INDEPENDENT AUDITOR'S REPORT

The Plan Administrator of GE Aviation Systems Pension Plan for UAW Local 330 Union Employees of the Grand Rapids, MI Division:

Opinion

We have audited the financial statements of GE Aviation Systems Pension Plan for UAW Local 330 Union Employees of the - Grand Rapids; MI Division (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for plan benefits and of accumulated plan benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for plan benefits and changes in accumulated plan benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for plan benefits and accumulated plan benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for plan benefits and changes in its accumulated plan benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 3 to the financial statements, the financial statements include private equity and real estate investments valued at approximately $10 million and $9.5 million (41% and 39% of net assets available for plan benefits) as of December 31, 2025 and 2024, respectively, whose fair values have been estimated by management in the absence of readily determinable fair values. Management's estimates are based on information provided by the fund managers or general partners. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

(1) Description of the Plan

The GE Aviation Systems Pension Plan for UAW Local 330 Union Employees of the Grand Rapids, MI Division (the "Plan") is a noncontributory defined benefit plan sponsored by GE Aviation Systems LLC (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan provides benefits to collectively bargained employees of UAW Local 330 Union Employees of the Grand Rapids, MI division hired before November 30, 2014. The Plan was closed to new participants effective November 30, 2014. Benefits are determined based on length of service and a multiplier that is subject to collective bargaining. Participants are vested upon the earlier of five years of service, or the participant's normal retirement date. Effective January 31, 2020, the Plan was frozen. All active participants or participants on an approved leave of absence on January 31, 2020 became 100% vested in the Plan. Certain benefits remain non vested as these potential benefits are contingent on future events and applicable eligibility requirements.

Participants are entitled to pension benefits beginning at normal retirement age (65). The Plan permits early retirement beginning at age 60 if a participant has 10 years of vesting service, or as early as age 58 with 30 years of vesting service (if certain criteria are met). If a participant becomes disabled and meets the criteria, the Plan provides for a disability retirement benefit.

This description of the Plan is provided for general information purposes only. The complete terms of the Plan are provided in the GE Aviation Systems Pension Plan for UAW Local 330 Union Employees of the Grand Rapids, MI Division Plan document. Information concerning the Plan, including benefits and vesting provisions, is also included in the Summary Plan Description and other material distributed to participants.

The Plan's assets are held in the Grand Rapids Local 330 Plan Trust. Effective January 1, 2023, the assets of the Plan in the Grand Rapids Local 330 Plan Trust, along with other plans which invested in the GE Pension Trust ("GEPT"), were allocated among three separate master trusts – the GE Aerospace Pension Trust (the "Trust"), GE Energy Pension Master Trust and GE HealthCare Pension Master Trust. With the establishment of the Trust, the Grand Rapids Local 330 Plan Trust has an interest in the Trust and the Trust has an interest in the GEPT.

General Electric Company's, operating as GE Aerospace ("GE"), personnel are trustees of GEPT and perform services on behalf of GE Investment Management Corp., which acts as an investment advisor, providing investment advisory, investment management and related services to GEPT. State Street Bank & Trust Company is the primary custodian for GEPT assets.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

(b) Investments

Investments are reported at fair value. Investment transactions are recorded on a trade date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. GEPT allocates to the Trust the investments by its percentage ownership in the GEPT. Investment income and related expenses, including interest and dividend income, net realized gains (losses) on sales and unrealized appreciation (depreciation) in fair value of investments, are allocated from GEPT to the Trust based upon percent ownership. The Trust then allocates to the Plan based upon the Plan's percentage of Trust net assets at the beginning of each month. See notes 3 and 4 for additional information.

Securities for which exchange quotations are readily available are valued at the last sale price, or if no sales occurred on that day, at the quoted bid price. Short-term investments generally maturing within 60 days or less at the time of purchase are valued on the basis of amortized cost, which approximates fair value. Non-publicly traded investments are principally investments in real estate, alternative investment funds and private equity securities. The fair value estimates for these non-publicly traded investments involve judgments and the actual selling price of these investments can only be determined by negotiations between independent third parties in a sales transaction.

Off-balance-sheet financial instruments and commitments are valued at current market prices and rates, and are included in due from brokers and due to brokers, as applicable, in the respective trusts. The net realized and unrealized gains or losses are included in net appreciation (depreciation) in fair value of investments in the changes in net assets. Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they principally trade. Forward foreign currency contracts are valued at the closing market price.

(c) Fair Value Measurements

For financial assets and liabilities, fair value is the price GEPT would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets or liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect management's market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical investments in active markets.

Level 2 - Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

GE maintains policies and procedures to value investments using the best and most relevant data available. Independent pricing vendors are used to assist in valuing certain investments. In addition, GE performs reviews through assessment of the inputs in the determination of valuation for a representative sample of direct investments in private equity securities and real estate investments to assess reasonableness of the valuations.

The following section describes the valuation methodologies used to measure investments at fair value.

When available, quoted market prices are used to determine fair value of investment securities, and they are included in Level 1. Level 1 securities primarily include publicly traded equity securities.

When quoted market prices are unobservable, pricing information is obtained from independent pricing vendors. The pricing vendors use various pricing models for each asset class that are consistent with what other market participants would use. The inputs and assumptions to the model of the pricing vendors are derived from market observable sources including: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and other market-related data. Since many corporate debt securities do not trade on a daily basis, the methodology of the pricing vendors use available

information as applicable such as benchmark curves, benchmarking of like securities, sector groupings, and matrix pricing. The pricing vendors consider available market observable inputs in determining the valuation for a security. Thus, certain securities may not be priced using quoted prices, but rather determined from market observable information. These investments are included in Level 2 and primarily comprise the portfolio of corporate debt securities, and government, mortgage and asset-backed securities. In infrequent circumstances, pricing vendors may provide valuations that are based on significant unobservable inputs, and in those circumstances the investment securities are classified in Level 3.

Private equity security valuations are reviewed at the end of each reporting period utilizing available market data to determine whether or not any fair value adjustments are necessary. The market data includes recent transactions in the same or similar instruments, completed or pending third-party transactions in the underlying investment or comparable issuers. Unobservable inputs include company specific fundamentals and other third-party transactions in that security.

Real estate investments are valued using discounted cash flow techniques on estimated future cash flows generated by the property, market analysis and sales comparison information. Cash flow estimates are based on current market estimates that reflect current and projected lease profiles and available industry information about expected trends in rental, occupancy, and capitalization rates.

Closing prices for derivatives, which are traded either on exchanges are included in Level 1 or liquid over-the-counter markets are included in Level 2. The variation margin on these futures is valued using exchange prices established daily by the exchange on which the contracts are traded. The fair value of these futures contracts is determined by the unrealized profit or loss at the current bid or offer market quoted price of the contract.

Securities that are valued using techniques other than market quotations, particularly securities that are recorded at fair value, are subject to valuation risk. The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The Company may use non-binding broker quotes as its primary basis for valuation when there is limited or no relevant market activity for a specific instrument or for other instruments that share similar characteristics. The Company has not adjusted the prices obtained from the brokers. Investment securities priced using non-binding broker quotes are included in Level 3. As is the case with the primary pricing vendor, third-party brokers do not provide access to their proprietary valuation models, inputs and assumptions.

Investments in private equity, real estate and collective funds are generally valued using the net asset value ("NAV") per share as a practical expedient for fair value provided certain criteria are met. The NAVs are determined based on the fair values of the underlying investments in the funds. Investments that are measured at fair value using the NAV as a practical expedient are not classified in the fair value hierarchy.

(d) Management Estimates and Assumptions

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the actuarial present value of accumulated plan benefits and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(e) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions based on the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

Benefits payable as a result of retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

The actuarial present value of accumulated plan benefits is determined by independent actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, termination of employment, and retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits presented in the accompanying financial statements are presented using the end of the year benefit information data. The statements of accumulated plan benefits are measured as of January 1, 2026 and 2025, respectively. The more significant actuarial assumptions used in the valuations were: (a) expected mortality rates of participants are determined using the Pri-2012 healthy annuitant and contingent tables for males and females adjusted by wage class based on the Company's experience, and the tables are projected generationally by the MP-2021 improvement scales with customization; (b) retirement age ranging from 55 to 70; and (c) interest discount rate of 7.00%.

The effect of plan amendments on accumulated plan benefits are recognized during the year in which such amendments are adopted. Had the January 1 valuations been performed as of December 31, there would be no material differences.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan was expected to be completely terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

(f) Benefit Payments

Benefit payments to participants are recorded when paid.

(3) Summary of Master Trust Financial Information

(a) As discussed in Footnote 1, the Plan’s interest in the net assets of the Trust are established to receive employer and employee contributions, invest or reinvest such sums, and pay benefits in accordance with specific provisions for participating plans. Each participating retirement plan has an undivided interest in the Trust. The Trust has a participating interest in the GEPT. The Trust's net assets in investments are approximately 80% and 78% of the GEPT's net assets as of December 31, 2025 and 2024, respectively.

(b) The value of the Plan's interest in the Trust is based on the beginning of year value of the Plan's interest in the Trust, plus actual contributions, allocated investment income, less actual distributions and allocated administrative expenses. The Plan’s interest in the Trust rounded to less than 1% of the Trust net assets as of December 31, 2025 and 2024. As required, the Plan's interest in the Trust for each respective Plan Year is included below.

(c) Risks and Uncertainties

GEPT invests in global equity, debt securities, private equities, real estate, and certain other assets. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the fair value of investment securities, such as a pandemic or international conflict. Due to the level of risks associated with certain investments, it is reasonable to expect that changes in the fair value of investments will occur (including in the near term) and that such changes could materially affect GEPT's investments.

GEPT has incorporated de-risking objectives and liability hedging programs as part of its long-term investment strategy. The Plan utilizes a combination of long dated corporate bonds, treasuries, strips, other securities and derivatives to implement its investment strategies as well as for hedging asset and liability risks.

Certain assets have been pledged as collateral in the GEPT hedging portfolios and there are liens on certain real estate assets. Such collateral and liens are expected in the normal course of investing.

As of December 31, 2025 and 2024 there were no individual investments which represented 10% of the fair value of GEPT total investments.

General Electric Company securities represented 1.4% and 0.7% of Trust net assets at December 31, 2025 and 2024, respectively. Purchase and sale transactions related to General Electric Company securities occurred throughout the plan year. For shares held, the Trust recorded dividend income of $1.3 million for the year ended December 31, 2025.

(4) Fair Value Measurements

GEPT's investments are measured at fair value on a recurring basis. The Trust's interest in GEPT's investments at December 31, 2025 follow.

Investments in private equity, real estate and collective trust funds held by GEPT, are generally valued using the NAV per share as a practical expedient for fair value provided certain criteria are met. The NAV of the funds are determined based on the fair values of the underlying investments in the funds. Investments that are measured at fair value using the NAV as a practical expedient are not classified in the fair value hierarchy, and are described further below.

Global Equity Funds

A subset of the funds in this asset class are structured as common collective trusts. Redemption periods are generally daily with a notice requirement less than 15 days. The remaining funds have monthly or annual redemption periods with notice requirements of less than 30 days. As of December 31, 2025 and 2024 there were no unfunded commitments.

Private Equity Funds and Other Investments

This asset class consists primarily of closed-end private equity funds, which invest across various fund types, including venture capital, buyouts, growth and debt strategies. The term of each fund is typically 10 or more years and the fund's investors do not have an option to redeem their interest in the fund. The assets in this class have been diversified across vintage years, industry sectors and geographic regions. Also included are investments in fund of funds which invest across a diversified array of strategies. The redemption period for these funds is generally quarterly and requires a 90-day notice. As of December 31, 2025 and 2024, private equity funds had unfunded commitments of $1,920 and $1,855 million in GEPT, of which, approximately 49% and 45% represents the Trust's share, respectively.

Debt Securities Funds

A subset of this asset class is structured as common collective trusts. Redemption periods are generally daily with notice requirement less than 5 days. The remaining funds have daily or monthly redemption periods with notice requirements of less than 15 days. As of December 31, 2025 and 2024, there were no unfunded commitments.

Real Estate Funds

This asset class consists primarily of closed-end real estate funds with redemption terms that are typically 10 or more years. As of December 31, 2025 and 2024, real estate funds had unfunded commitments of $421 and $482 million in GEPT, of which, approximately 45% represents the Trust's share, respectively.

(a) Fair value measurements classified as Other are assets from the above investment types (primarily private equity co-investments) that were individually insignificant and utilize a number of different unobservable inputs (EBITDA, Revenue) and combination of methods (market comparables, market transactions, income approach- DCF) to derive investment valuation.
(b) Discount rates are determined based on inputs that market participants would use when pricing investments, including credit and liquidity risk. An increase in the discount rate would result in a decrease in the fair value.
(c) Capitalization rates represent the rate of return on net operating income which is considered acceptable for an investor and is used to determine a real estate investment capitalized value. An increase in the capitalization rate would result in a decrease in the fair value.

(5) Exempt Parties-in-Interest Transactions

The Plan paid certain expenses related to Plan operations and investment activity to various service providers who are parties in interest under ERISA. The GEPT utilizes various investment managers to manage its net assets. These net assets may be invested into funds or separate accounts managed by the investment managers. Therefore, these transactions qualify as exempt party-in-interest transactions. In Plan management's opinion, fees paid during the year ended December 31, 2025, for services rendered by parties in interest were based upon customary and reasonable rates for such services. As discussed in Note 3, these fees are allocated based on the percent ownership of the Plan.

(6) Tax Status

The Internal Revenue Service ("IRS") has notified the Company by a letter dated October 30, 2015, that the Plan is qualified under the appropriate sections of the Internal Revenue Code (“IRC”) and that the related trust in place at time of notification, is tax-exempt. In December 2016, the IRS began publishing a Required Amendments List for individually designed plans which specifies changes in qualification requirements. The list is published annually, and requires plans to be amended for each item on the list, as applicable, to retain its tax-exempt status. The Plan has monitored the published IRS list annually, and the Plan has been amended for each item on the IRS list, as applicable, to retain its tax exempt status. Management believes that the Plan and related trusts, GEPT and Trust, are currently designed, have been amended, and are being operated in compliance in all material respects with the applicable requirements of the IRC, and that the letter remains valid. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan satisfies the non-discrimination requirements of IRC sections 401(a)(4) and 410(b). To the extent the Trust recognizes any “unrelated business taxable income” as defined in Sections 512 through 514 of the IRC, the Trust is required to pay tax on any such income. For the year ended December 31, 2025, GEPT recorded a current income tax expense of $3.9 million. As discussed in Note 3, the income tax expense is allocated based on the percent ownership of the Plan. As of December 31, 2025 and 2024, the GEPT recorded no deferred tax liabilities.

(7) Funding

It is the Company’s policy to contribute amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax laws plus such additional amounts as the Company may determine to be appropriate. The Company did not make a contribution in 2025 for the 2025 plan year and has a formal commitment to contribute $0.25 million in 2026 for the 2025 plan year.

(8) Plan Termination

Although the Company has not expressed any intent to do so, it has the right to terminate the Plan in accordance with the Plan provisions and the provisions set forth in ERISA.

In the event of complete Plan termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide benefits in a prescribed order starting with benefits attributable to employee contributions, as applicable to plans participating in the Trust.

Additionally, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC"), a U.S. government agency, if the Plan so terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants will receive their benefits should the Plan so terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and level of benefits guaranteed by the PBGC. There is a statutory ceiling on the amount of an individual’s monthly benefit that the PBGC guarantees. For plan terminations occurring during 2026, that ceiling, which is adjusted periodically, is $7,789 per month.

(9) Subsequent Events

Subsequent events were evaluated through September 18, 2026, the date the financial statements are available to be issued. No events occurred that require additional disclosure or adjustments to the Plan's financial statements.

Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V — Summary of Plan Provisions

Effective Date	Effective September 4, 1987, most recently restated January 1, 2015. The most recent amendment reflected in the following plan provisions was effective December 2, 2019.
Predecessor Plan	Instrument Division of Lear Siegler, Inc.—UAW Retirement Income Plan as in effect on September 3, 1987. On November 30, 1994, all benefits of the predecessor plan that relate to participants of this plan were transferred into this plan.
Eligibility	Immediate participation for each employee covered by the collectively bargaining agreement. No one may become a participant after November 30, 2014.
Definitions	
Benefit Service	For employment after September 4, 1987, 1/10 of a year of benefit service for each 170 hours of service during a plan year, not to exceed one year of benefit service for any plan year. The plan is frozen effective January 31, 2020 and no participant may earn benefit service after that date.
Combined Benefit Service	The sum of years of benefit service under this plan and years of benefit service under the predecessor plan.
Vesting Service	All years of vested service credited under the predecessor plan and one year of vested service for each plan year in which a participant has 1,000 or more hours of service. For less than 1,000 hours in a plan year, 1/10 of a year of vested service is credited for each 170 hours of service. All participants who were active on January 31, 2020 shall be fully vested.
Actuarial Equivalence	1984 Unisex Pensioner's Mortality Table for participants and beneficiaries and an interest rate of 7%.

Normal Form of Benefit	Single life annuity.
Optional Forms of Benefit	50% contingent annuitant, 55% contingent annuitant or 75% contingent annuitant.

Regular Early Retirement Benefits

Eligibility	Age 60 and 10 years of vesting service.
Benefit	Monthly benefit computed as in normal retirement benefits above but based on years of combined benefit service and benefit rate at actual retirement date, reduced by 1/2 of 1% for each month that benefit commencement precedes age 62 (age 65 for participants hired after September 13, 1996).

Special Early Retirement Benefit

Eligibility	Participants who were hired prior to September 13, 1996 who attain age 58 with 30 years of vesting service.
Benefit	Monthly benefit computed as in normal retirement benefit above but based on years of combined benefit service and the benefit rate at actual retirement date. For retirement prior to age 62, a participant also receives a supplemental benefit such that his total monthly benefit is $1,000. This supplemental benefit shall cease upon attainment of age 62.

Disability Benefits

Eligibility	Total and permanent disability after 10 years of combined benefit service.
Amount	Monthly benefit computes as in normal retirement benefits above but based on combined benefit service and the benefit rate in effect at date of disability. Such benefit, payable as a life annuity, shall commence one year after disability. Upon attainment of age 65, such benefit shall cease, and a normal retirement benefit, computed as in normal retirement benefit above, based on years of combined benefit service and the benefit rate in effect at date of disability, shall be payable for life.

Termination Benefits

Eligibility

Five years of vesting service. Effective January 31, 2020 all active participants are fully vested.

Amount

Monthly benefit equals combined benefit service multiplied by the appropriate benefit rate from the table below, reduced by 1/2 of 1% for each month that benefit commencement precedes normal retirement.

Termination Date	Benefit Rate
09/04/1987–03/31/1988	$15.25

04/01/2019-12/30/2019	$41.00
12/31/2019 and later	$43.50

Medicare Reimbursement Benefits

The monthly pension benefit of a participant who retired between September 4, 1987 and August 30, 1993 shall be increased by the direct cost of Medicare Part B coverage.

Retirees on or after August 30, 1993 shall have their benefit increased by the Medicare Part B premium frozen at the 1993 level ($36.60).

Preretirement Death Benefits

Early Survivor Annuity

On death of a married participant after five years of vesting service, a monthly benefit computed as if the participant terminated on the date of death or, if earlier, the date of actual termination, survived until the later of the date of death or earliest retirement age, then retired with a 50% joint and survivor annuity (55% if became a participant prior to September 13, 1996). If the participant had less than 30 years of vesting service and was younger than age 62 (age 65 for participants hired after September 13, 1996) at death, the benefit is actuarially reduced for each month, after the later of the date of death or age 60, by which benefit commencement precedes age 62 (age 65 for participants hired after September 13, 1996).

For terminations prior to April 1, 2005, unless waived the benefits payable under this plan shall be reduced on account of this coverage by the amounts shown below:

Age	Reduction Factor
Over 59	0
55-59	1/24 of 1% per month[1]
45-54	15/100 of 1% per year
35-44	5/100 of 1% per year
Under 35	0

Transition Survivor Income

If became a participant prior to September 13, 1996, qualified beneficiaries of active and disabled employees who died with 10 years of vesting service receive a monthly benefit of $150 commencing on the first of the month following the participant's death and ending on the earlier of the death of all eligible surviving beneficiaries or the receipt of 24 monthly payments.

[1] No reduction upon attaining age 58 with 30 years of vesting service.

Bridge Survivor Income	If became a participant prior to September 13, 1996, the spouse of a deceased participant who was at least age 50 at the participant's death and has received 24 transition payments will receive a monthly benefit of $150 commencing on the first of the month following the final transition payment and ending on the earliest of the spouse's remarriage, attainment of age 62 or eligibility for Social Security disability benefits.
Lump Sum Benefit	For participants who terminated prior to September 13, 1996, under normal, early, special early, or disability retirement, a lump sum benefit of $2,000.
Maximum Benefit Limitation	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Plan Changes Since the Prior Year

The funding valuation does not reflect any plan changes since the prior year.

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the assumed retirement rate for active participants to the rates shown in Table 1
- A change in the assumed rate of withdrawal to the rates shown in Table 2
- A change in the assumed commencement age for deferred vested participants to 65 for all.
- A change in the assumed payment form election percentges from 60% electing a single life annuity and 40% electing the 55% joint and survivor payment form to 50% electing the single life annuity and 50% electing the 55% joint and survivor payment form.

These changes were made to better reflect the anticipated plan experience. None of these assumption changes reduced the funding shortfall by more than the allowable threshold; as such, approval of the Commissioner is not required.
