Employee Retirement Committee of

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2025 Financial Statements

We were engaged to perform an audit of the financial statements of Columbia Memorial Hospital 403(b) Tax-Deferred Annuity Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2025 Financial Statements

We do not express an opinion on the financial statements of the Plan referred to in the first paragraph. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion on the 2025 Financial Statements

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

12015 E Main Ave | Spokane Valley, WA 99206 | 509.242.0874 | www.dza.cpa

Further, as described in Note 4 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America (GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the 2025 Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2025 Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matter – 2025 Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Other Matter – Predecessor Auditor's Report on the 2024 Financial Statements

The financial statements of the Plan as of December 31, 2024, were audited by predecessor auditors. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 13, 2025, indicated a disclaimer of opinion on those financial statements because the Plan did not maintain sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, that were excluded from investments in the statement of net assets available for benefits.

Columbia Memorial Hospital 403(b) Tax-Deferred Annuity Plan
Notes to Financial Statements
Years Ended December 31, 2025 and 2024

1. Description of Plan:

The following description of the Columbia Memorial Hospital 403(b) Tax-Deferred Annuity Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established for the benefit of eligible employees of Columbia Lutheran Charities, doing business as Columbia Memorial Hospital (the Hospital). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by a committee designated by the Hospital's Board of Trustees. Delaware Charter Guarantee and Trust Company, doing business as Principal Trust Company, and Principal Life Insurance Company (Principal) – which are affiliates – are the Custodian and Trustee of the Plan. Principal performs recordkeeping services for the Plan.

Eligibility – All employees of the Hospital are eligible to participate in the Plan.

Contributions – The Plan includes a salary deferral provision which provides for both pre-tax contributions and after-tax Roth 403(b) contributions. Participants may elect to defer a percentage of their eligible compensation, subject to current Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year and/or who have completed 15 or more years of service are eligible to make catchup contributions. The Plan includes an auto-enrollment provision, whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5 percent, and such contributions are invested in an age-based target date retirement fund until changed by the participant. The 5 percent rate automatically increases annually by 1 percent as of the first payroll period of each Plan year – up to a maximum of 15 percent – unless the employee affirmatively elects otherwise. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (i.e., rollover contributions).

Hospital contributions are not permitted in this Plan.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant’s account is credited with the participant’s contributions, as well as allocations of the Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. Participants direct the investment of their account into various investment options offered by the Plan.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon.

1. Description of Plan (continued):

Notes receivable from participants – Participants who meet certain requirements of the Plan may elect to borrow a minimum of $1,000 up to a maximum equal to the lesser of 50 percent of the total of their account balance or $50,000, reduced by the highest outstanding note receivable balance in the preceding one-year period. Notes receivable from participants are secured by the balances in the respective participants' accounts. Terms of notes receivable from participants are generally repayable over a maximum of five years and may be extended to a period greater than five years, subject to the limitations of the IRC, if the loan is used to purchase a principal residence. The notes receivable from participants bear interest at fixed rates commensurate with local prevailing rates as determined by the plan administrator. Interest rates on notes receivable from participants outstanding as of December 31, 2025, ranged from 4.25 percent to 9.50 percent with various maturities through October 2044.

Payment of benefits – Upon retirement, death, disability, or other separation of service, participants (or their beneficiaries) may elect to receive a lump-sum amount equal to the value of the participant's interest in his or her account, substantially equal installment payments over a period of five years, a single life or joint and survivor annuity, a period certain and life annuity, or a joint and survivor annuity with period certain, all as described in the Plan document, subject to the provisions of the IRC and applicable state laws. Upon separation of service, if a participant's account balance is $1,000 or less ($5,000 or less for beneficiaries or alternate payees) and the participant does not elect to receive a distribution, the Hospital may direct the Plan to automatically distribute the participant's account balance in a lump sum. In addition, upon reaching age 59.5, participants may make in-service withdrawals of part or all of their elective contributions, including the related earnings (losses).

Hardship withdrawals – Participants who are still employed by the Hospital are permitted to take withdrawals from their accounts under certain financial hardship conditions, as described in the Plan document.

Administrative expenses – At the Hospital's discretion, administrative expenses of the Plan may be paid directly by the Hospital; certain other administrative expenses may be paid by the Plan. Expenses that are paid by the Hospital are excluded from the accompanying financial statements. Fees related to the administration of notes receivable from participants are charged directly to the related participants' accounts and are included in administrative expenses in the accompanying statement of changes in net assets available for benefits. In addition, certain investment-related expenses are offset against net appreciation or depreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Plan termination – Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies:

Basis of accounting – The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates – The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition – The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. The investments are certified by Principal.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the Custodian and Trustee. See Note 5 for discussion of fair value measurements.

Contract value is the relevant measurement attribute for assets invested in fully benefit-responsive investment contracts, because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions – Contributions from participants are recorded in the year in which the employee contributions are withheld from compensation.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the note receivable to be in default, the note receivable balance is reduced, and a benefit payment is recorded.

Payment of benefits – Benefits are recorded when paid.

Subsequent events – The plan sponsor has evaluated subsequent events through October 5, 2026, the date on which the financial statements were available to be issued.

3. Certification of Investment Information:

Principal has supplied the plan administrator with a certification as to the completeness and accuracy of all investment information reflected in the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024, the statement of changes in net assets available for benefits for the year ended December 31, 2025, and the supplemental Schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2025.

4. Excluded Custodial Accounts:

The accompanying financial statements do not present information regarding certain investments in annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. The plan administrator has elected to exclude those contracts and accounts and the related activity from the Plan's financial statements for purposes of the annual reporting requirements of ERISA in accordance with the transition relief provided by Department of Labor Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. Presentation of this information is required by GAAP. The effects of this departure from GAAP are not reasonably determinable.

5. Fair Value Measurements:

Financial Accounting Standards Board *Accounting Standards Codification* Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other meas.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds – Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

5. Fair Value Measurements (continued):

Deferred income annuities – The Plan holds an investment in the Principal Pension Builder (the Pension Builder), which is an investment option that allows participants to purchase deferred income annuities issued by Principal. Participants may transfer investments in the Pension Builder to other investment options within the Plan. Transactions that occur prior to the commencement of guaranteed income payments are realized at the lower of contract value (or return of premium) or an adjusted contract value that takes into account the current rates of interest available in the marketplace as well as mortality factors. The fair value of the annuities is the value paid when funds are withdrawn prior to the income start date.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 57,937,288	$ -	$ -	$ 57,937,288
Deferred income annuities	-	-	84,566	84,566
Total investments at fair value	**$ 57,937,288**	**$ -**	**$ 84,566**	**$ 58,021,854**

	2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 48,773,269	$ -	$ -	$ 48,773,269
Deferred income annuities	-	-	80,560	80,560
Total investments at fair value	**$ 48,773,269**	**$ -**	**$ 80,560**	**$ 48,853,829**

The following table sets forth a summary of changes in the fair value of the plan's Level 3 assets:

	2025	**2024**
Principal Pension Builder(SM)Z		
Balance, beginning of year	**$ 80,560**	$ 60,520
Contributions	**4,006**	4,055
Transfers	**-**	15,985
Balance, end of year	**$ 84,566**	$ 80,560

6. Fully Benefit-Responsive Investment Contract (FBRIC) with Principal:

The Plan's guaranteed investment contract is invested in the Principal Fixed Income Guaranteed Option (the Contract), which is a fully benefit-responsive investment contract. Principal maintains the related contributions in its general account. The general account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract meets the FBRIC criteria and is, therefore, reported at contract value. Contract value is the relevant measure for FBRICs, because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

7. Risks and Uncertainties:

The Plan invests in various investment instruments which are exposed to certain risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the Plan's investments will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements and supplemental schedule.

The Plan has concentrations of investments in certain funds. At December 31, 2025, the Principal LifeTime 2030 Institutional Fund, Principal LifeTime 2040 Institutional Fund, and Principal LifeTime 2050 Institutional Fund individually represented more than 10 percent of the Plan's net assets available for benefits. As a result of these concentrations, changes in the value of these investments could have a material effect on participants' account balances and the amounts reported in the accompanying financial statements. In addition, as a result of funds being selected by participants, certain other funds may individually represent a concentration of greater than 10 percent of the Plan's investments at fair value in the statements of net assets available for benefits. Although these individual funds maintain a level of diversification by investing in multiple equity, debt, or other instruments, there may be a concentration of risk because the funds are invested at the direction of a single fund manager.

8. Party-in-Interest Transactions:

The following transactions are considered party-in-interest transactions under ERISA regulations but are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA:

- Certain of the Plan's investments are invested in mutual funds offered by Principal Funds, Inc. (an affiliate of the Custodian and Trustee). Therefore, transactions involving these parties qualify as party-in-interest transactions.
- The Hospital is the sponsor of the Plan and paid certain administrative expenses of the Plan during the years ended December 31, 2025 and 2024.
- The Custodian and Trustee provide certain administrative services to the Plan and receive revenue from investments held by the Plan for the services that the Custodian and Trustee provide. This revenue is used to offset certain amounts owed to the Custodian and Trustee for their administrative services to the Plan. The Plan or the Hospital may make a payment to the Custodian and Trustee for administrative services not covered by revenue sharing.
- The Plan auditor performs the required annual audit of the Plan.

9. Plan Tax Status:

The Plan has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the IRC in order to maintain the tax-exempt status for Plan participants under Section 403(b).

GAAP requires the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Reconciliation of Financial Statements to the IRS Form 5500:

The following is a reconciliation of the net assets available for benefits reported in the financial statements and the net assets reported on the Form 5500:

	2025	2024
Net assets available for benefits according to the financial statements	**$ 59,956,599**	$ 51,113,846
