Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of KeySpan Benefit Plan for Retired (East) Union Employees, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and benefit obligations for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of KeySpan Benefit Plan for Retired (East) Union Employees' financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CLA (CliftonLarsonAllen LLP) is an independent network member of CLA Global. See CLAglobal.com/disclaimer.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of KeySpan Benefit Plan for Retired (East) Union Employees and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about KeySpan Benefit Plan for Retired (East) Union Employees' ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of KeySpan Benefit Plan for Retired (East) Union Employees' internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about KeySpan Benefit Plan for Retired (East) Union Employees' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTE 1 DESCRIPTION OF PLAN

The following description of the KeySpan Benefit Plan for Retired (East) Union Employees (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is both a contributory and noncontributory, trusteed, employee life insurance and medical benefit plan sponsored by National Grid USA Service Company, Inc. (the Company). Life insurance and medical benefits are provided for eligible bargaining unit retirees of the Company. The Plan is administered by the Retirement Plans Committee of National Grid USA Service Company, Inc. (Plan Administrator). The Retirement Plans Committee has overall responsibility for the operation and administration of the Plan.

Contributions

The Company's contributions to the Voluntary Employee Benefit Association (VEBA) are at its sole discretion and their continuation may be dependent on future tax and regulatory treatment. Employee contributions are subject to change, as are the plans that they participate in, including but not limited to plan termination at the discretion of the employer. Retiree contribution rates vary depending on the plan and level of coverage in which the retiree is enrolled.

Benefits

The Plan provides health benefits (medical and prescription drugs) to eligible members. Assets of the Plan, held in a VEBA trust, pursuant to Section 501(c)(9) of the Internal Revenue Code (the IRC), are for postretirement benefits. The VEBA trust may have a single or several investment funds. The Bank of New York Mellon, N.A. (the qualified institution) shall hold, manage, administer, value, make purchases and sales for, distribute, account for, and otherwise deal with each fund separately. Alternatively, benefit expenses may be paid, in whole or part, by corporate assets.

Insured Benefits

The Plan fully insures life insurance benefits. The Plan also offers some health benefits through a fully insured plan. Premiums for insured benefits are paid to the insurance company from the assets of the VEBA trust or from general assets of the Company.

Self-Insured Benefits

All other Plan benefits are self-insured. The claims for self-insured benefits are processed by the Plan's third-party claims processors. The claims processors pay claims directly to or on behalf of participants and then are reimbursed by either the Plan's VEBA trust or the general assets of the Company. Despite the Plan's utilization of third-party claim's processors, ultimate responsibility for payments to providers and participants is retained by the Plan.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Plan Assets

All the assets of the Plan are included in the KeySpan Corporation Life and Health Master Trust for Union Employees (the Union Master Trust) held by the qualified institution. The Union Master Trust also includes the following plans:

- KeySpan Benefit Plan for Retired (West) Union Employees
- National Grid Benefit Plan for Certain Retired Management and Union Employees of Massachusetts Gas Companies

Effective August 1, 2024, the Union Master Trust also includes the following plans:

- Niagara Mohawk Medical, Prescription Drug, and Life Insurance Plan for Retired Former Represented Employees
- National Grid USA Companies' Retirees Health and Life Insurance Plan II

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Medicare Subsidy

The Plan's postretirement benefit obligation does not reflect an amount associated with the Medicare Part B subsidy allowed under the Medicare Prescription Drug Improvement and Modernization Act of 2003 because the Plan is not directly entitled to the Medicare Part B subsidy. The Company has included the effects of the Medicare Part B subsidy in measuring its postretirement benefit obligation; therefore, the Plan's postretirement benefit obligation differs from that of the Company.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Investment Management Group determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan pays administrative expenses that consist primarily of administrative fees paid to the insurance company, the qualified institution, the actuary, and other professional fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses.

Payment of Benefits

Claim payments and premiums paid by either the Company or the VEBA trust are recorded as benefit payments in the accompanying statements of changes in net assets available for benefits when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2026, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

Certain information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2025 and 2024, and the allocated share of investment income for the years ended December 31, 2025 and 2024, with the exception of investments in partnerships (total fair value of $3,988 and $3,144 at December 31, 2025 and 2024, respectively, and total investment income (loss) of $838 and $(13,062) for the years ended December 31, 2025 and 2024, respectively, in the allocated share in the Union Master Trust), and with the exception of collateral received for securities lending (total fair value of $-0- and $2,349,138 at December 31, 2025 and 2024, respectively, in the allocated share in the Union Master Trust) was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by The Bank of New York Mellon, N.A. (qualified institution of the Plan).

NOTE 4 INTEREST IN UNION MASTER TRUST

A portion of the Plan's investments are in the Union Master Trust, which was established for the investment of assets of the Plan and several other Company sponsored plans. Each participating plan has an undivided interest in the Union Master Trust. The assets of the Union Master Trust are held by the qualified institution.

The value of the Plan's interest in the Union Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. At both December 31, 2025 and 2024, the Plan's interest in the net assets of the Union Master Trust was approximately 28%. Investment income and administrative expenses relating to the Union Master Trust are allocated to the individual plans based upon the amount of the time the plan's assets were invested in the master trust.

NOTE 4 INTEREST IN UNION MASTER TRUST (CONTINUED)

The net assets of the Union Master Trust as of December 31 were as follows:

Net Investment Income	$ 282,783,655	$ 8,312,250

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2025 and 2024.

Preferred Stocks, Registered Investment Companies, and Certain Derivative Securities: Valued using the official close (for NASDAQ only), last trade, bid or the ask offer price reported on the active market on which the individual securities are traded.

Common and Collective Trusts, 103-12 Investment Entities, and Partnerships: Valued at the net asset value (NAV) of shares held by the Plan at year-end. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Fixed Income Securities and Collateral Received for Securities Lending: Valued with an institutional bid evaluation or an institutional mid-evaluation. A bid evaluation is an estimated price at which a dealer would pay for a security (typically in an institutional round lot). A mid-evaluation is the average of the estimated price at which a dealer would sell a security and the estimated price at which a dealer would pay for a security (typically in an institutional round lot). Oftentimes, these evaluations are based on proprietary models which pricing vendors establish for these purposes. In some cases, there may be manual sources used when primary price vendors do not supply prices.

Derivatives, Except Those Traded on an Exchange: Valued using a mid-evaluation, or the average of the estimated price at which a dealer would sell a security and the estimated price at which a dealer would pay for a security (typically in an institutional round lot). Oftentimes, these evaluations are based on proprietary models which pricing vendors establish for these purposes.

Temporary Cash Investments: Valued at the investment principal plus all accrued interest.

The following is a description of the nature and risks of the classes of assets by major security type that are valued using NAV:

Commingled funds are several accounts that are blended together in order to reduce trading costs, improve diversification, and receive professional money management.

The Plan has investments in a number of commingled funds which fall into the category of common and collective trusts, 103-12 investment entities, and partnerships that are valued at NAV. These funds provide exposure to a number of different asset classes and investment strategies to help the Plan achieve its target asset allocation and risk and return objectives.

Index funds (U.S. Equity and Non-U.S. Equity) include investments that seek to match the return performance and characteristics of a specified index. The index funds are controlled by investment managers, which balance the funds to track the specified index.

Private equity funds seek to generate capital appreciation through strategic acquisitions and management of their holdings.

Other funds (High Yield Bonds) are managed to achieve income and appreciation in their primary investment holding categories.

NOTE 6 SECURITIES LENDING

The Union Master Trust was authorized to participate in the Lending Program maintained by BNY Mellon Asset Servicing, under which certain securities held by the Union Master Trust were loaned by BNY Mellon Asset Servicing, as agent, to certain brokers and other financial institutions (the Borrowers). The Borrowers provided cash, securities, or letters of credit as collateral against loans in an amount at least equal to 100% of the market value of the loaned securities. The Borrowers were required to maintain the collateral at not less than 100% of the market value of the loaned securities. At December 31, 2025 and 2024, the market value of securities loaned by the Union Master Trust of $-0- and $8,108,397, respectively, is included in the investment in Union Master Trust on the statements of net assets available for benefits. Collateral provided by the Borrowers was recorded as a reduction in the investment in Union Master Trust on the statements of net assets available for benefits and is invested as listed below.

National Grid terminated their securities lending program in December 2025 and at December 31, 2025, the Plan had no collateral loaned to borrowers.

A portion of the income generated upon investment of cash collateral was remitted to the Borrowers, and the remainder was allocated between the Plan and BNY Mellon Asset Servicing in its capacity as lending agent. Negotiated lenders' fees were received for those loans collateralized by securities or letters of credit, if any. Securities lending fee income, if any, was recorded on an accrual basis.

BNY Mellon Asset Servicing, as lending agent, indemnified the Plan for replacement of any loaned securities (or, in certain circumstances, return of equivalent cash value) due to Borrower default on a security loan. The Plan, however, bore the risk of loss with respect to the investment of collateral.

At December 31, collateral provided by the Borrowers was invested in the following:

	2024
Cash Collateral Reinvested in Cash Equivalents	$ 6,710,097
Noncash Collateral - U.S. Government Securities	1,636,693
Total	$ 8,346,790

NOTE 7 DERIVATIVE SECURITIES

The Plan's derivative contracts consist of various futures contracts and foreign currency contracts. Since all derivative instruments are held within the Union Master Trust, all are included at fair value in the allocated share in Master Trust as presented in the statements of net assets available for benefits. Changes in the fair value (i.e., gains or losses) of the derivatives are recorded in the allocated share of Master Trust net investment income in the accompanying statements of changes in net assets available for benefits.

NOTE 7 DERIVATIVE SECURITIES (CONTINUED)

Financial Futures Contracts

The Plan invests in financial futures contracts principally for the purpose of hedging its existing portfolio against adverse fluctuations in the market. Upon entering into a financial futures contract, the Plan is required to pledge to the broker an amount of cash, U.S. government securities, or other assets, equal to a certain percentage of the contract amount (initial margin deposit). Subsequent payments, known as "variation margin," are made or received by the Plan each day, depending on the daily fluctuations in the fair value of the underlying security. The Plan recognizes an unrealized gain or loss equal to the daily variation margin. Should market conditions move unexpectedly, the Plan may not achieve the anticipated benefits of the financial futures contracts and may realize a loss. The use of futures transactions involves the risk of imperfect correlation in movements in the price of futures contracts, interest rates, and the underlying hedged assets.

Swaps

The Plan invests in credit default swaps. Credit default swap contracts entered into by the Plan typically represent the exchange by the Plan with a counterparty of a commitment to provide a level of credit protection for a commitment to receive interest at a fixed rate based on the potential risk of default of the relevant underlying issuer. Providing credit protection to a counterparty tends to increase a Plan's exposure to the underlying instrument. Receiving credit protection from a counterparty tends to decrease a Plan's exposure to the underlying instrument held by a Plan, or hedge the fair value of other Plan investments. Such contracts may have a term of one to ten years, but typically require periodic interim settlement in cash. During the period that the credit default swap contract is open, the contract is marked-to-market in accordance with the terms of the contract based on the current interest rate spreads and credit risk of the referenced obligation of the underlying issuer and interest accrual through valuation date. Changes in the value of the credit default swap are recorded as unrealized gains or losses, while periodic cash settlements are recorded as realized gains or losses.

Forward Foreign Exchange Contracts

During years ended December 31, 2025 and 2024, foreign exchange transactions were processed by the Union Master Trust as part of the overall portfolio strategy.

NOTE 7 DERIVATIVE SECURITIES (CONTINUED)

Derivative securities of the Union Master Trust as of December 31, 2025, and activity for the year then ended are summarized as follows:

Type	Notional Amount	Assets	Liabilities	Gain

NOTE 8 ACCUMULATED POSTRETIREMENT BENEFIT OBLIGATIONS

The accumulated postretirement benefit obligations represents the actuarial valuation of those estimated future benefits, reduced by the actuarial present value of contributions, that are attributed to employee service rendered up through December 31, 2025 and 2024. Postretirement benefits include current and future benefits expected to be paid to or on behalf of: (1) currently retired participants, and their beneficiaries and dependents, and (2) active employees, and their beneficiaries and dependents after retirement from service with the participating Company and Employers. The amounts representing incurred but not reported claims are included in the postretirement benefit obligations for currently retired plan participants.

NOTE 8 ACCUMULATED POSTRETIREMENT BENEFIT OBLIGATIONS (CONTINUED)

The actuarial present value of expected postretirement benefit obligations is determined by an actuary. It is determined by: (1) estimating future annual incurred claims costs per participant based upon historical claims data, (2) adjusting such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment, and (3) then applying actuarial assumptions to the result. For measurement purposes, the following assumptions were used to determine the actuarial present value of the accumulated postretirement benefit obligations at December 31, 2025 and 2024. These assumptions include:

	2025	2024
Discount Rate	5.45%	5.65%
Health Care Cost Trend Rate:		
Pre-65 Medical - Near-Term	6.00%	6.00%
Post-65 Medical - Near-Term	5.00%	5.00%
Prescription - Near-Term	9.00%	9.00%
Mortality	Pri.A-2012 with Blue Collar adjustments projected with scale MP2015	Pri.A-2012 with Blue Collar adjustments projected with scale MP2015

For Local 1049 and Local 1381, normal retirement age is 65 with actual retirements assumed to vary from 55 to 70. Employees are eligible to retire at age 55 with 10 years of benefit service with postretirement medical and life insurance benefits. The healthcare cost trend rate is expected to decrease to 4.50% by 2036 for pre-65 medical, post-65 medical, and prescription drug costs for both 2025 and 2024. The average salary increase rate is expected to range from 0.75% to 11.25% depending on the years of service and group to which participants belong for both 2025 and 2024.

For the year ended December 31, 2024, changes in assumptions include updates to Employer Group Waiver Plans (EGWP) subsidy expectations to reflect the impact of Centers for Medicare & Medicaid Services updates.

The foregoing assumptions are based on the presumption that the Plan will continue indefinitely. Should the Plan terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated postretirement benefit obligations.

Health insurance and life insurance costs incurred by participants, and their beneficiaries and dependents are either self-insured or covered through contracts maintained by the Company with various insurance carriers. It is the present intention of the Company and the Plan to continue contracting for the provision of benefits. Insurance premiums and claims, as applicable, for future years related to the Plan’s postretirement benefit obligations will be funded by Company contributions to the Plan in those later years.

NOTE 8 ACCUMULATED POSTRETIREMENT BENEFIT OBLIGATIONS (CONTINUED)

The health care cost trend rate assumption has a significant effect on the amounts reported in the accompanying financial statements. If the health care cost trend rate were increased by 1%, the accumulated postretirement benefit obligation as of December 31, 2025 and 2024, would increase by $61,989,077 and $49,091,611, respectively.

NOTE 9 TAX STATUS

The VEBA trusts funding certain benefits of the Plan received an exemption letter from the IRS dated October 18, 1999, for the Union Master Trust, stating that the trust is tax-exempt under the provisions of Section 501(c)(9) of the IRC. However, as a result of the Plan's funding policy, from time to time the trust may be subject to income taxes.

In addition, the Plan and trust are required to operate in conformity with the IRC to maintain the tax-exempt status of the trust. The Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 PLAN TERMINATION

The Company has the right to amend, in whole or in part, any or all of the provisions of the Plan at any time. No modification or amendment shall divest an employee of a right to which he or she is entitled under the Plan. Additionally, the Company also retains the right to terminate the Plan at any time, although it has no intention to do so. Upon such termination of the Plan, the assets will be used to pay claims and expenses until exhausted. No assets will revert to the Company.

NOTE 11 PARTY-IN-INTEREST TRANSACTIONS

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Accordingly, investments in common collective trust funds wholly or partially managed by The Bank of New York Mellon, N.A., as qualified institution of the Plan, are considered party-in-interest transactions. The master trust paid fees to the qualified institution during 2025 and 2024, a portion of which was allocated to the Plan and included in administrative expense reported on the statements of changes in net assets available for benefits.

NOTE 12 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

NOTE 13 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the Plan's financial statements to Form 5500 as of December 31:

	2025	2024
Net Assets Available for Benefits per the Financial Statements	$ 789,196,212	$ 732,873,127
Claims Payable	(1,394,029)	(433,510)
Net Assets Available for Benefits per the Form 5500	$ 787,802,183	$ 732,439,617

The following is a reconciliation of the change in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31:

	2025	2024
Change in Net Assets Available for Benefits per the Financial Statements	$ 56,323,085	$ 5,888,134
Add: Claims Payable at Beginning of Year	433,510	1,436,794
Less: Claims Payable at End of Year	(1,394,029)	(433,510)
Change in Net Assets Available for Benefits per Form 5500	$ 55,362,566	$ 6,891,418

Claims are recorded when paid on the financial statements and are recorded when due on the Form 5500.
