Independent Auditor's Report

To the Plan Administrator
Corewell Health Retiree HRA (formerly known as
Spectrum Health Lakeland Retiree HRA)

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Corewell Health Retiree HRA (formerly known as Spectrum Health Lakeland Retiree HRA) (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits (modified cash basis) and plan benefit obligations (modified cash basis) as of December 31, 2025 and 2024 and the related statements of changes in net assets available for benefits (modified cash basis) and changes in plan benefit obligations (modified cash basis) for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the years then ended stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting described in Note 2.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

PRAXITY™
Empowering Business Globally

Basis of Accounting

We draw attention to Note 2 to the modified cash basis financial statements, which describes the basis of accounting. The financial statements and supplemental schedules are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2 and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of modified cash basis financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting described in Note 2.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting described in Note 2.

To the Plan Administrator
Corewell Health Retiree HRA (formerly known as
Spectrum Health Lakeland Retiree HRA)

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

The supplemental schedules of assets held at end of year (modified cash basis) as of December 31, 2025 and reportable transactions (modified cash basis) for the year ended December 31, 2025 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules (modified cash basis), we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following description of Corewell Health Retiree HRA (formerly known as Spectrum Health Lakeland Retiree HRA) (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established to provide retiree medical and prescription drug coverage for eligible employees of Corewell Health (formerly Spectrum Health Lakeland and prior to that Lakeland Regional Health System) (the "Company") hired before January 1, 2005 and their dependents. The Company established the Corewell Health Post Retirement Medical Trust (formerly, The Lakeland Post Retirement Medical Trust Fund), a voluntary employees' beneficiary association (VEBA) trust, effective February 25, 2013 to fund the post retirement obligation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Over time, the Plan has undergone a few amendments as follows:

- Effective January 1, 2020, the Plan transitioned from providing coverage through the Company's medical insurance to offering a monthly subsidy via health reimbursement accounts (HRAs).
- Effective January 1, 2022, eligible medical expenses under the Plan were limited to premiums for participants' health insurance policies, including Medicare premiums.

Employees become eligible for benefits under the Plan after electing coverage and fulfilling certain requirements, as established by the Company.

Charles Schwab Trust Bank (the "Custodian") serves as the custodian of the Plan. Corewell Health serves as the plan sponsor and the plan administrator.

Contributions

Upon retirement, eligible participants had the option to continue medical and drug coverage through the Company or elect coverage elsewhere. If participants maintained coverage through the Company, retirees were required to pay a portion of the cost, and the remaining costs were paid through employer contributions. If retirees elected coverage outside of the Company, the employer provides a subsidy to the retiree at a monthly rate of $7 times the eligible years of service, not to exceed $210 per month. Effective January 1, 2020, medical and drug coverage through the Company was eliminated for all retirees. All retirees will now receive only the monthly subsidy.

Additionally, accrued service as of December 31, 2019 for actively employed participants who had 20 or more years of accrued service was frozen as of that date (subject to the previous limit of 30 years). Participants with less than 20 years of service as of December 31, 2020 will continue to accrue service up to a maximum of 20 years.

The Plan is financed by employer contributions, investment income, and existing plan assets. Effective January 1, 2020, the Plan no longer was funded by retiree contributions.

Health and Welfare Benefits

Medical and prescription drug claims of retirees receiving benefits through the Company are processed by an administrative service organization, but the responsibility for payments to participants is retained by the Plan.

Note 1 - Plan Description (Continued)

Termination

Although Corewell Health intended to continue the Plan indefinitely, Corewell Health reserved the right to terminate or partially terminate the Plan by action of its board of directors. As such, the Plan will be terminated effective as of the end of the plan year in which the funds in the Corewell Health Post Retirement Medical Trust Fund are exhausted. If the funds in the Corewell Health Post Retirement Medical Trust Fund are exhausted mid-plan year, Corewell Health, will pay the remaining claims for reimbursement for that plan year from its general assets.

Funding

Corewell Health contributes the amounts necessary to provide assets sufficient to meet the benefits to be paid to plan participants. Effective January 1, 2020, there are no longer participant contributions to the Plan, as participants can no longer elect coverage through the Company.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Charles Schwab Trust Bank or its affiliates. Charles Schwab Trust Bank is the Custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the modified cash basis of accounting. Under the modified cash basis of accounting, contributions and investment income are recognized when received, claims paid and expenses are recorded when paid, and investments are recorded at fair market value.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Claims Payments

Claims payments are recorded when paid.

Administrative Expenses

Various administrative costs are paid by Corewell Health.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan's benefit obligations are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the modified cash basis financial statements.

Subsequent Events

The modified cash basis financial statements and related disclosures include evaluation of events up through and including October 8, 2026, which is the date the financial statements were available to be issued.

Note 3 - Post Retirement Benefit Obligation

Effective January 1, 2020, retirees must obtain medical insurance coverage elsewhere but can be reimbursed based on an eligible annual subsidy contributed by Corewell Health. Expenses related to subsidy reimbursements are recorded when paid, and employer contributions are recorded when paid.

The post retirement benefit obligation represents the total actuarial present value of those estimated future benefits that are attributed to participant service rendered through year end. Post retirement benefits include future benefits expected to be paid to or for currently retired participants and their beneficiaries and dependents and active participants and their beneficiaries and dependents after retirement from service. Prior to an active participant’s full eligibility date, the post retirement benefit obligation is the portion of the expected post retirement benefit obligation that is attributed to that participant’s service rendered to the valuation date.

The actuarial present value of the expected post retirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims cost and participant payment data to estimate future annual incurred claims cost per participant and to adjust such estimates for time value of money and the probability of payment between the valuation date and the expected date of payment.

Effective January 1, 2020, the actuarial assumption for health care cost trend applied to claims cost and retiree contributions is not applicable due to the elimination of self-insured medical and drug aspects of the Plan.

The following were other significant assumptions used in the valuation as of December 31, 2025 and 2024:

	2025	2024
Discount rate	5.56%	5.72%
Mortality	Pri-2012 Generational Mortality Table using scale MP-2021	Pri-2012 Generational Mortality Table using scale MP-2021

Other Changes

The increase in the 2025 post retirement benefit obligation due to changes in actuarial assumptions of approximately $199,000 is primarily due to changes in the discount rate from 5.72 percent to 5.56 percent.

Note 3 - Post Retirement Benefit Obligation (Continued)

The decrease in the 2024 post retirement benefit obligation due to changes in actuarial assumptions of approximately $556,000 is primarily related to the change in the discount rate from 5.30 percent to 5.72 percent.

The above assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the post retirement benefit obligation.

Note 4 - Certified Information

Charles Schwab Trust Bank holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying modified cash basis financial statements, supplemental schedule of assets held at end of year (modified cash basis), and supplemental schedule of reportable transactions (modified cash basis) are based solely on information certified by Charles Schwab Trust Bank.

Note 5 - Tax Status

The trust established under the Plan to hold the Plan's assets is intended to qualify pursuant to Section 501(c)(9) of the Internal Revenue Code (the "Code"), and, accordingly, the trust's net investment income is generally exempt from income taxes. The trust has obtained a favorable tax exemption letter from the Internal Revenue Service, and the plan sponsor believes that the trust continues to qualify and to operate in accordance with applicable provisions of the Code.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan’s assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 6 - Fair Value Measurements (Continued)

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

Money Market Fund

The money market fund is valued at quoted prices reported in active markets.

Interest-bearing Cash and Certificates of Deposit

The fair value of these investments is based on their outstanding balances.

Debt Securities

The U.S. government securities and corporate debt securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2025 and 2024:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2025
