Independent Auditor's Report

To the Plan Administrator of
Hyspeco, Inc.
Employee Stock Ownership Plan
Springfield, Missouri

Opinion

We have audited the accompanying financial statements of **Hyspeco, Inc. Employee Stock Ownership Plan** (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended December 31, 2025 and 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended December 31, 2025 and 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held (at end of year) as of December 31, 2025, is

presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Employee Stock Ownership Plan

Notes to the Financial Statements

December 31, 2025 and 2024

1. Description of plan

The following description of the **Hyspeco, Inc.** (the Company) **Employee Stock Ownership Plan** (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Effective February 12, 2025, the Board of Directors changed trustees for the Plan from individual trustees to an independent discretionary trustee, TI-Trust, Inc.

General

The Company established the **Hyspeco, Inc. Employee Stock Ownership Plan** effective May 1, 1989 and restated the Plan January 1, 2015. The Plan is designed to comply with Section 4975 (e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (the Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is overseen by the Company serving as the Administrator except to the extent the Company appoints any one or more persons. If the Company has not appointed an individual or an administrative committee to serve as Administrator, or if all such individuals have resigned or been removed so as to otherwise leave the Plan without an Administrator, the Company shall be the Administrator. Prior service with certain companies as defined within the plan document will be counted for eligibility purposes.

The Plan purchased a portion of the Company common shares using the proceeds of a loan in 1989. The loan was collateralized by the unallocated shares of the stock. The loan balance was paid in full in 1999. In December 2001, the Company sold the remaining shares not owned by the Plan to the Plan. The Company has no rights against the shares once they are allocated under the Plan. There are no unallocated shares of the Plan at December 31, 2025 and 2024.

On December 20, 2019, the Setting Every Community Up for Retirement Enhancement Act of 2019 (SECURE Act) was enacted and was effective beginning on January 1, 2020. The SECURE Act provision included, among other things, an increase in the age limit for required minimum distributions from age 70 ½ to 72. The Plan is in the process of operationally being amended to implement certain changes related to the SECURE Act. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

Effective January 1, 2020, the Plan was amended to all qualified participants to elect to diversify up to 25 percent of the total numbers of shares of Company stock acquired by or contributed to the Plan, and in the last election period a qualified participant may elect 50 percent. The Plan was also amended to restrict allocation under the Plan in order to avoid a 409(p) non-allocation year and to adopt the required distribution changes under the SECURE Act of 2019.

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security (CARES) Act was enacted. The CARES Act provides immediate and temporary relief for eligible retirement plans and their participants who were adversely impacted by the coronavirus. The Plan elected not to be amended to allow for the provisions of the CARES Act related to coronavirus distributions and loans. The Plan did elect to allow for the temporary waiver of required minimum distributions for the 2020 calendar year.

Eligibility

Effective January 1, 2015, any employee of the Company was eligible to participate in the Plan upon attaining age twenty and one-half (20 ½) and completing the required six months following the employee's employment commencement date. Entry date is the first day of next plan year following the date on which such employee met the eligibility requirements.

Contributions

Each year, the Company can make a discretionary contribution with approval of the administrative committee, subject to deduction limits of the Internal Revenue Code. These contributions were allocated to eligible participants in the same proportion that each participant's compensation for the year bears to the total compensation for all participants for such year.

Participant accounts

At the end of each plan year, each participant's account is credited with a share of the Company's contribution if the participant was at least age twenty and one-half, completed at least six months of service during the plan year, and was employed on the last day of the Plan year. Contributions were allocated to participants based on the ratio of an individual participant's compensation to total compensation of all eligible participants. Income on plan investments is allocated to each participant's account based on respective account balances. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Payment of benefits

Benefits are paid in the form of a lump sum in whole shares of common stock of the Company, cash, or a combination of both. Participants may elect to sell the stock back to the Company and receive a distribution entirely in cash. For participants who take a distributable payment from a company stock account with a vested balance in excess of $5,000, the payment is required to be taken in a series of five annual installments. If the account balance exceeds $800,000, the five-year installment period will be extended by one year for each $160,000 in excess of this amount, but not to exceed five additional years.

Participants who take a distributable payment from a company stock account with a vested balance of $20,000 or less, may receive the payment in a single lump sum, and the installment period will be shortened as necessary. Since the Company has elected

to be an S corporation, any shares of stock of the company to be distributed shall be subject to the right of the Company to purchase the shares at the time of or following the distribution.

Death and disability benefits

Upon the death or total and permanent disability of a participant whether before the participant's retirement, after the participant's normal retirement date, or after termination of employment, all amounts credited to the participant's account will become 100 percent vested.

Vesting

The vesting portion of the participant's account, including any top-heavy Plan year, shall be a percentage of the total amount credited to the participant's account determined on the basis of the participant's number of years of service in accordance with the following table:

Years of vesting service	Vesting percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	100%

If a participant separates from service, the portion of the participant's account balance which is not fully vested will be forfeited, retained in the Plan, and reallocated as determined by the Plan Administrator.

See subsequent event Note 9 for vesting changes effective for the following plan year.

Put option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account.

Diversification is offered to each eligible participant over a 6-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution that may be rolled over to an individual retirement account or other qualified plan or the 401(k) plan maintained by the Company. Participants who have attained age 45 with at least six years of participation in the Plan may elect to diversify up to 10 percent of their account. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Voting rights

Normally all shares of employer stock will be voted by the Plan's trustee in the manner they determine appropriate, but the trustee may decide to allow each participant to direct him in exercising any voting rights attributable to shares of employer stock allocated to his or her employer stock account. However, each participant will be given an opportunity to vote on matters which (as determined by Missouri law or the Company's charter) must be decided by more than a majority vote of outstanding shares voted. In such cases, each participant will be entitled to direct the trustee as to the exercise of any voting rights attributable to shares of employer stock allocated to his or her employer stock account. If there is any employer stock for which voting directions are not received from participants, the trustee will vote those shares in the manner he determines.

Forfeitures

Plan forfeitures may be made available to reinstate previously forfeited account balances of former participants, be used to satisfy certain contributions, or be used to pay any administrative expenses of the Plan. The remaining forfeitures are allocated to each participant's account based upon the participant's allocable share of Company stock. Forfeitures of terminated non-vested account balances allocated to remaining participants in 2025 and 2024 totaled $5,589 and $19,307, respectively.

2. Summary of significant accounting policies

Basis of accounting

The Plan's financial statements are presented on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Interest income is recorded as received. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent events

The Plan has evaluated subsequent events through October 7, 2026, the date the financial statements were available to be issued.

3. Fair value measurement

FASB ASC 820 provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Observable inputs other than Level 1 process, such as quoted prices for similar assets or liabilities; quoted prices for identical or similar assets in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Sponsor company common stock: The fair value of Hyspeco, Inc. common stock held by the plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser takes into account historical and projected cash flow, net income and dividends, return on assets, return on equity, market comparable and estimated fair value of company assets and liabilities.

Insurance company general account: The other investment is a life insurance policy owned by the Plan that is valued at the net cash value.
The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Investment in sponsor company common stock	$ -	$ -	$ 26,897,943	$ 26,897,943

Level 3 gains and losses

The following table sets forth a summary of changes in the fair value of the Plan’s level 3 assets for the year ended December 31, 2025 and 2024:

	2025	
	Investment in sponsor company common stock	Investment - other life insurance
Balance, beginning of year	$ 25,692,030	$ 309,548
Sale of stock for distributions	(1,886,740)	-
Unrealized gains relating to instruments still held at the reporting date	3,092,653	12,989
Balance, end of year	$ 26,897,943	$ 322,537

	2024	
	Investment in sponsor company common stock	Investment - other life insurance

Unrealized gains relating to instruments still held at the reporting date	2,722,916	11,573
Balance, end of year	$ 25,692,030	$ 309,548

4. Investments

The Plan's investments, at December 31, are presented in the following table:

	2025	2024
Number of shares	42,642	43,918
Cost	$ 426,418	$ 439,180
Market	$ 26,897,943	$ 25,692,030

5. Related party and party-in-interest transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Substantially all of the Plan's investments are shares of the Plan sponsor's common stock, and therefore, these investments qualify as party-in-interest investments and are detailed below (at estimated fair value) as of December 31:

	2025	2024
Hyspeco, Inc. common stock	$ 26,897,943	$ 25,692,030

6. Tax status

The Plan obtained a determination letter on February 10, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examinations by the applicable authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes it is no longer subject to income examinations for years prior to 2022.

7. Plan termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, management directs the trustee to pay all liabilities and expenses of the Plan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Internal Revenue Code.

8. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Subsequent events

Effective after December 31, 2025, the vesting portion of the participant's account, including any top-heavy Plan year, shall be a percentage of the total amount credited to the participant's account determined on the basis of the participant's number of years of service in accordance with the following table:

Years of vesting service	Vesting percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	100%
