Independent Auditor's Report

To the Trustees
Casne Engineering, Inc. ESOP
Bellevue, Washington

Opinion

We have audited the financial statements of Casne Engineering, Inc. ESOP (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information, as listed in the accompanying table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description and Basis of Presentation

The following brief description of the Casne Engineering, Inc. ESOP (Plan) is provided for general information purposes only. Participants should refer to the Plan document for complete information.

General - Casne Engineering, Inc. (the Company) established the Plan effective as of January 1, 1999. The Plan operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

From time to time, the Plan has purchased common stock of the Company using the proceeds of borrowings from the Company or a third party bank, and holds the shares in a trust established under the Plan. The borrowings are repaid by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with the Plan document and/or loan agreement. The lender has no rights against the shares once they are allocated under the Plan. There were no outstanding borrowings and all shares were fully allocated to participants as of December 31, 2025 and 2024.

Plan Administration - The Plan is administered by the Trustees comprised of three persons appointed by the Company's Board of Directors. Officers or employees of the Company perform certain administrative functions. No such officer or employee receives compensation from the Plan.

Eligibility - Employees of the Company, except for independent contractors and leased employees, are generally eligible to participate in the Plan after completing one year of service, providing they worked at least 1,000 hours during such Plan year and are 21 years of age. Participants who do not have at least 1,000 hours of service during the Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions - Contributions are at the discretion of the Company's Board of Directors, provided that such contributions are limited to amounts that are deductible to the Company under the IRC. Contributions can be paid in cash or in shares of Company common stock, as determined by the Company's Board of Directors. The Company made cash contributions in the amount of $1,380,000 for the plan year ended December 31, 2025. Contributions are allocated among the active participants in the ratio that each participant's eligible compensation bears to the total eligible compensation for the plan year.

Payment of Benefits - Distributions on account of death, disability, or retirement are made in a single lump sum or substantially equal annual installments over a period not to exceed five years for accounts less than $1,415,000 and not to exceed ten years for accounts greater than $1,415,000. The dollar amount in the preceding sentence is adjusted annually by the Internal Revenue Service (IRS). The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan, if the shares are not publicly traded or if the shares are subject to trading limitations.

Administrative Expenses - Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. The Company has historically paid all operating expenses for the Plan. Transaction based fees for benefit payments are charged directly to the withdrawing participant accounts.

Note 1 - Continued

Voting Rights - Each participant is entitled to exercise voting rights attributable to the shares allocated to their account for significant corporate events, as defined, only and is notified by the Trustees prior to the time that such rights are to be exercised. The Trustees will have the voting rights for all other matters. The Trustees are not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustees are required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Participant Accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of the Company's discretionary nonelective contributions (if any), forfeitures of terminated participants' nonvested accounts and Plan earnings. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations of Company nonelective contributions and forfeitures are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting - If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, they will vest in the balances in their account based on total years of service, as defined, with the Company. Participants vest 20% percent per year of service and are 100% vested after five years of service.

Put Option - Under federal income tax regulations, the employer stock that is held by the Plan and its participants that is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the common stock. The Company can pay for the purchase with interest over a period of up to five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to their account, less any shares previously diversified. In the sixth year, the percentage changes to 50%, minus any previously diversified shares. Participants who elect to diversify can either receive a distribution of cash or shares or transfer to another qualified plan (rollover). The election to diversify is made subsequent to year end based upon the shares of employer stock in the participant's account at year end. At December 31, 2025 and 2024, participant account balances eligible for diversification totaled approximately $428,000 and $1,292,000, respectively. Diversification distributions in the amount of $974,997 are included in benefits paid to participants in the statement of changes in net assets available for benefits for the year ended December 31, 2025.

Forfeitures - Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation, relative to total eligible compensation. Forfeitures allocated to participants during the year ended December 31, 2025, totaled 17.006 shares plus cash in the amount of $14,503. There were no forfeited nonvested accounts remaining to be allocated to participant accounts in future years as of December 31, 2025 and 2024.

Note 2 - Summary of Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The shares of Company common stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - The Plan's management has evaluated subsequent events through October 5, 2026, the date the financial statements were available to be issued.

Note 3 - Investments

Information about the Plan's investments at December 31 are presented in the following table:

Investment	2025	2024
Casne Engineering, Inc. Common Stock-		
Number of shares	22,984.63	22,984.63
Cost	$ 1,013,740	$ 1,013,740
Estimated fair value	$ 14,846,003	$ 16,182,329

Note 4 - Fair Value Measurements

GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4 - Continued

Level 2 - Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than the quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs that are significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2025 and 2024.

Casne Engineering, Inc. Common Stock - The valuation process involves the selection of an appraiser under contract. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. The Trustees, under the supervision of the Company's Board of Directors, determine the fair value measurement policies and procedures. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Fair Value Measurements as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Casne Engineering, Inc. common stock	$ -	$ -	$ 14,846,003	$ 14,846,003

	Fair Value Measurements as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Casne Engineering, Inc. common stock	$ -	$ -	$ 16,182,329	$ 16,182,329

Note 4 - Continued

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2025:

	Shares	Cost	Fair Value
Balance as of January 1, 2025	22,984.63	$ 1,013,740	$ 16,182,329
Net depreciation in fair value of Casne Engineering, Inc. common stock			(1,336,326)
Ending Balance as of December 31, 2025	**22,984.63**	**$ 1,013,740**	**$ 14,846,003**

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

The fair value of the Company common stock was determined by the Trustees in consultation with an independent appraiser engaged to perform an annual appraisal. The 2025 and 2024 appraisals utilized market and income approaches, including guideline public company, merger and acquisition, and discounted cash flow methods consistent with prior years.

Unobservable inputs include earnings before interest taxes and depreciation (EBITDA), net income, weighted average cost of capital, discount rate, and discount for lack of marketability.

The Trustees assess the annual valuation process and results of the annual and interim third-party appraisals prior to rendering a final opinion on the fair value of the stock. This includes an assessment of fair value measurement policies and procedures to determine if current valuation techniques are still appropriate, and an evaluation of unobservable inputs used in the fair value measurement based on current market conditions and other third-party information.

In the event of a purchase or sale of Company stock by the Trust or at special request of the Trustees, on an interim basis, the Trustees will determine the fair value in consultation with an independent appraiser at the relevant transaction date(s).

Note 5 - Related Party and Party-in-Interest Transactions

The Plan invests in Company common stock. These are related party and party in interest transactions. The Plan may pay certain expenses related to plan operations to various service providers. These transactions are party-in-interest transactions.

Note 6 - Concentrations, Risks, and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, participants would become 100% vested in their employer contributions. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or their beneficiary at the time prescribed by the Plan terms and the IRC.

Note 8 - Tax Status

The Company adopted a Principal Financial Group (Principal) pre-approved plan document. Principal received an approval letter from the IRS dated June 30, 2020, which states that the form of the plan document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS; however, the Plan's management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
