INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Audit Committee
Morrison-Maierle, Inc. Employee Stock Ownership Plan
Helena, Montana

Opinion

We have audited the financial statements of Morrison-Maierle, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to *the Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplementary Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary schedule of assets held at end of year as of December 31, 2025, and the schedule of reportable transactions for the year ended December 31, 2025, are presented for purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplementary schedules, we evaluated whether the supplementary schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF THE PLAN

The following description of Morrison-Maierle, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General The Plan is an employee stock ownership plan (ESOP) covering substantially all employees of Morrison-Maierle, Inc. and its subsidiaries (the Company). The Company established the Plan effective January 1, 1994, and has subsequently amended and restated it. The Plan operates as an Employee Stock Ownership Plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the *Internal Revenue Code* (IRC) of 1986, as amended and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended. The Plan is administered by the ESOP Administrative Committee appointed by the Morrison-Maierle, Inc. Board of Directors. GreatBanc Trust Company (Trustee) is an independent third-party institutional trustee.

Eligibility Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after 12 consecutive months of service, provided they worked at least 1,000 hours during such period. Employees covered by a collective bargaining agreement, leased employees, and nonresident aliens are not eligible to participate. Participants who do not have at least 1,000 hours of service during a Plan year and are not employed on the last working day of a Plan year are not eligible for an allocation of Company contributions and forfeitures for such year. However, participants who have died, become disabled, or have attained normal retirement age are eligible for an allocation.

Contributions The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on outstanding loans, if any. The Plan currently has no outstanding loans, and as such, contributions to the Plan are discretionary. Employee contributions are not permitted. Employer discretionary contributions were $5,000,000 and $4,725,000 for years 2025 and 2024, respectively.

Participant Accounts The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account (if any), discretionary contributions, and forfeitures of terminated participants' nonvested accounts. Allocations of the Company contribution are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the applicable ratio of the participant's account balance.

Effective November 1, 2025, the Plan was amended to permit the establishment of ESOP Segregation Accounts for terminated participants whose Company stock holdings are liquidated in accordance with the Plan's Distribution Policy.

Vesting If a participant's employment with the Company ends for any reason other than death, disability, or normal retirement, he or she will vest in the balances in his or her account based on vesting years of service with the Company. Participants vest 20% per year of service beginning with the second year of service and are 100% vested after six years of service.

Payment of Benefits Upon a participant's termination due to death, normal retirement, or disability, distribution of benefits will begin no later than one year after the close of the Plan year in which the event occurs. For participants who terminate employment for reasons other than those listed above, distribution of benefits will begin no later than the sixth Plan year after the Plan year in which service terminates. The ESOP Administrative Committee has the discretion to accelerate both the timing and number of installments in a nondiscriminatory manner if finances allow. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are normally made in cash, but may also be made in shares of the Company stock, and will be paid in substantially equal installments over a period of up to five years. Special rules apply if the value of a participant's account exceeds $1,415,000 and $1,380,000 for 2025 and 2024, respectively. Account balances less than $7,000 will be distributed from the Plan upon termination.

In-service distributions are permitted to participants who are age 65 or older and who have completed 10 years of service for vesting purposes.

Effective November 1, 2025, the Plan was amended to permit the Trustee to liquidate Company stock allocated to the accounts of terminated participants in accordance with the Plan's Distribution Policy. Amounts resulting from such liquidation may be held in an ESOP Segregation Account and continue to participate in Trust earnings and losses until distributed.

The vested balance of accounts of persons who have withdrawn from the Plan, but had not been paid, amounted to $14,248,499 and $11,602,652 at December 31, 2025 and 2024, respectively.

Forfeitures Forfeited nonvested shares are allocated to remaining participants based on the relationship of the participant's eligible compensation to total eligible compensation for the Plan year. In 2025 and 2024, $99,996 and $119,747 of the forfeited account balances were allocated to participants, respectively. The value of nonvested accounts held for terminated employees amounted to $781,520 and $441,019 at December 31, 2025 and 2024, respectively. At December 31, 2025 and 2024, there were no unallocated forfeitures.

Plan Termination The Company reserves the right to terminate the Plan at any time. Upon termination of the Plan, the Plan administrator directs the trustees to pay all liabilities and expenses of the Plan and sell shares of financed stock held as collateral to the extent they determine such sale would be necessary to repay all liabilities and expenses of the Trust. Subsequently, the interest of each participant in the Plan will be distributed to such participant, or to the participant's beneficiary, at the time prescribed by the Plan terms and the IRC.

Voting Rights Each participant is entitled to exercise limited voting rights attributable to the shares allocated to his or her account in situations involving mergers, consolidations, recapitalizations, dissolutions, and similar types of transactions, as described in the Plan document. In these situations, the Trustee will vote any share for which instructions have not been given by a participant. For all other matters requiring shareholder voting, voting rights are exercised by the Trustee.

Put Option Under federal income tax regulations, Company stock that is held by the Plan in trust for its participants that is not readily tradable on an established market, or is subject to trading limitations, must include a put option. The purpose of the put option is to ensure that the participant has the ability to liquidate any Company stock that the participant receives from the Plan. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of one year. For the years ended December 31, 2025 and 2024, no shares were repurchased from participants.

Diversification Diversification is offered to participants nearing retirement age so that they may have the opportunity to shift a portion of the value of their investment in Company stock into investments, which are more diversified. Participants who are at least age 55 and with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to the participant's account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify can elect to receive a cash distribution to have funds transferred to the Company's 401(k) Plan, or to an IRA (individual retirement account). The election to diversify is made subsequent to year-end, based upon the shares of Company stock in the participant's account at year-end. At December 31, 2025, there were 2,815 shares with a value of $3,384,315 that were eligible for diversification. As of the date of this report, the value of shares of participants who have elected diversification in 2026 is $300,621.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The Plan uses the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to the accounts of participants with rights in allocated stock. There were no unallocated shares for the years ended December 31, 2025 and 2024.

Investment Valuation and Income Recognition The shares of Company common stock are reported at fair value. Fair value measurements are discussed below. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average-cost method. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as those held during the year.

Fair Value Measurements The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Investment in Company Common Stock: This stock is valued by an independent appraiser in order to derive an approximation of fair value as of the end of the Plan year. Consistent with prior years, the appraisal is based on a combination of two valuation techniques which include the market and income approaches. These techniques utilize the guideline public company method, merger and acquisition method, as well as a discounted cash flow method. These methods utilize historical financial position and projected future earnings, with consideration for certain economic trends and regulatory changes in the industry in which the Company operates.

The Trustee selects an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per-share value. Management and the Plan administrator approve the report after detailed review and discussion. The results of this process are documented in the minutes of the Plan administrator.

Short-Term Investment Fund: Assets are valued at the daily closing prices as reported by the fund. The fund is required to publish its daily net asset value and to transact at that price. The fund invests primarily in short-term fixed-income securities and is comparable to a cash equivalent. The fund invests in the underlying Goldman Sachs Financial Square Government Fund, which is valued at amortized cost. The fund held by the Plan is deemed to be actively traded.

See note 4 for the classification of these assets within the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits Benefits are recorded when paid.

Expenses Certain expenses of administering the Plan may be paid either by the Plan or by the Company. The Company has historically paid all administrative expenses of the Plan other than investment-related fees and Trustee fees. Expenses that are paid by the Company are excluded from these financial statements.

Evaluation of Subsequent Events The Plan has evaluated subsequent events through October 6, 2026, the date the financial statements were available to be issued.

3. INVESTMENT IN COMPANY COMMON STOCK

Investment in Company common stock amounted to:

December 31	2025	2024
Number of shares	63,948	63,948
Cost	$ 5,556,730	$ 5,556,730
Fair value	$ 76,870,612	$ 67,942,832

4. FAIR VALUE MEASUREMENTS

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

December 31, 2025	Level 1	Level 2	Level 3	Total
Investment in Company common stock	$ -	$ -	$ 76,870,612	$ 76,870,612
Short-term investment fund	-	4,760,533	-	4,760,533
Total Assets in the Fair Value Hierarchy	$ -	$ 4,760,533	$ 76,870,612	$ 81,631,145

December 31, 2024	Level 1	Level 2	Level 3	Total
Investment in Company common stock	$ -	$ -	$ 67,942,832	$ 67,942,832
Short-term investment fund	-	4,409,472	-	4,409,472
Total Assets in the Fair Value Hierarchy	$ -	$ 4,409,472	$ 67,942,832	$ 72,352,304

There were no transfers into or out of level 3 investments for the years ended December 31, 2025 and 2024. The Plan's policy is to recognize transfers into and out of level 3 as of the actual date of the event or change in circumstances.

The following table sets forth a summary of changes in the fair value of the Plan's investments using level 3 inputs:

	Number of Shares	Value per Share	Total Value
Total Shares - December 31, 2023	63,948	$ 1,017	$ 65,035,755
Unrealized gains	-		2,907,077
Total Shares - December 31, 2024	63,948	$ 1,062	67,942,832
Unrealized gains	-		8,927,780
Total Shares - December 31, 2025	63,948	$ 1,202	$ 76,870,612

5. ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Morrison-Maierle, Inc. common stock and other investments, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants under the direction of the ESOP Administrative Committee. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan paid fees to the Trustee and custodian of Plan assets of $31,500 for each of the years ended December 31, 2025 and 2024, respectively. The Plan paid fees to PenChecks, the independent provider of Plan payment processing, of $2,875 and $2,895 for the years ended December 31, 2025 and 2024, respectively. All other Plan-related expenses are paid directly by the Company and are not reimbursed by the Plan.

7. TAX STATUS

The Internal Revenue Service has determined, and informed the Company by a letter dated December 13, 2016, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and operating in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

8. CONCENTRATIONS

The Plan holds investments in the Company's common stock amounting to $76,870,612 and $67,942,832 at December 31, 2025 and 2024, respectively. The investment represents 89% and 88% of total plan assets at December 31, 2025 and 2024, respectively. The shares owned by the Plan represent 100% of all Company common stock outstanding at December 31, 2025 and 2024.

9. RISKS AND UNCERTAINTIES

Plan investments consist primarily of the Company's common stock, and various investment securities, which are exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the Company's common stock and investment securities, and uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the Company's common stock will occur in the near term, and that such changes could materially affect the amounts reported on the statements of net assets available for benefits.

10. PLAN AMENDMENTS

Effective January 1, 2025, the Plan expanded the discretionary voting authority of the Plan's Trustee. Under the amendment, the Trustee may exercise voting rights in its discretion for all corporate matters except those requiring pass-through voting, such as mergers, liquidations, or similar transactions, subject to complying with the Trustee's fiduciary obligations prescribed under ERISA.

Effective November 1, 2025, the Plan was amended to establish an ESOP Segregation Account and permit the liquidation of Company stock allocated to terminated participants' accounts in accordance with the Plan's Distribution Policy. Amounts resulting from such liquidation are transferred to the ESOP Segregation Account and continue to share in the net income or loss of the Trust. The amendment also updated the required beginning age for required minimum distributions to age 73 for participants born between January 1, 1951, and December 31, 1959, and age 75 for participants born on or after January 1, 1960.
