Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ME-West Castings Pension Plan for Tempe Bargaining Unit Employees, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of ME-West Castings Pension Plan for Tempe Bargaining Unit Employees' financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

CLA (CliftonLarsonAllen LLP) is an independent network member of CLA Global. See CLAglobal.com/disclaimer.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ME-West Castings Pension Plan for Tempe Bargaining Unit Employees and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ME-West Castings Pension Plan for Tempe Bargaining Unit Employees' ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the ME-West Castings Pension Plan for Tempe Bargaining Unit Employees' internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ME-West Castings Pension Plan for Tempe Bargaining Unit Employees' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

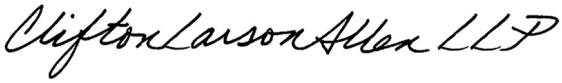

The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended December 31, 2025 are presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 DESCRIPTION OF PLAN

The following brief description of the ME-West Castings Pension Plan for Tempe Bargaining Unit Employees (the Plan) is presented for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan was adopted by ME West Castings, Inc. effective April 1, 1994. The Plan is a defined benefit pension plan covering eligible employees who are covered under the collective bargaining agreement between the Employer and the United Steelworkers of America, Local 4102. The assets of ME West Castings, Inc. were purchased by ME Global, Inc. on November 8, 2001, and ME Global, Inc. (the Employer) assumed sponsorship of the Plan. The Plan was most recently amended effective January 1, 2025. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective January 1, 2025, the Plan was amended as follows:

- The Trustee was changed to Principal, as successor to Wells Fargo Bank, N.A.
- The benefit factors increased from $46 to $52 over the next five years.
- Required minimum distribution age changed to 70½ for those born before July 1, 1949, age 72 for those born after June 30, 1949, and before January 1, 1951, age 73 for those born after December 31,1950, and before January 1,1960, and age 75 for those born on January 1, 1960 or later.

Pension Benefits

Under the terms of the Plan, an employee is eligible for a monthly normal retirement benefit beginning at normal retirement age (65) after termination from the Employer. The normal retirement benefit under the Plan shall be a monthly amount equal to the product of the benefit factor in effect on their date of termination of employment multiplied by the participant's years of benefit service completed after April 1, 1994, through the date of their termination. A participant is credited with a year of benefit service for each year in which 1,000 hours of service is completed.

The Plan permits early retirement for a participant at any time after the attainment of age 60 and the completion of 10 years of vested service. Participants leaving the Employer before age 65 who have at least five years of vested service may qualify for a deferred vested benefit, payable beginning at age 60 or 65, whichever is requested, and calculated as the accrued normal pension. A participant is credited with a year of vested service for each year in which 1,000 hours of service is completed. Benefit amounts for those participants who elect to receive early retirement or vested benefits prior to age 65 are reduced to reflect the early commencement of benefits. Participants may elect to receive their pension benefits as: (1) an annuity for the lives of both participant and spouse; or (2) an annuity for the life of the participant. If the present lump sum value of a participant's vested benefit is $1,000 or less at the date of termination of employment, the benefit will be paid in a single lump sum.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Death and Disability Benefits

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled.

Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Costs

Certain administrative costs (consisting of actuarial, audit, and trust administration fees) associated with the operation of the Plan are paid directly by the Employer and are not charged to the Plan.

Payment of Benefits

Benefit payments to participants are recorded when paid.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2026, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION

Principal Bank, the qualified institution of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of investments as of December 31, 2025 and 2024, and investment income for the years then ended, in the accompanying financial statements and ERISA-required supplemental schedules.

NOTE 4 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2025 and 2024.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Funds: Valued at NAV of units, without further adjustment. Net asset value is based upon the fair value of the underlying investments. NAV is a readily determinable fair value and is the basis for current transactions.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2025			
	Level 1	Level 2	Level 3	Total
Assets				
Mutual Funds	$ 1,334,990	$ -	$ -	$ 1,334,990
Collective Trust Funds	-	5,218,850	-	5,218,850
Total Investments at Fair Value	$ 1,334,990	$ 5,218,850	$ -	$ 6,553,840

	2024			
	Level 1	Level 2	Level 3	Total
Assets				
Mutual Funds	$ 1,191,151	$ -	$ -	$ 1,191,151
Collective Trust Funds	-	4,636,481	-	4,636,481
Total Investments at Fair Value	$ 1,191,151	$ 4,636,481	$ -	$ 5,827,632

The short-term investment fund valued at $185,743 as of December 31, 2024 was presented, recorded, and disclosed as a collective fund (level 2 instrument) at fair value in the previously issued financial statements. The financial statements were revised to correct the misclassification to a mutual fund (level 1 instrument) at fair value. There was no difference in fair value in making the adjustments to the financial statements.

NOTE 5 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries.

NOTE 5 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the calculation of the present value of accumulated plan benefits as of December 31, 2025 and 2024 are as follows:

Actuarial Assumption	
Retirement Age	2025 and 2024: 60 to 67
Postretirement Mortality Rates	2025 and 2024: Pri-2012 Blue Collar Employee and Retiree Mortality Tables (base year 2012) and projected with Mortality Improvement Scale MP-2021
Long-Term Rate of Return	2025 and 2024: 8.00%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The following is a summary of actuarial present value of accumulated plan benefits as of December 31:

	2025	2024
Participants Currently Receiving Payments	$ 1,650,269	$ 1,601,103
Other Participants	2,586,336	2,481,187
Nonvested	133,187	132,824
Total Actuarial Present Value of Accumulated Plan Benefits	$ 4,369,792	$ 4,215,114

The significant factors affecting the change in the actuarial present value of accumulated Plan benefits for the years ended December 31, 2025 and 2024 are summarized as follows:

	2025	2024
Benefits at Beginning of Period	$ 4,215,114	$ 4,040,814
Increase (Decrease) During the Period Attributable to:		
Plan Amendments	-	96,470
Benefits Accumulated	29,685	(13,586)
Interest Cost	328,861	314,617
Assumption Changes	8,933	(2,767)
Benefits Paid	(212,801)	(220,434)
Actuarial Present Value of Accumulated Plan Benefits at End of Period	$ 4,369,792	$ 4,215,114

NOTE 5 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The computations of the actuarial present value of accumulated plan benefits were made as of January 1. Had the valuations been performed as of December 31, there would be no material differences.

NOTE 6 FUNDING POLICY

Participants are neither required nor permitted to make contributions. The contributions of the Employer, as recommended by the consulting actuaries, are designed to fund current service cost on a current basis and to fund over 30 years' payment of the unfunded liability. Any unfunded liability is to be funded over seven years. The Plan met the minimum funding requirements of ERISA for 2025 and 2024.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA and the Plan. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

(a) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of an annuity under the Plan. The priority amount is limited to the lowest benefit that was payable to (or would have been payable) during those three years.
(b) The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding plan termination.
(c) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations as discussed below.
(d) All other vested benefits not insured by the PBGC.
(e) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

NOTE 7 PLAN TERMINATION (CONTINUED)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 8 PLAN TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Employer by a determination letter, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 10 PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by the qualified institution of the Plan; therefore, the investment transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA.

ME-West Casting Pension Plan for Tempe Bargaining Unit Employees
EIN/PN: 62-1870545 / 001

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Funding assumptions and methods selection and rationale

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice.

For funding liabilities, the interest rates and mortality assumptions have a significant effect on the measurement and are prescribed by law and regulation. The retirement assumption has a significant effect on the measurement and is selected by the plan actuary. The retirement assumption is based on the plan's observed and anticipated experience. Each year, the retirement assumption is reviewed in comparison with the experience for the prior year to assess if the assumption is still reasonable and make changes if needed.

Use of Models

Gallagher uses third-party software in the performance of annual actuarial valuations and projections. The model is intended to calculate the liabilities associated with the provisions of the plan using data and assumptions as of the measurement date under the funding rules standards specified in this report. Further, the model applies those funding rules standards to the liabilities derived and other inputs, such as plan assets and contributions, to generate many of the exhibits found in this report. Gallagher has an extensive review process whereby the results of the liability calculations are checked using detailed sample output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other funding outputs are similarly reviewed in detail and at a high level for accuracy, reasonability and consistency with prior results. Gallagher also reviews the model when significant changes are made to the software. The review is performed by experts within the company who are familiar with applicable funding rules as well as the manner in which the model generates its output.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the actuarial assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report. However, an assessment of risks for the plan was performed.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Prescribed Funding Assumptions and Methods

The following assumptions and methods are prescribed by ERISA, as currently amended.

Interest rates

	2025 Plan Year	2024 Plan Year
Funding Rates – Constrained*		
First Segment Rate	5.07%	4.75%
Second Segment Rate	5.31%	4.87%
Third Segment Rate	5.50%	5.59%
Effective Interest Rate	5.42%	5.30%
Funding Rates – Unconstrained**		
First Segment Rate	5.07%	3.62%
Second Segment Rate	5.33%	4.46%
Third Segment Rate	5.36%	4.52%
Effective Interest Rate	5.34%	4.48%

* Used for minimum funding and benefit restriction purposes.

The interest rates used for funding purposes are the Segment Rates with 4-month lookback, constrained in accordance with relevant legislation.

Mortality

Mortality tables mandated by applicable law and regulation as specified in IRS Regulation 1.430(h)(3)-1, as amended in the Federal Register on October 20, 2023, in TD 9983, 88 FR 72357, and as amended by IRS Notice 2024-42, applied on a static basis, using the blended annuitant/non-annuitant table applicable to small plans.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including plan administrative expenses expected to be paid from plan assets during the year.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including the discounted value of accrued contributions, reduced by 2/3 of the gain/(loss) for the immediately preceding plan year and reduced by 1/3 of the gain/(loss) for the plan year before that. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by current law and regulation to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting Limit
2025 Expected Return	8.00%	5.50%	5.50%
2024 Expected Return	8.00%	5.59%	5.59%
2023 Expected Return	8.00%	5.74%	5.74%

Summary of Changes from the January 1, 2024 Valuation

- The interest rates and mortality tables were updated to those applicable to the current year in accordance with the requirements of the Internal Revenue Code and associated regulations.
- The mortality and interest used to calculate joint and survivor factors were updated to the plan's 2025 basis.

These assumption changes decreased the Funding Target by approximately $61,000.
