Lindenhurst, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed an audit of the financial statements of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits (modified cash basis) as of December 31, 2025, and the related statement of changes in net assets available for benefits (modified cash basis) for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.
- The information in the financial statements related to assets held by Fidelity Management Trust Company and certified to by the qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion
We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Basis of Accounting
As discussed in Note 2, the financial statements are prepared on the modified cash basis of accounting, which is basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust's ability to continue as a going concern for the year ended December 31, 2025.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Zwanger & Pesiri Radiology Group LLP 401 (K) Retirement Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Zwanger & Pesiri Radiology Group LLP 401 (K) Retirement Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are requirement to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of assets held for investments and the year ended December 31, 2025 are presented for purposes of additional analysis and are not required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion,

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that is agreed to or derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ZWANGER & PESIRI RADIOLOGY GROUP LLP
401 (K) RETIREMENT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2025

1. **Description of Plan**

The following description of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. **General**

The Plan is a defined contribution plan covering all employees of the Company over the age of 21. Employees are eligible upon being hired and automatically enrolled in the Plan after one month of service with the Company. Employees are notified when hired that they will be automatically enrolled into the plan and are asked to set up their 401(k) deferrals. If they do not take any action, they will have 1% of their salary deferred into the plan. The Plan's sponsor is Zwanger & Pesiri Radiology Group, LLP. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. **Contributions**

Each year, participants may contribute up to 100% of pretax annual compensation as defined in the Plan, including a catch-up amount if the participant is age 50 or over. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of both their and their employer contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their initial deferral rate set at 1% of eligible compensation, with deferrals increased annually by 1%, not to exceed 3%, unless changed by the participant. Contributions are invested in a designated balanced fund until changed by the participant.

c. **Employer Contributions**

The Sponsor may make discretionary non-elective contributions in an amount to be determined by the Board of Trustees for each quarter. Participants must meet the one-year requirement and attain at least 1,000 hours of service to be eligible. Participants must be employed as of the last day of the quarter to be eligible for any non-elective contributions that may be made for that quarter. For the year ended December 31, 2025, the Sponsor made $2,962,244 of discretionary non-elective contributions.

d. **Participant Accounts**

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. **Vesting**

Participants are immediately vested in their contributions plus actual earnings thereon. Participants have a vested percentage in their employer contribution accounts according to a vesting schedule based on years of service. A participant is 100% vested after six years of credited service.

1. **Description of Plan (Continued)**

f. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined quarterly by the Plan administrator. Loans must normally be repaid within such period agreed upon between the participants and the Plan, up to a maximum of 5 years. Principal and interest is paid ratably through payroll deductions. Defaulted loans are loans resulting from the failure of a participant to make the required loan repayments on an outstanding loan and are considered deemed distributed loans. At December 31, 2025, interest rates were 5.00% - 6.00% per annum.

g. Forfeited Accounts

Forfeited non-vested accounts may be used to offset future administrative expenses.

h. Payment of Benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 65. On termination of service, a participant may elect to receive an annuity, installment payments or a lump sum amount equal to the participant's account. Benefit payments are also permitted for death, disability or hardship.

2. **Summary of Significant Accounting Policies**

a. Basis of Accounting

The accompanying financial statements are prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. This basis of accounting differs from accounting principles generally accepted in the United States of America in that contribution receivables and distribution payables are not recorded. This basis of accounting was also used by the trustee to prepare the plan's 5500 tax return for the year.

b. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

c. Notes Receivable from Participants

Are measured at the unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2025 or 2024. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded if the participant has been terminated. If the participant has not been terminated, the defaulted loan amount remains classified as a Notes Receivable. Delinquent loans are considered "in default" and are treated as distributions (taxable to participant) on Form 5500.

2. Summary of Significant Accounting Policies (Continued)

d. Payments of Benefits

Benefits are recorded when paid.

e. Deemed Distributions

For participant loans in which the participant has a distributable event, such as employment termination, death, or disability, the loan is considered a deemed distribution. The participant loan is removed from the statement of net assets available for benefits – modified cash basis and a distribution is recorded. For active participants who have not incurred a distributable event, but have delinquent loans, the participant loan remains outstanding until a distributable event occurs. The Plan had deemed distributions of $896 for the year ended December 31, 2025.

f. Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

g. Subsequent Events

Management has evaluated subsequent events through September 28, 2026 the date that the financial statements were available to be issued. No significant material events have been identified that would require adjustment of the accompanying financial statements.

h. Plan Expenses

Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation or depreciation in fair value of investments. Certain administrative functions are performed by officers or employees of the sponsor. No such officer or employee receives compensation from the Plan.

3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

4. Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by the Fidelity Management Trust Company at December 31, 2025. This information has not been audited by the independent auditor.

4. Information Prepared and Certified by Trustee (Continued)

Net Appreciation in Fair Value	16,686,390
	$ 18,189,467

5. Reconciliation of Financial Statements to Schedule H of Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 to Schedule H Form 5500.

	December 31, 2025
Net Assets Available for Benefits Per the Financial Statements	$134,788,483
Net Assets Available for Benefits Per Schedule H to the Form 5500	$134,788,483

6. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

6. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Mutual Funds:
Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively trading.

Money Market Funds:
Valued at $1 per share. Money market funds held by the Plan are invested in short-term, are less than one year, securities representing high-quality, liquid debt and monetary instruments. The money market funds held by the Plan are deemed to be of high quality and are maintaining a net asset value (NAV) of $1 per share.

Common Collective Trusts:
Valued at the respective NAV as reported by such trusts/funds, which are reported at fair value. The value of each unit is determined by subtracting total liabilities from the total value of assets, including accrued income, and dividing the amount remaining by the number of units outstanding on the valuation date.

	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 46,047,908	-	-	$ 46,047,908
Money Market Funds	3,801,019	-	-	3,801,019
Common Collective Trusts	82,827,563	-	-	82,827,563
Total Assets at Fair Value	$132,676,490	$ -	$ -	$132,676,490

7. Tax Status

The Plan is a prototype plan that has received a determination letter dated July 1, 1994 issued by the National Office of the Internal Revenue Service that the Plan is qualified under Code Section 401. The Plan has been amended since receiving the determination letter; however, the Sponsor believes that the Plan is correctly designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Generally, tax authorities can examine tax returns filed for the last three years. Currently, there are no ongoing tax examinations that the Plan is aware of.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits (Modified Cash Basis) and Statement of Changes in Net Assets Available for Benefits (Modified Cash Basis).

9. Party-in-Interest Transactions

Certain services are rendered to the Plan by the Company at no cost to the Plan. Investment management fees paid to Fidelity Trust Company were included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. Fidelity Trust Company is the trustee and record-keeper, therefore these transactions qualify as party-in-interest transactions.

10. Concentration of Risk

The Plan maintains investments in 33 various instruments. As of December 31, 2025, five of the investments accounted for 33% of the total plan assets which potentially subject the Plan to a concentration of risk. Investments are specified as follows:

Description	
Fidelity 500 Index	14.0%

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust
Lindenhurst, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed an audit of the financial statements of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits (modified cash basis) as of December 31, 2025, and the related statement of changes in net assets available for benefits (modified cash basis) for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.
- The information in the financial statements related to assets held by Fidelity Management Trust Company and certified to by the qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion
We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Basis of Accounting
As discussed in Note 2, the financial statements are prepared on the modified cash basis of accounting, which is basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust's ability to continue as a going concern for the year ended December 31, 2025.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Zwanger & Pesiri Radiology Group LLP 401 (K) Retirement Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Zwanger & Pesiri Radiology Group LLP 401 (K) Retirement Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are requirement to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of assets held for investments and the year ended December 31, 2025 are presented for purposes of additional analysis and are not required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion,

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that is agreed to or derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ZWANGER & PESIRI RADIOLOGY GROUP LLP
401 (K) RETIREMENT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2025

1. **Description of Plan**

The following description of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. **General**

The Plan is a defined contribution plan covering all employees of the Company over the age of 21. Employees are eligible upon being hired and automatically enrolled in the Plan after one month of service with the Company. Employees are notified when hired that they will be automatically enrolled into the plan and are asked to set up their 401(k) deferrals. If they do not take any action, they will have 1% of their salary deferred into the plan. The Plan's sponsor is Zwanger & Pesiri Radiology Group, LLP. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. **Contributions**

Each year, participants may contribute up to 100% of pretax annual compensation as defined in the Plan, including a catch-up amount if the participant is age 50 or over. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of both their and their employer contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their initial deferral rate set at 1% of eligible compensation, with deferrals increased annually by 1%, not to exceed 3%, unless changed by the participant. Contributions are invested in a designated balanced fund until changed by the participant.

c. **Employer Contributions**

The Sponsor may make discretionary non-elective contributions in an amount to be determined by the Board of Trustees for each quarter. Participants must meet the one-year requirement and attain at least 1,000 hours of service to be eligible. Participants must be employed as of the last day of the quarter to be eligible for any non-elective contributions that may be made for that quarter. For the year ended December 31, 2025, the Sponsor made $2,962,244 of discretionary non-elective contributions.

d. **Participant Accounts**

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. **Vesting**

Participants are immediately vested in their contributions plus actual earnings thereon. Participants have a vested percentage in their employer contribution accounts according to a vesting schedule based on years of service. A participant is 100% vested after six years of credited service.

1. **Description of Plan (Continued)**

f. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined quarterly by the Plan administrator. Loans must normally be repaid within such period agreed upon between the participants and the Plan, up to a maximum of 5 years. Principal and interest is paid ratably through payroll deductions. Defaulted loans are loans resulting from the failure of a participant to make the required loan repayments on an outstanding loan and are considered deemed distributed loans. At December 31, 2025, interest rates were 5.00% - 6.00% per annum.

g. Forfeited Accounts

Forfeited non-vested accounts may be used to offset future administrative expenses.

h. Payment of Benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 65. On termination of service, a participant may elect to receive an annuity, installment payments or a lump sum amount equal to the participant's account. Benefit payments are also permitted for death, disability or hardship.

2. **Summary of Significant Accounting Policies**

a. Basis of Accounting

The accompanying financial statements are prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. This basis of accounting differs from accounting principles generally accepted in the United States of America in that contribution receivables and distribution payables are not recorded. This basis of accounting was also used by the trustee to prepare the plan's 5500 tax return for the year.

b. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

c. Notes Receivable from Participants

Are measured at the unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2025 or 2024. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded if the participant has been terminated. If the participant has not been terminated, the defaulted loan amount remains classified as a Notes Receivable. Delinquent loans are considered "in default" and are treated as distributions (taxable to participant) on Form 5500.

2. Summary of Significant Accounting Policies (Continued)

d. Payments of Benefits

Benefits are recorded when paid.

e. Deemed Distributions

For participant loans in which the participant has a distributable event, such as employment termination, death, or disability, the loan is considered a deemed distribution. The participant loan is removed from the statement of net assets available for benefits – modified cash basis and a distribution is recorded. For active participants who have not incurred a distributable event, but have delinquent loans, the participant loan remains outstanding until a distributable event occurs. The Plan had deemed distributions of $896 for the year ended December 31, 2025.

f. Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

g. Subsequent Events

Management has evaluated subsequent events through September 28, 2026 the date that the financial statements were available to be issued. No significant material events have been identified that would require adjustment of the accompanying financial statements.

h. Plan Expenses

Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation or depreciation in fair value of investments. Certain administrative functions are performed by officers or employees of the sponsor. No such officer or employee receives compensation from the Plan.

3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

4. Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by the Fidelity Management Trust Company at December 31, 2025. This information has not been audited by the independent auditor.

4. Information Prepared and Certified by Trustee (Continued)

Investments, at fair value:

	2025
Cash/Money Market Accounts	$ 3,801,019
Mutual Funds	128,875,471
	$132,676,490
Investment Income:

Notes Receivable – Participants	100,142
Net Appreciation in Fair Value	16,686,390
	$ 18,189,467

5. Reconciliation of Financial Statements to Schedule H of Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 to Schedule H Form 5500.

	December 31, 2025
Net Assets Available for Benefits Per the Financial Statements	$134,788,483
Net Assets Available for Benefits Per Schedule H to the Form 5500	$134,788,483

6. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

6. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Mutual Funds:
Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively trading.

Money Market Funds:
Valued at $1 per share. Money market funds held by the Plan are invested in short-term, are less than one year, securities representing high-quality, liquid debt and monetary instruments. The money market funds held by the Plan are deemed to be of high quality and are maintaining a net asset value (NAV) of $1 per share.

Common Collective Trusts:
Valued at the respective NAV as reported by such trusts/funds, which are reported at fair value. The value of each unit is determined by subtracting total liabilities from the total value of assets, including accrued income, and dividing the amount remaining by the number of units outstanding on the valuation date.

	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 46,047,908	-	-	$ 46,047,908
Money Market Funds	3,801,019	-	-	3,801,019
Common Collective Trusts	82,827,563	-	-	82,827,563
Total Assets at Fair Value	$132,676,490	$ -	$ -	$132,676,490

7. Tax Status

The Plan is a prototype plan that has received a determination letter dated July 1, 1994 issued by the National Office of the Internal Revenue Service that the Plan is qualified under Code Section 401. The Plan has been amended since receiving the determination letter; however, the Sponsor believes that the Plan is correctly designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Generally, tax authorities can examine tax returns filed for the last three years. Currently, there are no ongoing tax examinations that the Plan is aware of.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits (Modified Cash Basis) and Statement of Changes in Net Assets Available for Benefits (Modified Cash Basis).

9. Party-in-Interest Transactions

Certain services are rendered to the Plan by the Company at no cost to the Plan. Investment management fees paid to Fidelity Trust Company were included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. Fidelity Trust Company is the trustee and record-keeper, therefore these transactions qualify as party-in-interest transactions.

10. Concentration of Risk

The Plan maintains investments in 33 various instruments. As of December 31, 2025, five of the investments accounted for 33% of the total plan assets which potentially subject the Plan to a concentration of risk. Investments are specified as follows:

Description	
Fidelity 500 Index	14.0%

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust
Lindenhurst, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed an audit of the financial statements of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits (modified cash basis) as of December 31, 2025, and the related statement of changes in net assets available for benefits (modified cash basis) for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.
- The information in the financial statements related to assets held by Fidelity Management Trust Company and certified to by the qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion
We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Basis of Accounting
As discussed in Note 2, the financial statements are prepared on the modified cash basis of accounting, which is basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust's ability to continue as a going concern for the year ended December 31, 2025.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Zwanger & Pesiri Radiology Group LLP 401 (K) Retirement Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Zwanger & Pesiri Radiology Group LLP 401 (K) Retirement Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are requirement to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of assets held for investments and the year ended December 31, 2025 are presented for purposes of additional analysis and are not required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion,

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that is agreed to or derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ZWANGER & PESIRI RADIOLOGY GROUP LLP
401 (K) RETIREMENT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2025

1. **Description of Plan**

The following description of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. **General**

The Plan is a defined contribution plan covering all employees of the Company over the age of 21. Employees are eligible upon being hired and automatically enrolled in the Plan after one month of service with the Company. Employees are notified when hired that they will be automatically enrolled into the plan and are asked to set up their 401(k) deferrals. If they do not take any action, they will have 1% of their salary deferred into the plan. The Plan's sponsor is Zwanger & Pesiri Radiology Group, LLP. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. **Contributions**

Each year, participants may contribute up to 100% of pretax annual compensation as defined in the Plan, including a catch-up amount if the participant is age 50 or over. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of both their and their employer contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their initial deferral rate set at 1% of eligible compensation, with deferrals increased annually by 1%, not to exceed 3%, unless changed by the participant. Contributions are invested in a designated balanced fund until changed by the participant.

c. **Employer Contributions**

The Sponsor may make discretionary non-elective contributions in an amount to be determined by the Board of Trustees for each quarter. Participants must meet the one-year requirement and attain at least 1,000 hours of service to be eligible. Participants must be employed as of the last day of the quarter to be eligible for any non-elective contributions that may be made for that quarter. For the year ended December 31, 2025, the Sponsor made $2,962,244 of discretionary non-elective contributions.

d. **Participant Accounts**

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. **Vesting**

Participants are immediately vested in their contributions plus actual earnings thereon. Participants have a vested percentage in their employer contribution accounts according to a vesting schedule based on years of service. A participant is 100% vested after six years of credited service.

1. **Description of Plan (Continued)**

f. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined quarterly by the Plan administrator. Loans must normally be repaid within such period agreed upon between the participants and the Plan, up to a maximum of 5 years. Principal and interest is paid ratably through payroll deductions. Defaulted loans are loans resulting from the failure of a participant to make the required loan repayments on an outstanding loan and are considered deemed distributed loans. At December 31, 2025, interest rates were 5.00% - 6.00% per annum.

g. Forfeited Accounts

Forfeited non-vested accounts may be used to offset future administrative expenses.

h. Payment of Benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 65. On termination of service, a participant may elect to receive an annuity, installment payments or a lump sum amount equal to the participant's account. Benefit payments are also permitted for death, disability or hardship.

2. **Summary of Significant Accounting Policies**

a. Basis of Accounting

The accompanying financial statements are prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. This basis of accounting differs from accounting principles generally accepted in the United States of America in that contribution receivables and distribution payables are not recorded. This basis of accounting was also used by the trustee to prepare the plan's 5500 tax return for the year.

b. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

c. Notes Receivable from Participants

Are measured at the unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2025 or 2024. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded if the participant has been terminated. If the participant has not been terminated, the defaulted loan amount remains classified as a Notes Receivable. Delinquent loans are considered "in default" and are treated as distributions (taxable to participant) on Form 5500.

2. Summary of Significant Accounting Policies (Continued)

d. Payments of Benefits

Benefits are recorded when paid.

e. Deemed Distributions

For participant loans in which the participant has a distributable event, such as employment termination, death, or disability, the loan is considered a deemed distribution. The participant loan is removed from the statement of net assets available for benefits – modified cash basis and a distribution is recorded. For active participants who have not incurred a distributable event, but have delinquent loans, the participant loan remains outstanding until a distributable event occurs. The Plan had deemed distributions of $896 for the year ended December 31, 2025.

f. Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

g. Subsequent Events

Management has evaluated subsequent events through September 28, 2026 the date that the financial statements were available to be issued. No significant material events have been identified that would require adjustment of the accompanying financial statements.

h. Plan Expenses

Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation or depreciation in fair value of investments. Certain administrative functions are performed by officers or employees of the sponsor. No such officer or employee receives compensation from the Plan.

3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

4. Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by the Fidelity Management Trust Company at December 31, 2025. This information has not been audited by the independent auditor.

4. Information Prepared and Certified by Trustee (Continued)

Investments, at fair value:

	2025
Cash/Money Market Accounts	$ 3,801,019
Mutual Funds	128,875,471
	$132,676,490

Net Appreciation in Fair Value	16,686,390
	$ 18,189,467

5. Reconciliation of Financial Statements to Schedule H of Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 to Schedule H Form 5500.

	December 31, 2025
Net Assets Available for Benefits Per the Financial Statements	$134,788,483
Net Assets Available for Benefits Per Schedule H to the Form 5500	$134,788,483

6. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

6. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Mutual Funds:
Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively trading.

Money Market Funds:
Valued at $1 per share. Money market funds held by the Plan are invested in short-term, are less than one year, securities representing high-quality, liquid debt and monetary instruments. The money market funds held by the Plan are deemed to be of high quality and are maintaining a net asset value (NAV) of $1 per share.

Common Collective Trusts:
Valued at the respective NAV as reported by such trusts/funds, which are reported at fair value. The value of each unit is determined by subtracting total liabilities from the total value of assets, including accrued income, and dividing the amount remaining by the number of units outstanding on the valuation date.

	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 46,047,908	-	-	$ 46,047,908
Money Market Funds	3,801,019	-	-	3,801,019
Common Collective Trusts	82,827,563	-	-	82,827,563
Total Assets at Fair Value	$132,676,490	$ -	$ -	$132,676,490

7. Tax Status

The Plan is a prototype plan that has received a determination letter dated July 1, 1994 issued by the National Office of the Internal Revenue Service that the Plan is qualified under Code Section 401. The Plan has been amended since receiving the determination letter; however, the Sponsor believes that the Plan is correctly designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Generally, tax authorities can examine tax returns filed for the last three years. Currently, there are no ongoing tax examinations that the Plan is aware of.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits (Modified Cash Basis) and Statement of Changes in Net Assets Available for Benefits (Modified Cash Basis).

9. Party-in-Interest Transactions

Certain services are rendered to the Plan by the Company at no cost to the Plan. Investment management fees paid to Fidelity Trust Company were included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. Fidelity Trust Company is the trustee and record-keeper, therefore these transactions qualify as party-in-interest transactions.

10. Concentration of Risk

The Plan maintains investments in 33 various instruments. As of December 31, 2025, five of the investments accounted for 33% of the total plan assets which potentially subject the Plan to a concentration of risk. Investments are specified as follows:

Description	
Fidelity 500 Index	14.0%
