Independent Auditor's Report

Participants and Plan Administrator
A-1 Global Holdings ESOP Plan and Trust
Jacksonville, Florida

Opinion

We have audited the financial statements of A-1 Global Holdings ESOP Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements ("financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of A-1 Global Holdings ESOP Plan and Trust as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of A-1 Global Holdings ESOP Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about A-1 Global Holdings ESOP Plan and Trust's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of A-1 Global Holdings ESOP Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about A-1 Global Holdings ESOP Plan and Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of Plan

The following description of the A-1 Global Holdings ESOP Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

A-1 Industries of Florida, Inc. (the "Company") established the Plan effective as of January 1, 2023. The Plan operates as an employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan purchased Company common shares using the proceeds of borrowings from the Company, and holds the stock in the A-1 Global Holdings ESOP Plan and Trust ("The Trust") established under the Plan. The borrowing is to be repaid by fully deductible Company contributions to the Trust. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of stock. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with rights in allocated stock ("Allocated"), and

2. Stock not yet allocated to employees ("Unallocated").

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service, provided they worked at least 1,000 hours during such Plan year and have attained the age of 18. Participants who do not meet the eligibility requirements or are not employed on the last working day of the year are generally not eligible for an allocation of the Company contributions for such year unless employment is terminated on account of retirement, death, or disability in such year.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested account. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive a share allocation. Share allocations are based on the number of units earned by each participant during the year relative to the total units to all participants. All eligible employees receive three units for every $1,000 of eligible compensation and thirteen units for each year of service.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends, if any, and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. In addition, the Company may make contributions of shares or cash to the Plan. Employee contributions are not permitted.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. An eligible participant is 20% vested after two years of credited service; vesting increases 20% each year for each of the next four years until 100% vesting is achieved after six years of credited service.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), becomes permanently disabled, or otherwise terminates employment with the Company. Distributions are made in cash or in shares of Company stock that must be immediately repurchased by the Company for cash. For the year ended December 31, 2025, there were no distributions to participants.

Distributions to terminated participants will commence no later than the last day of the Plan year following the Plan year in which the termination occurs and shall be completely distributed within five years. If the vested account balance is $5,000 or less, the participant will receive a mandatory single lump payment. If the vested account balance exceeds $5,000, the participant may elect to be paid out either in a single lump-sum payment or in installments over a period of not more than the participants assumed life expectancy.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account under certain specified circumstances and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Plan Termination

The Company reserves the right to terminate or amend the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the interest of each participant in the Trust will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Plan Administrator shall direct the trustee to pay all liabilities and expenses of the Trust and to sell shares of financed stock held in the loan suspense account, if any, to the extent it determines such sale to be necessary in order to repay the loan.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants that is not readily tradable on an established market, or is subject to trading limitations, is required to include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure the participants have the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth Plan Year, the participant may diversify up to 50%.

Forfeitures

Company contributions and Plan forfeitures are allocated to each participant's account based on the number of units earned by each participant during the year relative to the total units to all participants. Non-vested shares are not considered to be forfeited by the participant until after a 5-year break in service. After the break in service requirement is met, the non-vested shares shall be allocated to remaining eligible participants. During the year ended December 31, 2025, the Company allocated 15,817 shares to remaining eligible participants, and 5,117 shares were reinstated for rehires.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividends are recorded on the payment date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded upon distribution.

Subsequent Events

The Plan has evaluated subsequent events through September 28, 2026, the date the financial statements were available to be issued.

Note 3. Investments

The Plan's investments in Company common stock are as follows at December 31, 2025 and 2024:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	517,440	1,332,560	335,218	1,514,782
Cost	$ 3,636,102	$ 9,363,898	$ 2,355,575	$ 10,644,425
Fair value	$ 2,080,110	$ 5,356,890	$ 2,527,542	$ 11,421,458

Note 4. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1 Observable inputs such as quoted prices in active markets.

Level 2 Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3 Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at December 31, 2025 and 2024. The following is a description of the valuation methodologies used for assets measured at fair value.

Common Stock
The fair value of the Company common stock is determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation approaches. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparables, and applicable discounts.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	December 31, 2025			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Company common stock	$ 7,437,000	$ -	$ -	$ 7,437,000

	December 31, 2024			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Company common stock	$ 13,949,000	$ -	$ -	$ 13,949,000

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Administration of Plan Assets

The Plan's assets, which consist of Company common shares, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The trustee also administers the payment of interest and principal of the loan, if any, which is reimbursed to the trustee through contribution as determined by the Company.

Note 6. Loan Payable

In 2023, the Plan purchased 1,850,000 Company common shares for $13,000,000. The Plan financed this purchase through a note agreement with the Company. The loan agreement provides for the loan to be repaid over 15 years. The loan bears interest at the rate of 3.86%. The loan balance was $9,612,800 and $10,843,672 at December 31, 2025 and 2024, respectively.

The schedule of amortization of the loans for the next five years and thereafter is as follows:

2026	$ 801,067
2027	801,067
2028	801,067
2029	801,067
2030	801,067
Thereafter	5,607,465
Total	$ 9,612,800

Note 7. Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loans. The Company contributed $1,291,276 to the Plan for 2025, which relates to loan payments. In addition, the Company also contributed $391,631 to the Plan in 2025, which relates to additional loan payments.

Note 8. Tax Status

The Internal Revenue Service ("IRS") has informed the Company by letter dated September 15, 2023, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Related Party Transactions

The Plan invests in Company common stock which is a related party and party-in-interest transaction.

Note 10. Risks and Uncertainties

The Plan invests in shares of the Company's common stock. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
