Independent Auditor's Report

To the Plan Administrator of The Consolidated Edison Long Term Disability Plan for Weekly Employees

Opinion

We have audited the financial statements of The Consolidated Edison Long Term Disability Plan for Weekly Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits and of benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and benefit obligations of The Consolidated Edison Long Term Disability Plan for Weekly Employees as of December 31, 2025 and 2024, and the changes in its net assets available for benefits and benefit obligations for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Consolidated Edison Long Term Disability Plan for Weekly Employees and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Consolidated Edison Long Term Disability Plan for Weekly Employees's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Consolidated Edison Long Term Disability Plan for Weekly Employees's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Consolidated Edison Long Term Disability Plan for Weekly Employees's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental, we evaluated whether the supplemental, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

The following description of The Consolidated Edison Long Term Disability Plan for Weekly Employees (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Under the terms of collective bargaining agreements with Local 1-2, Utility Workers' Union of America, AFL-CIO ("Local 1-2") and Local 3, International Brotherhood of Electrical Workers, AFL-CIO ("Local 3") (collectively, the "Unions"), Consolidated Edison Company of New York, Inc. (the "Company") established the Plan. Employees who are members of Local 1-2 or of Local 3 ("Eligible Employees") are eligible to participate. The Plan is designed to provide basic income continuation protection for all participants who become disabled, as defined in the Plan. The basic income benefit does not require an employee contribution. Eligible employees may elect to purchase additional income protection for which the employee contributes. The Plan is administered for the Company by the Metropolitan Life Insurance Company ("MetLife") pursuant to an Administrative Services Agreement with the Company.

The Plan is an employee welfare benefit plan under the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is funded through a Trust known as a Voluntary Employees' Beneficiary Association ("VEBA") within the meaning of Section 501(c)(9) of the Internal Revenue Code of 1986, as amended (the "Code").

All Plan assets are held for investment by the trustee, Bank of New York Mellon. Mellon Investments Corporation directs the investments and, as such, is the Investment Manager as that term is defined in ERISA Section 3(38). These assets are invested by Mellon Investments Corporation in a commingled fund consisting of common stocks and cash equivalents.

Eligibility

An employee becomes eligible to participate in the Plan after completion of three months of service with the Company. A participant who is completely unable to perform his or her job as determined by the Company will receive income replacement for the first 24 months of disability. Thereafter, to continue to receive benefits, the participant must be disabled as determined under the Social Security Act and any applicable regulations.

Benefits

The Plan benefits begin for a participant on the later of the date his or her total Company sick pay benefits negotiated with the Unions are exhausted, or after 26 weeks. The minimum and maximum amount of monthly disability income and the income offsets change from time to time, subject to the collective bargaining process. The maximum monthly disability benefit is $3,500 for members of Local 1-2 who become totally disabled on or after January 1, 2005 and for members of Local 3 who become totally disabled on or after January 1, 2006. In general, unless otherwise explicitly set forth below, the Plan benefits are offset by other income benefits paid or payable from Social Security, workers' compensation, occupational disease law including third-party settlements, any other governmental, disability or benefit law, any motor vehicle no-fault insurance law, any other disability benefits from a group insurance plan and any pension benefits provided by the Company. For retroactive offsets, the Plan may adjust future benefit payments for affected participants still receiving benefits under the Plan. Such adjustments are reflected as a reduction of the Plan's benefit obligations in determining the actuarial present value of long-term disability benefits.

Plan benefits are payable until age 65 if the disability commences before reaching age 60. If the disability begins on or after age 60 but before turning 70, benefits will be paid for five years but not for more than 12 months after age 70. If the disability begins on or after age 70, but prior to age 75, the participant is eligible for 12 months of benefits. If the disability begins on or after age 75, benefits will be paid for 6 months.

Funding Policy and Contributions

For 2025 and 2024, participating employees who are members of Local 1-2 and Local 3 contributed $0.60 for each $100 of covered weekly wages, as defined in the Plan. The Company's funding policy for the Plan is to contribute an actuarially determined amount for each $100 of covered weekly wages, as defined in the Plan, sufficient, after taking into account employee contributions and investment income, to provide for Plan expenses, long-term disability benefits, and claims incurred, including those not yet reported. To the extent that the Plan's assets were not sufficient to pay Plan benefits and expenses, the Company would have an obligation to pay the benefits and expenses out of its general assets. Contributions are recorded on an accrual basis. No Company contributions were required for 2025 and 2024.

Plan Termination

Although it has not expressed any intention of doing so, the Company has the right under the Plan to modify the benefits provided to, and contributions required of, participants, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, remaining assets will be applied in a uniform and nondiscriminatory manner toward the provision of benefits for or on account of the participants. No assets of the Plan may revert to the Company or be used for purposes other than for the exclusive benefit of the Plan's participants.

2. Summary of Significant Accounting Policies

Accounting Basis

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's valuation policies and procedures are approved by management of the Plan Sponsor. See Note 7 for a discussion of fair value measurements.

Security transactions are recorded on a trade-date basis. Interest income is accrued as earned and expenses are recorded when incurred. Investments in common collective trust funds are stated at estimated fair values, which have been determined based on unit values of the funds. Unit values are determined by Mellon Capital Management, the sponsor of such funds, by dividing the fund's net assets at fair value by its units outstanding on the valuation dates. The Plan presents the net appreciation in the fair value of its investments in the statements of changes in net assets available for benefits, which consist of the realized gains or (losses) and the unrealized appreciation or (depreciation) on those investments.

Dividend income is recorded on the ex-dividend date.

Contributions
General employer contributions and employee contributions are recorded on an accrual basis. As of December 31, 2025, the Statement of Net Assets Available for Benefits included a payable to the Plan Sponsor of $192,909 related to a final reconciliation of 2025 contributions, which amount was paid to the Plan Sponsor in 2026.

Payment of Benefits
Benefit payments to participants are recorded when paid.

Administrative Expenses
Administrative expenses associated with the administration of the Plan and benefits provided to future and current retirees are paid through the Trust by the Plan. If, in accordance with the applicable law, the expenses cannot be paid out of Trust funds, such expenses will be paid by the Company.

Concentrations of Credit Risk
Financial instruments which potentially subject the Plan to concentrations of credit risk consist primarily of cash. The Plan maintains its cash with high-credit quality financial institutions. At times, such amounts may exceed federally insured limits.

Subsequent Events
The Plan has evaluated subsequent events through October 6, 2026 which is the date the financial statements were available to be issued.

3. Risks and Uncertainties

In general, investment securities, such as common collective trust funds and money market mutual funds, that the Plan invests in are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, healthcare inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

4. Transactions with Parties-in-Interest

Plan assets in the VEBA Trust are invested in money market mutual funds managed by BNY Mellon Investment Adviser, Inc., an affiliate of BNY Mellon, and therefore, transactions in such investments qualify as party-in-interest transactions which are exempt from ERISA's prohibited transaction rules. Fees paid to the parties-in-interest while serving as trustee for the years ended December 31, 2025 and 2024 are $20,505 and $21,833, respectively.

5. Actuarial Present Value of Plan Obligations

Plan obligations for claims incurred by participants but not reported and for future disability payments to participants receiving benefits are estimated by the Plan's actuary in accordance with accepted actuarial principles. Plan obligations as of December 31, 2025 and 2024 represent the actuarial present value of the future benefits for disabilities incurred up to that date, net of Social Security and workers' compensation benefits, reduced by the actuarial present value of future contributions expected to be received from current participants.

The following were other significant assumptions used in the valuations as of December 31, 2025 and 2024:

	2025	2024
Weighted average discount rate	4.65%	5.25%
Expected long-term return on assets	7.45%	8.20%
Expense load	15.20%	15.20%

In calculating the Plan obligations, consideration is also given to the age of the claimant, the maximum benefit period under the Plan and the likelihood of being approved for Social Security benefits. The assumed approval rate for Social Security benefits used in the valuation was 90% for both 2025 and 2024. The actuarial valuation assumes that 35% of the future disabled employees who are eligible to receive an immediate pension will defer commencement of their pension benefits for both 2025 and 2024.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

6. Claims Incurred But Not Reported

Plan obligations at December 31 for claims incurred but not reported are estimated by the Plan's actuary in accordance with accepted actuarial principles based on claims data provided by the Plan's third-party claims administrators. These amounts are paid by the Plan only if claims are submitted and approved for payment.

7. Fair Value Measurements

Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The Plan classifies fair value balances based on the fair value hierarchy defined as follows:

• Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

• Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets in inactive markets; inputs other than quoted prices that are observable for the assets or liabilities; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

• Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investment Valuation
Following is a description of the valuation methodologies used for assets measured at fair value:

Common collective trust funds: Valued at the net asset value (“NAV”) of units of a bank collective trust. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Plan transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Money market mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no material changes in the methodologies used at December 31, 2025 and 2024.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Fair Value Measurement as of December 31, 2025		
Asset Category	**Total**	**Level 1**	**Level 2**
Common collective trust funds	$ 75,499,680	$ —	$ 75,499,680
Money market mutual funds	628,040	628,040	—
Investments at fair value	**$ 76,127,720**	**$ 628,040**	**$ 75,499,680**

	Fair Value Measurement as of December 31, 2024		
Asset Category	**Total**	**Level 1**	**Level 2**
Common collective trust funds	$ 63,122,338	$ —	$ 63,122,338
Money market mutual funds	577,302	577,302	—
Investments at fair value	**$ 63,699,640**	**$ 577,302**	**$ 63,122,338**

8. Tax Status

The Internal Revenue Service ("IRS") has determined by letter dated August 1, 1986 that the Trust constitutes a VEBA and is exempt from Federal income tax pursuant to Section 501(c) (9) of the Code. A new determination letter has not since been requested. The Company believes that the Plan, as subsequently amended, continues to be tax-exempt under the Code. Therefore, the Trust's net investment income is exempt from income taxes. The Trust is not subject to a tax on its business taxable income under Section 511 of the Code because the reserves of a collectively bargained welfare benefit fund are treated as not exceeding the limits that result in unrealized business taxable income. The Company believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require management of the Plan Sponsor to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
