Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Velocity Credit Union Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Velocity Credit Union Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CLA (CliftonLarsonAllen LLP) is an independent network member of CLA Global. See CLAglobal.com/disclaimer.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Velocity Credit Union Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Velocity Credit Union Pension Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Velocity Credit Union Pension Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Velocity Credit Union Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule of assts (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

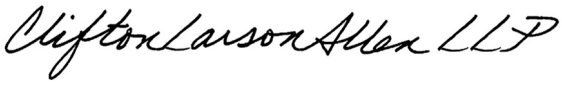

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan Trustees and Plan Administrator
Velocity Credit Union Pension Plan

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 DESCRIPTION OF PLAN

The following brief description of Velocity Credit Union Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined benefit pension plan covering substantially all employees of Velocity Credit Union (Credit Union) who have completed one year of service and attained age 20½. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended. The original effective date of the Plan is January 1, 2004. The Plan was most recently restated as of January 1, 2025. The Plan is administered by the Plan trustees. The trustees have overall responsibility for the operation and administration of the Plan. The trustees determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Effective January 1, 2018, entry into the Plan was frozen so that no new employee or former employee shall again become an active participant, and no inactive participant or former participant shall again become an active participant. All employees who were active participants in the Plan as of January 1, 2018 continue to participate in the Plan.

Pension Benefits

Employees with 25 or more years of service are entitled to annual pension benefits beginning at normal retirement age equal to 60% of average monthly compensation during the most recent 10 years, reduced proportionately for less than 25 years of service at retirement. The Plan permits early retirement at age 55 and 10 or more years of benefit service.

Participants with less than three years of service as of May 10, 2012, and all new participants after that date, will be entitled to annual pension benefits beginning at normal retirement age equal to 45% of average monthly compensation during the most recent 10 years, reduced proportionately for less than 25 years of service at retirement.

Effective February 15, 2018, the Plan changed the formula from average monthly compensation to average annual compensation for all years with more than six months of service.

Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Credit Union's contributions.

The Plan was amended to permanently allow lump-sum distributions beginning October 1, 2021.The Plan was amended January 1, 2022 to allow participants to receive benefits as soon as administratively feasible following termination of employment.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants' vested Plan benefits are based on years of credited service as defined in the Plan agreement. Participants' Plan benefits vest in entirety at the end of the fifth year, such that a participant is 100% vested after five years of credited service.

Years of Service	Percentage Vested
Less Than 5	0%
5 or More	100%

Death and Disability Benefits

If an active employee dies, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make a number of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Credit Union and are excluded from these financial statements. Investment related expenses are paid by the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 6, 2026, the date the financial statements were available to be issued.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

(a) retired or terminated employees or their beneficiaries,
(b) beneficiaries of employees who have died, and
(c) present employees or their beneficiaries.

Benefits under the Plan are based on employees' compensation during their most recent 10 Plan years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the most recent 10 Plan years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an actuary from Standard Insurance Company (Standard) and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2024, were (a) life expectancy of participants (Pri-2012 Total Dataset Mortality with Scale MP-2021), (b) retirement age assumptions (normal retirement age of 65 years; other active participants will elect early retirement between 55 and 64 years), and (c) investment return of 5.0%.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025. Had the valuation been performed as of December 31, 2024, there would be no material differences.

The following is a summary of actuarial present value of accumulated plan benefits as of December 31, 2024:

Actuarial Present Value of Accumulated Plan Benefits:	
Vested Benefits:	
Participants Currently Receiving Benefits	$ 9,253,768
Participants Entitled to Deferred Benefits	3,749,281
Other Participants	12,663,013
Total Vested Benefits	25,666,062
Nonvested Benefits	-
Total Actuarial Present Value of Accumulated Plan Benefits	$ 25,666,062

The changes in the actuarial present value of accumulated plan benefits are summarized as follows for the year ended December 31, 2024:

Actuarial Present Value of Accumulated Plan Benefits - Beginning of Year	$ 24,317,247
Increase (Decrease) During the Year Attributed to:	
Change in Discount Period	1,187,070
Assumption Changes	90,274
Benefits Accumulated	1,237,368
Benefits Paid	(1,165,897)
Actuarial Present Value of Accumulated Plan Benefits - End of Year	$ 25,666,062

Changes in actuarial assumptions for the year ended December 31, 2024, included a change to the lump sum mortality table and lump sum segment rates.

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments, and interest for the years ended December 31, 2025 and 2024, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Standard (the qualified institution of the Plan).

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (*Level 1*) and the lowest priority to unobservable inputs (*Level 3*). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within *Level 1* that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the *Level 2* input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2025 and 2024.

Pooled Separate Accounts: Net asset values (NAV) and dividend rates per share are determined by Standard Insurance Company's fund company trading partners at the close of business each day. The underlying mutual funds are traded daily on an active market. NAV is a readily determinable fair value and is the basis for current transactions.

General Account: Valued at contract value, which represents contributions made, less withdrawals and administrative expenses, plus interest credited. Contract value approximates fair value.

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2025			
	Level 1	Level 2	Level 3	Total

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
2025:		Cost Plus	Credited	
General Account	$ 16,500,951	Credited Interest	Interest Rate	1.83%
2024:		Cost Plus	Credited	
General Account	$ 15,888,378	Credited Interest	Interest Rate	1.57%

NOTE 6 TAX STATUS

The Plan has adopted a pre-approved plan document that has received an opinion letter from the IRS stating that the form of the pre-approved plan document was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions.

NOTE 7 FUNDING POLICY

Each year the Credit Union will contribute a sum of money necessary to fund the benefits specified by the Plan, subject to the IRS full funding limit test. The amount of this annual contribution is actuarially determined. Employees are not required to make contributions to the Plan. The minimum funding requirements of ERISA have been met as the Plan has a prefunded balance.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intention to do so, the Credit Union has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

(a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

(b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).

(c) All other vested benefits (that is, vested benefits not insured by the PBGC).

(d) All nonvested benefits.

NOTE 8 PLAN TERMINATION (CONTINUED)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 9 RELATED PARTY TRANSACTIONS

The Plan's investments consist of a general account and pooled separate accounts within a group annuity contract issued by Standard Insurance Company. Standard Insurance Company is the insurance company as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 10 RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

Appendix A – Summary of Principal Plan Provisions

For attachment to 2025 Schedule SB, Part V – Summary of Plan Provisions
EIN 74-1200165 / PN 012

Original Effective Date:	January 1, 2004.
Last Restatement:	January 1, 2025.
Subsequent Amendments:	None
Employee:	Employees are classified as Group 1 or Group 2 defined as follows: Group 1: Employees with at least 3 years of service as of 5/10/2012. Group 2: All other employees.
Participation:	Employees enter the plan each month following completion of twelve months of service and 1,000 hours and attainment of age 20-1/2. Effective January 1, 2018, plan participation is closed to employees hired on or after January 1, 2018.
Service:	A participant accrues a year of service for each plan year in which they work at least 1,000 hours.
Vesting Service:	The sum of the plan years during which a participant has at least 1,000 hours of service.
Normal Retirement Date:	Normal retirement date is the first of the month following attainment of age 65.
Early Retirement Date:	At any time after attainment of age 55 and 10 years of vesting service, a participant may elect early retirement.

Appendix A – Summary of Principal Plan Provisions (cont.)

Average Annual Earnings:

Basic annual earnings used to determine benefits will be based on the participant's average annual earnings during the most recent whole 10 plan years with the Credit Union. Compensation paid before January 1, 1998, are excluded.

For this purpose, a “whole” plan year shall be credited only for each plan year during which the employee was an eligible employee for at least six months of the plan year. Compensation subsequent to cessation of participation shall not be recognized.

Effective July 1, 2013, compensation excludes overtime, commissions, bonuses, and any other type of compensation not considered guaranteed compensation as determined by the Employer.

Normal Retirement Benefit Amount:

Effective May 10, 2012, the plan's benefit formula was amended to provide the following benefits. These benefits are prorated for less than 25 years of service at retirement:

Group 1 - Employees will be eligible for a pension equal to 60% of average annual earnings, reduced proportionately for less than 25 years of service at retirement.

Group 2 - Employees will be eligible for a pension equal to 45% of average annual earnings, reduced proportionately for less than 25 years of service at retirement. Group 2 participants will have their pre-May 10, 2012, accrued benefit (based on 60% of average monthly earnings) protected.

Vesting Schedule:

A terminating participant who has completed five years of service is entitled to receive a vested monthly benefit starting on his normal retirement date. The amount of the benefit is equal to the retirement income earned on the basis of service to date multiplied by the appropriate vested percentage from the following table:

Years of Service	Vested Interest
Less than 5	0%
5 or more	100%

Years of service before attainment of age 18 will be disregarded for vesting. An actively employed participant shall be 100% vested upon attainment of death or normal retirement age.

Early Retirement Benefit:

Prior to July 1, 2013, the normal retirement benefit accrued to date is reduced to compensate for the longer period over which benefits are paid. The reduction is 3% per year or portion thereof for each year preceding normal retirement.

Effective July 1, 2013, the normal retirement benefit accrued to date is reduced to compensate for the longer period over which benefits will be paid. The reduction is 5% per year or portion thereof for each year preceding normal retirement.

Appendix A – Summary of Principal Plan Provisions (cont.)

Disability Benefit:

If a participant becomes permanently and totally disabled, they will continue to accrue benefits under the plan at the same rate of pay and number of hours they worked at prior to their disability. In the event the participant is no longer disabled, they will be treated as a terminated participant entitled to deferred benefits. Disability benefits will cease upon attainment of normal retirement age.

Normal Form of Benefit:

The normal annuity form is a monthly income payable as a ten year Certain and Life annuity. At the participant's option, retirement income may be paid with a straight life annuity, another certain period, or on a joint and survivor basis. Election of an optional annuity for may be made at any time before retirement. For any annuity form (other than the subsidized joint and survivor form), the amount of income is adjusted so the cost to the fund is the same as it would have been under the normal annuity form.

Married participants may elect to receive a fully subsidized joint and survivor annuity. This option matches the ten year Certain and Life annuity, except that it is supplemented by a 50% continuation to a surviving spouse if the participant predeceases the spouse.

Optional Benefit Forms:

- Single Life Annuity.
- 100%, 75%, 66-2/3% or 50% Joint & Survivor Annuity.
- 100 months Certain & Life Annuity.
- 5, 10 or 15 year Certain & Life Annuity.
- Single lump sum payment.

Cost-of-Living Adjustment:

Prior to July 1, 2013, a post-retirement cost-of-living adjustment will be added to the retirement benefit payable to each retired participant. The COLA will be applied each January 1 following the calendar year the participant retires and shall be equal to the less of the Consumer Price Index or 3% (prorated for less than a year) to a maximum of 30%. The COLA shall be calculated as a simple interest COLA.

Effective July 1, 2013, the COLA will apply to benefit accruals earned prior to July 1, 2013. There will be no COLA adjustment on benefit accruals earned after July 1, 2013.

Appendix A – Summary of Principal Plan Provisions (cont.)

Death Benefits (Pre-Retirement):	If a participant dies prior to the time his benefit payments commence, a death benefit shall be provided to the participant's spouse equal to the actuarial equivalent of the Qualified Preretirement Survivor Annuity. A Qualified Preretirement Survivor Annuity is an annuity for the life of the surviving spouse commencing on the later of (1) the date of the participant's death and (2) the earliest date on which the participant could retire, in an amount equal to the amount the surviving spouse could receive had the participant (a) retired on such date, (b) accrued benefits equal to his accrued benefit on the date of his death, (c) elected a one-half (50%) joint and survivor annuity, and (d) died on the day following the date he retired. If the participant is not married, no pre-retirement death benefit is provided.
Death Benefits (Post-Retirement):	None except as provided by the annuity form elected.
Changes Since Last Year:	None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
