INDEPENDENT AUDITORS' REPORT

The Employee Retirement Committee of
Columbia Memorial Hospital Retirement Plan
Astoria, Oregon

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2025 Financial Statements

We have performed an audit of the accompanying financial statements of Columbia Memorial Hospital Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2025 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2025 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2025 Financial Statements section —

- The amounts and disclosures in the 2025 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the 2025 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2025 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2025 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2025 Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2025 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – 2025 Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2025, and Schedule H, Line 4(j) – Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion —

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter – Predecessor Auditor's Report on the 2024 Year Financial Statements

The financial statements of the Plan as of December 31, 2024, were audited by predecessor auditors. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report, dated October 13, 2025, indicated that in their opinion (a) the amounts and disclosures in the 2024 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with GAAP, and (b) the information in the 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2024 supplemental schedules, other than the information in the 2024 supplemental schedules that agrees to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and the information in the 2024 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan:

The following brief description of the Columbia Memorial Hospital Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General – The Plan is a noncontributory defined benefit pension plan established for the benefit of eligible employees of Columbia Lutheran Charities doing business as Columbia Memorial Hospital (the Hospital). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by a committee designated by the Hospital's Board of Trustees and the Hospital serves as Plan Sponsor. Principal Life Insurance Company is the custodian of the Plan (the Custodian).

Eligibility and vesting – Effective July 26, 2007, the Plan was amended to freeze eligibility for new participants. Except as described below, existing participants will continue to accrue future vesting service and benefits under the Plan. An employee becomes vested at the earlier of reaching age 65 while employed by the Hospital or completing five years of vesting service, as defined by the Plan.

Under the terms of the plan document, certain participants had the option to voluntarily cease active participation in the Plan effective January 1, 2007, and the remaining participants had the option to voluntarily cease active participation in the Plan effective January 1, 2008. Participants who made these elections continue to accrue future vesting service but cease to accrue future benefits under the Plan. In addition, such participants became eligible to receive additional benefits under the Hospital's separate defined contribution plans.

Effective December 31, 2021, the Plan was amended such that all participants not represented under a certain collective bargaining arrangement will no longer accrue future benefits under the Plan.

Contributions and funding policy – The Plan is funded solely by the Hospital. The Hospital intends to make contributions to the Plan which in the aggregate will be actuarially sufficient to meet the cost of benefits provided by the Plan and any administrative expenses paid by the Plan. Contributions are based on actuarial determinations, as discussed in Note 5. Under current regulations, any contributions made by September 15 following the end of a Plan year may be applied to the minimum funding requirement of the previous year. Hospital contributions for the years ended December 31, 2025 and 2024, met the minimum funding requirements of ERISA.

Payment of benefits – The Plan provides for normal retirement upon a participant reaching age 65 or the fifth anniversary of the date that the employee began participating in the Plan, whichever is later. The Plan permits early retirement at ages 55 to 64. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the employer's contributions.

1. Description of Plan (continued):

Payment of benefits (continued) – The basic benefit upon normal retirement is a monthly benefit calculated as follows (all as defined in the plan document):

- For service prior to January 1, 1987 – The greater of (1) the sum of (a) 1 percent of the participant's monthly earnings on April 1, 1976, multiplied by the participant's years (or fraction thereof) of service; and (b) 1 percent of the participant's monthly earnings for each year (or fraction thereof) of service after March 31, 1976, and before January 1, 1987, plus 1 percent of the participant's monthly earnings in excess of $1,667 for each year (or fraction thereof) of service after December 31, 1982, and before January 1, 1987; or (2) 1 percent of the participant's monthly earnings for the 1986 Plan year, plus 0.9 percent of the participant's monthly earnings in excess of $1,250 multiplied by the participant's years (or fraction thereof) of service before January 1, 1987.

- For service after December 31, 1986, and prior to January 1, 1989 – 1.25 percent of the participant's monthly earnings, plus 1 percent of the participant's monthly earnings in excess of $1,667, for each year (or fraction thereof) of service.

- For service after December 31, 1988 – 2 percent of the participant's monthly earnings for each year (or fraction thereof) of service.

These benefits are normally paid in equal monthly payments in the form of a single life annuity, a joint and survivor annuity, or a certain and life annuity. The amount of benefits paid will vary according to the Plan's specifications for the option selected. In addition, if the benefits have an actuarially equivalent value equal to or less than $1,000, the participant will automatically receive payment in the form of a lump sum upon retirement or termination. If the benefits have an actuarially equivalent value that exceeds $1,000 but does not exceed $5,000, the participant can elect to receive payment in the form of a lump sum upon retirement or termination. Reduced benefits are provided for early retirement prior to age 65, if certain other conditions are met.

The Plan also has provisions for disability benefits and death benefits upon participants meeting certain other conditions.

Administrative expenses – At the Hospital's discretion, administrative expenses of the Plan may be paid directly by the Hospital; certain other administrative expenses may be paid by the Plan. Expenses that are paid by the Hospital are excluded from the accompanying financial statements. In addition, certain investment related expenses are offset against net appreciation (depreciation) in fair value of investments in the accompanying statements of changes in net assets available for benefits

2. Summary of Significant Accounting Policies:

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits as of the date of the financial statements. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued):

Investment valuation – The Plan's investments are reported at fair value. The investments are certified by Principal Trust Company and Principal Life Insurance Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management determines the Plan's valuation policies utilizing information provided by the Custodian and Principal Trust Company (the Trustee). See Note 4 for discussion of fair value measurements.

Income recognition – Purchases and sales of investments are recorded on a trade-date basis. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits – Benefit payments to participants are recorded upon distribution.

Subsequent events – The Plan has evaluated subsequent events through October 5, 2026, which is the date the financial statements were available to be issued.

3. Information Certified by the Custodian:

The Custodian and Trustee of the Plan have supplied the Plan Administrator with a certification as to the completeness and accuracy of all investment information reflected in the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024, the statement of changes in net assets available for benefits for the year ended December 31, 2025, the supplemental Schedule H, Line 4i - schedule of assets (held at end of year), and Schedule H, Line 4j - schedule of reportable transactions, as of December 31, 2025.

4. Fair Value Measurements:

Financial Accounting Standards Board *Accounting Standards Codification* Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

4. Fair Value Measurements (continued):

Level 2 (continued): If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2025 and 2024.

Pooled separate accounts – Units held in pooled separate accounts are valued using the net asset value (NAV) practical expedient of the pooled separate accounts as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the pooled separate accounts, minus its liabilities, and then divided by the number of units outstanding.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table provides additional information for investments in certain entities that calculate NAV per share as of December 31, 2025 and 2024:

	Fair Value 2025	Fair Value 2024	Redemption Frequency	Redemption Notice Period	Redemption Restrictions
Pooled separate accounts	$ 51,375,568	$ 50,402,544	Daily	N/A	None

Changes in fair value levels – The availability of observable market data is monitored to assess the appropriate classifications of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2025 and 2024, there were no significant transfers in or out of Levels 1, 2, or 3.

5. Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service, rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits was estimated by the Plan's independent actuary, Principal Financial Group (Principal Financial). The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2025 and 2024, were:

a) Mortality Basis:

- 2025 – Based on Pri-2012 blue collar base rate mortality table projected generationally using the Principal Mortality Improvement scale (Principal 2025).
- 2024 – Based on Pri-2012 blue collar base rate mortality table projected generationally using the Principal Mortality Improvement scale (Principal 2024).

b) Retirement age assumptions (the assumed average retirement age was 65).

c) The 2025 and 2024 valuations included assumed average rate of return of 5.15 percent.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2026 and 2025. Had the valuations been performed as of December 31, 2025 and 2024, there would be no material difference.

5. Actuarial Present Value of Accumulated Plan Benefits (continued):

The actuarial present value of accumulated plan benefits were as follows:

		2025		2024
Actuarial present value of accumulated plan benefits				
Vested benefits				
Participants currently receiving payments	**$**	**29,831,980**	$	30,593,409

Total actuarial present value of accumulated plan benefits	**$**	**40,655,315**	$	42,565,179

The changes in the actuarial present value of accumulated plan benefits were as follows:

		2025		2024

Actuarial present value of accumulated plan benefits - end of year	**$**	**40,655,315**	$	42,565,179

6. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits.

6. Risks and Uncertainties (continued):

The Plan has concentrations of investments in certain funds. At December 31, 2025, the Principal LDI Intermediate Duration Separate Account and the Principal LDI Long Duration Separate Account individually represented more than 10 percent of the Plan's net assets available for benefits. As a result of these concentrations, changes in the value of these investments could have a material effect on participants' account balances and the amounts reported in the accompanying financial statements. In addition, as a result of funds being selected by participants, certain other funds may individually represent a concentration of greater than 10 percent of the Plan's investments at fair value in the statements of net assets available for benefits. Although these individual funds maintain a level of diversification by investing in multiple equity, debt, or other instruments, there may be a concentration of risk because the funds are invested at the direction of a single fund manager.

7. Party-in-interest Transactions:

The following transactions are considered party-in-interest transactions under ERISA regulations but are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA:

- The Plan Sponsor provides to the Plan certain accounting and administrative services for which no fees are charged to the Plan.
- Plan investments are managed by the Custodian and Trustee of the Plan. In addition, the Custodian and Trustee prepared all actuarial calculations for the Plan as of and for the years ended December 31, 2025 and 2024.
- The Plan auditor performs the required annual audit of the Plan.

8. Plan Termination:

Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, the net assets of the Plan would be allocated, as prescribed by ERISA and its related regulations, generally, to provide the following benefits in the order indicated:

a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).

c) All other vested benefits (that is, vested benefits not insured by the PBGC).

d) All nonvested benefits.

8. Plan Termination (continued):

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2025, that ceiling is $7,432 per month. That ceiling applies to those annuitants who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

9. Tax Status:

The Internal Revenue Service has determined and informed the Hospital by a letter dated February 5, 2018, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan Administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

SCHEDULE H, line 4i - SCHEDULE OF ASSETS (HELD AT END OF YEAR)

Assumptions prescribed by law

Mortality

Before benefit payment period

IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

During benefit payment period

IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

Inflation

2.40% increase per year.

Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

Asset return

5.40% for the current plan year.

The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense

The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement

Active participants

Age	Probability of retirement
60-61	5.0%
62-64	20.0%
65	50.0%
66-69	30.0%
70	Remaining participants

Inactive participants are assumed to retire at age 65.

This assumption is based on the results of recent experience analysis and anticipated future experience.

Upcoming year salary increase

The preceding year's salary is increased by 4.50% at each age. Note: not used for Plan accounting calculations.
Expected salary increase is composed of salary inflation, a real wage growth and a merit increase.

Disability	Columbia Memorial Hospital Disability Table There is not enough credible data to change this assumption. However, it is a reasonable estimate of future experience and does not have a material impact on the results.
Marriage	75% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.
Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 0.70. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.70 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age. This assumption is based on the results of recent experience analysis and anticipated future experience.
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 7.00%. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Benefit accrual	All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target. The portion based on the plan's definition of accrued benefit. The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement. The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.

Methods selected by plan sponsor	
Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Yield curve rates	Full yield curve. Use the rates through the month of December.
PBGC premium basis	Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.
Methods elected by actuary	
Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Based on Pri-2012 Blue collar base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2024).

Mortality base rates

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement

Principal 2024 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2024
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2030/2030
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2024
COVID-19 or Excess load	None[1]

[1]Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See Mortality documentation for rationale and additional information.

Interest rate used to value liabilities	5.15% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan in the 01/01/2016 restatement signed 09/01/2016, including amendments signed through 12/13/2023.

Plan eligibility	
Age	Attained age 21.
Service	1,000 hours of service.
Class	Any employee of the employer excluding leased employees, independent contractors, and collectively bargained employees unless participation is a bargained benefit. Current union participants are Oregon State Nurses and Service Employees International Union Local No. 49 (Profession and Support employees). Participation is frozen as of 05/04/2006 except for an employee who is covered under a collective bargaining agreement that provides for participation after 05/04/2006. Between 10/01/06 and 12/31/06 select participants can elect to receive benefit accruals after 12/31/06 from a defined contribution plan in lieu of the benefit accruals provided under this plan. Between 10/01/07 and 12/31/07 select participants can elect to receive benefit accruals after 12/31/07 from a defined contribution plan in lieu of the benefit accruals provided under this plan. No future plan participants are allowed effective 01/01/2008.

Normal retirement benefit	
Age	The later of attained age 65 or five years after entry date.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	2% of compensation each year on and after 1/1/1989 plus Past Service Benefit Past Service Benefit: A participant is entitled to a past service benefit equal to (a) plus(d) plus the greater of (b) or (c): (a) 1% of compensation on 4/1/1976 multiplied by accrual service previously earned. (b) 1% of compensation for each plan year 4/1/1976 through 12/31/1986 + 1% of compensation in excess of $20,000 annually for the corresponding time period. (c) 1% of compensation for the 1986 plan year + .9% of compensation in excess of $15,000 annually multiplied by accrual service from 4/1/1976 through 12/31/1986. (d) 1.25% of compensation for each plan year 1/1/1987 through 12/31/1988 + 1% of compensation in excess of $15,000 annually for each corresponding year. Benefits for participants who were not covered by a collective bargaining agreement with ONA were frozen effective 12/31/2021.

Early retirement benefit	
Age	Attained age 55.
Service	Five years of vesting service. (Ten years if no hours of service after 12/31/1990).
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 7.2% for each year up to five and 3.2% for each year between five and ten that the early retirement date precedes normal retirement date. There is no reduction for early retirement if the participant is age 62 or older on the early retirement date and terminates employment at or after age 62.

Late retirement benefit	
Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on normal retirement date actuarially increased to late retirement date or accrued benefit on late retirement date (7.2% for each of the first five and 3.6% for each year between five and ten that late retirement date follows normal retirement date).

Termination benefit	
Vesting percentage	Subsequent to five years of service, 100%.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit	
Eligibility	Participants defined as disabled under Title II of the Federal Social Security Act.
Amount	Actuarial equivalent of the Accrued Benefit on date of disability payable as of date of disability. A participant who has attained age 40 with 10 years of vesting service, can elect to receive additional benefit accrual as opposed to the benefit listed above.

Survivor annuity death benefit (a vested benefit)	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions	
Actuarial Equivalent	7% interest and PBGC healthy male mortality adjusted for the female content in the plan.
Compensation	W-2 pay plus elective deferrals.
Optional forms of benefit payments	The optional forms of benefit payments are: • Monthly annuity payable for life, life with Social Security adjustment, or 3, 5, or 10 years certain and life. • Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100. The optional form conversion basis is 7.0% interest and Pension Benefit Guaranty Corporation actuarial tables for healthy males adjusted for the female content of the plan.
Lump sum provisions	Small amount force out (SAFO) – allowed up to $5,000. Lump sums in excess of SAFO - aren't allowed. Conversion – greater of the deferred or immediate rate with early retirement factor based on the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.
