INDEPENDENT AUDITORS' REPORT

The Plan Administrator and Participants of the VVF Illinois Services, LLC
Labor Pension Plan
Kansas City, Kansas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of VVF Illinois Services, LLC Labor Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets as of December 31, 2025, and the supplemental Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

VVF ILLINOIS SERVICES, LLC LABOR PENSION PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

1. DESCRIPTION OF THE PLAN

General – The VVF Illinois Services, LLC Labor Pension Plan (the "Plan") is a defined benefit plan which provides pension and death benefits for eligible employees of VVF Illinois Services, LLC (the "Company") who are members of the United Food and Commercial Workers International Union, Local No. 1546 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

Principal Trust Company ("Principal") is the trustee and custodian of the Plan. CBIZ Retirement Plan Services serves as the Plan's actuary.

Retirement and Pension Benefits – A participant is eligible to participate in the Plan if he or she is an employee of VVF Illinois and was hired before September 16, 2009, and he or she is a member of the United Food and Commercial Workers International Union, Local No. 1546 in Aurora, Illinois that bargained for participation in the Plan. Prior to January 26, 2009, eligible employees were participants of the Dial Labor Pension Program. The Plan provides that vested employees shall be entitled to a monthly retirement benefit based on an employee's credited service multiplied by a benefit unit as defined under the Plan. The benefit unit as of January 26, 2009, (Plan inception) is $40 per month per year of credited service. Normal retirement age under the Plan is 65 with a provision for early retirement at age 55. There is also a 30 Year Retirement if the employee has completed 30 or more years of Credited service at the time of his termination of service and election to retire. Employees hired on or after September 17, 2009, will not receive pension benefits. Participants become fully vested upon reaching 5 years of credited service and prior service with the Dial Corporation counts toward this vesting requirement.

The Plan was amended effective December 31, 2020, freezing all benefit accruals. As such, no participants covered under a collective bargaining agreement between the Company and the United Food and Commercial Workers International Union, Local No. 1546 shall be eligible to accrue any additional benefits under the Plan on or after January 1, 2021.

Funding Policy – The Company's funding policy is to contribute an actuarially determined amount to the Plan in order to maintain the Plan on a sound actuarial basis and meet the minimum funding regulations. The minimum required contribution for the year ended December 31, 2025, was $362,374.

Administrative Expenses – The Plan pays annual plan administrative services fees to Principal, the trustee of the Plan. All other administrative expenses incurred in operating the Plan are paid by the Company.

Benefit Payments – Benefits are to be paid to eligible retired employees on a monthly basis during the employee's lifetime, unless an optional form of pension providing survivor benefits were elected. In such a case then the benefits would continue through the survivor's lifetime.

Termination of the Plan – Although the Company has not expressed any intent to do so, it has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the Plan and under ERISA. Upon termination the participant will be fully vested in the benefit earned by the participant up to the date of termination.

The Pension Benefit Guaranty Corporation ("PBGC") insures certain benefits under the Plan if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC while other benefits may not be provided for at all.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of Plan assets and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales are recorded on a trade-date basis. Dividends and interest income are recorded on the accrual basis.

Payment of Benefits – Benefit payments are recorded upon distribution.

Date of Management's Review – Subsequent events have been evaluated through October 8, 2026, which is the date the financial statements were available to be issued, and there were no material events requiring recognition or disclosure.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The hierarchy consists of three broad levels, described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies at December 31, 2025 and 2024.

Pooled Separate Accounts – Principal calculates a unit value (similar to a net asset value "NAV") of a separate account. It is the sum of the market value of the underlying investments as determined by quoted market prices, less operating expenses accrued but not deducted, if any. There are no unfunded commitments.

Mutual Funds – Valued at the closing price (NAV) reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value on December 31, 2025 and 2024, as follows:

	Fair Value Measurements Using:			
	Level 1	**Level 2**	**Level 3**	**Total**
December 31, 2025:				
Mutual funds	$ 744,948	$ -	$ -	$ 744,948
Pooled separate accounts	9,010,103			9,010,103
Total investments in the fair value heirarchy	$ 9,755,051	$ -	$ -	$ 9,755,051
December 31, 2024:				
Mutual funds	$ 767,662	$ -	$ -	$ 767,662
Pooled separate accounts	8,061,091			8,061,091
Total investments in the fair value heirarchy	$ 8,828,753	$ -	$ -	$ 8,828,753

4. RISKS AND UNCERTAINTIES

The Plan invests in investment securities, which hold securities including U.S. Government securities, corporate debt instruments, and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries and (2) present employees or their beneficiaries. Benefits for all participants are based on the employee's credited service and a benefit unit as defined under the Plan.

The plan actuary estimates the actuarial present value of accumulated plan benefits which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, withdrawal, or retirement) between the valuation date and the expected date of payment. The accumulated plan benefits information as of the most recent valuation date is as follows:

	January 1, 2026	January 1, 2025
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	$ 7,279,715	$ 7,247,275
Other participants	1,910,813	2,125,894
Actuarial present value of vested accrued benefits	9,190,528	9,373,169
Non-Vested benefits	54,035	45,088
Total actuarial value of accumulated plan benefits	$ 9,244,563	$ 9,418,257

Changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2026, are as follows:

Actuarial value of accumulated plan benefits, beginning of year	$ 9,418,257
Change during the year due to:	
Increase in interest due to the decrease in the discount period	633,593
Change in assumptions	(30,346)
Benefit payments	(746,491)
Benefits accumulated net of actuarial experience	(30,450)
Net decrease	(173,694)
Actuarial value of accumulated plan benefits, end of year	$ 9,244,563

These actuarial assumptions were used in the above valuation:

Mortality:	PRI-2012 Blue Collar Table (base rates) with improvement scale MP-2021 for 2025 and 2024 Plan years.
Retirement Age:	A table of rates based on age/service
Interest Rate Assumptions:	The assumed rate of return on plan assets was 7.00% for both years presented.
Turnover and Disability	A moderate scale consistent with the Company's prior experience.
Expenses:	None

These actuarial assumptions are based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, Principal, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments as December 31, 2025 and 2024, and for the year ended December 31, 2025:

- Investments, at fair value
- Net appreciation in fair value of investments
- Dividend income
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. INCOME TAX STATUS

The Plan has received a favorable determination letter from the Internal Revenue Service, dated May 30, 2014, stating that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The plan administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Principal provides custodial services for investments in the Plan. During the year ended December 31, 2025, fees paid to Principal totaled $28,500. Additionally, certain investments held by the Plan are issued by Principal.

The Company pays certain administrative costs and provides certain accounting and administrative services to the plan for which no fees are charged.

Actuarial Assumptions and Methods

Actuarial Methods

a. Funding Method

The actuarial cost method is the Unit Credit cost method.

On the initial valuation date, the benefit accrued to date and the anticipated benefit accrual during the plan year immediately following the initial valuation date are determined for each participant.

The present values of these benefit are then calculated. The sum of the present values of all benefits accruing during the plan year immediately following the valuation date is the normal cost for the initial plan year. The sum of the present values of all benefits accrued prior to the valuation date, less the plan assets, is the initial unfunded actuarial accrued liability.

In subsequent years, the normal cost and unfunded actuarial accrued liability are recalculated on the basis described above. Experience gains and losses (changes in the unfunded actuarial accrued liability which result from causes other than contributions by the plan sponsor and the accrual of interest and additional normal costs) are directly calculated under this cost method. Adjustments to the unfunded actuarial accrued liability can occur, for example, as a result of plan amendments or assumption changes; such adjustments are determined by computing the change in the initial unfunded actuarial accrued liability.

b. Asset Valuation Method

The actuarial value of assets is defined as the smoothed market value of assets. The smoothed market value will be the market value of assets adjusted by the applicable percentage of the gain or loss calculated in each year during the smoothing period. The gain or loss is the difference between the current year's market value and prior year's market value brought forward with contributions, benefit payments, and administrative expenses, all adjusted for interest to the valuation date. The applicable percentage is 66-2/3% for the year preceding the valuation date and 33-1/3% for the second year preceding of the valuation date. The actuarial value of assets will be adjusted to be no greater than 110% and no less than 90% of the current (market) value of assets. Accrued contributions are included in the market value.

c. Valuation Procedures

No actuarial liability is accrued for non-vested terminated employees, even if a break in service had not occurred as of the actuarial valuation date. An actuarial liability is accrued for all other terminated employees, even if a claim for benefits has not been made.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Summary of Plan Provisions

Effective Date

The Plan was established on January 26, 2009, to provide benefits to bargaining unit employees of the plant facilities acquired as a result of the purchase of the Aurora, Illinois location. The plan was most recently restated effective January 1, 2014, and most recently amended by the first amendment effective December 31, 2020, which froze benefit accruals.

Eligibility

An employee of the employer who is a member of a collective bargaining unit represented by the United Food and Commercial Workers International Union in Aurora, Illinois and hired before September 16, 2009.

Service

One year of benefit service is granted for each calendar year in which an employee works 1,615 or more hours. Proportionate credit, to the nearest completed 1/10th of a year, is given for hours less than 1,615. Benefit service includes vesting service earned under the prior Dial Plan. Benefit service used to calculate the accrued benefit is frozen as of December 31, 2020.

One year of vesting service is credited for each calendar year in which an employee works 1,000 or more hours and includes vesting service earned under the prior Dial plan.

Monthly Accrued Benefit

The monthly benefit payable at Normal Retirement Date is equal to:

(a) $40.00 multiplied by benefit service, less

(b) the accrued benefit earned under the prior Dial plan.

Normal Retirement

A Participant's Normal Retirement Date is the first of the month coincident with or next following the Participant's 65th birthday.

Early Retirement

At age 55 and 10 years of ongoing benefit service, the benefit payable is the Accrued Benefit reduced by 0.5% for each month prior to Normal Retirement Date. At thirty years of ongoing benefit service, the benefit is the unreduced Accrued Benefit plus a supplement ($300 per month) payable until age 65.

Disability Retirement

After 10 years of ongoing benefit service, a disability benefit is payable equal to the accrued benefit at the date of disability less any workers' compensation benefit payable for other than the loss of a bodily member. If eligible for disability benefits under Social Security, the disability benefit is a retirement benefit payable for the life of the participant. If not eligible for disability benefits under Social Security, the disability benefit is a temporary single life annuity payable to age 65.

Deferred Vested Benefit

A Participant who terminates employment for any reason other than retirement, death, or disability, and after completing five years of ongoing benefit service or vesting service, is entitled to a monthly retirement benefit deferred to Normal Retirement Date and determined as of the date of termination. Monthly benefits may commence early in the same manner as provided for early retirement benefits.

Summary of Plan Provisions

Delayed Retirement

A Participant who retires from active employment after normal retirement age is expected to receive a timely Suspension of Benefits Notice at their normal retirement age. The delayed retirement benefit is equal to their accrued benefit at the actual date of retirement without any actuarial increase adjustment (unless continuing to work after age 70-1/2).

Pre-Retirement Surviving Spouse Benefit

The spouse of a vested participant will receive a death benefit as follows:

- Active Participant - Accrued benefit times a factor of 0.4250 plus/minus 0.0003 times the number of months spouse's birthdate precedes employee's birthdate. This benefit is payable to the spouse immediately upon death of the participant without reduction for early commencement.
- Terminated Vested Participant - Accrued benefit times a factor of 0.4250 plus/minus 0.0003 times the number of months spouse's birthdate precedes employee's birthdate. This benefit is payable to the spouse at the participant's earliest retirement eligibility and is adjusted by the early retirement factors for commencement before the participant's normal retirement date.

Form of Payment

The normal annuity form of payment is a monthly income for life. However, if the participant has a spouse at retirement, the normal form will be an actuarially reduced joint and 50% survivor annuity.

Other actuarially equivalent options include a joint and 50%, 75% or 100% survivor annuity. Conversion factors are based on a 7.5% interest rate and the 1971 TPF&C Forecast Mortality Table with six-year setback for beneficiaries.

Special Termination Benefit

A reduction in force occurred August 31, 2018, triggering special termination benefits for any active participant at least age 50 with at least 20 years of service. The amount of benefit enhancement varied depending on if the participant accepted or forfeited their claim to any Separation Allowance as provided for in their collective bargaining agreement. The enhancements involved additional service credits, no reduction for early commencement, and supplements to age 65.

Changes Since Prior Year

None.
