INDEPENDENT AUDITORS' REPORT

To the Benefits Administrative Committee
Gray Media, Inc. Retirement Plan for Certain Bargaining Class Employees

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed audits of the accompanying financial statements of Gray Media, Inc. Retirement Plan for Certain Bargaining Class Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings and certain internal control related matters that we identified during the audits.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025, and Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF PLAN

The following description of the Gray Media, Inc. Retirement Plan for Certain Bargaining Class Employees (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

On November 30, 2021, the assets of the Meredith Employees Retirement Income Plan, which were attributable to Bargaining Plan participants, were spun off and transferred to this Plan in accordance with Code Sections 401(a)(12), 411(d)(6) and 414(l) (and the regulations promulgated thereunder) and ERISA Section 4044. Bargaining Plan participants were defined as those individuals that were participants in the Meredith Corporation Retirement Income Plan (Group Annuity Contract No GA 1147) prior to its merger into the Meredith Employees Retirement Income Plan.

On December 21, 2021, the Plan was amended to rename and formally designate Gray Television, Inc. as the Plan Sponsor as of the date of the transaction. Effective January 1, 2025, the Plan was amended to change the name to Gray Media, Inc. Retirement Plan for Certain Bargaining Class Employees.

General

The Plan is a defined benefit pension plan covering certain employees of Gray Media, Inc. (the Company or the Plan Sponsor) under collective bargaining agreements. The Plan is made up of four collective bargaining units: National Association of Broadcast Employees and Technicians, AFL-CIO, Local Union No. 48 (WNEM—Saginaw, MI); International Brotherhood of Electrical Workers, Broadcast Engineers' Local Union No. 53 (KC IV Kansas City, KS); National Association of Broadcast Employees and Technicians, AFL-CIO, Local Union No. 17 (WFSB—Hartford, CT); and American Federation of Television and Radio Artists (AFTRA), AFL-CIO (WFSB—Hartford, CT). The Employee Benefits Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility for the Plan is driven by the aforementioned individual collective bargaining agreements. No new participants are allowed to enter the Plan after January 1, 2016; however, active participants will continue to accrue benefits. Participants must still complete seven years of service to become fully vested in their accrued benefit.

Contributions

All contributions under the Plan are made by the Company in such amounts as shall be sufficient to fund the benefits provided under the Plan. The Company will continue to fund the Plan in amounts sufficient to fund accrued employee benefits in accordance with the minimum funding requirements of ERISA. Employer contributions are accrued at year end based upon the determination of such amounts required to be funded under the provisions of ERISA. For the Plan year ended December 31, 2025, the Company did not make any contributions.

Pension Benefits
The accrued retirement benefits are calculated as the sum of the larger of (1) or (2) below:

(1) The participant's pre-September 1, 1989, benefit, if any; and

(2) The participant's total monthly retirement income credits determined on the basis of their post September 1, 1989, benefit accrual service.

Normal retirement is at age 65. However, participants with 15 years of service may elect early retirement at age 62 with no reduction. Employees may elect to receive the value of their accumulated plan benefits as a joint and survivor option, period certain and life option, or level income option.

Disability and Death Benefits
Upon the death of a participant prior to their normal retirement age, a death benefit equal to 50% of the participant's accrued benefits (reduced by 50% if the joint and survivor option was elected) is paid to the participant's beneficiary. Upon disability, the participant's accrued benefit becomes payable at normal retirement age.

Vesting
Employees become fully vested after seven years of service. Terminated participants are eligible for deferred vested benefits if they have completed three years of service.

Administrative Expenses
Administrative expenses may be paid from the Plan or the Plan Sponsor at the discretion of the Plan Sponsor. Investment related expenses paid to Reliance Trust Company (Reliance), the trustee of the Plan and Principal Life Insurance Company (Principal), the custodians of the Plan are included in net appreciation of fair value of investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP).

Use of Estimates
The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in Note 8.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Employee Benefits Committee determines the Plan's valuation policies utilizing information provided by the trustee and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits
Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits to be provided via annuity contracts are included in plan assets and accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest), and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2026 and 2025. Had the actuarial valuation been performed at December 31, 2025 and 2024, respectively, there would be no material differences.

Significant assumptions underlying the actuarial computations used in the valuation as of January 1, 2026 and 2025 are:

Assumed Rate of Return:	5.25%	
Retirement Rates:	Age	Rate
	55-58	8%
	59-61	10%
	62	12%
	63	20%
	64	15%
	65	20%
	66	100%
Mortality Rates:	Pri-2012 Total Mortality Table with Blue Collar Adjustments projected using improvements based on the MP-2021 projection scale	

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
For the year ended December 31, 2025, subsequent events were evaluated through September 16, 206, the date the financial statements were available to be issued. There were no events or transactions identified during this evaluation that require recognition or disclosure in the financial statements.

3. INVESTMENT INFORMATION CERTIFIED AND PROVIDED BY RELIANCE (TRUSTEE) AND PRINCIPAL (CUSTODIAN)

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments and with the exception of the variable annuity contract, as of December 31, 2025 and 2024, and net appreciation in fair value of investments and interest and dividend income for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Reliance and Principal.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: Valued at the daily quoted closing price representing the NAV of shares held by the Plan at year end.

Pooled separate accounts: Valued at the NAV of the units of the account held by the Plan at year end, as reported by the insurance carrier. The pooled separate account is not publicly traded and its NAV is not a quoted price in an active market; however, the NAV represents a readily determinable fair value because the underlying investments held in the separate account are valued using observable market inputs, and the NAV is calculated and published on a recurring basis and provides sufficient corroborative evidence of the relationship between the account's NAV and the fair values of the individual underlying holdings.

Variable annuity contract: Investment in insurance company variable annuity contract is valued based upon the value of the allocated units in insurance company pooled separate accounts which are stated at NAV, which approximates fair value. Quoted market prices of the underlying investments are used to value each fund and are based on the NAV of the units allocated to the annuity contract held by the Plan at the end of the year. See Note 5 for further information.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024 :

	Assets at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 15,255,610	$ -	$ -	$ 15,255,610
Money market funds	299,755	-	-	299,755
Pooled separate account – group annuity contract	-	1,213,363	-	1,213,363
Variable annuity contract	-	8,481,446		8,481,446
	$ 15,555,365	$ 9,694,809	$ -	$ 25,250,174

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 14,327,467	$ -	$ -	$ 14,327,467
Money market funds	292,617	-	-	292,617
Pooled separate account – group annuity contract	-	869,143	-	869,143
Variable annuity contract	-	8,439,704	-	8,439,704
	$ 14,620,084	$ 9,308,847	$ -	$ 23,928,931

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

5. VARIABLE ANNUITY CONTRACT

The Plan purchases individual variable annuity contracts with Principal (the Insurer) to fund the liability for certain retired lives. The funds related to these contracts are held in the general funds of the Insurer with units of a pooled separate account being allocated to the contract for purposes of determining investment returns and contract value. The individual annuity contracts provide for retirees to participate in upside associated with the investment return, while providing for a minimum floor below which retirement benefits cannot decrease. On an annual basis, Principal reviews the performance of the investments underlying the contract and resets the retirement benefits. Retirees may benefit from up to 75% of potential upside with the remaining 25% being returned to the Plan in the form of investment income. The liability associated with these contracts has been actuarially determined and is included in the projected benefit obligation disclosed in Note 8.

6. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan (subject to agreement with AFTRA) to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event of Plan termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

(a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.

(b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, up to the applicable limitations (discussed subsequently).

(c) All other vested benefits (that is, vested benefits not insured by the PBGC).

(d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically on the amount of an individual's monthly benefit that the PBGC guarantees.

For Plan terminations occurring during 2025, that ceiling is $7,431 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants, or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

7. TAX STATUS

The Plan Administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any significant uncertain tax positions that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits as of January 1, 2026 and 2025, is presented below:

	2026	2025
Actuarial present value of accumulated plan benefit		
Vested benefits:		
Active vested participants	$ 5,875,086	$ 5,771,050
Terminated vested participants	4,774,855	4,402,598
Retirees and beneficiaries	9,694,576	9,839,636
	20,344,517	20,013,284
Nonvested benefits	-	-
Total actuarial present value of accumulated plan benefits	$ 20,344,517	$ 20,013,284

The changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2026, are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	$ 20,013,284
Increase (decrease) during the year attributable to:	
Increase for interest due to change in discount period	1,020,533
Benefits paid	(1,164,020)
Benefits accumulated and other plan experience	474,720
Net increase	331,233
Actuarial present value of accumulated plan benefits at end of year	$ 20,344,517

9. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, the contributions remitted by the Company to the Plan are considered party-in-interest transactions.

Plan investments are managed by Reliance through a custodial relationship with Fidelity, and an insurance contract and pooled separate account are managed by Principal. As such, transactions involving these accounts qualify as party-in-interest transactions. In addition, administrative expenses paid by Reliance, Principal and investment providers are also considered party-in-interest transactions.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Mortality Rates

Healthy & Disabled *(FE)*	IRS 2025 Static Mortality - Pri-2012 base mortality table with separate rates for annuitants and non-annuitants as provided under IRC 430(h)(3). Mortality projections are based on IRS 2024 Adjusted Scale MP-2021 and the projection methodology described in IRS regulation 1.430(h)(3)-1(c). The mortality table is prescribed by federal regulation.
Lump Sum *(FE)*	Not Applicable
ASC 960 *(FE)*	Pri-2012 Mortality Table with Blue Collar Adjustments projected using fully generational improvements based on the MP-2021 projection scale. As the plan is not large enough to have credible experience, mortality assumptions are set to reflect general population trends

Disability Rates *(FE)*

ASC 960 *(CO)*	5.25%	5.25%	5.25%

All segment rates are based on the sponsor's election to use a 0 month lookback. The PBGC interest rates are based on the sponsor's election to use the Alternative calculation method. The Alternate calculation method was elected in 2022.

Minimum/maximum funding and PBGC interest rates are prescribed by IRS regulation.
The ASC 960 interest rate is the expected long term rate of return on assets.

Payment Form Election *(FE)*

Life Annuity	100%

Expense and/or Contingency Loading *(FE)*

The Target Normal Cost is increased by $98,000 to cover anticipated administrative expenses paid from the trust during the 2025 plan year

Marital Status and Ages *(FE)*

70% of Participants assumed to be married with wives assumed to be three years younger than their husbands

Asset Valuation Method

The average of the market value of assets on the valuation date and the adjusted fair market value of assets for the preceding valuation date. The result is subject to a 10% corridor.

FE indicates an assumption representing an estimate of future experience
MD indicates an assumption representing observations of estimates inherent in market data

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Status

The re-stated plan document effective January 1, 2016 as amended through the third amendment effective January 1, 2020 and close of business November 30, 2021, is reflected in the following plan provisions.

Eligibility for Participation

Prior to the merger date of November 30, 2021, any covered employee shall become a participant after completing one year of eligibility service. No new entrants permitted after merger date.

Accrued Benefit

The accrued benefit is determined as the sum of (A) and (B) below:

A. The participant's pre-9/1/1989 benefit, if any:

B. The participant's total monthly retirement income credits determined on the basis of his post 9/1/1989 benefit accrual service.

Benefits

Normal Retirement

Eligibility	Age 65 or Unreduced benefit payable at age 62 with 15 years of plan participation
Benefit	Unreduced accrued benefit payable immediately

Early Retirement

Eligibility	Age 62 or Age 55 and 7 years of vesting service (20 years of benefit service for IATSI Local 31)
Benefit	Accrued Benefit reduced for payment before Normal Retirement Date in accordance with schedule specified in applicable bargaining agreement.

Late Retirement

Eligibility	Participation continues after Normal Retirement Date
Benefit	The greater of the Accrued Benefit as of actual retirement date and the Accrued Benefit as of age 65 actuarially increased to actual retirement date based on annuity payments not made after age 65.

Death before Retirement

Eligibility	Upon death after completing at least three years of service
Benefit	Spouse receives the benefit they would have received had the employee retired just before he died (or if later the earliest date the employee would have been eligible to retire) and had elected a Joint and 50% Survivor benefit

Termination

Eligibility

Years of Vesting Service	Vesting Percentage
3	20%
4	40%
5	60%
6	80%
7	100%

Benefit: Accrued Benefit payable at participant's Normal Retirement Date. Participants that are eligible for Early Retirement may elect to receive the Accrued Benefit reduced for payment before Normal Retirement Date in accordance with schedule specified in applicable bargaining agreement.

Credited Service

For Vesting

One-twelfth of a year for each calendar month in which an employee has an hour of service.

For Benefit Accrual

One-twelfth of a year for each month of active participation. Benefit service prior to September 1, 1992 is based on completed months of participation.

Employee Contribution Account

The participant's contributions accumulated to date of determination with interest at 120% of federal mid-term rate in effect for the first month of the plan year. Contributions are no longer required under the plan.

Payment Forms

Normal Form

Modified cash refund for those participants who made required contributions under the plan.

A single life annuity for single participants. The normal retirement benefit shall be payable to married participants in the form of an actuarially equivalent qualified joint and 50% survivor annuity.

Optional Forms

5 and 10 years Certain and Continuous Annuity; 50%, 75% and 100% Contingent Annuitant Options.

Monthly benefits are payable in the form of a variable annuity. These monthly payments are subject to a floor and will not be reduced below the initial benefit amount. This variable annuity feature is discontinued if the plan is terminated. Participants may elect to discontinue the variable feature.

Changes since Prior Valuation and Key Notes

Effective January 1, 2025, the plan name was changed to Gray Media, Inc. Retirement Plan for Certain Bargaining Class Employees. This change had no impact on the Funding Target or the Target Normal Cost. There have been no other changes to the plan provisions since the last valuation.

The interest rates and mortality assumptions have been updated as required under the Pension Protection Act, all subsequent legislation, and associated IRS Regulations, including the changes presented by the American Rescue Plan Act of 2021. These changes resulted in a decrease in the Funding Target.

Effective January 1, 2025, the Market Value of Assets and PBGC Liabilities used for the PBGC Premium Filing include the value of the variable annuity contract liability and separate asset held at Principal Financial Group. This change had no impact on the Funding Target or the Target Normal Cost.

The administrative expense load for 2025 was updated to $98,000 to better reflect future administrative expenses paid from the plan.

The interest rate used to measure ASC 960 liabilities has been changed from 6.25% to 5.25% to align with the expected return on assets as set based on analysis conducted by the plan's investment advisors. This change resulted in an increase in the Present Value of Accrued Benefits.
