Scott Equipment Company Cash Balance Plan
New Prague, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of Scott Equipment Company Cash Balance Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2024, the related statement of changes in accumulated plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Scott Equipment Company Cash Balance Plan as of December 31, 2025 and 2024, its changes in its net assets available for benefits for the years ended December 31, 2025 and 2024, the accumulated plan benefits as of December 31, 2024, and its changes in accumulated plan benefits for the year ended December 31, 2024, of Scott Equipment Company Cash Balance Plan, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial statements section of our report. We are required to be independent of the Scott Equipment Company Cash Balance Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Scott Equipment Company Cash Balance Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Scott Equipment Company Cash Balance Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in aggregate, that raise substantial doubt about Scott Equipment Company Cash Balance Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2025, and of reportable transactions for the year ended December 31, 2025, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Departments of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting on Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Scott Equipment Company Cash Balance Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a cash balance defined benefit plan. Scott Equipment Company (the Company) is the administrator and sponsor of the Plan. The Plan was established on January 1, 2014, and uses Pershing LLC as the asset custodian, Cash Balance Actuaries as the Plan's recordkeeper, actuary and third-party administrator and Northwestern Mutual Wealth Management Company as the Plan's investment advisor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility:

Prior to February 1, 2024, employees of the Company who were not leased employees, covered by collective bargaining agreements and who were not resident aliens, became eligible to participate upon obtaining eighteen years of age and performing six months of service, in which 500 hours were worked, were eligible to participate. Effective February 1, 2024, the Plan was amended to reduce the age to eighteen years of age. The Plan entry dates are the first day of each Plan quarter, coincident with or next to following the satisfaction of the eligibility requirements.

Accumulation accounts:

Under the Plan provisions, the Company credits amounts to the participants' hypothetical accumulation accounts. The accounts are allocated compensation credits and interest credits at the end of every year. The compensation credits are allocated based on a percentage of the participants' compensation or specific dollar limits as defined in the plan document for that year. The applicable percentage ranges from 2% to specific target amounts based on the class of the employee and is based on the participants' age, compensation, and targeted benefits (as defined in the Plan document) at the end of each year. Compensation credits of $1,193,944 and $1,099,096 were credited for the years ended December 31, 2025 and 2024, respectively. The interest credits are calculated and credited annually based on the participant's beginning balance of their accumulation account at 5%; interest credits of $269,672 and $205,720 were allocated for the years ended December 31, 2025 and 2024, respectively.

Vesting:

A participant is 100% vested after three years of service. Participant accounts become 100% vested if the participant dies or becomes disabled or if the participant reached normal retirement age as defined by the Plan, regardless of years of vested service.

NOTE 1. (CONTINUED)

Funding policy:

All contributions made to the Plan are made by the Company on the basis of annual funding amounts determined by the Plan's independent actuary. No employee contributions are permitted. The Company's funding policy is to make contributions to the Plan which shall not be less than the minimum amount required to meet the funding standards of ERISA and the Internal Revenue Code. The Company's contributions for the years ended December 31, 2025 and 2024, met the minimum funding standard. The contributions of the Company are also designed to fund the current service cost on a current basis.

Pension benefits:

Benefits are determined based on the participant's accumulation account balance. Upon termination of employment, participants have the option of receiving their vested benefit in the form of a one-time lump sum payment or a monthly life annuity or a joint and survivor annuity if married. If terminated/retired participants do not voluntarily elect to move their funds out of the plan, vested account balances between $1,000 and $5,000 are rolled into an IRA on the employee's behalf. If a participant terminates employment and the participant's account balance does not exceed $1,000, the Plan administrator can authorize the benefit payment without the participant's consent.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES

Basis of accounting:

The financial statements of the Plan are maintained on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities, and the actuarial present value of the accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for the discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Net appreciation of investments includes the Plan's gains or losses from the sale of investments as well as held during the year.

NOTE 2. (CONTINUED)

Payment of benefits:

Benefits are recorded when paid.

Expenses:

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses paid by the Company are excluded from these statements. Certain investment-related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Actuarial present value of accumulated plan benefits:

The actuarial present value of accumulated plan benefits was calculated as of January 1, 2025, for December 31, 2024, and includes the accumulated benefits of the Plan. Had the valuation been calculated as of December 31, 2024, there would be no material changes. Accumulated plan benefits are future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, and termination of employment) are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions as of January 1, 2025:

- Actuarial Method - Unit credit.
- Discount Rate - Five percent (5%) for valuing accumulated benefits.
- Retirement - Normal retirement age is 65.
- Mortality – Applicable 2025 tables, as prescribed by the Internal Revenue Code.

The mortality tables are updated on an annual basis to the applicable tables for the year under valuation. This represents the only change in actuarial assumptions from the valuation performed as of January 1, 2024. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 2. (CONTINUED)

Subsequent events:

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 18, 2026, the date the financial statements were available to be issued.

NOTE 3. FAIR VALUE INFORMATION

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1*:* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2*:* Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets and liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3*:* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 3. (CONTINUED)

Privately held equity fund: Valued using its NAV provided by the managers of the funds monthly. The NAV is based on the value of the underlying net assets owned by the fund divided by the number of shares outstanding. The privately held equity fund had no unfunded commitments, and redemption frequency monthly. The Plan may only redeem up to 5% of its holdings per quarter; there is no early withdrawal charge.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan administrator determines the fair value measurement policies and procedures, utilizing information provided by its investment advisors, custodian, and the Plan administrator.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of:

Investments at Fair Value as of December 31, 2025

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 5,674,262	$ -	$ -	$ 5,674,262
Privately held equity fund	-	440,586	-	440,586
Investments, at fair value	**$ 5,674,262**	**$ 440,586**	**$ -**	**$ 6,114,848**

Investments at Fair Value as of December 31, 2024

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 4,611,068	$ -	$ -	$ 4,611,068
Privately held equity fund	-	450,471	-	450,471
Investments, at fair value	**$ 4,611,068**	**$ 450,471**	**$ -**	**$ 5,061,539**

NOTE 4. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Pershing LLC is the asset custodian, Cash Balance Actuaries is the Plan's recordkeeper, actuary and third-party administrator and Northwestern Mutual Wealth Management Company is the Plan's investment advisor; transactions with these parties qualify as party-in-interest transactions. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE 5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to cease benefit accruals or terminate or partially terminate the Plan in accordance with its provisions, subject to the provisions of the IRC and ERISA. If the Plan were to terminate, the rights of participating employees are non-forfeitable with respect to the Plan benefits accrued through the date of such termination. The net assets available for benefits of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates, although Plan management expects the net assets of the Plan to meet the cash flow requirements to settle all accrued benefits related to hypothetical account balances under the Plan.

Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during December 31, 2025, the guaranteed monthly benefit is limited to $7,432. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later).

For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. The PBGC generally does not pay lump sums exceeding $7,000.

Whether all participants receive their benefits should the Plan terminate at some future time depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits and may also depend on the financial condition of the plan sponsor and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 6. TAX STATUS

The Plan is placing reliance on an Advisory Opinion letter dated August 31, 2018, received from the Internal Revenue Service (IRS) on the SuperiorUSA Corporation Volume Submitter Defined Benefit Plan indicating that the Plan is qualified under Section 401 of the Internal Revenue Code (IRC) and is therefore not subject to tax under the current income tax law. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 6. (CONTINUED)

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.
