practical expedient for fair value. In the determination of a stable value fund's NAV, the relevant measurement is net assets which include the fully benefit-responsive investment contracts held by the stable value fund at contract value. This stable value fund is a commingled pool of the Fidelity Trust for Employee Benefit Plans and may invest in fixed interest insurance investment contracts, money market funds, corporate and government bonds, mortgage-backed securities, bond funds, and other fixed income securities. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at NAV.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year or at year-end.

Gains and losses on sales of securities are determined based on average costs.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Delinquent participant loans are recorded as distributions based on the terms of the plan document.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company and its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses of the Plan are paid by the Plan or the plan sponsor, as provided in the plan document. Investment management fees for investments are included as a reduction of investment return and not reflected separately in the statement of changes in net assets available for benefits.

Administrative expenses of $36 per participant are deducted from participant accounts each calendar quarter. Participants also pay administrative costs for loans, distributions, and qualified domestic relation orders. The remaining expense is paid by the Company and through credits provided by the record-keeper for Plan investments. The Plan has a revenue-sharing agreement whereby certain investment managers return a portion of the investment fees to the record-keeper to offset the Plan's administrative expenses. Future plan expenses can be paid from any excess remaining revenue sharing amounts. For the year ended December 31, 2025, $241,971 was used to offset plan expenses. The Plan held undistributed administrative revenues of $0 and $391,908, at December 31, 2025 and 2024, respectively.

Contributions

Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which participant's compensation is earned.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. There are no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid at December 31, 2025.

Subsequent Events

Subsequent events were evaluated through October 5, 2026, the date the financial statements are available for issuance.

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Valuation Approaches

Valuation approaches maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Asset valuation approaches are discussed in Note 2. There were no changes to asset valuation from 2024 to 2025.

The following table sets forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2025 and 2024:

* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Transfers Between Levels

The Plan's policy is to recognize significant transfers between levels at the beginning of the reporting period. The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2025 and 2024, there were no transfers between levels.

Note 4. Net Asset Value (NAV) per Unit

Note 5. Certification of Plan Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the Trustee of the Plan, a qualified institution, has certified the following investment information included in the accompanying financial statements and ERISA-required supplement schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024.
- Investment income and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2025.
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2025.

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 6. Tax Status

The Plan obtained its latest Letter of Determination on April 18, 2016, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code.

Although the Plan has been amended since receiving the determination letter, management believes that the Plan is currently designed and operating in compliance with the applicable requirements of the Internal Revenue Code, and therefore, believe the Plan is qualified, and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Exempt Party-in-Interest Transactions

Certain plan investments are shares of mutual funds or units of common/collective trusts managed by an affiliate of the Trustee. These transactions qualify as exempt party-in-interest transactions.

Fidelity Investments Institutional (Fidelity Investments) an affiliate of the Trustee, provides certain administrative services to the Plan pursuant to a services agreement between the Company and Fidelity Investments.

Certain employees and officers of the Company may provide services to the Plan at no cost to the Plan. These employees and officers may also be participants in the Plan.

The Plan issues loans to participants which are secured by the vested balances in the participant accounts. See Note 2 for information regarding the revenue sharing agreement.

Note 8. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provision set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their employer contributions.

Note 9. Reconciliation of Financial Statements to Form 5500
