Report of Independent Auditors

To The Employees' Stock Ownership Plan Investment Committee of Cenlar Capital Corporation:

Opinion

We have audited the financial statements of Employee Stock Ownership Plan of Cenlar Capital Corporation (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years ended December 31 2025 and 2024, and the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

Shape the future
with confidence

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets as of December 31, 2025 (referred to as the "supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEES' STOCK OWNERSHIP PLAN
of CENLAR CAPITAL CORPORATION
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2025 AND 2024

NOTE 1: PLAN DESCRIPTION

A) General

The Cenlar Capital Corporation Employees' Stock Ownership Plan (the "Plan"), as effective on April 1, 1977, is a defined contribution plan whose purpose is to enable its participants to obtain a beneficial interest in the common stock of Cenlar Capital Corporation (the "Company"). Effective January 1, 2002, the Company elected S-Corporation status, which is retained until January 1, 2024. On this date, the Company revoked its S-Corporation election and returned to a C-Corporation status. The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan Document for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

B) Administration of Plan Assets

The ESOP Trustee directs the investment of cash, interest and dividends received as well as the processing of distributions to participants and the payment of Plan expenses. Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officers or employees receive compensation from the Plan.

C) Eligibility

Participants are eligible to participate in the Plan if they:

- Are employed by the Company or any participating affiliate or subsidiary;
- Have reached age 21;
- Completed 1,000 Hours of Service at the close of their first full 12 months of employment or subsequent Plan Year; and
- Are not covered by a collective bargaining agreement excluding them from participation in the Plan; and
- Are not a leased employee.

D) Contributions and Participant Accounts

Discretionary contributions to the Plan are made by the Company and are determined by the Company's Board of Directors. Contributions are allocated to each active participant's account in the form of shares of common stock and cash, and are based on the participant's eligible annual salary as a percentage of the total eligible annual salaries of all active participants. In 2025 and 2024, no contributions were made to the Plan.

In 2025 and 2024, the plan did not receive any dividend distributions. When made, dividend distributions are allocated based on the number of shares of Company Stock allocated to the Participant’s Account as of the beginning of the Plan Year less shares distributed or forfeited during the plan year.

E) Income Allocation

Income earned by the Plan is determined at the end of each year and is apportioned among the participant's accounts in proportion to the opening balance of each account adjusted for distributions and forfeitures during the plan year.

F) Vesting

All shares of common stock and cash credited to a participant's account become fully vested upon the earliest of the following events: (1) completion by the participant of three vesting years for participants with initial eligible service on or after January 1, 2007 and upon completion of five vesting years for participants with initial eligible service before January 1, 2007; (2) attainment of age 65, or (3) termination of employment due to death or permanent disability. A vesting year is each twelve month period beginning January 1 in which an employee has at least 1,000 hours of recognized service.

G) Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is available to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify may receive a cash distribution or roll over the distribution into another qualified retirement plan.

H) Forfeitures

The non-vested portion of a participant's account shall be forfeited and deemed to be a Company contribution to the plan for the plan year in which the forfeiture occurs upon completion of a five year break in service. Forfeitures for 2025 and 2024 amounted to $7,801 and $531, respectively.

I) Distributions

Distributions of vested benefits normally are made upon a participant's election to diversify, and for retirement, death or permanent disability. The amount to be distributed is based upon the stock valuation as of December 31 immediately preceding the distribution. However, for terminated participants whose vested accounts do not exceed and have never exceeded $1,000, the participant may elect to receive such vested account balance in a lump sum by the end of the following year. For those terminated participants with a balance between $1,000 and $50,000, the participant may elect to receive such vested account balance in five installments by the end of the following year. Participants may receive a cash distribution or roll over the distribution into another qualified retirement plan.

J) Amendment and Termination

Although it has not expressed any intent to do so, the Company has reserved the right to terminate the Plan, however no such action may deprive any participant or

beneficiary under the Plan of any vested right or cause any part of the Plan assets to be reverted to the Company.

K) Concentrations

As of December 31, 2025 and 2024, approximately 97% and 95% of the Plan's assets are invested in the Company's common stock.

L) Voting Rights

The Trustee shall vote all shares of Company stock held by the Plan with respect to all corporate matters upon which Company shareholders are entitled or permitted to vote. Notwithstanding the foregoing, each Participant in the Plan shall direct the Trustee as to voting of shares of Company Stock held in his or her Account in the Trust and not held in the Unallocated Stock Suspense Account with respect to any shareholder vote for both director candidates, or that is required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of a trade or business. A Participant who is entitled to such pass-through voting shall, at the time any proxy materials are forwarded to Company shareholders for each annual or special meeting, receive from the Company such proxy materials and a proxy form upon which voting directions may be indicated to the Trustee. Each Participant shall have one vote for each share of Company Stock in his or her Company Stock Account. The Trustee shall vote such allocated shares of Company Stock as instructed by Participants. Allocated shares for which no direction is received shall not be voted by the Trustee.

M) Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan is not readily tradable on an established market and includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market and can be exercised at the time of distribution, or in the following calendar year. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

N) Investments

In addition to Cenlar Capital Corporation's Common Stock, the Plan invests in the following during 2025:

- The Goldman Sachs Financial Square Government Fund. The Fund seeks to maximize current income to the extent consistent with the preservation of capital and the maintenance of liquidity by investing exclusively in high quality money market instruments. The Fund only invests in U.S. government securities and repurchase agreements relating to such securities.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A) Basis of Accounting

The accompanying financial statements of the Cenlar Capital Corporation Employee's Stock Ownership Plan have been prepared on an accrual basis and present the net assets available for benefits and changes in those net assets.

B) Investment in Cenlar Capital Corporation's Common Stock

Cenlar Capital Corporation is a closely-held corporation and there is no established market for its stock. The common stock value is based upon fair value. See Note 5 for discussion of fair value measurements. Dividend income is accrued on the dividend declaration date.

C) Use of Estimates

The preparation of financial statements, in conformity with U.S. generally accepted accounting principles (GAAP), requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

D) Risks and Uncertainties

The Plan investments include the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, changes in the value of the common stock may occur in the future and such changes could materially affect the amounts reported in the statement of net assets available for benefits. Such changes will be reflected in the financial statements in future periods.

E) Operating Expenses

All expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

NOTE 3: TAX STATUS

The Plan has received a determination letter from the IRS dated September 19, 2022, stating that the Plan is qualified under Section 401(a) of the Code, and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken

an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 4: INVESTMENTS

The Plan's investments are held in a trust administered by the Trustee.

NOTE 5: FAIR VALUE MEASUREMENT

FASB ASC Topic 820, "Fair Value Measurement and Disclosures," establishes a framework for measuring fair value. Fair value, also referred to as an exit price, is defined as the price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The fair value accounting guidance provides a three-level fair value hierarchy for classifying financial instruments. This hierarchy is based on the markets in which the assets or liabilities trade and whether the inputs to the valuation techniques used to measure fair value are observable or unobservable. The fair value measurement of a financial asset or liability is assigned a level based on the lowest level of any input that is significant to the fair value measurement in its entirety.

The three levels of the fair value hierarchy are described below:

- Level 1 Inputs – Valuation is based on quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Level 2 Inputs – Valuation is based on observable market-based inputs, other than quoted prices in active markets for identical assets or liabilities, quoted prices in markets that are not active, or models using inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

- Level 3 Inputs – Valuation is generated from techniques that use significant assumptions not observable in the market.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as compared to prior periods.

Money Market Funds: The Company has investments in money market accounts. Fair value inputs for these investments are known and observable through daily published floating net asset values.

Cenlar Capital Corporation's Common Stock: The Cenlar Capital Corporation common stock held by the Plan is valued at estimated fair market value based upon an independent appraisal. The appraiser utilizes methodologies it has determined to be most appropriate including derivation of adjusted income statements, development of cost of capital, income

statement projection, discounted cash flows, guideline public company overview, guideline public company method and summary of restricted stock studies.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

At December 31, 2025, the Plan held 979,662 shares of common stock of the Company, which had an estimated fair value of $70,535,680. The estimated fair value of the common stock increased $4,976,989 during 2025, following distributions of $6,286,949 and unrealized gains of $11,263,938. The estimated fair value of the common stock increased $12,461,649 during 2024. At December 31, 2025 and 2024, accounts of the participants were allocated 979,662 and 1,083,614 shares of common stock respectively.

The Company does not have significant concentrations of credit risk, as the stock of Cenlar Capital Corporation represents the majority of investment balances.

The following tables display the Plan's assets measured on the statements of net assets for benefits at fair value on a recurring basis as of December 31, 2025 and 2024:

NOTE 6: RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in Company common stock which is a related party and party-in-interest transaction under ERISA.

NOTE 7: SUBSEQUENT EVENTS

In connection with the preparation of the financial statements, the Plan has evaluated subsequent events after December 31, 2025 through October 2, 2026, which was the date the financial statements were available to be issued, and concluded the following:

On February 11, 2026, PennyMac Financial Services, Inc. (“Pennymac”) announced that it had entered into a definitive agreement to acquire the subservicing business of the plan’s sponsor Cenlar Capital Corporation. The all-cash transaction includes an upfront purchase price of $172.5 million and up to $85 million of contingent consideration payable over a three-year period.

The transaction is subject to customary closing conditions, including required regulatory approvals, and is expected to close in the latter part of 2026 or early 2027. The announcement represents a non-recognized subsequent event, as the transaction had not closed and no conditions existed as of the plan’s balance sheet date that would require adjustment to the financial statements.
