REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator and Plan Participants
Winpak Portion Packaging, Inc. Pension Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit
We have performed audits of the financial statements of Winpak Portion Packaging, Inc. Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Grant Thornton LLP is a U.S. member firm of Grant Thornton International Ltd (GTIL). GTIL and each of its member firms are separate legal entities and are not a worldwide partnership.

Basis for opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s responsibilities for the audit of the financial statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other matter – supplemental schedules required by ERISA
The supplemental schedule of assets (held at end of year) as of December 31, 2025 and the schedule of reportable transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Winpak Portion Packaging, Inc. Pension Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan established for all employees of Winpak Portion Packaging, Inc. (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Vanguard Group ("Vanguard") served as trustee for the Plan through October 14, 2024. In April 2024, the Audit Committee approved a change in trustee from the Vanguard Group to Fidelity Management Trust Company ("Fidelity") effective October 15, 2024. Fidelity also provides recordkeeping services for the Plan. The Company contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants.

Effective January 1, 2005, the Plan was amended whereby employees hired subsequent to January 1, 2005 will not be eligible to participate in the Plan. Through 2004, the Plan covered all eligible employees of the Company who had completed one year of service (defined as a 12-month period with 1,000 hours of service) and attained the age of 21. Participants become fully vested at the completion of 5 years of service.

Plan Benefits

The annual pension benefit is calculated as the sum of (i) and (ii) less (iii),

(i) 1.2% of average annual earnings for the five plan years from 1984 through 1988 (or such lesser period of participation for employees who were not participants throughout this period) plus 0.2% of such average annual earnings in excess of $41,640, multiplied by credited service prior to January 1, 1989.

(ii)

(a) For Bristol hourly employees, the sum of the accrued benefits as of December 31, 1988 as described above and $27.00 times completed months of service subsequent to December 31, 1988; or

(b) For all other employees, for 1989 and later Plan years, 1.2% of each year's earnings multiplied by credited service during such Plan year.

(iii) The participant's normal retirement benefit, if any, accrued under a Canadian Pension Plan maintained by the Company or any affiliated company.

Death and Early Retirement Benefits

Normal and early retirement ages are defined as ages 65 and 55, respectively, A participant may defer his or her retirement beyond the normal retirement age. If an active participant dies at age 55 or older, a death benefit is payable on a joint, 75% or 50% Survivor Annuity to the surviving spouse, Benefit payments will commence on the later of the first month following the participant's 55th birthday or date of death.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Significant estimates include the actuarially determined present value of accumulated plan benefits. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. See Note E for additional information. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net gain (loss) from the sale of investments and the difference between the cost and market value of investments at the beginning and end of the year are included as net appreciation/(depreciation) in the fair value of investments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level associated with certain investment securities, it is at least reasonably possible that changes in the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses paid by the Plan include trustee, recordkeeping, and actuarial fees. The Plan also pays for Pension Benefit Guaranty Program ("PBGC") premium expenses. The Company may pay certain other professional fees and are excluded from these financial statements.

NOTE C - FUNDING POLICY

The Company's funding policy is to contribute each year an amount that satisfies the minimum ERISA funding requirement determined in accordance with the unit credit method but no more than the maximum that is tax deductible. Under this method, the minimum funding requirement was met for 2025 and 2024.

NOTE D - INFORMATION CERTIFIED BY THE TRUSTEE

Effective October 15, 2024, the Plan's investments were transferred to Fidelity from Vanguard. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified as complete and accurate by Fidelity and Vanguard in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974:

- Investments, at fair value, as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024;
- Investment income, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024;
- Schedule H, line 4(i) - schedule of assets (held at end of year) as of December 31, 2025; and
- Schedule H, line 4(j) - schedule of reportable transactions for the year ended December 31, 2025.

NOTE E - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access;

Level 2 - inputs other than Level 1 that are observable, either directly or indirectly, such as quoted market prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in non-active markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - inputs that are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Collective Trust Fund: An investment formed from the pooling of investments by institutional investors. The Plan's interest in the FIAM Pension Journey 60/40 Commingled Pool Class A collective trust is valued by the trustee based on the net asset value ("NAV") of shares held by the Plan at year-end. The NAV is used as a practical expedient to estimate fair value. The fund allows for daily liquidity with no additional days' notice required for redemption. Were the Plan to initiate a full redemption of the collective trust fund, the investment advisor may reserve the right to temporarily delay withdrawal. There were no unfunded commitments of the collective trust as of December 31, 2025 and 2024. As the Plan's investment is measured at NAV, there are no investments to be included in the leveling table.

NOTE F - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered, Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their years of credited service. The accumulated plan benefits for active employees are based on their average compensation during their years of Service. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payments (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The Plan's actuary changed to Fidelity Workplace Consulting as of the December 31, 2024 valuation.

The more significant assumptions underlying the actuarial computations at December 31, 2024 and 2023 are as follows:

	2024	2023
Discount rate	6.80%	4.5%
Normal retirement age	65 years	65 years
Life expectancy of participants	Pri-2012 base tables and projected improvements using Scale MP-2021	Pri-2012 base tables and projected improvements using Scale MP-2021

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits at December 31, 2024 and 2023 was as follows:

	2024	2023
Vested benefits		
Participants currently receiving benefits	$ 9,553,728	$ 11,373,072
Other participants	8,877,187	11,964,141
	18,430,915	23,337,213
Nonvested benefits	196,624	239,923
Actuarial present value of accumulated plan benefits	$ 18,627,539	$ 23,577,136

Changes in the actuarial present value of accumulated plan benefits for 2024 consisted of the following:

Actuarial present value of accumulated plan benefits, beginning of year	$ 23,577,136
Increase (decrease) during the year attributable to	
Additional benefits accumulated and losses	845,548
Decrease in discount period	1,035,066
Benefits paid	(952,703)
Change in actuarial assumptions	(5,772,951)
Actuarial transition change	(104,557)
Actuarial present value of accumulated plan benefits, end of year	$ 18,627,539

NOTE G - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are shares of a collective trust managed by Fidelity. Fidelity is the Trustee, as defined by the Plan. As such, these transactions qualify as party-in-interest, which are exempt from the prohibited transaction rules.

NOTE H - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE I - INCOME TAX STATUS

The Plan obtained its latest determination letter on August 13, 2014, in which the Internal Revenue Service ("IRS") stated that the Plan, as designed and amended at various times, was in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and

has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE J - SUBSEQUENT EVENTS

For the year ended December 31, 2025, the Plan evaluated subsequent events for potential recognition and disclosure through October 9, 2026, the date the financial statements were available to be issued. Plan management is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods
Winpak Portion Packaging, Inc. **EIN: 36-2602087**
Winpak Portion Packaging, Inc. Pension Plan **Plan Number: 001**
2025 Plan Year

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes

ERISA Interest Rates as required by IRC Section 430 based on plan sponsor election of the look-back month for the segment rates:

"Minimum" means for the purpose of calculating the PPA funding liability and normal cost for the minimum required contribution.

"Maximum" means for the purpose of calculating the PPA funding liability and normal cost for the maximum tax-deductible contribution.

	2025 Plan Year		**2024 Plan Year**	
Purpose	Minimum	Maximum	Minimum	Maximum
Interest rate type	Stabilized	Non-Stabilized	Stabilized	Non-Stabilized
Segment rates or full yield curve	Segment	Segment	Segment	Segment
Look-back months	**0**	**0**	**0**	**0**
First five years	5.00%	5.00%	4.75%	4.37%
Next 15 years	5.27%	5.27%	4.96%	4.96%
Over 20 years	5.50%	5.40%	5.59%	4.95%
Applicable law for the segment rates corridor	ARPA	Not Applicable	ARPA	Not Applicable

Interest Rate for FASB ASC 960: 5.60% (previously 6.25%). This is based on historical returns of indices, reflecting an assumed long-term mix of 60% equity and 40% fixed income.

Expected Long-Term Return on Plan Assets, as determined by the Company:

2023 Plan Year	5.52%
2024 Plan Year	5.81%

Salary Scale: 3.00%, as determined by the prior actuary and confirmed by Winpak.

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes (continued)

Administrative Expenses included in Target Normal Cost: $330,000. Estimated based on the non-investment related administrative expenses paid from the Trust in the prior year plus estimated PBGC premiums for the current year, rounded up to the nearest $10,000.

Mortality:
ERISA: IRS 2024 Small Plan Combined Static Mortality Table using separate tables for annuitants and non-annuitants as prescribed by IRC Section 430. These tables include future mortality improvement of eight years for males and nine years for females with the following adjustments: For ages below 80, the projection period is increased by one year for each year below age 80. For ages above 80, the projection period is reduced (but not below zero) by $^1/_3$ year for each year above 80. This plan does not have a large enough population to vary from the standard tables.

FASB ASC 960: Pri-2012 Total Mortality Tables with MP-2021 Mortality Improvement Scale applied on a generational basis. This plan does not have a large enough population to vary from the standard tables.

Retirement Rates: Deferred Vested participants are assumed to retire at age 65. Active participants are assumed to retire at the rates below based on the assumption used by the prior actuary for this plan.

Age	Percentage
60	5%
61	5%
62	25%
63	10%
64	10%
65 and above	100%

Fidelity Confidential Information

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes (continued)

Termination Rates: Rates varying by age, based on the assumption used by the prior actuary for this plan. There has been no pattern of significant consistent gains or consistent losses related to this decrement.

Sample rates are shown below:

Attained Age	Percent Withdrawal
25	6.60%
30	5.20%
35	4.05%
40	3.15%
45	2.60%
50	1.95%
55 and over	0.00%

Marital Status: 80% of males and females are assumed married, with females three years younger than males.

Maximum Benefit: $280,000 for 2025. For determining limitations under funding amounts and liabilities under FASB ASC 960, no future increases in the IRC Section 415 limit have been reflected.

Maximum Salary: $350,000 for 2025. For determining limitations under funding amounts and liabilities under FASB ASC 960, no future increases in the salary limit have been reflected.

Form of Payment: It has been assumed benefits will be paid in the form of a Single Life Annuity. To the extent optional forms of payment are elected and conversions are determined under an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method. Other optional forms are roughly actuarially equivalent on the valuation basis, so no significant gains or losses are anticipated.

Data Assumptions: None.

Fidelity Confidential Information

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes (continued)

Actuarial Value of Plan Assets for Funding Purposes: The actuarial value of assets is equal to:

a) the market value of assets, including discounted receivables, on the valuation date, less

b) the following percentages of prior years' investment gains (losses):

   i) 67% of the prior year, and
   ii) 33% of the second prior year,

   Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (not to exceed the third segment rate for that year) over the actual return on the market value of assets, including discounted receivables, for any given year.

c) The actuarial value of assets can be neither less than 90% nor greater than 110% of the market value of assets, including discounted receivables.

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 15-year period beginning with such plan year.

Actuarial Cost Method: The unit credit cost method is used for ERISA Funding Target (FT) and FASB ASC 960 purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

Fidelity Confidential Information

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes (continued)

The projected unit credit method is used for IRS maximum deductible limit cushion amount. Under this method, accrued pension benefits are determined for all eligible active participants reflecting service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. This liability for active participants is then added to the present value of all benefits for inactive participants to determine the total liability under this method.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

Disclosure of Reliance on Models

ProVal valuation software was used to develop the liabilities, financial results, and contribution calculations for the plan year. ProVal, developed by Winklevoss Technologies, has been reviewed by experts at Fidelity Workplace Investing, LLC and deemed appropriate to use for this purpose. Participant data, assumptions, methods, and plan provisions for this Plan were entered and programmed into ProVal and reviewed for completeness.
