Independent Auditor's Report

Board of Trustees
Abilene Christian University 403(b) Retirement Plan
Abilene, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Abilene Christian University 403(b) Retirement Plan (Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified to by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be

independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the "Scope and Nature of the ERISA Section 103(a)(3)(C) Audit" section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

General

The following description of Abilene Christian University 403(b) Retirement Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that operates under Section 403(b) of the Internal Revenue Code (IRC). The Plan is sponsored by Abilene Christian University (University) to provide retirement benefits for participating employees. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) issue certain Plan investments and certify the completeness and accuracy of the investment information for investments issued by TIAA and/or CREF. Certain other Plan investments are held by TIAA Trust, N.A. as directed trustee or custodian. For purposes of this report, TIAA and CREF are referred to collectively as TIAA-CREF.

Employees are eligible to participate in the Plan if they are not a faculty member and work fewer than 18 hours per week; or an employee who is a faculty member (other than senior faculty member) and teaches 6 credit hours or less during a regular (or short) semester. Employees may enter the Plan immediately after meeting eligibility requirements. There is no age or years of service requirement for employee deferrals.

Contributions

The Plan permits eligible employees to contribute a portion of their eligible compensation as a pretax deferral through a salary reduction agreement up to the limits of the IRC. Participants may also make rollover contributions as well as catch-up contributions into the Plan. Effective June 1, 2020, the Plan was amended to allow the University the absolute discretion to determine, for each payroll period, whether to make an employer matching contribution, and if so, the absolute discretion to determine both the matching percentage (expressed as a percentage of the participant's elective contributions for such payroll period) and the maximum amount of elective contributions (expressed as a percentage of the participant's compensation for the payroll period) that will be matched. The Retirement Plan Oversight Committee approved allowing any eligible employee to make an elective contribution, and the University will also match a portion of the amount the eligible employee elected to contribute. For any employee who opts to participate in the Plan and who is eligible to receive employer contributions, the University will contribute 100% of the first 8% of base compensation that a participant contributes to the Plan. A participant's right to such employer matching contributions shall be subject to the vesting schedule included in the plan document.

Participant Investment Account Options

Investment account options available include various annuity accounts, a pooled separate account, college retirement equity funds, self-directed brokerage, and mutual funds. Each participant has the option of directing contributions into any of the investment account options selected by the University and may change the allocation to the extent permitted by the individual agreements.

Participant Accounts

Each participant's account is credited with the participant's contributions, the University's contribution, and plan earnings or losses and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the University's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service.

Notes Receivable From Participants

Effective January 1, 2025, the Plan was amended to permit participant loans. The plan document includes provisions authorizing loans to active eligible participants. Participants may borrow from their accounts subject to limitations imposed by the Plan and applicable IRS regulations. Generally, the maximum loan amount is the lesser of (1) $50,000, reduced by the excess of the participant's highest outstanding loan balance during the preceding 12-month period over the outstanding loan balance on the date the loan is made or (2) 50% of the participant's vested account balance. Loan terms generally may not exceed five years unless the loan is used to acquire a principal residence. Loans are secured by the participant's vested account balance and are repaid through payroll withholding. Interest rates are determined in accordance with the Plan's loan policy. At December 31, 2025, notes receivable from participants are stated at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits

Participants may elect to receive either a lump-sum amount equal to the value of their vested interest or annual installments, as defined in the plan document, upon retirement, termination of service, death, or disability. A terminated employee with a balance of less than $5,000 may be automatically paid out of the Plan upon termination. Distributions may be made at the participant's election prior to termination upon attainment of age 59½ or hardship, as defined in the plan document.

Forfeited Accounts

At December 31, 2025 and 2024, forfeited nonvested accounts totaled $320,201 and $105,401, respectively. These accounts will be used to reduce future employer contributions or administrative expenses. During the years ended December 31, 2025 and 2024, employer contributions were reduced by $0 and $0, respectively, from forfeited nonvested accounts.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Certain plan investments are funded by individually controlled TIAA and CREF investments. Such contributions are allocated to TIAA traditional annuity contracts, CREF mutual funds, and the TIAA real estate pooled separate account.

Investment in the TIAA real estate pooled separate account is stated at estimated fair value in accordance with the policies and procedures reviewed by the investment committee of TIAA. The value of the units held in the pooled separate account is based on the market value of the underlying real estate holdings, which are valued principally utilizing external appraisals and involve significant judgment.

TIAA traditional annuity contracts maintain contributions in general accounts and such accounts are credited with earnings on the underlying investments and charged with participant withdrawals and administrative expenses.

For investment contracts that are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

The contracts, consisting of fixed return contracts, are included in the financial statements at contract value as reported by TIAA. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions from plan participants and the matching contributions from the University are recorded in the year in which the employee contributions are withheld from compensation.

Notes Receivable From Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the University or the Plan at the University's discretion. Expenses that are paid by the University are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Revisions

Certain immaterial revisions have been made to the 2024 financial statements in Note 4 to correct the presentation of amounts within the fair value hierarchy. These revisions did not have a significant impact on the financial statement line items impacted.

Note 3. Certification of Plan Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA-CREF, a qualified institution, has certified the following information included in the financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024
- Investment income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024

- Investment information included in the schedule of assets (held at end of year) as of December 31, 2025

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 4. Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
2025				
Fixed annuity contracts – nonbenefit responsive	$ 12,108,601	$ -	$ -	$ 12,108,601
Variable annuity contracts	31,909,669	31,909,669	-	-
Registered investment companies	92,664,547	92,664,547	-	-
Self-directed brokerage accounts	5,569,981	5,569,981	-	-
Total assets in the fair value hierarchy	142,252,798	130,144,197	-	12,108,601
Investments measured at NAV[(A)]	2,510,824			
Investments at fair value	$ 144,763,622	$ 130,144,197	$ -	$ 12,108,601
2024				
Fixed annuity contracts – nonbenefit responsive	$ 11,737,158	$ -	$ -	$ 11,737,158
Variable annuity contracts	35,042,188	35,042,188	-	-
Registered investment companies	73,798,551	73,798,551	-	-
Self-directed brokerage accounts	5,600,105	5,600,105	-	-
Total assets in the fair value hierarchy	126,178,002	114,440,844	-	11,737,158
Investments measured at NAV[(A)]	3,480,228			
Investments at fair value	$ 129,658,230	$ 114,440,844	$ -	$ 11,737,158

(A) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the

valuation techniques during the years ended December 31, 2025 and 2024. The Plan had no liabilities measured at fair value on a recurring basis.

In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 securities.

The Plan's investment in the TIAA Real Estate Account, a pooled separate account of TIAA, is measured at NAV (or its equivalent) as a practical expedient and is therefore excluded from the fair value hierarchy. This practical expedient would not be used if it were determined to be probable that the Plan will sell the investment for an amount different from the reported NAV.

The TIAA Real Estate Account invests primarily in direct ownership interests in income-producing commercial real estate and in real estate-related investments. The account is exposed to risks inherent in real estate ownership, including changes in property values, occupancy and rental rates, and liquidity. Participants may direct transfers into and out of the account on any business day at the unit value next determined; there is no redemption notice period and no lock-up or gate provision applicable to the Plan. The Plan had no unfunded commitments related to the account as of December 31, 2025 or 2024.

Level 3 Activity

Activity, transfers into and out of Level 3, and the reasons for those transfers are as follows:

	TIAA Traditional Annuity Contracts	
	2025	2024
Purchases	$ 704,646	$ 693,369
Sales	(688,196)	(967,650)
Transfers into Level 3	-	-
Transfers out of Level 3	-	-

Realized and unrealized gains and losses for the TIAA traditional annuity contracts are included in net increase in net assets available for benefits in the statements of changes in net assets available for benefits, which for the years ended December 31, 2025 and 2024 totaled $354,993 and $348,980, respectively. There were no transfers into or out of Level 3 during the years ended December 31, 2025 and 2024.

Unobservable (Level 3) Inputs

The following tables present quantitative information about unobservable inputs used in recurring Level 3 fair value measurements at December 31:

	Fair Value	Valuation Technique	Unobservable Inputs	Range (Weighted Average)[(A)]
2025				
TIAA traditional annuity contracts	$ 12,108,601	Discounted cash flow	Risk-adjusted discount rate applied	3.55%–6.50% (5.03%)
2024				
TIAA traditional annuity contracts	$ 11,737,158	Discounted cash flow	Risk-adjusted discount rate applied	3.65%–6.50% (5.08%)

(A) Unobservable inputs were weighted by the relative fair value of the instruments.

TIAA Traditional Annuity Contracts

The significant unobservable input used in the fair value measurement of the Plan's TIAA traditional annuity contracts is the interest rate of the investment contract. Changes in the contractual interest rate would have resulted in a significant change in fair value to the extent the change deviates from changes in market interest rates. Generally, an increase (decrease) in the difference between the contractual interest rate and the market interest rate would have been accompanied by a directionally opposed change in the fair value.

Investments Measured Using the NAV per Share Practical Expedient

The pooled separate account for which fair value is measured using the NAV per share practical expedient as of December 31, 2025 and 2024 was $2,510,824 and $3,480,228, respectively. There are no participant redemption restrictions for these investments, the redemption notice period is applicable only to the Plan, the redemption frequency is done daily and there are no unfunded commitments.

Note 5. Investment Contract With Insurance Company

The Plan has fixed annuity investment contracts with TIAA, which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The annuity contracts are fully benefit responsive; therefore, contract value is the relevant measurement. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator

does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The fixed annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The following represents the disaggregation of contract value between types of investment contracts held by the Plan:

	2025	2024
Stable investment contract	$ 715,239	$ 946,888
Traditional investment contracts	43,498,055	32,949,322
Total	$ 44,213,294	$ 33,896,210

Note 6. Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Certain plan investments are units of variable annuity accounts, mutual funds, or a pooled separate account that is managed by an entity related to TIAA-CREF, which is the record-keeper for the Plan. The Plan's traditional annuity contract is maintained in TIAA's general account.

Certain plan investments are managed by the custodian, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

The Plan paid $181,376 and $148,998 of record-keeping fees to TIAA during the years ended December 31, 2025 and 2024, respectively. Individually nonmaterial expenses paid to parties in interest aggregated $234,921 and $178,911 for the years ended December 31, 2025 and 2024, respectively. The University provides certain administrative services at no cost to the Plan.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 9. Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered plan under Section 403(b) of the IRC of 1986, as amended. The Plan has not requested or obtained a determination letter, as the IRS does not currently provide that service for 403(b) plans. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and not subject to tax.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10. Nonexempt Transactions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the plan sponsor remitted all employee contributions to the Plan, contributions of $474,106 and $1,526,194 were not remitted within the required time period for the years ended December 31, 2025, and 2024, respectively.

Note 11. Subsequent Events

Subsequent events have been evaluated through October 9, 2026, which is the date the financial statements were available to be issued.
