Independent Auditor's Report

To the Plan Administrator of Valmet, Inc. Defined Benefit Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Valmet, Inc. Defined Benefit Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Valmet, Inc. Defined Benefit Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Valmet, Inc. Defined Benefit Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Valmet, Inc. Defined Benefit Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Valmet, Inc. Defined Benefit Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Valmet, Inc. Defined Benefit Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

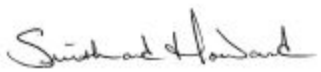

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4i - Schedule of Assets (Held at End of Year), and Schedule H, Line 4j - Schedule of Reportable Transactions as of or for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Valmet, Inc. Defined Benefit Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan established effective August 1, 1978, as restated January 1, 2015. Prior to the plan freeze, the Plan covered certain non-bargaining employees of Valmet, Inc. (the Company). The Plan was amended to restrict any new employees from entering the Plan after January 1, 2003. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan Committee is responsible for oversight of the Plan. The Plan's investment committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Funding policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were exceeded in 2025. Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Pension benefits

Plan participants are entitled to their plan benefits after terminating employment with vested rights. Participants become vested in the Plan upon completion of at least five years of service or attainment of the normal retirement age (65), although the Plan does allow for early retirement at the age of 55. If employees terminate before rendering the required years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions. Upon becoming vested, participants are entitled to 1.1% of the their average monthly compensation multiplied by their total number of years of service (up to a maximum of 40 years), plus 0.4% of the their average monthly compensation in excess of one-twelfth of covered compensation multiplied by their total number of years of service (up to a maximum of 40 years). Upon termination of employment, pension payments are normally paid in the form of a monthly annuity payable for their lifetime or, if married, in the form of a qualified joint or survivor annuity.

If an active employee dies before retirement, a death benefit is paid to the employee's beneficiary. The Plan does not provide for disability benefits.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statement of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation (depreciation) in fair value of investments in the statement of changes in net assets available for benefits.

2. Summary of Accounting Policies (Continued)

Subsequent Events

Subsequent events were evaluated through October 8, 2026, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2026 and 2025. Had the valuations been performed as of December 31, there would be no material differences. The significant actuarial assumptions used in the valuations were:

Assumption	January 1, 2026	January 1, 2025
Discount rate	6.25%	6.25%
Mortality	Pri-2012 Total Dataset, projected with Scale MP-2021	Pri-2012 Total Dataset, projected with Scale MP-2021
Retirement age	55-70	55-70

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024.

Money market funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

4. Fair Value Measurements (Continued)

Common-collective trusts: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common-collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

Assets at Fair Value as of December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Money market funds	$ 1,798,211	$ -	$ -	$ 1,798,211
Mutual funds	13,966,126	-	-	13,966,126
Total assets in the fair value hierarchy	15,764,337	-	-	15,764,337
Common-collective trusts (a)	-	-	-	136,176,045
Total investments at fair value	$15,764,337	$ -	$ -	$151,940,382

Assets at Fair Value as of December 31, 2024	**Level 1**	**Level 2**	**Level 3**	**Total**
Money market funds	$ 825,978	$ -	$ -	$ 825,978
Mutual funds	25,396,850	-	-	25,396,850
Total assets in the fair value hierarchy	26,222,828	-	-	26,222,828
Common-collective trusts (a)	-	-	-	116,733,154
Total investments at fair value	$26,222,828	$ -	$ -	$142,955,982

(a) In accordance with FASB ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

4. Fair Value Measurements (Continued)

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2025 and 2024. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

5. Information Certified by Custodian

The plan administrator has elected to have an audit performed pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, certain information in the Plan’s financial statements and supplemental schedules was agreed to or derived from information certified as complete and accurate by Principal Bank, the Plan's Custodian and a qualified institution. The certified information includes the Plan's investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, and the accompanying supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, and the related investment activity (including net appreciation/depreciation, interest, and dividends) reported in the accompanying Statement of Changes in Net Assets Available for Benefits and the information reported in the accompanying supplemental Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2025.

6. Related-Party and Party In Interest Transactions

The Plan's investments are administered under a contract with Principal Bank, the Custodian of the Plan. Contributions are held and managed by Principal Bank, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits , early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8. Tax Status

The IRS has determined and informed the Company by a letter dated June 13, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Appendix B
Statement of Actuarial Assumptions and Methods

Minimum Funding Annual Interest Rates

24-month segment rates averaged through the end of August 2024 and published in September 2024 (as prescribed by IRC 430) and adjusted to reflect ARPA:

- Segment 1 (0 – 5 years) 5.07%
- Segment 2 (5 to 20 years) 5.31%
- Segment 3 (more than 20 years) 5.50%
- Effective Interest Rate 5.35%

Maximum Deductible Annual Interest Rates

24-month segment rates averaged through the end of August 2024 and published in September 2024 (as prescribed by IRC 430) as follows:

Segment 1 (0 – 5 years)	5.07%
Segment 2 (5 to 20 years)	5.33%
Segment 3 (more than 20 years)	5.36%
Effective Interest Rate	5.32%

Annual Expected Return on Assets

Interest Rate for developing Actuarial Value of Assets:
limited to third segment rate of 5.59% 6.25%

Rationale: Selected by the Plan Sponsor, with input from the investment advisor, based on the plan investment mix.

PBGC Annual Interest Rates

Segment rates published in January 2025 using the Standard Method (as prescribed by IRC 430) as follows:

- Segment 1 (0 – 5 years) 4.65%
- Segment 2 (5 to 20 years) 5.28%
- Segment 3 (more than 20 years) 5.63%
- Effective Interest Rate 5.34%

Salary Scale

Future base pays (pays excluding bonuses) are projected to increase 2.75% each year and 3% bonuses are assumed in future years. For accrued benefits actual individual pay histories have been used with missing years filled in using 2.75%.

Rationale: Based on review of actual historical increases and bonuses that was done in 2018 to satisfy ASOP 35.

Appendix B (Continued)

Mortality

Healthy: Funding Target – IRS Mortality tables for 2025, as described in Notice 2024-42, based on Pri-2012 tables and projected generationally with adjusted Scale MP-2021, male and female, with different rates for annuitants and nonannuitants (as prescribed by IRC 430).

Disabled: Funding Target – IRS Mortality tables for 2025, as described in Notice 2024-42, based on Pri-2012 tables and projected generationally with adjusted Scale MP-2021, male and female, with different rates for annuitants and nonannuitants (as prescribed by IRC 430).

Rates of Retirement

Age(s)	Rate
55-57	5%
58-60	15
61	10
62-63	25
64	40
65-69	50
70	100

Weighted Average Retirement Age is 63.98. This is the average retirement age for someone eligible to retire at all ages using the assumed retirement rates and no other decrements.

Terminated vested participants who had at least 10 years of company service at termination are assumed to commence payments at the later of the valuation date and age 62. All other terminated vested participants are assumed to commence at the later of age 65 and the valuation date.
Rationale: Based on review of actual retirement ages done in 2018 to satisfy ASOP 35.

Rates of Disability

None.

Rates of Turnover

Based on age only as follows because all active participants have at least 5 years of service:

Age	Rate
20	23.70%
25	11.00
35	4.70
40	4.70
45	4.70
55	4.70

Appendix B (Continued)

Assumptions Made In Valuing Spouse's Benefit

Eighty-five percent of the male and fifty percent of the female employees included in the valuation are assumed to be married. These percentages are used as the probabilities that survivor benefits will be payable due to preretirement deaths. The wife is assumed to be three years younger than the husband.

Optional Form Election

All employees are assumed to elect the life annuity benefit.

Annual Increases to Maximum Benefits and Plan Compensation Limits

0.00%

Annual Increases to Social Security

Taxable Wage Base	Cost of Living Index	Average Earnings
2.00%	2.00%	3.00%

Provision for Expenses

Plan expenses expected to be paid from the trust were added to the Target Normal Cost. It was assumed that the expenses would equal actual expenses from the prior year.

Standing Elections

There is no current election that provides for the automatic use of the Carryover and/or Prefunding Balance if necessary at the end of the plan year to meet the minimum funding requirement nor to automatically increase the Prefunding Balance with excess contributions.

Asset Method

Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.

Employees Valued

Only participants as of the valuation date were valued.

Appendix B (Continued)

Changes in Assumptions and Methods since the Last Actuarial Valuation

The segmented interest rates used for determining the funding target were updated to the rates required for the current plan year and adjusted as allowed by ARPA.

The mortality table for the funding target was changed as required under PPA '06.

Justification for Changes in Actuarial Assumptions

Assumption changes other than the prescribed assumptions were made to better anticipate future experience and to comply with ASOP 35. We believe that no approval is required for these changes because liabilities did not decrease as a result of these changes.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Appendix A
Summary of Principal Plan Provisions

Plan Sponsor	Valmet, Inc.
EIN/PN	56-1508400/333
Effective Date and History	January 1, 1996; as a merger of plans covering employees of, primarily the Appleton, Charlotte, and Honeycomb Divisions, which plans were effective January 1, 1989, January 1, 1978 and January 1, 1990 respectively. The plan effective December 31, 1951 covering employees of the Hudson Falls Division was merged into this plan as of December 31, 1996. The plan name was changed effective January 1, 2014 from Metso Paper USA, Inc. Retirement Plan.
Plan Year	The 12-month period beginning each January 1.
Participation	All employees become participants on the January 1 or July 1 coincident with or next following attainment of age 21. Participation with respect to new entrants was frozen effective June 1, 2003. Rehired participants are not eligible to accrue benefits if they terminated after June 1, 2003.
Compensation	Total wages, salary, bonuses, commissions, and overtime pay, as limited by IRC Section 401(a)(17).
Average Monthly Compensation	1/60th of Compensation for the highest 60 consecutive months of employment.
Social Security Covered Compensation	The average of the Social Security Maximum Taxable Wage Bases for the 35-year period ending with the year in which Social Security Retirement Age is attained. Social Security Retirement Age is 65 for employees born before 1938, 67 for those born after 1954, and 66 for those born in between.
Company Service	One year of company service is earned for each employment year in which 1,000 hours are worked.
Credited Service	One year of Credited Service is granted for each Plan Year during any part of which an employee was a Participant; however, no Credited Service is granted prior to the following dates:

Employees of	Earliest Credited Service Date
Appleton Division	October 1, 1984
Enerdry Division	January 1, 1995
Honeycomb Division	January 1, 1989

Appendix A (Continued)

Accrued Benefit

A monthly life annuity starting at Normal Retirement Date equal to 1.1% of Average Monthly Compensation plus .4% of Average Monthly Compensation in excess of Covered Compensation multiplied by the number of years of Credited Service up to 40.

If a participant in the Valmet-Appleton, Incorporated Retirement Plan elected not to transfer his account balance under that Plan to the successor Plan as of December 31, 1988, his accrued Benefit is reduced by the annualized equivalent of said account balance.

The reduction factor for the 50% Joint and Survivor Annuity form of payment is 93% in the case of a spouse whose age is not more than five years different from that of the employee, actuarially adjusted for a greater age difference.

Normal Retirement Benefit

Eligibility:

Age 65 and 5 years of participation.

Monthly Benefit:

The Accrued Benefit.

Late Retirement Benefit

Eligibility:

Past Age 65 and 5 years of participation.

Monthly Benefit:
The Accrued Benefit at actual retirement date or, if greater, the Accrued Benefit at Normal Retirement Date increased by 6% to, and adjusted for decreased life expectancy at, actual retirement date.

Early Retirement Benefit

Eligibility:

Age 55 and 10 years of Company Service.

Monthly Benefit:

The Accrued Benefit reduced by 5% for each year, if any, by which Early Retirement precedes age 62.

Appendix A (Continued)

Termination Benefit	*Eligibility:* Termination of employment prior to retirement after completion of at least five years of Company Service. *Monthly Benefit:* The accrued benefit commences in full at Normal Retirement Date, or in a reduced amount at age 60. If the participant had 10 years of Company Service, he may elect a reduced amount any time after attainment of age 55. If the participant had 10 years of Company Service, the reduction is 5% for each year by which commencement precedes age 62, otherwise the reduction is from normal retirement date.
Death Benefit	*Eligibility:* Vested active or former participant and married for at least one year. *Monthly Benefit:* A monthly benefit for life commencing at the time the participant would have been eligible for retirement. The benefit is equal to 50% of the benefit vested on the date of death, adjusted as appropriate for early commencement and the 50% Joint and Survivor Annuity form of payment. If an active participant dies after attainment of age 50 and completion of 10 years of Company Service, or after attainment of age 60, his surviving spouse shall receive a monthly benefit for life equal to the greater of the above benefit or 50% of his Accrued Benefit actuarially reduced for spouses more than 5 years younger than participants.
Maximum Benefit Limit	The Internal Revenue Code Section 415 Maximum Benefits at Social Security Normal Retirement Age.
Plan Compensation Limit	The Section 401(a)(17) Maximum Compensation that can be recognized for benefit calculation purposes.
Benefits Available as Lump Sums	This plan pays only small benefit amounts (lump sums less than $5,000).
Top-Heavy Provisions	Special provisions relating to minimum benefits, vesting, etc. under IRC Section 416 will automatically become effective should the Plan become top-heavy.
Funding of Plan	The employer pays the entire cost of the Plan.

Appendix A (Continued)

Optional Forms of Payment	10 Year Certain & Continuous 50% Joint & Survivor 75% Joint & Survivor 100% Joint & Survivor The Joint & Survivor 50% factor is equal to 93% of the life annuity provided the beneficiary is the spouse, and the age difference is five years or less. The other forms of payment are calculated using UP 84 mortality and 8% interest. The beneficiary of the Joint & Survivor options does not have to be the spouse, assuming the spouse appropriately waives the benefit and subject to regulatory limits.
Changes in Plan Provisions	The automatic changes, if any, in the plan compensation limit and maximum benefit limit were recognized. The $330,000 pay cap and the $265,000 benefit limit were recognized for 2024.
