INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Mitchell Companies 401(k) Plan
Meridian, Mississippi

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Mitchell Companies 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Mitchell Companies 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Mitchell Companies 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Mitchell Companies 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Mitchell Companies 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Mitchell Companies 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter-Supplemental Schedules Required by ERISA

The supplemental schedule of assets held at year end and the schedule of delinquent contributions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, have been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

MITCHELL COMPANIES
401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of the Plan

The following description of the Mitchell Companies ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company who have completed six-months of service (effective January 1, 2025, previously twelve-months of service) and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by Mitchell Companies, LLC. The plan administrator has overall responsibility for the operation and administration of the Plan. The plan administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to the maximum not to exceed IRS limits. Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who have attained age fifty before the end of the plan year are eligible to make catch-up contributions. The Company contributed an amount equal to 75% of the participant's contribution on the first 5% of compensation deposited as elective contributions through December 31, 2024. Effective January 1, 2025, the Company contributed an amount equal to 4% of the participant's compensation not to exceed the participant's contribution. Effective January 1, 2026, the Plan elected to be a safe harbor 401(k) plan. Under this amendment, the Plan contributes a safe harbor match at 100% of participant deferrals not to exceed 4% of compensation.

Participants' accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) plan earnings (losses), and charged with an allocation of administrative expenses paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Description of the Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. Safe harbor contributions are 100% vested.

Participant loans

Under the terms of the Plan, participants may borrow from their accounts. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes Fund. The loans are secured by the balance in the participant's account and bear interest at the U.S. prime rate plus 2%. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment payments for the portion of the account in which he or she is vested. Also, rollovers are permitted.

Death and disability benefits

If an employee dies, the vested account balance will be used to provide the beneficiary with a death benefit. If an employee becomes disabled, the employee will become 100% vested in all accounts under the Plan. Payment of the disability benefits will be made to the employee as if the employee retired. However, if the value of the account balance does not exceed $200, then a distribution of the entire account balance is made to the employee.

Forfeited accounts

Forfeitures are used to reduce future employer contributions or to pay administrative fees. For December 31, 2025 and 2024, the forfeiture account balance totaled $5,505 and $0, respectively. For 2025 and 2024, the Company used $0 and $0 to reduce employer contributions and the Company used $8,905 and $13,353 to pay administrative costs, respectively.

Insurance

A fidelity bond insures the Plan for $1,000,000.

Note 2. Summary of Significant Accounting Policies

Date of management's review

Subsequent events were evaluated through October 6, 2026, which is the date the financial statements were available to be issued.

Basis of presentation

The accompanying financial statements have been prepared on the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan had no fully benefit-responsive investment contracts at December 31, 2025 and 2024.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes receivable from participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales-of-securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Note 2. Summary of Significant Accounting Policies (continued)

Administrative expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net depreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Note 3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liabilities; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs, because they generally provide the most reliable evidence of fair value. The Plan used no Level 2 inputs.

Note 3. Fair Value Measurements (continued)

Mutual funds − the fair values of mutual funds are based on observable market quotations for identical assets and are priced on a daily basis at the close of business. The mutual funds held by the Plan are deemed to be actively traded.

Fixed contract − the fixed contract is not actively traded and significant other observable inputs are not available. Thus, the fair value of the fixed contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The plan administrator determines the fair value measurement policies and procedures in consultation with the plan trustee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

All valuation methodologies have been consistently applied during 2025 and 2024.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025:

	Level 1	Level 3	Total
Fixed contract	$ -	$ 260,707	$ 260,707
Mutual funds	23,279,125	-	23,279,125
Total investments at fair value	$ 23,279,125	$ 260,707	$ 23,539,832

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024:

	Level 1	Level 3	Total
Fixed contract	$ -	$ 380,709	$ 380,709
Mutual funds	21,846,117	-	21,846,117
Total investments at fair value	$ 21,846,117	$ 380,709	$ 22,226,826

Gains (losses) included in changes in net assets available for benefits are reported in net appreciation in fair value of investments.

Note 4. Fixed Contract

The Plan has a non-fully benefit responsive investment contract with Nationwide Trust Company. The contract is carried at market value in the accompanying statements of net assets available for benefits. The contract value is $260,707 and $380,709 as of December 31, 2025 and 2024, respectively. The contract is credited with participant contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The contract does not have a maturity date and does not provide for the distribution of book value at some future date. The contract crediting rate is reset annually on November 1. The fixed rate for 2025 and 2024 was 2.42% and 2.25%, respectively.

The following table reconciles the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) for the fixed contract fund for the year ended December 31, 2025.

Beginning balance	$ 380,709
Total gains included in changes in net assets available for benefits	7,120
Purchases, issues, sales, settlements and other adjustments	(127,122)
Ending balance	$ 260,707

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 6. Income Tax Status

The Plan received an opinion letter dated March 2014 in which the Internal Revenue Services stated that the Plan is a Volume Submitter Profit Sharing Plan with CODA and is acceptable under Section 401 of the Internal Revenue Code. The Plan accounts for uncertain tax positions in accordance with ASC 740-10. No penalties or interest were accrued or charged to expenses for the years ended December 31, 2025 and 2024. Currently, none of the returns in the U.S. federal jurisdiction or the U.S. state jurisdiction are under examination by any taxing authority. The statute of limitations for the U.S. federal jurisdiction, as well as the U.S. state jurisdiction, is three years. The income tax returns prior to fiscal year 2022 are closed.

Note 7. Party-in-Interest Transactions

Certain plan investments are shares of mutual funds managed by Nationwide Trust Company, the trustee as defined by the Plan. Iron Fiduciary is the discretionary investment manager responsible for overseeing the monitoring and selection of the investment recommendations available within the Plan. Fees paid by the Plan for the investment management services amounted to $70,970 for the year ended December 31, 2025. During the year ended December 31, 2025, the Plan sponsor paid for the Plan's annual audit to Rea, Shaw, Giffin & Stuart, LLP. All of these transactions qualify as party-in-interest transactions.

Note 8. Information Certified by Trustee

The Plan's investments are held by Nationwide Trust Company. The account balances (current market value) certified by Nationwide Trust Company at December 31, 2025 and 2024 totaled $23,539,832 and $22,226,826, respectively. The Plan's financial information, including investment values, investment income, and fees, is included in the financial statements based on information certified by Nationwide Trust Company as complete and accurate in accordance with Section 2520-103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
