INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of Medical Extrusion Technologies, Inc. Defined Benefit Plan

Opinion

We have audited the financial statements of Medical Extrusion Technologies, Inc. Defined Benefit Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Medical Extrusion Technologies, Inc. Defined Benefit Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with the liquidation basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Medical Extrusion Technologies, Inc. Defined Benefit Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the liquidation basis of accounting, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Medical Extrusion Technologies, Inc. Defined Benefit Plan's ability to continue as a going concern for the year ended December 31, 2025.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with

respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Medical Extrusion Technologies, Inc. Defined Benefit Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Medical Extrusion Technologies, Inc. Defined Benefit Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

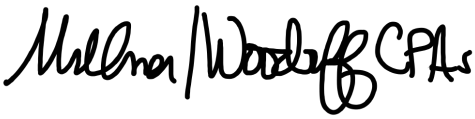

Other Matter—Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) – liquidation basis are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information

required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MEDICAL EXTRUSION TECHNOLOGIES, INC. DEFINED BENEFIT PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Medical Extrusion Technologies, Inc. Defined Benefit Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a traditional defined benefit plan and is intended to qualify as a tax-exempt defined pension plan under Code section 401(a). The plan is intended to cover all employees of Medical Extrusion Technologies, Inc., who are of the age of 21 or older and employed for at least two years of service. Note, one year of service is defined as 1,000 hours during the Plan Year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's Investment Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investments and monitors investment performance.

Contributions

For 2025, all contributions are made by the employer based on the defined pension formula and groups of participants.

Vesting

Participants are 100% vested in the pension benefits of the defined benefit plan at two years of service.

Payment of Benefits

On termination of service due to retirement, a participant will receive payment of his or her vested account balance based on the actuarial equivalent of the vested accrued benefit payable. If termination of service is due to death, the participant will receive the vested present value of the accrued benefit, plus any life insurance proceeds less the cash surrender value.

Forfeited Accounts

During 2025 and 2024, forfeited nonvested accounts totaled $0 respectively.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared in accordance with the liquidation basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("GAAP") and that is permitted by the Department of Labor. The liquidation basis of accounting differs from GAAP in that the entity will cease operations and liquidate its assets to settle liabilities as soon as it is administratively feasible (usually within one year after plan termination).

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of any contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

2. SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Payments of Benefits
Benefits are recorded when paid.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded when received. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participant's account and are included in amounts reported on the statement of changes in net assets available for benefits as a deduction for fees.

3. FAIR VALUE MEASUREMENTS

The Plan's investments are recorded at fair value in the accompanying statement of net assets, except for the fully benefit-responsive investment contract, which is reported at contract value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

3. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024. As of December 31, 2025 all assets are held in cash and cash equivalents.

Mutual Funds
Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

December 31, 2024 Market Value Measurements Using (Unaudited)

	Quoted Prices in Active markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 6,838,165	$ -	$ -

There are no plan assets requiring the use of Level 3 inputs for the periods presented.

4. INFORMATION PREPARED BY PLAN TRUSTEE

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends, and interest from participants for the year ended December 31, 2025, was obtained by management and tested during our audit procedures. No information provided by the plan trustee was certified as of December 31, 2025 and 2024.

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared by the Trustee and tested through our audit procedures. As of December 31, 2025 all assets are held in cash and cash equivalents.:

	2025	2024
Investments, at fair market value	$ 1,461,370	$ 6,838,165
Net appreciation in fair value	$ -	$ 146,734

5. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the Trustee. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included on the statement of changes in net assets available for benefits – liquidation basis.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect a participant's account balance and the amounts reported in the statement of net assets available for benefits - liquidation basis.

7. PLAN TERMINATION

The Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. As of December 31, 2025 the Plan has been terminated by the Sponsor and has begun the process of distributing assets from the plan as soon as it is administratively feasible. Further, as of June 22, 2026 the Sponsor has received notice from the Pension Benefit Guaranty Corporation ("PBGC") confirming that they have received Form 501 "Post Distribution Certification" for Medical Extrusion Technologies, Inc. Defined Benefit Plan to terminate the pension plan.

8. TAX STATUS

The Plan has not recognized a tax liability for any uncertain position that would be categorized as more likely than not to be disallowed upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE HOF FORM 5500

The following is a reconciliation of net income per the financial statements to Schedule H of Form 5500:

	2025	2024
Net income per the financial statements	$ (5,376,795)	$ 596,690
Adjustment for prior year employer receivables	-	(658,856)
Net income per schedule H of Form 5500	$ (5,376,795)	$ (62,166)

As the financial statements of the Plan are prepared in accordance with the liquidation basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("GAAP") and is permitted by the Department of Labor we have excluded receivable balances as of year-end, thus requiring a reconciliation for differences.

The differences within Part II of Schedule H (Income and Expense Statement) originate from the election to present the employer contributions and receivables on an accrual basis instead of a liquidation basis which only includes contributions received as allowed per the instructions.

10. SUBSEQUENT EVENTS

The Plan Sponsor has evaluated subsequent events through October 12, 2026, the date the financial statements were available to be issued.
