INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee and participants of the
Cardlytics 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Cardlytics 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements (the financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of the report,

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current Plan instrument, including all Plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. 1. Description of Plan

The following description of the Cardlytics 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document, copies of which are available from the plan administrator, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Cardlytics, Inc. and adopting affiliate employers (collectively, the Company or Plan Sponsor). All full-time employees not covered by collective bargaining (union) or non-resident aliens are eligible upon hire. Temporary employees must complete 1,000 hours of service during the Plan year to become eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2025, the Company had a reduction in force, resulting in a partial plan termination. Effective October 1, 2025, all affected participants were considered fully vested in their Company contributions due to the partial plan termination.

Effective July 1, 2025, the Plan was amended to allow for additional in-service withdrawals including Emergency Expense Withdrawals (EEW), Domestic Abuse Withdrawals (DAW), Qualified Declared Disaster Withdrawals (QDD), and Qualified Birth or Adoption Distributions (QBOAD).

Effective September 14, 2026, the Plan was amended to render Long-Term Part Time (LTPT) employees ineligible for employer contributions.

Contributions

Participants may make pre-tax and/or Roth contributions of up to 100% of eligible compensation as defined by the Plan document, not to exceed a maximum of $23,500 in 2025, plus a catch-up contribution of up to $7,500 for participants who are at least 50 years of age by the end of the Plan year. Beginning in 2025, participants who turned age 60, but not older than age 63 by December 31, 2025, are eligible for catch-up contributions of $11,250. Participants may also make after-tax contributions of up to 100% of eligible compensation. In 2025, participants may have total deferrals and employer contributions to the Plan of up to $70,000, or $77,500 including catch-up contributions for participants who are age 50-59 and age 64 and over. Participants who are aged 60-63 may have total deferrals and employer contributions to the Plan of up to $81,250, including catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants are automatically enrolled in the Plan, with a default pre-tax deferral percentage of 5%, unless the participant elects otherwise. No automatic escalation of the deferral percentage is applicable to the Plan. Beginning January 1, 2026, participants whose Social Security (FICA) wages exceeded the IRS indexed threshold during the preceding calendar year

($150,000 for wages earned in 2025) are required to make any catch-up contributions as designated Roth contributions.

The Company provides a discretionary matching contribution of 50% of the first 5% of eligible compensation, not to exceed total participant contributions made every payroll period. The Company may also make discretionary non-elective contributions to the Plan. A participant must be employed on the last day of the Plan year to receive the Company discretionary non-elective contributions. If a participant terminated before the last day of the Plan year, they are eligible to receive Company discretionary non-elective contributions if termination was due to death or disability. There were no Company discretionary non-elective contributions made in 2025.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, the Company contributions, and earnings and losses on the investments in their account and is charged with certain administrative expenses. Participants direct the investment of their account into various investment options offered by the Plan. Participants may change their investment options on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their participant contributions, including rollovers and transfers, plus actual earnings thereon. Participants vest 25% per year beginning after 1 year of service and are fully vested after 4 years of service in the Company discretionary matching contributions and discretionary non-elective contributions. Participants receive credit for a year of service based on the elapsed time method. Participants who were employed before August 1, 2021 will receive vesting credit for years of service based on the following:

Applicable Years	Method	Measurement Period
Plan Year(s) before 2021	General	Jan 1 to Dec 31
2021	General or Elapsed Time*	Jan 1 to Dec 31
Plan Year(s) after 2021	Elapsed Time	Jan 1 to Dec 31

*Participants receive vesting credit for this period if they were to receive such credit under either the general method (hours of service) or the elapsed time method.

Notes Receivable from Participants

Notes receivable from participants are not permitted for the Plan. Notes receivable from participants transferred from another retirement plan are to be paid off through periodic payroll deductions. The repayment period for notes transferred into the Plan ranged from 1 to 15 years. The notes receivable from participants also qualify as party-in-interest transactions. All

participants with notes had terminated prior to 2024. As such, the notes do not accrue interest within the Plan.

Payment of Benefits

At the time of death, disability, termination of service, or retirement, the participant or their beneficiary may receive payment of the vested interest in their account in the form of a lump-sum, partial withdrawal, or installment distribution. The participant's contributions may also be withdrawn for certain hardship situations. In-service withdrawals of all or part of the participant's vested account are also permitted for participants who have attained age 59½. If a participant terminates employment and has a vested account balance of $1,000 or less, the participant will automatically receive a lump-sum payment. If a participant terminates employment and has a vested account balance greater than $1,000 but less than $7,000, the participant's balance will be rolled over to an individual retirement account (IRA) or annuity on the participant's behalf. During 2025, additional in-service withdrawals were available to participants. Participants with vested account balances of at least $2,000 may take an EEW of up to $1,000 for unforeseeable or immediate financial needs due to necessary personal or family emergency expenses. The amount of the EEW is reduced for participants with vested account balances below $2,000 but greater than $1,000. The EEW is not available for participants with vested account balances below $1,000. Participants who are victims of domestic abuse may take a DAW of up to the lesser of $10,000 or 50% of their vested account balance during the 12-month period beginning on the date of the abuse by a spouse or domestic partner. Participants whose principal residence is in a FEMA-declared disaster area and have sustained an economic loss because of the qualifying disaster may take a QDD withdrawal of up to $22,000 of their vested account balance within 180 days of the federal disaster declaration. Participants may take a QBOAD of up to $5,000 for the birth or adoption of a child within one year of a birth or finalization of adoption. If you are eligible to make rollover contributions, an EEW, DAW, QDD withdrawal, and QBOAD can be recontributed in full or in part to the Plan as a rollover contribution within three years of the original distribution.

Administrative Expenses

Certain administrative expenses of the Plan may be allocated to participants pro rata based on participant balances or paid through forfeitures. Certain transaction fees for withdrawals are charged directly to the respective participant. Certain administrative expenses are permitted to be paid by the Plan in accordance with the Plan's provisions. Fees paid to service providers of the Plan qualify as party-in-interest transactions. The Company pays all other administrative expenses of the Plan. The Company does not expect reimbursement from the Plan for these expenses.

Forfeited Accounts

At December 31, 2025 and 2024, forfeited non-vested accounts totaled $32,561 and $6,352, respectively. These accounts may be used to reduce Company contributions or to pay Plan

administrative expenses. During 2025, the Plan used $323,853 of forfeitures to reduce Company contributions. There were no forfeitures used to pay administrative expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates, and such differences may be material to the financial statements.

Contributions

Participant contributions are considered payable to the Plan upon the withholding of contributions from the participant's paycheck. The Company's discretionary matching contribution is considered payable to the Plan when the related participant's contributions are payable to the Plan. Company discretionary non-elective contributions are considered payable to the Plan after approval by the Administrative Committee. Any unfunded participant or Company contributions are included in the participants or employer contributions receivable on the statements of net assets available for benefits as of December 31, 2025 and 2024.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion on fair value measurements.

Net change in fair value of investments includes interest, dividends, realized and unrealized gains and losses on those investments, and fees charged for investment management and administrative services on those investments.

Notes Receivable from Participants

Notes receivable from participants are carried at their outstanding balance. Interest income is recognized when received. If a participant ceases to make note repayments and the plan administrator deems the participant note to be in default, the participant note balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 7, 2026, which is the date the financial statements were available to be issued.

3. Information Certified by the Qualified Institution

All information in the accompanying financial statements and supplemental schedule of assets (held at end of year), including investments held and notes receivable from participants at December 31, 2025 and 2024, and the net change in fair value of investments for the year ended December 31, 2025, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company (Fidelity), the Plan's qualified institution.

4. Investments

Investments are exposed to various risks such as market, currency, interest rate, and credit risks. Market risks include U.S. and global events that could impact the value of Plan investments. Such events may include public health emergencies such as a pandemic, as well as international conflicts, cybersecurity attacks, supply chain disruptions, global monetary policy decisions, inflation, significant exogenous economic influences, significant cybersecurity attacks, or similar events. It is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances.

Certain Plan investments are managed by Fidelity, which is the Plan's qualified institution. Transactions in these investments qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net change in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities, and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 – other observable data, including quoted prices for identical assets or liabilities in inactive markets

Level 3 – unobservable inputs

Observable inputs are those based on market data obtained from sources independent of the Plan, and unobservable inputs reflect the Plan's own assumptions based on the best information available. The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level but rather the degree of judgment used in determining those values.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Investments in the money market fund and mutual funds are stated at quoted market prices for the identical security in an active market that the Plan has the ability to access (Level 1).

The stable value fund is carried at net asset value (NAV) and participants transact daily at the NAV of the fund (Level 1). The stable value fund invests in traditional guaranteed investment contracts (GICs), security-backed investment contracts, and separate account GICs which are valued at contract value as well as other short-term investments which are valued at fair value. Subject to certain restrictions, withdrawals from the stable value fund are generally permitted daily at contract value.

Investments in collective investment trust funds are valued daily using NAV. The NAV is based on the fair value of the stocks, debt instruments, mutual funds and other securities in these investments. The collective investment trust funds may be traded daily at their NAV (Level 1).

The following table summarizes the Plan's investments based on the inputs used to determine their fair values as of December 31:

	Level 1	
	2025	2024
Money market fund	**$ 397,943**	$ 259,597
Mutual funds	**50,838,231**	46,002,386
Stable value fund	**1,362,085**	1,646,513
Collective investment trust funds	**584,905**	-
Total investments, at fair value	**$ 53,183,164**	$ 47,908,496

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

6. Income Tax Status

The Plan uses a non-standardized, pre-approved profit-sharing plan with CODA (pre-approved plan) sponsored by FMR, LLC (FMR) (an affiliate of Fidelity). FMR received an opinion letter from the Internal Revenue Service, dated June 30, 2020, which states that the pre-approved plan document satisfies the applicable provisions of the Internal Revenue Code (IRC). Although the Plan has not obtained an individual determination letter and has been amended since FMR received the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. The Plan's income tax returns for the past three years are subject to examination by taxing authorities and may change upon examination. Management has not identified any uncertain tax positions that require recognition or disclosure in the accompanying financial statements.
