Independent Auditor's Report

To the Retirement Planning Committee of the
Park Community Credit Union Cash Balance Defined Benefit Plan and Trust
Louisville, Kentucky

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the **Park Community Credit Union Cash Balance Defined Benefit Plan and Trust** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ["ERISA Section 103(a)(3)(C) audit"]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information as described in Note 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

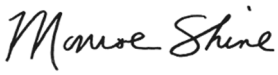

The supplemental schedules of assets (held at end of year) and reportable transactions as of and for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) DESCRIPTION OF PLAN

The following description of the **Park Community Credit Union Cash Balance Defined Benefit Plan and Trust** (the "Plan") provides only general information. Participants should refer to the plan document and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan established by Park Federal Credit Union d/b/a Park Community Credit Union (the "Organization") effective as of March 1, 1973, covering substantially all employees of the Organization who have completed six months of service. Employees may enter the Plan on January 1 after attaining six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Organization's Retirement Planning Committee (the "Committee"), which is a committee delegated authority by the Plan's trustees. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's trustees.

Pension Benefits

The Plan was amended and restated effective January 1, 2011, to preserve the existing benefit formula (referred to as the grandfathered formula) for those participants whose continuous employment began prior to January 1, 2010 and who are not rehired after January 1, 2011, and to add a "cash balance" formula for those participants who become participants on or after January 1, 2011.

Employees who have attained normal retirement age of 62, or who have attained early retirement age of 55 and accumulated 15 or more years of service (10 years of service for certain grandfathered participants), are entitled to pension benefits. Grandfathered participants who attain normal retirement age receive 45% of the participant's average monthly compensation for the highest five years of service, computed to the nearest $5. For participants who are projected to have earned less than 20 years of service as of the end of the Plan year in which retirement is attained at normal retirement, the percentage shall be reduced by 1/20 for each year of service less than 20. Grandfathered participants who elect to commence benefits upon attainment of early retirement age receive benefits as calculated above, reduced by 5/9 of 1% for each of the first 60 complete calendar months, and 5/18 of 1% for each complete calendar month in excess of 60 calendar months that the early retirement date precedes normal retirement date.

For participants other than grandfathered participants (Plan entrants on or after January 1, 2011), the Plan features a cash balance benefit, which is based on accumulated amounts in a hypothetical account maintained for each participant. The accrued benefit as of the determination date is equal to the accrued benefit as of December 31, 2011, plus the actuarial equivalent of the hypothetical account. The actuarial equivalent of the hypothetical account is the amount of the monthly retirement benefit commencing on the participant's normal retirement date, taking into account all hypothetical allocations through the determination date and interest credits through the participant's normal retirement date using the interest credit rate of the Plan year containing the determination date for periods subsequent to the determination date through such participant's normal retirement date.

(1 - continued)

Amounts accumulate based on hypothetical compensation credits and interest credits. Each Plan year, the Organization credits the participant's account. The amount to be credited each year is a percentage of the participant's compensation earned that year, as defined by the plan and subject to limitations imposed by the Internal Revenue Service ("IRS"), determined based on the participant's years of service. The compensation credit allocation for one to five years of service is 3% of compensation, for six to 10 years of service is 4% of compensation, and for more than 10 years of service is 5% of compensation. Interest is credited to an account balance monthly at a rate of 5% per annum. The actual gains or losses of the Plan assets do not affect the participant's cash balance accounts. The Organization assumes the investment performance risk under the Plan.

Participants become fully vested in the Plan upon attaining normal retirement age or a participant's early retirement date, death, total disability, or upon the completion of five years of vesting service for grandfathered participants or three years of vesting service for nongrandfathered participants. If a participant terminates before rendering five or three years of vesting service, they forfeit the right to receive pension benefits upon retirement. Participants receive their accrued vested benefits in the form of a lump sum payment, life annuity, or a joint and survivor annuity. If a participant terminates employment and the participant's accrued benefit does not exceed $1,000, the Plan administrator will authorize the benefit payment be paid in cash without the participant's consent. If the accrued benefit of the terminated participant's account is between $1,000 and $5,000, the benefit may only be paid in the form of a lump-sum cash payment or direct rollover into a retirement account in the participant's name.

Effective December 31, 2025, the Plan was amended to freeze the accumulation of benefits subsequent to that date. Benefits earned by participants for their service and compensation up to and including December 31, 2025 were not affected. Cash balance accounts for non-grandfathered participants will continue to earn interest after the freeze date. The Plan will continue to operate as a frozen plan and benefits will be distributed at such time and in such manner as provided under the terms of the Plan.

Death and Disability Benefits

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

Funding Policy

The Plan's funding policy is for the Organization to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2025 and 2024, the Organization made no contributions. The Organization's contributions for 2025 and 2024 met or exceeded the minimum funding requirements of ERISA.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note 3 for additional discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Capital gain distributions from mutual funds are included in net appreciation in fair value of investments. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for these investments.

Administrative Expenses

Some administrative expenses are paid by the Organization, and some are paid by the Plan. Those that were paid by the Plan are reflected in the accompanying financial statements. Employees of the Organization perform certain administrative functions for the Plan. Neither the Organization nor its employees receive compensation from the Plan.

Payment of Benefits

Benefits are recorded when paid.

(2 - continued)

Subsequent Events

Management has evaluated whether any subsequent events that require recognition or disclosure in the accompanying financial statements and related notes thereto have taken place through October 12, 2026, the date these financial statements were available to be issued.

In July 2026, plan management was notified that the Plan's recordkeeper experienced a cybersecurity incident that resulted in temporary interruptions in certain retirement plan services, including access to records and the processing of distributions. The recordkeeper has reported that retirement plan assets were not impacted by the incident. As of the date the financial statements were available to be issued, plan management has not identified any material financial impact to the Plan resulting from the incident.

(3) FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets in active markets; quoted prices for identical or similar assets in inactive markets; inputs other than quoted prices that are observed for the asset; or inputs that are derived principally from or can be corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs are not available. Level 3 inputs are used only if Level 1 or Level 2 inputs are not available.

(3 - continued)

The following table presents the balances of the Plan's investments within the fair value hierarchy measured at fair value as of December 31, 2025 and 2024:

	Level 1	Level 2	Level 3	Total
December 31, 2025				
Mutual funds	$ 33,793,069	$ -	$ -	$ 33,793,069
Investment contract	-	-	1,519,327	1,519,327
	$ 33,793,069	$ -	$ 1,519,327	$ 35,312,396
December 31, 2024				
Mutual funds	$ 30,058,564	$ -	$ -	$ 30,058,564
Investment contract	-	-	3,262,816	3,262,816
	$ 30,058,564	$ -	$ 3,262,816	$ 33,321,380

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation techniques and related inputs used for assets measured at fair value at December 31, 2025 and 2024.

Mutual Funds

The fair value of mutual funds is based on the quoted net asset value ("NAV") of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the United States Securities and Exchange Commission. The funds must publish their daily NAV and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

Investment Contract

The deposit administration group annuity contract is measured at fair value. The fair value of the contract is estimated by the insurance company that has issued the contract to the Plan, by discounting the projected cash flows based upon current yields for contracts with comparable durations and credit quality of the issuers (Level 3 inputs).

(3 - continued)

The following table sets forth a summary of certain changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2025 and 2024:

	Investment Contract	
	2025	2024
Transfers into Level 3	$ -	$ -
Transfers out of Level 3	-	-
Purchases	-	2,153,565
Sales	(1,795,146)	(2,066,258)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs at December 31, 2025 and 2024:

Instrument	Fair Value 2025	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Investment Contract	$ 1,519,327	Discounted Cash Flow	Discount Rate	2.05% -2.05%	2.05%

Instrument	Fair Value 2024	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Investment Contract	$ 3,262,816	Discounted Cash Flow	Discount Rate	2.05% -2.05%	2.05%

The significant unobservable input used in the fair value measurement of the Plan's investment in the deposit administration group annuity contract is the discount rate. Significant increases or decreases in this input would have resulted in a significantly lower or higher fair value measurement.

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2025 and 2024, are reported in net appreciation in fair value of investments.

(4) RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor ("DOL") regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds a deposit administration group annuity contract with CUNA Mutual Group ("CUNA"). CMFG Life Insurance Company, a subsidiary insurance company of CUNA, is the Plan's custodian and, therefore, the investment transactions qualify as party-in-interest transactions.

Certain plan investments are managed by Matrix Trust Company as custodian and, therefore, the investment transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers totaling $63,448 and $60,423 for the years ended December 31, 2025 and 2024, respectively. These transactions qualify as party in interest transactions, which are exempt from the prohibited transaction rules of ERISA.

(5) PLAN TERMINATION

Although it has not expressed any intention to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. governmental agency) up to the applicable limitations.

3. All other vested benefits (that is, vested benefits not insured by the PBGC).

4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

(6) TAX STATUS

The Plan is based on a pre-approved plan which has received a favorable opinion letter from the IRS dated February 28, 2023, that the pre-approved plan is designed in accordance with applicable sections of the IRC. The plan sponsor has not separately applied for a determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believe that the Plan is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

(7) RISKS AND UNCERTAINTIES

The Plan invests in mutual funds and an investment contract that are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(8) ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on the employees' highest 60 consecutive complete credited months of compensation prior to the normal retirement date. The accumulated plan benefits for active employees are based on their highest 60 consecutive complete credited months of compensation ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided through annuity contracts are excluded from plan assets and are also excluded from accumulated plan benefits.

(8 - continued)

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2024 were:

a) Life Expectancy of Participants (the RP 2014 Combined Table Projected to 2025 by Scale MP-2021)
b) Retirement Age Assumptions (Normal retirement age of 62 years)
c) Investment Return of 6.50%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, 2024 and 2023, there would be no material differences.

The following is a summary of the actuarial present value of accumulated plan benefits as of January 1, 2025 and 2024:

	January 1, 2025	**January 1, 2024**
Vested benefits:		
Active participants	$ 8,511,989	$ 9,016,447
Other participants	2,672,949	2,554,089
Total vested benefits	11,184,938	11,570,536
Nonvested benefits	38,319	59,585
Total actuarial present value of accumulated plan benefits	$ 11,223,257	$ 11,630,121

(8 - continued)

The changes in the actuarial present value of accumulated plan benefits are summarized as follows for the year ended December 31, 2024:

Actuarial present value of accumulated plan benefits - beginning of year	$ 11,630,121
Increase (decrease) during the year attributable to:	
Change in actuarial assumptions	3,986
Benefits accumulated	966,604
Change in discount period	688,804
Benefits paid	(2,066,258)
Net decrease	(406,864)
Actuarial present value of accumulated plan benefits - end of year	$ 11,223,257

(9) CERTIFIED INVESTMENT INFORMATION

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Management has obtained certifications from Matrix Trust Company and CMFG Life Insurance Company, qualified institutions, as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information is complete and accurate.

The following is a summary of the information included in the Plan's financial statements and supplemental schedules as of December 31, 2025 and 2024, and for the years then ended, that was obtained from data prepared and certified to as complete and accurate by qualified institutions.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
