INDEPENDENT AUDITORS' REPORT

To the Retirement Plan Committee of

D.P. ELECTRIC, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Opinion

We have audited the financial statements of ***D.P. Electric, Inc. Employee Stock Ownership Plan*** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

D.P. ELECTRIC, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

(1) Description of the Plan

The following description of the ***D.P. Electric, Inc. Employee Stock Ownership Plan*** (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General - D.P. Electric, Inc. (the "Company" or "Plan Sponsor") established the Plan effective January 1, 2021. The Plan operates as a leveraged employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by the Retirement Plan Committee and a Plan Administrator, comprising persons appointed by the Company.

Existing employees that were age 18 or older, employed on January 1, 2021, and had completed one year of service by December 31, 2020 became participants on January 1, 2021 in accordance with the Plan agreement. Excluded employees include those represented by collective bargaining agreements, leased, independent contractors, and non-resident aliens. For purposes of eligibility, a year of service is defined as the completion of 1,000 hours of service in a period of twelve consecutive months. Eligible employees may enter the Plan on the first day of the following quarter after he or she becomes eligible.

B. Contributions - The Company may make a discretionary contribution that will be expected to be sufficient to meet the minimum debt service requirements. A contribution of $6,019,240 was authorized by the Company for the year ended December 31, 2025, of which $5,372,111 was used for debt service and $647,129 provided liquidity to fund benefit payments.

C. Dividends - The declaration of dividends by the Company or other distributions made by the Company on shares owned by the Plan is discretionary. No dividends were declared during the 2025 Plan year.

D. Participant accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. In order to be credited with an allocation, the employee must have worked at least 1,000 hours during the Plan year, be employed on the last day of the Plan year, or their death, disability or retirement date must have fallen within the Plan year. Allocations of Company contributions are based on a participant's eligible compensation, relative to total eligible compensation. Allocations of Plan earnings are based on participant account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

E. Vesting - Participants vest in the Company's contributions, plus earnings thereon, based on years of service as follows:

Years of Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

(1) Description of the Plan (continued)

F. Forfeitures - Forfeitures of nonvested accounts are allocated to remaining Plan participants in accordance with the Plan document. During the year ended December 31, 2025, approximately 4,864 shares of forfeited common stock were reallocated to Plan participants.

G. Payment of benefits - Distributions from the Plan due to death, disability, or retirement, as defined by the Plan, shall commence as soon as administratively feasible following the end of the Plan year in which such event occurs. Any common stock allocated to a participant's account that was acquired with proceeds from the ESOP Promissory Notes is not eligible for distribution until the earlier of (i) the close of the Plan Year in which the ESOP Promissory Notes are repaid in full or (ii) the tenth Plan Year, subject to certain provisions per the IRC, unless the Company and the Plan Administrator have determined sufficient assets are available and such distributions are offered on non-discriminatory basis.

If the value of a participant's vested account balance does not exceed $7,000, distributions from the Plan for reasons other than death, disability, or retirement will generally be made in a single lump sum payment as soon as practicable after the close of the annual valuation date following termination of employment. Generally, if the vested account balance exceeds $7,000, the distribution will be paid in substantially equal annual payments over a period of:

- Five years; or
- If the vested balance is greater than $1,165,000, distributions are paid in equal annual installments over five years plus one additional year for each $230,000 or fraction thereof in excess of $1,165,000 (but not more than five additional years). These dollar amounts may be raised periodically in accordance with the IRC.

H. Termination of the Plan - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

I. Administrative expenses - Administrative expenses are paid by the Company. There are certain expenses of the Plan paid for by the Company that are not expected to be reimbursed by the Plan.

J. Voting rights - The Trustee shall vote all Company common stock held as part of the Plan's assets. However, each participant is entitled to direct the Trustee as to the manner in which voting rights on the Company's common stock attributable to the shares allocated to his or her account are to be exercised.

K. Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company common stock into investments which are more diversified. Participants who have attained age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive cash for a stock distribution that is repurchased by the Company for cash. The election to diversify is made subsequent to year-end based upon the shares of company stock in the participant‘s account at year end.

(1) Description of the Plan (continued)

L. Put option - Under federal income tax regulations, employer stock that is held by a plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

(2) Summary of significant accounting policies

The significant accounting policies followed by the Plan are as follows:

Basis of accounting - The financial statements of the Plan are prepared using the accrual method of accounting. Accordingly, income and contributions are recognized when earned, and expenses are recorded when incurred.

Management's use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and the reported amounts of additions to and deductions from net assets. Actual results could differ from those estimates.

Risks and uncertainties - The Plan's investment consists of the Company's common stock. Investments are exposed to various risks, such as interest rate, lack of marketability and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment valuation - Shares of the Company's common stock are reported at fair market value, which approximates fair value and is determined by an annual independent appraisal. Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Payment of benefits - Benefits paid to participants are recorded in the period in which they are paid.

Subsequent events - The Plan has evaluated subsequent events through September 2, 2026, which is the date the financial statements were available to be issued.

(3) Fair value measurement

The investments in the Plan are stated at fair value in accordance with the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurement* ("ASC 820"). ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The fair value of the Plan's investment in the sponsor company common stock is measured using Level 3 inputs within the fair value hierarchy. As of December 31, 2025 and 2024, the Plan's investment in the sponsor company common stock totaled $133,699,200 and $94,369,200, respectively.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 investments for the year ended December 31, 2025:

Balance, beginning of year	$ 94,369,200
Net appreciation	39,330,000
Balance, end of year	$ 133,699,200

The Plan's level 3 investments have been determined based on an appraisal by an independent third-party valuation specialist. The sponsor company common stock held by the Plan was valued on a non-marketable, 100% controlling interest basis. Valuation of the sponsor company common stock was determined by applying various valuation techniques including the capitalized cash flow and guideline public company methods. The valuation methods and determination of fair value was consistent with the prior Plan year. Various assumptions were incorporated into each of these methods in arriving at an overall fair value that was determined using a weighted average.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets or liabilities could result in a different fair value measurement at the reporting date.

(4) Income tax status

The Plan received a favorable determination letter from the Internal Revenue Service ("IRS") dated November 22, 2021, stating that the Plan is qualified under the appropriate sections of the IRC, and the related trust established under the Plan is tax-exempt. The Company and the Plan Administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

(5) Loans payable

On February 24, 2021, the ESOP purchased 144,000 shares of common stock of the Company pursuant to a Stock Purchase Agreement for $7,850,000. To facilitate the purchase, the Plan issued a Promissory Note payable ("Promissory Note One").

On December 22, 2023, the ESOP purchased an additional 312,000 shares of common stock of the Company for $81,875,040. To facilitate the purchase, the Plan issued a second Promissory Note payable ("Promissory Note Two").

The Promissory Notes are collateralized by the unallocated shares of common stock. The lenders will have no rights against shares of common stock once they are allocated under the Plan. Company contributions to the Plan are used to repay the Promissory Notes. As the Plan makes each payment of principal and interest, an appropriate percentage of common stock will be released from collateral on the Promissory Notes and allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

Promissory Note One bears interest at 1.46% annually and is payable in annual installments of principal and interest commencing December 31, 2021. A final payment of all amounts outstanding will be due and payable on December 31, 2035.

Promissory Note Two bears interest at 5.03% annually and is payable in annual installments of principal and interest commencing December 31, 2024. A final payment of all amounts outstanding will be due and payable on December 31, 2058.

As of December 31, 2025, the scheduled amortization of the Promissory Notes is as follows:

Years Ending December 31,	
2026	1,295,106
2027	1,349,535
2028	1,406,441
2029	1,466,263
2030	1,528,825
Thereafter	76,283,298
Total	$ 83,329,468

(6) Party-in-interest transactions

As of December 31, 2025, all of the Plan's investments are shares of common stock of the Company and qualify as party-in-interest transactions. In addition, during the year ended December 31, 2025, the Plan made payments towards the outstanding loans payable as described in Note 5. As the loans payable are between the Plan and the Plan Sponsor, the loan repayments qualify as party-in-interest transactions.
