**INDEPENDENT AUDITORS' REPORT**

October 8, 2026

Retirement Committee of the Board of Directors and Plan Participants
Speed Wrench, Inc. Employee Stock Ownership Plan
Hudsonville, MI 49426

***Opinion***

We have audited the financial statements of the ***Speed Wrench, Inc. Employee Stock Ownership Plan*** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements (the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the year ended December 31, 2025 in accordance with accounting principles generally accepted in the United States of America.

***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

HLB We are an independent member of THE GLOBAL ADVISORY AND ACCOUNTING NETWORK

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

***Independent Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Supplemental Schedule Required by ERISA***

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The December 31, 2025 supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

## Notes to Financial Statements

### 1. DESCRIPTION OF THE PLAN

The following description of the ***Speed Wrench, Inc. Employee Stock Ownership Plan*** (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

***General***

***Speed Wrench, Inc.*** (the "Company" or "Plan Sponsor") established the Plan effective January 1, 2010. The Plan operates as an internally leveraged Employee Stock Ownership Plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code"). The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan Sponsor has engaged an independent third party that operates as the trustee of the Plan (the "Trustee").

During 2020, the Plan purchased Company common stock using the proceeds of a loan from the Company (see Note 5) and holds the shares in a trust established under the Plan. The borrowing is expected to be repaid in annual installments through December 2050 by cash contributions from the Company to the trust fund.

Borrowings are collateralized by unallocated shares of Speed Wrench, Inc. common stock. As the Plan makes each payment of principal, an appropriate percentage of shares are allocated to eligible employees' accounts in accordance with applicable regulations under the Code. The Company has no rights in such shares once they are allocated to participants' accounts under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

a) The accounts of participants with vested rights in allocated shares (allocated); and

b) Shares not yet allocated to participants (unallocated).

Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

The Plan Sponsor has engaged with an independent third party that operates as the recordkeeper and administrator of the Plan (The "Plan Administrator"). The Trustee holds all assets of the Plan. The Retirement Committee is responsible for oversight of the Plan and the appropriateness of the Plan's investment offerings and monitors investment performance.

***Eligibility***

Employees of the Company are generally eligible to participate in the Plan after one year of service provided they worked at least 1,000 hours during such Plan year, are at least age 21, and are in covered employment. An employee is in covered employment, unless they are a member of a collective bargaining unit, a leased employee, a nonresident alien receiving no earned income from sources within the United States, or not considered an employee of the Company.

## Notes to Financial Statements

***Contributions***

Contributions into the Plan are subject to certain IRS limitations. The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on the term loan provided by the Company. Additional contributions made to the Plan are at the discretion of the Board of Directors of the Company. Participants are not permitted to make contributions to the Plan.

***Participant Accounts and Forfeitures***

Each participant's account is credited with allocations of (a) shares of the Company's common stock released by the Trustee from the unallocated account, (b) forfeitures of terminated participants' nonvested accounts, and (c) Plan earnings, and charged with an allocation of administrative expenses. Only those participants who are eligible employees of the Company as of the last day of the Plan year receive the allocation of stock and forfeitures. Employer contributions and forfeitures are allocated in proportion to each participant's compensation compared with the total compensation of all participants. Plan investment income is distributed as of the last day of each Plan year and is allocated based on the ratio of each participant's account balance to total participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

***Vesting***

Vesting in the Company contributions is based on years of continuous service. A participant is 100% vested after six years of credited service, with gradual vesting beginning at 20% after two years of service, or when they reach the normal retirement date (65 years of age). Employees who terminate before vesting forfeit their nonvested interest in the Plan at the date of their distribution. Participants terminating from the Plan receive no allocation of employer contributions or forfeitures in the year they terminate from the Plan; however, they do receive an allocation of interest and other Plan income in accordance with normal Plan provisions. Forfeitures are allocated each year to remaining eligible participants based on relative compensation levels, as defined in the Plan document. Forfeited shares of terminated participant's nonvested accounts which were allocated to remaining participants totaled $13,466 for 2025. There were no forfeited nonvested accounts at December 31, 2025 and 2024.

***Payment of Benefits***

Upon termination of service due to death, disability, or retirement as defined in the Plan agreement, participants or their beneficiaries may receive an amount equal to the value of the participant's vested interest in their account in a lump-sum payment or in various installment annuities. The amount to be distributed is based upon the immediately preceding valuation date. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan. The amount to be distributed is based upon the immediately preceding valuation date. Currently, all distributions are paid in cash.

## Notes to Financial Statements

***Voting Rights***

Each participant is entitled to direct the trustee to exercise voting rights attributable to the shares of the stock allocated to his or her account on issues involving mergers or consolidations, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of the Company, or any other similar transaction that may be specified in regulations. If the participant fails to direct the Trustee on any issue, the shares will be voted by the Trustee. In accordance with instructions from the Plan's Retirement Committee, the Trustee is required to vote any unallocated shares on the behalf of the collective best interest of Plan participants and beneficiaries.

***Put Option***

Under Federal income tax regulations, employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can finance any common stock purchase with interest over a period of up to five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash for the value of their shares.

***Diversification***

Diversification is offered to participants who have attained the age of 55 and have completed at least 10 years of participation in the Plan so that they may have the opportunity in the first 90 days of a Plan year to move part of the value of their investment in the Company's stock into investments which are more diversified. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify will receive a distribution into a mutual fund option available under the Plan as selected by the Plan Sponsor.

***Administration of Plan Assets***

The Plan's assets, which consist principally of the Company's common shares, are held by the Trustee of the Plan.

Company contributions and dividends are managed by the Trustee, which invests cash received or interest income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which are reimbursed to the Trustee through contributions as determined by the Company. The record keeping of the individual participants accounts and related allocations is administered by a third party.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

## Notes to Financial Statements

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

***Basis of Accounting***

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

***Use of Estimates***

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. The fair value of Speed Wrench, Inc. common stock is one such significant estimate. Actual results could differ from those estimates.

***Allocations***

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

***Cash and Cash Equivalents***

Cash and cash equivalents consist of demand deposits in banks, and a certificate of deposit with original maturities, when purchased, of less than twelve months. The Plan has not experienced any credit losses and does not believe it is exposed to any significant credit loss on these funds. The Plan maintains its deposits in amounts which, at times, may exceed federally insured limits.

***Investment Valuation and Income Recognition***

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the custodian and appraiser. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net change in fair value of investments includes the Plan's aggregate gains and losses on investments bought and sold as well as held during the year.

***Contributions***

Employer contributions are recorded in the period in which they become the obligation of the Company.

## Notes to Financial Statements

***Benefits Paid to Participants***

Benefit payments to participants are recorded when paid.

***Administrative Expenses***

The Plan's administrative expenses are paid either by the Plan or the Company, as provided by the Plan document. Certain administrative expenses, including an allocation of salaries related to Plan administration, trustee fees, and audit and legal costs, are paid by the Company. Expenses that are paid directly by the Company are excluded from these financial statements. Fees for interest expense and certain administrative fees are paid by the Plan.

***Subsequent Events***

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to the most recent statement of net assets available for benefits presented herein, through the date these financial statements were available to be issued.

### 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under Accounting Standards Codification 820 are described as follows:

Level 1: Input to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

## Notes to Financial Statements

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

*Speed Wrench, Inc. common stock:* The fair value of the Speed Wrench, Inc. common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal is based upon a combination of several different approaches for valuation of the common stock, specifically, income based and market based approaches. The appraiser considered historical and projected cash flow and net income, weighted average cost of capital, return on equity, market comparable, estimated fair value of Company assets and liabilities, and applicable discounts and premiums.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management reviews in detail, discusses and approves. The estimated fair value of common stock of the Company as of December 31, 2025 and 2024 was $54.85 and $61.22 per share, respectively.

*Mutual funds:* Shares held in mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

## Notes to Financial Statements

The following tables set forth, by level within the fair value hierarchy, the Plan's investments measured at fair value at December 31:

| 2025 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Speed Wrench, Inc. common stock | $ - | $ - | $13,490,167 | $13,490,167 |
| Mutual funds | 189,541 | - | - | 189,541 |
| **Total investments at fair value** | **$ 189,541** | **$ -** | **$13,490,167** | **$13,679,708** |

| 2024 | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Speed Wrench, Inc. common stock | $ - | $ - | $14,998,900 | $14,998,900 |
| Mutual funds | 176,112 | - | - | 176,112 |
| **Total investments at fair value** | **$ 176,112** | **$ -** | **$14,998,900** | **$15,175,012** |

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers into or out of Level 3 in 2025.

The following table sets forth a summary of changes in the fair value of the Plan's investment in Speed Wrench, Inc. common stock, a Level 3 asset, for the years ended December 31:

| | 2025 | 2024 |
|---|---|---|
| Balance, beginning of year | $ 14,998,900 | $ 14,599,550 |
| Unrealized (losses) gains relating to stock held at the reporting date | (1,566,679) | 399,350 |
| Purchase | 57,946 | - |
| **Balance, end of year** | **$ 13,490,167** | **$ 14,998,900** |

### 5. LOAN PAYABLE

During 2020, the Plan entered into a $2,748,900 loan agreement with the Company. The proceeds of the loan were used to purchase shares of the Company's common stock. Unallocated shares serve as collateral for repayment of the loan. Shares are released from collateral and allocated to participants when principal payments are made. The number of shares released in any year is the principal payment made during the year, divided by the total loan balance then multiplied by the shares in suspense. The agreement provides for annual installments of $111,435 to be repaid on December 31 of each year over 30 years with the first installment made in 2021. The loan bears interest at 1.31% and is due in full on December 31, 2050.

Scheduled annual principal reductions on the loan for each of the five years succeeding December 31, 2025, and thereafter, are summarized as follows:

| Year | Amount |
|---|---|
| 2026 | $ 80,484 |
| 2027 | 81,539 |
| 2028 | 82,607 |
| 2029 | 83,689 |
| 2030 | 84,785 |
| Thereafter | 1,949,497 |
| **Total** | **$ 2,362,601** |

### 6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are held in shares of common stock of the Plan Sponsor and, therefore, these transactions qualify as party-in-interest. Refer to Note 3 for further disclosures related to the Company stock. Certain management fees in the form of an expense ratio charged to each investment option are paid by the Plan and deducted from earnings on investments. In addition, the Plan's loan is payable to the Plan Sponsor. Interest expense related to this loan was $31,991 for 2025. During 2025, the Company contributed 190.03 shares as a discretionary contribution to the Plan and cash of $690,270.

### 7. TAX STATUS

The Plan uses a prototype plan document sponsored by Steven & Lee P.C. The prototype plan document has received an opinion letter from the IRS dated June 30, 2020, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Code and that any employer adopting this form of the plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

## Notes to Financial Statements

GAAP requires Plan management to evaluate and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. While the Plan may be subject to routine audits by taxing jurisdictions, there are currently no audits for any tax periods in progress.

### 8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan provisions to discontinue its contributions at any time and to terminate the Plan, subject to provisions of ERISA. In the event of Plan termination, effected participants would become 100% vested in their accounts, and accounts will be distributed. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine. Upon terminating the Plan, the Plan's Retirement Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund, and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to replay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code.

### 9. RISKS AND ECONOMIC UNCERTAINTIES

The Plan invests in various investment securities with the underlying assets consisting of any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions for the Plan's investment in Speed Wrench, Inc. common stock based on earnings, cash flows, and other such techniques. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of interest rate, market, and credit risks inherent with certain of the Plan's investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.
