Note 1 - Description of the Plan

The following brief description of the Magic Memories Employee Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering qualified employees of Magic Memories, USA (the Company/Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are eligible to participate in the Plan if they have completed 30 days of service and are 21 years of age, and are not a union employee, nonresident alien, leased employee, or part-time/temporary or seasonal employee. A part-time, temporary or seasonal employee is an employee whose regularly scheduled service is less than 1,000 hours of service in the relevant eligibility computation period. However, if any such employee actually completes a year of service, then such employee will be considered eligible to participate in the Plan. To be eligible for employer matching and nonelective profit-sharing contributions, employees must have met the eligibility requirements above, as well as completed one year of service. A year of service for purposes of eligibility is a consecutive 12-month period during which the employee has 1,000 or more hours of service.

Entry Date

Employees enter the Plan on the first day of the Plan Year quarter coinciding with or following the date they satisfy the Plan’s eligibility requirements.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows participants to designate contributions as Roth contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). The Company makes a Qualified Automatic Contribution Arrangement safe harbor match equal to 100% of the first 1% of an employee’s compensation, and 50% of all deferrals up to 6% of an employee’s compensation thereafter, limited to the extent of an employee’s elected deferral. Additional amounts may be contributed at the discretion of the Company’s board of directors. No such additional discretionary profit-sharing contributions were made for the year ended December 31, 2020.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in the T. Rowe Price Retirement 2005 Inv fund until changed by the participant. Deferral amounts will automatically escalate based on a participant's years enrolled in the Plan. In years 1-2 in the Plan, will be set at 3% of eligible compensation; 3 years escalates to 4%; 4 years escalates to 5%; 5 or more years escalates to 6%, unless changed by the participant.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company matching contributions, as well as allocations of the Company discretionary contributions and Plan earnings, if applicable. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's compensation, account balances, or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment into the Plan, a participant may direct deferrals and employer contributions in any of the funds offered by the Plan. Participants may change their investment options daily.

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service.

For safe harbor matching contributions, vesting is based on years of credited service as set forth in the following table:

Participant's Years of Service	Vested Percentage
Less than One Year	0%
One Year	50%
Two or More Years	100%

For discretionary non-safe harbor matching contributions, vesting is based on years of credited service as set forth in the following table:

Participant's Years of Service	Vested Percentage
Less than One Year	0%
One Year	20%
Two Years	40%
Three Years	60%
Four Years	80%
Five or More Years	100%

Forfeitures

At December 31, 2020 and 2019, forfeited non-vested accounts totaled $39,813 and $25,157, respectively. These accounts will be used to reduce future employer contributions and/or offset plan expenses. During the year ended December 31, 2020, employer contributions were reduced by $16,833 from forfeited non-vested accounts.

Notes Receivable from Participants

Participants may borrow from their fund accounts, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, or $50,000 reduced by the highest outstanding loan balance from the preceding 12 months. The notes are secured by the balance in the participant's account. The loan interest rate is determined by the Plan Administrator and is set at the Prime rate plus 1%. Principal and interest is paid ratably through payroll distributions over a period not to exceed five years, unless the proceeds of the note were used to acquire the participant's residence, in which case the loan terms can range up to 30 years. A participant may not have more than two outstanding notes at any one time.

Payment of Benefits

Participants may elect to receive lump-sum amounts equal to their value of their vested interest, or participants or beneficiaries who are required to receive minimum distributions may receive partial withdrawals or installments; annuity installments are not allowed. A terminated employee with a balance of less than $5,000 may be automatically paid out by the Plan upon termination. Distributions may be made at the participant's election prior to termination upon attainment of age 59 ½ or hardship as defined in the Plan document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Recent Accounting Guidance

The Plan adopted the provisions of Accounting Standards Update (ASU) 2018-13, *Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement.* This ASU provides revisions and deletions to guidance regarding the disclosure requirements included in Topic 820, including eliminating and modifying existing disclosure requirements. The accounting change has been retrospectively applied to prior periods presented, as required.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates**.**

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported above and in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent notes receivables are recorded as distributions based upon the terms of the Plan Document. No allowance for credit losses has been recorded as of December 31, 2020 and 2019.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described below:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2- Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds (including money market mutual funds) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	2020			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 3,304,724	$ -	$ -	$ 3,304,724
Investments at fair value	$ 3,304,724	$ -	$ -	$ 3,304,724

	2019			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 3,169,365	$ -	$ -	$ 3,169,365
Investments at fair value	$ 3,169,365	$ -	$ -	$ 3,169,365

Note 4 - Information Certified by the Plan Custodian

The Plan Administrator has elected the method of compliance permitted by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by T. Rowe Price, the custodian, except for comparing such information certified by the custodian with information included in the Plan's financial statements and supplemental schedule H, line 4i – schedule of assets held at end of year.

The custodian has certified its statements of accounts as of December 31, 2020 and 2019, and for the year ended December 31, 2020. The statements of accounts include beginning and ending balances of investments held, notes receivable from participants, and all related investment activity during the period, including investment earnings and interest income on notes receivable from participants.

Note 5 - Tax Status

The Plan uses a pre-approved plan document sponsored by DST Retirement Solutions LLC, which received an advisory letter from the IRS, dated June 1, 2015, stating that the pre-approved document satisfies the applicable provisions of the IRC.

The Plan has experienced operational failures and has not timely filed required annual reports (Form 5500) for multiple plan years. Plan management is evaluating available correction programs and other remedial actions intended to address these matters. Due to the nature and significance of the identified compliance issues, management cannot represent that the Plan has been operated in full compliance with all applicable requirements of the Internal Revenue Code (IRC) and the Employee Retirement Income Security Act of 1974 (ERISA) during the affected periods. However, management believes that corrective actions currently underway will assist in preserving the Plan's tax-qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). As a result of the Plan's operational failures and delinquent filing history, uncertainties may exist regarding the Plan's ongoing compliance with certain qualification requirements of the IRC. Management is currently assessing the impact of these matters and any related corrective actions. The Plan remains subject to examination by the IRS and the U.S. Department of Labor, including periods that would otherwise be considered closed due to the unfiled annual returns.

The ultimate resolution of these matters has not yet been determined. Accordingly, the Plan may incur additional costs, corrective contributions, excise taxes, penalties, interest, professional fees, or other amounts associated with the correction of the identified failures and the filing of delinquent annual reports. Any such amounts cannot presently be reasonably estimated.

Management intends to pursue all appropriate corrective actions to address the operational failures and delinquent filings and to preserve the Plan's tax-qualified status. However, the outcome of any review by the IRS, DOL, or other regulatory authorities, and the effect on the Plan, if any, cannot presently be determined.

Note 6 - Related Party and Party-In-Interest Transactions

Certain Plan investments consist of mutual funds and money market mutual funds managed by T. Rowe Price, the custodian as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under the ERISA.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 - Plan Amendments

During 2020, the Plan adopted provisions of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) to allow coronavirus withdrawal distributions. Participants who were impacted by COVID-19 could elect to receive distributions up to $100,000 from their account balance, and the 10% early withdrawal tax was waived. The Plan will be formally amended prior to December 31, 2022.

Note 9 - Delinquent Participant Contributions

It was noted in 2020, 2019, 2018 and 2017 that there were delays by the Company in submitting employee contributions to the trustee in the aggregate amounts of $183,268, $89,831, $104,768 and $254,861, respectively. Delays in remitting contributions to the trustee were due to administrative errors, and the Company will make contributions to the affected participants' accounts to compensate those participants for potential lost income due to the delay.

Note 10 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2020 and 2019, to Form 5500:

Note 11 - Subsequent Events

In 2024, the Plan Sponsor amended the Plan for SECURE Act allowing long-term part-time employees would not be subject to the automatic deferral provisions and would follow the same provisions associated with entry date and minimum age requirements as regular participants. As part of the CARES Act in 2024, the Company approved the temporarily relief to participants in the form of increased maximum loan limits up to $100,000 or 100% of the vested balance during the CARES Act period, loan repayment extensions, and coronavirus related distributions. The Company also approved that no required minimum distributions would be paid unless participants requested them during this period. In February 2025, the Plan Sponsor entered into an agreement to begin participating in a pooled employer plan named The Imagine Retirement Plan, a qualified plan sponsored by Standard Retirement Services Inc. In connection with this event, the Plan transferred all of its assets and participant accounts to The Imagine Retirement Plan in February 2025. As of February 1, 2025, the Plan had no assets and no reportable investments.

The Company has evaluated subsequent events through September 8, 2026, the date which the financial statements were available to be issued.
