INDEPENDENT AUDITOR'S REPORT

Participants and Trustees
Matrix Design Group, Inc. Employee Stock Ownership Plan
Colorado Springs, Colorado

We have audited the accompanying financial statements of Matrix Design Group, Inc. Employee Stock Ownership Plan ("Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of the report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Supplementary Information Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information, as identified in the table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. PLAN DESCRIPTION

The following description of the Matrix Design Group, Inc. Employee Stock Ownership Plan (“Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

Matrix Design Group, Inc. ("Company") established the Plan effective January 1, 2007, for employees of the Company and its subsidiaries. The Plan operates as an employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 ("IRC") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Eligible employees include all employees, as defined in the plan document. There is no minimum age requirement. Employees are eligible to participate after one year of service, provided they worked at least 1,000 hours during such plan year. Participants who have not completed 1,000 hours of service during the year or are not employed on the last working day of the plan year are not eligible for an allocation of Company contributions for such year.

Employer contributions

The Company makes discretionary contributions of cash or Company common stock to the Plan based on profitability of the Company.

Participant accounts

Each participant's account is increased by the Company's contributions, allocations of shares of the Company's common stock from the unallocated account, forfeitures of terminated participants' unvested accounts, and plan earnings, and is decreased by the participant's distributions and an allocation of plan losses and expenses. Allocations are based on each participant's eligible compensation and years of service.

Vesting

Participants become vested in Company contributions at a rate of 20% per year after two years of service, and are 100% vested after six years of service.

Payment of benefits

No distributions from the Plan will be made until a participant retires, becomes disabled, dies (in which case, payment will be made to his or her beneficiary or, if none, his or her legal representative), or otherwise terminates employment with the Company and its participating subsidiaries. Distributions greater than $5,000 are paid in equal installments over five subsequent years, and distributions less than $5,000 are made in a lump-sum payment.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During the years ended December 31, 2025 and 2024, the Company repurchased 4,007 and 3,345 shares, respectively, from participants at estimated fair values determined by an independent appraisal.

Voting rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all the assets of a trade or business, or other similar transactions. However, the trustee is required to vote any unallocated shares or allocated shares, for which voting instructions were not timely made, based upon instructions from the plan committee.

Forfeitures

Forfeitures are allocated to each participant's account based upon the participant's number of units in relation to the total number of units. Forfeitures of other managed cash and investments reallocated to participants for the years ended December 31, 2025 and 2024, totaled $8,971 and $25,650, respectively. Forfeited shares of company stock reallocated to participants totaled 16.73 and 88.49 for the years ended December 31, 2025 and 2024, respectively.

Put option

In accordance with federal income tax regulations, Company common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its common stock distributed to participants for which there is no market. The put price is representative of the estimated fair value of the common stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participants have the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants nearing retirement age so they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Within 90 days after the close of each plan year in the qualified election period (the plan year beginning on the first plan year in which a participant first became a qualified participant ["QP"], that is, attained the age of 55 and completed 10 years of participation under the Plan), each QP is permitted to diversify up to 25% of the shares of Company common stock allocated to the participant's Company common stock account, less the number of shares previously diversified. In the sixth year of the qualified election period, the percentage increases to 50%. Participants who elect to diversify can have funds transferred to another qualified plan or individual retirement account or receive a cash distribution in accordance with the provisions of the plan document.

Plan termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the interest of each participant in the trust fund will become 100% vested and will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan and the IRC. Upon termination, the plan committee will direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of any financed stock held in the loan suspense account to the extent it determines such sale to be necessary to do so.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared using the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Income recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Income tax status

The IRS has determined and informed the plan sponsor by a letter dated September 28, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the letter, the Plan administrator and tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

US GAAP requires plan management to evaluate income tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the income tax positions taken by the Plan, and has concluded that, as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress.

Subsequent events

Management evaluated subsequent events through the date of the attached independent auditor's report, the date these financial statements were available to be issued.

3. INVESTMENT IN MATRIX DESIGN GROUP, INC. COMMON STOCK

The Plan is primarily invested in Company common stock. The estimated fair value of the Plan's investment in Company common stock is as follows on December 31,:

	2025	2024
Number of shares	35,137	34,046
Cost	$ 8,081,080	$ 7,531,041
Estimated fair value	$ 19,611,365	$ 17,163,950

4. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value or estimated fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce amounts that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date. There have been no changes in the methodologies used between December 31, 2025 and 2024.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three levels:

Level 1 - Quoted prices in active markets for identical assets or liabilities

Level 2 - Observable inputs other than prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated with observable market data

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

The valuation methodologies used for assets measured at fair value are as follows:

Money market funds - Valued at the closing price reported on the active market on which the individual funds are traded.

Exchange-traded funds ("ETFs") - Valued at the quoted market prices in active markets for the investment funds whose shares are traded on an exchange.

U.S. Treasury bonds - Valued at quoted market prices in active markets for identical debt securities.

Company common stock - Value is based upon an annual independent appraisal. This appraisal is based on a combination of the income and market valuation methods, consistent with prior years. The appraiser took into account historical and projected cash flows, net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Fair value measurements of assets recognized in the accompanying financial statements, measured at fair value on a recurring basis, consist of the following as of December 31,:

	2025			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 3,200,632	$ -	$ -	$ 3,200,632
ETFs	576,633	-	-	576,633
U.S. Treasury bonds	353,405	-	-	353,405
Company common stock	-	-	19,611,365	19,611,365
	$ 4,130,670	$ -	$ 19,611,365	$ 23,742,035

See independent auditor's report.

	2024			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 2,562,100	$ -	$ -	$ 2,562,100
ETFs	792,001	-	-	792,001
U.S. Treasury bonds	886,624	-	-	886,624
Company common stock	-	-	17,163,950	17,163,950
	$ 4,240,725	$ -	$ 17,163,950	$ 21,404,675

A summary of the changes in fair value of the Plan's level 3 assets is as follows for the years ended December 31,:

	2025	2024
Balance, beginning of year	$ 17,163,950	$ 14,539,578
Net unrealized appreciation of Company common stock	1,897,398	1,624,335
Purchases	2,020,106	1,526,636
Sales	(1,378,262)	(1,405,470)
Employer contributions	550,017	1,000,038
Distributions	(641,844)	(121,167)
Balance, end of year	$ 19,611,365	$ 17,163,950

5. PARTIES IN INTEREST

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons. The Company and several participants, as a result of ownership and/or being officers or directors of the Company, are deemed to be parties in interest. The third-party administrator, the trustee, investment advisors, and plan auditors are also parties in interest. There were no prohibited transactions with parties in interest during the years ended December 31, 2025 and 2024.

Investments in Company common stock and the associated transactions are considered party-in-interest transactions.

See independent auditor's report.

6. PLAN ASSET ADMINISTRATION

Company common stock is held by a law firm which acts as the custodian. Other financial institutions hold the remaining investments. The trustee approves the distributions to participants. Certain administrative functions are performed by employees of the Company. No employee receives compensation from the Plan.

7. RISKS AND UNCERTAINTIES

The Plan provides for various investments. Investments in general are exposed to risks, including interest rate, market, and credit risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of differences between the information reported in the financial statements and the information reported on the Form 5500 as of and for the years ended December 31,:

	2025	2024
