INDEPENDENT AUDITORS' REPORT

To the Retirement Plan Committee of

CENTURI GROUP, INC. PROFIT SHARING PLAN

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of ***Centuri Group, Inc. Profit Sharing Plan*** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

(1) Description of the Plan

The following description of the ***Centuri Group, Inc. Profit Sharing Plan*** (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

A. General – The Plan, established on January 1, 1988 and amended various times since inception, covers certain employees of Centuri Group, Inc. (the "Plan Sponsor" or "Company") and its participating subsidiaries, as specified in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and Internal Revenue Code ("IRC") Section 401(k).

The Company is part of a controlled group. However, the Company's parent has filed an Internal Revenue Service ("IRS") Form 5310-A which qualifies the Company as a separate line of business, and as such, the Company operates its own plan.

B. Plan administration – The Company has appointed a Retirement Plan Committee ("Committee") to exercise certain duties and responsibilities in connection with the Plan. The Committee has appointed Vanguard Fiduciary Trust Company to serve as the Plan's trustee and The Vanguard Group, Inc. (collectively, "Vanguard") to serve as the contract recordkeeper.

C. Eligibility – Employees that are temporary or regularly scheduled to work less than 1,000 hours during a Plan year, leased, non-resident aliens, or those covered by a collective bargaining agreement are not eligible to participate in the Plan. Eligibility requirements for participation in the Plan are age 18 and 90 days of service or 1,000 hours of service within the first 12 months of employment, whichever requirement is attained first. Eligible employees who have completed 1,000 or more hours of service during the Plan year and are employed on the last day of the Plan year, unless such employee terminates employment due to death, disability, or reaching normal retirement age, as defined in the Plan document, are eligible to receive discretionary employer contributions.

D. Participant contributions – Participants may contribute between 1% and 80% of their eligible compensation, as defined by the Plan, on a pre-tax or after-tax (Roth) basis, subject to certain limitations prescribed by the IRC. Roth elective deferrals are treated in the same manner as elective deferrals for all Plan purposes. Participants may also contribute amounts representing distributions from other qualified plans as rollover contributions. In addition, the Plan allows participants attaining the age of 50 before the end of the Plan year to make additional catch-up contributions to the Plan.

Once eligibility requirements have been met, employees are automatically enrolled in the Plan at a 5% pre-tax contribution rate unless an election is made to contribute a different percentage, or the participant declines participation in the Plan. Participants who are automatically enrolled will default to a Vanguard Target Retirement Fund based on their birth date for their investment election. Additionally, on May 1st of every year, the participants' pre-tax contribution rate will automatically increase by 1% up to a maximum of 15%. Participants who do not enroll under the automatic enrollment feature can also elect for automatic contribution rate increases.

E. Employer contributions – The Company makes safe harbor contributions equal to 100% of each participant's deferrals up to 3% of the participant's compensation, plus 50% of the next 4% of the participant's deferrals. As a result, at no time can the Company's safe harbor contribution exceed 5% of each participant's eligible compensation. The Plan also contains provisions for discretionary employer contributions. The Company did not authorize discretionary employer contributions for the year ended December 31, 2025.

(1) Description of the Plan (continued)

F. Participant accounts – Each participant's account is credited with the participants' contributions, the Company's safe harbor and discretionary employer contributions, actual Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations of discretionary employer contributions are based on the ratio of each participant's eligible compensation to total eligible compensation of all participants for the contribution period. Allocations of investment earnings and losses are based on each participant's investment election. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

G. Vesting – Participants are fully vested in all contributions upon participation in the Plan.

H. Distribution of benefits – The Plan provides for the payment of benefits in amounts up to the entire vested balance in a participant's account upon retirement from the Company, termination of employment, death, disability, or proven financial hardship. In-service distributions are permitted as provided for in the Plan document. Normal retirement age under the Plan is 59 ½. The only form of distribution available under the Plan is a lump sum payment, unless certain requirements are met, as defined by the Plan document, and the participant's account balance at the time of distribution exceeds $5,000. Upon termination of employment, participants with outstanding loan balances who fail to repay the loan within the applicable cure period may have the unpaid balance treated as a taxable distribution.

I. Notes receivable from participants – A participant may borrow the lesser of $50,000 or 50 percent of his or her vested account balance, with a minimum loan amount of $1,000. Loans are repayable through payroll deductions over a fixed period not to exceed 60 months. The interest rate is based on the prime interest rate plus 2% at the time of the loan and is fixed over the life of the loan. Upon default, death, disability, or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable.

J. Administrative expenses – Substantially all administrative expenses of the Plan are paid by the Company except for participant loan costs.

K. Plan termination – Although the Company has not expressed an intention to do so, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA.

(2) Significant accounting policies

Basis of accounting – The accompanying financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. Accordingly, income and contributions are recognized when earned and expenses are recorded when incurred.

Management's use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the reported amounts of changes in net assets available for benefits. Actual results could differ from those estimates.

Investment valuation and income recognition – Mutual funds are reported at fair value, and the common/collective trust is reported at net asset value ("NAV") as a practical expedient. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(2) Significant accounting policies (continued)

Following is a description of the valuation methodologies used for the investments held by the Plan. There have been no changes in the methodologies used at December 31, 2025 and 2024.

- Mutual funds – Stated at net asset values, which are readily determinable fair values of those shares as they are published daily and are the basis for current transactions.

- Common/collective trust ("CCT") – The CCT is valued based upon the quoted redemption value of units, or the equivalent of net asset value, which is a practical expedient for estimating fair value. This investment has no unfunded commitments as of December 31, 2025 and 2024 and can be redeemed daily with no redemption notice period or other redemption restrictions.

Fair value measurement – The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement,* are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. If a Level 1 input is available, it must be used.

Level 2: Inputs other than quoted prices that are observable for assets or liabilities, either directly or indirectly. Examples include matrix pricing utilizing yield curves, prepayment speeds, credit risks, etc.; quoted prices for similar assets in active markets; and inputs derived from observable market data by correlation or other means.

Level 3: Unobservable inputs, which contain assumptions by the party valuing those assets or liabilities. For Level 3 inputs, there is no market data or correlations with market assumptions. Examples would include limited partnership interests, closely held stock, etc.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods described may produce a fair value that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued interest.

Payment of benefits – Benefits are recorded when paid.

(2) Significant accounting policies (continued)

Risks and uncertainties – The Plan provides for various investment fund options which, in turn, invest in any combination of stocks, bonds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. The Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent events – The Plan's management has evaluated subsequent events through October 8, 2026, which is the date the financial statements were available to be issued.

(3) Information certified by the Plan's trustee

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard, the Plan's trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments
- Notes receivable from participants
- Interest income on notes receivable from participants
- Interest and dividend income
- Net appreciation in fair value of investments
- Other income
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Investments

The following table summarizes the valuation of the Plan's investments by the above categories as of December 31, 2025:

	Total	Level 1	Level 2	Level 3
Mutual funds	$ 144,895,760	$ 144,895,760	$ -	$ -
Common/collective trust*	993,282	-	-	-
Total investments, at fair value	$ 145,889,042	$ 144,895,760	$ -	$ -

(4) Investments (continued)

The following table summarizes the valuation of the Plan's investments by the above categories as of December 31, 2024:

	Total	Level 1	Level 2	Level 3
Mutual funds	$ 131,002,293	$ 131,002,293	$ -	$ -
Common/collective trust*	1,250,718	-	-	-
Total investments, at fair value	$ 132,253,011	$ 131,002,293	$ -	$ -

* Certain investments that are measured using net asset value per share (or its equivalent) as a practical expedient for fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

(5) Tax status

The Plan has adopted a defined contribution Prototype Plan document, which obtained a favorable opinion dated June 30, 2020, stating that the Prototype Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan administrator and the Plan Sponsor believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and therefore believe that the Plan is qualified and the related trust is tax exempt as of and for the year ended December 31, 2025.

(6) Party-in-interest transactions

The Company is the Plan Sponsor and provides all employer contributions to the Plan; consequently, these transactions qualify as party-in-interest transactions.

Certain Plan investments are managed by the trustee; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Vanguard for recordkeeping and investment management, general consulting, and other expenses totaled $209,132 for the year ended December 31, 2025.

INDEPENDENT AUDITORS' REPORT

To the Retirement Plan Committee of

CENTURI GROUP, INC. PROFIT SHARING PLAN

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of ***Centuri Group, Inc. Profit Sharing Plan*** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

(1) Description of the Plan

The following description of the ***Centuri Group, Inc. Profit Sharing Plan*** (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

A. General – The Plan, established on January 1, 1988 and amended various times since inception, covers certain employees of Centuri Group, Inc. (the "Plan Sponsor" or "Company") and its participating subsidiaries, as specified in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and Internal Revenue Code ("IRC") Section 401(k).

The Company is part of a controlled group. However, the Company's parent has filed an Internal Revenue Service ("IRS") Form 5310-A which qualifies the Company as a separate line of business, and as such, the Company operates its own plan.

B. Plan administration – The Company has appointed a Retirement Plan Committee ("Committee") to exercise certain duties and responsibilities in connection with the Plan. The Committee has appointed Vanguard Fiduciary Trust Company to serve as the Plan's trustee and The Vanguard Group, Inc. (collectively, "Vanguard") to serve as the contract recordkeeper.

C. Eligibility – Employees that are temporary or regularly scheduled to work less than 1,000 hours during a Plan year, leased, non-resident aliens, or those covered by a collective bargaining agreement are not eligible to participate in the Plan. Eligibility requirements for participation in the Plan are age 18 and 90 days of service or 1,000 hours of service within the first 12 months of employment, whichever requirement is attained first. Eligible employees who have completed 1,000 or more hours of service during the Plan year and are employed on the last day of the Plan year, unless such employee terminates employment due to death, disability, or reaching normal retirement age, as defined in the Plan document, are eligible to receive discretionary employer contributions.

D. Participant contributions – Participants may contribute between 1% and 80% of their eligible compensation, as defined by the Plan, on a pre-tax or after-tax (Roth) basis, subject to certain limitations prescribed by the IRC. Roth elective deferrals are treated in the same manner as elective deferrals for all Plan purposes. Participants may also contribute amounts representing distributions from other qualified plans as rollover contributions. In addition, the Plan allows participants attaining the age of 50 before the end of the Plan year to make additional catch-up contributions to the Plan.

Once eligibility requirements have been met, employees are automatically enrolled in the Plan at a 5% pre-tax contribution rate unless an election is made to contribute a different percentage, or the participant declines participation in the Plan. Participants who are automatically enrolled will default to a Vanguard Target Retirement Fund based on their birth date for their investment election. Additionally, on May 1st of every year, the participants' pre-tax contribution rate will automatically increase by 1% up to a maximum of 15%. Participants who do not enroll under the automatic enrollment feature can also elect for automatic contribution rate increases.

E. Employer contributions – The Company makes safe harbor contributions equal to 100% of each participant's deferrals up to 3% of the participant's compensation, plus 50% of the next 4% of the participant's deferrals. As a result, at no time can the Company's safe harbor contribution exceed 5% of each participant's eligible compensation. The Plan also contains provisions for discretionary employer contributions. The Company did not authorize discretionary employer contributions for the year ended December 31, 2025.

(1) Description of the Plan (continued)

F. Participant accounts – Each participant's account is credited with the participants' contributions, the Company's safe harbor and discretionary employer contributions, actual Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations of discretionary employer contributions are based on the ratio of each participant's eligible compensation to total eligible compensation of all participants for the contribution period. Allocations of investment earnings and losses are based on each participant's investment election. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

G. Vesting – Participants are fully vested in all contributions upon participation in the Plan.

H. Distribution of benefits – The Plan provides for the payment of benefits in amounts up to the entire vested balance in a participant's account upon retirement from the Company, termination of employment, death, disability, or proven financial hardship. In-service distributions are permitted as provided for in the Plan document. Normal retirement age under the Plan is 59 ½. The only form of distribution available under the Plan is a lump sum payment, unless certain requirements are met, as defined by the Plan document, and the participant's account balance at the time of distribution exceeds $5,000. Upon termination of employment, participants with outstanding loan balances who fail to repay the loan within the applicable cure period may have the unpaid balance treated as a taxable distribution.

I. Notes receivable from participants – A participant may borrow the lesser of $50,000 or 50 percent of his or her vested account balance, with a minimum loan amount of $1,000. Loans are repayable through payroll deductions over a fixed period not to exceed 60 months. The interest rate is based on the prime interest rate plus 2% at the time of the loan and is fixed over the life of the loan. Upon default, death, disability, or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable.

J. Administrative expenses – Substantially all administrative expenses of the Plan are paid by the Company except for participant loan costs.

K. Plan termination – Although the Company has not expressed an intention to do so, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA.

(2) Significant accounting policies

Basis of accounting – The accompanying financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. Accordingly, income and contributions are recognized when earned and expenses are recorded when incurred.

Management's use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the reported amounts of changes in net assets available for benefits. Actual results could differ from those estimates.

Investment valuation and income recognition – Mutual funds are reported at fair value, and the common/collective trust is reported at net asset value ("NAV") as a practical expedient. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(2) Significant accounting policies (continued)

Following is a description of the valuation methodologies used for the investments held by the Plan. There have been no changes in the methodologies used at December 31, 2025 and 2024.

- Mutual funds – Stated at net asset values, which are readily determinable fair values of those shares as they are published daily and are the basis for current transactions.

- Common/collective trust ("CCT") – The CCT is valued based upon the quoted redemption value of units, or the equivalent of net asset value, which is a practical expedient for estimating fair value. This investment has no unfunded commitments as of December 31, 2025 and 2024 and can be redeemed daily with no redemption notice period or other redemption restrictions.

Fair value measurement – The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement,* are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. If a Level 1 input is available, it must be used.

Level 2: Inputs other than quoted prices that are observable for assets or liabilities, either directly or indirectly. Examples include matrix pricing utilizing yield curves, prepayment speeds, credit risks, etc.; quoted prices for similar assets in active markets; and inputs derived from observable market data by correlation or other means.

Level 3: Unobservable inputs, which contain assumptions by the party valuing those assets or liabilities. For Level 3 inputs, there is no market data or correlations with market assumptions. Examples would include limited partnership interests, closely held stock, etc.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods described may produce a fair value that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued interest.

Payment of benefits – Benefits are recorded when paid.

(2) Significant accounting policies (continued)

Risks and uncertainties – The Plan provides for various investment fund options which, in turn, invest in any combination of stocks, bonds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. The Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent events – The Plan's management has evaluated subsequent events through October 8, 2026, which is the date the financial statements were available to be issued.

(3) Information certified by the Plan's trustee

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard, the Plan's trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments
- Notes receivable from participants
- Interest income on notes receivable from participants
- Interest and dividend income
- Net appreciation in fair value of investments
- Other income
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Investments

The following table summarizes the valuation of the Plan's investments by the above categories as of December 31, 2025:

	Total	Level 1	Level 2	Level 3
Mutual funds	$ 144,895,760	$ 144,895,760	$ -	$ -
Common/collective trust*	993,282	-	-	-
Total investments, at fair value	$ 145,889,042	$ 144,895,760	$ -	$ -

(4) Investments (continued)

The following table summarizes the valuation of the Plan's investments by the above categories as of December 31, 2024:

	Total	Level 1	Level 2	Level 3
Mutual funds	$ 131,002,293	$ 131,002,293	$ -	$ -
Common/collective trust*	1,250,718	-	-	-
Total investments, at fair value	$ 132,253,011	$ 131,002,293	$ -	$ -

* Certain investments that are measured using net asset value per share (or its equivalent) as a practical expedient for fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

(5) Tax status

The Plan has adopted a defined contribution Prototype Plan document, which obtained a favorable opinion dated June 30, 2020, stating that the Prototype Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan administrator and the Plan Sponsor believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and therefore believe that the Plan is qualified and the related trust is tax exempt as of and for the year ended December 31, 2025.

(6) Party-in-interest transactions

The Company is the Plan Sponsor and provides all employer contributions to the Plan; consequently, these transactions qualify as party-in-interest transactions.

Certain Plan investments are managed by the trustee; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Vanguard for recordkeeping and investment management, general consulting, and other expenses totaled $209,132 for the year ended December 31, 2025.

INDEPENDENT AUDITORS' REPORT

To the Retirement Plan Committee of

CENTURI GROUP, INC. PROFIT SHARING PLAN

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of ***Centuri Group, Inc. Profit Sharing Plan*** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

(1) Description of the Plan

The following description of the ***Centuri Group, Inc. Profit Sharing Plan*** (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

A. General – The Plan, established on January 1, 1988 and amended various times since inception, covers certain employees of Centuri Group, Inc. (the "Plan Sponsor" or "Company") and its participating subsidiaries, as specified in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and Internal Revenue Code ("IRC") Section 401(k).

The Company is part of a controlled group. However, the Company's parent has filed an Internal Revenue Service ("IRS") Form 5310-A which qualifies the Company as a separate line of business, and as such, the Company operates its own plan.

B. Plan administration – The Company has appointed a Retirement Plan Committee ("Committee") to exercise certain duties and responsibilities in connection with the Plan. The Committee has appointed Vanguard Fiduciary Trust Company to serve as the Plan's trustee and The Vanguard Group, Inc. (collectively, "Vanguard") to serve as the contract recordkeeper.

C. Eligibility – Employees that are temporary or regularly scheduled to work less than 1,000 hours during a Plan year, leased, non-resident aliens, or those covered by a collective bargaining agreement are not eligible to participate in the Plan. Eligibility requirements for participation in the Plan are age 18 and 90 days of service or 1,000 hours of service within the first 12 months of employment, whichever requirement is attained first. Eligible employees who have completed 1,000 or more hours of service during the Plan year and are employed on the last day of the Plan year, unless such employee terminates employment due to death, disability, or reaching normal retirement age, as defined in the Plan document, are eligible to receive discretionary employer contributions.

D. Participant contributions – Participants may contribute between 1% and 80% of their eligible compensation, as defined by the Plan, on a pre-tax or after-tax (Roth) basis, subject to certain limitations prescribed by the IRC. Roth elective deferrals are treated in the same manner as elective deferrals for all Plan purposes. Participants may also contribute amounts representing distributions from other qualified plans as rollover contributions. In addition, the Plan allows participants attaining the age of 50 before the end of the Plan year to make additional catch-up contributions to the Plan.

Once eligibility requirements have been met, employees are automatically enrolled in the Plan at a 5% pre-tax contribution rate unless an election is made to contribute a different percentage, or the participant declines participation in the Plan. Participants who are automatically enrolled will default to a Vanguard Target Retirement Fund based on their birth date for their investment election. Additionally, on May 1st of every year, the participants' pre-tax contribution rate will automatically increase by 1% up to a maximum of 15%. Participants who do not enroll under the automatic enrollment feature can also elect for automatic contribution rate increases.

E. Employer contributions – The Company makes safe harbor contributions equal to 100% of each participant's deferrals up to 3% of the participant's compensation, plus 50% of the next 4% of the participant's deferrals. As a result, at no time can the Company's safe harbor contribution exceed 5% of each participant's eligible compensation. The Plan also contains provisions for discretionary employer contributions. The Company did not authorize discretionary employer contributions for the year ended December 31, 2025.

(1) Description of the Plan (continued)

F. Participant accounts – Each participant's account is credited with the participants' contributions, the Company's safe harbor and discretionary employer contributions, actual Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations of discretionary employer contributions are based on the ratio of each participant's eligible compensation to total eligible compensation of all participants for the contribution period. Allocations of investment earnings and losses are based on each participant's investment election. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

G. Vesting – Participants are fully vested in all contributions upon participation in the Plan.

H. Distribution of benefits – The Plan provides for the payment of benefits in amounts up to the entire vested balance in a participant's account upon retirement from the Company, termination of employment, death, disability, or proven financial hardship. In-service distributions are permitted as provided for in the Plan document. Normal retirement age under the Plan is 59 ½. The only form of distribution available under the Plan is a lump sum payment, unless certain requirements are met, as defined by the Plan document, and the participant's account balance at the time of distribution exceeds $5,000. Upon termination of employment, participants with outstanding loan balances who fail to repay the loan within the applicable cure period may have the unpaid balance treated as a taxable distribution.

I. Notes receivable from participants – A participant may borrow the lesser of $50,000 or 50 percent of his or her vested account balance, with a minimum loan amount of $1,000. Loans are repayable through payroll deductions over a fixed period not to exceed 60 months. The interest rate is based on the prime interest rate plus 2% at the time of the loan and is fixed over the life of the loan. Upon default, death, disability, or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable.

J. Administrative expenses – Substantially all administrative expenses of the Plan are paid by the Company except for participant loan costs.

K. Plan termination – Although the Company has not expressed an intention to do so, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA.

(2) Significant accounting policies

Basis of accounting – The accompanying financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. Accordingly, income and contributions are recognized when earned and expenses are recorded when incurred.

Management's use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the reported amounts of changes in net assets available for benefits. Actual results could differ from those estimates.

Investment valuation and income recognition – Mutual funds are reported at fair value, and the common/collective trust is reported at net asset value ("NAV") as a practical expedient. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(2) Significant accounting policies (continued)

Following is a description of the valuation methodologies used for the investments held by the Plan. There have been no changes in the methodologies used at December 31, 2025 and 2024.

- Mutual funds – Stated at net asset values, which are readily determinable fair values of those shares as they are published daily and are the basis for current transactions.

- Common/collective trust ("CCT") – The CCT is valued based upon the quoted redemption value of units, or the equivalent of net asset value, which is a practical expedient for estimating fair value. This investment has no unfunded commitments as of December 31, 2025 and 2024 and can be redeemed daily with no redemption notice period or other redemption restrictions.

Fair value measurement – The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement,* are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. If a Level 1 input is available, it must be used.

Level 2: Inputs other than quoted prices that are observable for assets or liabilities, either directly or indirectly. Examples include matrix pricing utilizing yield curves, prepayment speeds, credit risks, etc.; quoted prices for similar assets in active markets; and inputs derived from observable market data by correlation or other means.

Level 3: Unobservable inputs, which contain assumptions by the party valuing those assets or liabilities. For Level 3 inputs, there is no market data or correlations with market assumptions. Examples would include limited partnership interests, closely held stock, etc.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods described may produce a fair value that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued interest.

Payment of benefits – Benefits are recorded when paid.

(2) Significant accounting policies (continued)

Risks and uncertainties – The Plan provides for various investment fund options which, in turn, invest in any combination of stocks, bonds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. The Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent events – The Plan's management has evaluated subsequent events through October 8, 2026, which is the date the financial statements were available to be issued.

(3) Information certified by the Plan's trustee

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard, the Plan's trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments
- Notes receivable from participants
- Interest income on notes receivable from participants
- Interest and dividend income
- Net appreciation in fair value of investments
- Other income
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Investments

The following table summarizes the valuation of the Plan's investments by the above categories as of December 31, 2025:

	Total	Level 1	Level 2	Level 3
Mutual funds	$ 144,895,760	$ 144,895,760	$ -	$ -
Common/collective trust*	993,282	-	-	-
Total investments, at fair value	$ 145,889,042	$ 144,895,760	$ -	$ -

(4) Investments (continued)

The following table summarizes the valuation of the Plan's investments by the above categories as of December 31, 2024:

	Total	Level 1	Level 2	Level 3
Mutual funds	$ 131,002,293	$ 131,002,293	$ -	$ -
Common/collective trust*	1,250,718	-	-	-
Total investments, at fair value	$ 132,253,011	$ 131,002,293	$ -	$ -

* Certain investments that are measured using net asset value per share (or its equivalent) as a practical expedient for fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

(5) Tax status

The Plan has adopted a defined contribution Prototype Plan document, which obtained a favorable opinion dated June 30, 2020, stating that the Prototype Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan administrator and the Plan Sponsor believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and therefore believe that the Plan is qualified and the related trust is tax exempt as of and for the year ended December 31, 2025.

(6) Party-in-interest transactions

The Company is the Plan Sponsor and provides all employer contributions to the Plan; consequently, these transactions qualify as party-in-interest transactions.

Certain Plan investments are managed by the trustee; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Vanguard for recordkeeping and investment management, general consulting, and other expenses totaled $209,132 for the year ended December 31, 2025.
