INDEPENDENT AUDITOR'S REPORT

To the Trustee
International Intimates Inc.
Employee Stock Ownership Plan

Opinion

We have audited the financial statements of the International Intimates Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 8, the Plan has experienced divided allocation shortfalls in prior years, which could result in an uncertain tax position involving the Plan's future tax status with the IRS. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following description of the International Intimates Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

International Intimates Inc. (the "Company") established the Plan effective as of January 1, 2007. The Plan operated as an internally-leveraged employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) of the Internal Revenue Code of 1986, as amended ("IRC"). The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by the ESOP committee, which is determined by the Board of Directors of Intimates Holdings, Inc. ("IHI"). The trust department of an independent third-party financial institution is the Plan's Trustee.

On March 5, 2009, the Plan purchased preferred shares of IHI, the parent of the Company, using the proceeds of a borrowing from the Company's stockholders (see Note 7) and holds the stock in a trust established under the Plan. The borrowing is to be repaid by fully deductible company contributions and dividends to the trust fund. As the Plan makes each payment of debt service, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. Allocated shares are subject to vesting.

The borrowing was collateralized by the unallocated shares of stock. The Company, as lender, has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan were required to present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated stock (allocated) and stock not yet allocated to employees (unallocated). Prior to January 1, 2024, all the ESOP shares have been allocated to the plan participants.

On July 23, 2024, the Company redeemed and converted 14,619 shares of preferred stock to common stock. As of December 31, 2025 and 2024, there are 10,313 and 11,305 shares of common stock issued and outstanding, respectively.

Eligibility

The Plan covers all eligible employees, as defined, except those covered by a collective bargaining agreement, leased employees, and non-resident aliens. Employees of the Company who are over the age of twenty-one are eligible to participate on January 1st of the plan year in which they complete twelve months of service consisting of at least 1,000 hours. Participants who have completed the required service period during the plan year and are actively employed on the last day of the plan year shall be eligible to share in the Company's contribution for the year.

Note 1 - Description of Plan (Continued)

Contributions

The Company will determine the annual contribution amount subject to limitations set forth in the IRC and the Plan, which is no less than the amount required to enable the Trustee to discharge the Plan's obligations on any current outstanding loans incurred. Company contributions will be paid in cash or IHI stock as the Company may determine from time to time. IHI stock will be valued at its fair value. The Company shall pay to the Trustee its contribution to the Plan for each plan year within the time prescribed by law, including extensions of time for the filing of the Company's federal income tax return for the year. Employee contributions are not permitted.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of preferred shares of IHI released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on participants' eligible compensation relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the participant's account balance.

Vesting

Unless termination is due to normal retirement (sixty-five), disability or death, vesting in the Company's contribution is based on years of continuous service as follows:

Years of Service	% Vested
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Note 1 - Description of Plan (Continued)

Payment of Benefits

Distributions on account of death, disability, or retirement are made in the plan year following the event. Distributions for other separations from service commence in the fifth plan year following the separation from service. Distributions can be made in a combination of lump-sum and installment payments of at least $7,000. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of Company stock plus cash for any fractional shares of stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Participants who are not a 5% owner and have attained the age of 72 while still employed by the Company may elect to receive in-service distributions commencing April 1st of the calendar year next following the calendar year in which the participant attains such age.

Voting Rights

The common stock does entitle its holders to vote on matters required to be voted on by the stockholders of IHI.

When applicable, each participant may be entitled to direct the Trustee as to the exercise of any voting rights attributable to shares of IHI stock then allocated to his or her account. The Trustee shall vote any unallocated shares or any allocated shares as to which no voting instructions have been received subject to the Trustee's fiduciary duties under ERISA.

Put Option

Under federal income tax regulations, IHI stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of IHI's stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period that does not exceed five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Note 1 - Description of Plan (Continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of their investment in IHI stock into investments which are more diversified. Participants who are at least age fifty-five with at least ten years of participation in the Plan may elect to diversify a portion of their account by receiving a cash distribution of the applicable amount. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Effective January 1, 2024, each active participant who has attained age 55 and has at least five years of participation in the Plan may elect to diversify up to 100% of his or her account balance. Participants who elect to diversify receive a cash distribution, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

In 2025, the Company was required to repurchase shares in the amount of approximately $343,000 in order to comply with the diversification rules. The shares which were repurchased were redeemed by the Company (see Note 5).

Forfeited Accounts

Participants' accounts that are not distributable upon termination of service due to nonvesting shall constitute a forfeiture upon the occurrence of the participant's fifth consecutive one-year break in service.

Each year, forfeitures will first be made available to reinstate previously forfeited account balances of former participants, if any, in accordance with the Plan. The remaining forfeitures, if any, shall be allocated among the accounts of participants otherwise eligible to share in the allocation of discretionary contributions in the same proportion that each such participant's compensation for the year bears to the total compensation of all such participants for the year. Forfeitures allocated to participants during the year ended December 31, 2025 totaled approximately $1,000.

Administrative Expenses

As provided in the plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan. During the year ended December 31, 2025, substantially all administrative expenses were paid by the Company and are not included in the statement of changes in net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan were required to present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid. Prior to January 1, 2024, all the ESOP shares had been allocated to the plan participants.

Investment Valuation and Income Recognition

The common shares of IHI are valued at estimated fair value. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Note 3 - Administration of Plan Assets

The Plan's assets, which consist of IHI's common shares at each December 31, 2025 and 2024, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest and dividend income, and makes distributions to participants. The Trustee also administers the payment of principal and interest on the loan.

Note 3 - Administration of Plan Assets (Continued)

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 - Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	Investments at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Common stock	$ -	$ -	$ 5,008,212	$ 5,008,212

	Investments at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Common stock	$ -	$ -	$ 5,381,130	$ 5,381,130

Changes in Fair Value of Level 3 Assets and Related Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2025:

	Common Stock
Balance, beginning of year	$ 5,381,130
Shares repurchased by the Company	(472,030)
Unrealized appreciation in estimated fair value	99,112
Balance, end of year	$ 5,008,212
The amount of total gains for the period included in changes in net assets attributable to the change in unrealized gains relating to assets still held at the reporting date	$ 99,112

Unrealized gains included in changes in net assets for the period above are reported in net unrealized appreciation in fair value of investments in the statement of changes in net assets available for benefits.

Note 4 - Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Common stock: IHI's common stock held by the Plan is valued at fair value based upon an appraisal. This appraisal was based upon the income valuation technique, and the market valuation technique was used as a reasonableness check to value, which was consistent with prior years as illustrated in the following table:

Instrument	Fair Value at December 31, 2025	Fair Value at December 31, 2024	Principle Valuation Technique	Unobservable Inputs
Intimates Holdings, Inc. Common stock	$5,008,212	$ 5,381,130	Income	Weighted-average cost of capital Long-term revenue growth Long-term pre-tax operating margin Discount for lack of marketability
			Market	Public comparables EBITDA multiple Discount for lack of marketability

The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Plan management, along with the ESOP trustee, reviews in detail, discusses, and approves. The results of this process are documented in minutes of the plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Note 5 - Investments

At December 31, 2025 and 2024, the Plan's investment in the common stock of IHI consists of fully allocated shares and is presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Intimates Holdings, Inc. common stock:				
Number of shares	10,313	-	11,305	-
Cost	$ 18,907,996	$ -	$ 20,726,076	$ -
Estimated fair value	$ 5,008,212	$ -	$ 5,381,130	$ -

The common stock is redeemable at the option of the holder at any time.

On December 10, 2025, the Plan recorded total distributions of approximately $515,000, of which approximately $472,000 represented redemption of 992 shares. The remaining balance of approximately $43,000 represented 91 shares that were reallocated to the participants of the Plan.

Note 6 - Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

On August 19, 2026, the Board of Directors of the Company voted to terminate the Plan, at which time a termination amendment was adopted by the Board of Directors. Upon such plan termination, participants would become 100% vested in their employer contributions. The interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and related regulations. Upon termination of the Plan, the Trustee shall pay all liabilities and expenses of the trust fund and sell shares of financed Company stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Note 7 - Related Party Transactions

The Plan's investment in common stock qualifies as party-in-interest transaction.

The Plan also has a number of service providers that qualify as parties-in-interest under ERISA.

Note 8 - Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 23, 2015, that the Plan and related trust are designed in accordance with the applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. During the year ended December 31, 2025, there was no dividend allocation shortfall. The cumulative dividend allocation shortfall at December 31, 2025 is approximately $9,261,000, which could result in an uncertain tax position that might cause a possible assessment or claim against the Company or jeopardize the tax status of the Plan. Management and their legal counsel believe that this matter will not have a material effect on the Plan's financial statements; however, absolute certainty of such cannot be assured. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Risks and Uncertainties

The plan investments consist of common stock, which is exposed to various risks such as interest rate, market and credit risk, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the common stock and uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the values of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported herein the statements of net assets available for benefits.

Note 10 - Subsequent Events

The Plan has evaluated subsequent events through October 12, 2026, which is the date the financial statements were available to be issued. No significant matters, other than disclosed in Note 6, were identified for disclosure during this evaluation.
