CarMax, Inc. Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of CarMax, Inc. Retirement Savings Plan (the "Plan"), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Forvis Mazars, LLP is an independent member of Forvis Mazars Global Limited

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025 and supplemental schedule of reportable transactions for the year ended December 31, 2025 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) Description of Plan

A brief description of the CarMax, Inc. Retirement Savings Plan (the "Plan") is provided below. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan that makes available to its participants a deferred arrangement pursuant to Sections 401(a) and 401(k) of the Internal Revenue Code of 1986 ("IRC") and Section 404(c) of the Employee Retirement Income Security Act of 1974 ("ERISA"). Participation in the Plan is voluntary.

The Plan is administered by CarMax, Inc. (the "Company" or "Plan Sponsor") and advised by a committee whose members are appointed by the Company. The assets of the Plan are held in trust under an agreement with T. Rowe Price Trust Company (the "Trustee"), a qualified institution.

(b) Eligibility and Contributions

The Plan was established by the Company on October 1, 2002, and was amended and restated effective January 1, 2012 and subsequently on January 1, 2017. Employees become eligible to participate in the Plan upon date of hire and attainment of age 18. Participants were able to elect to contribute to the Plan any amount, in whole percentage increments, from 1% to 75% for the years ended December 31, 2025 and 2024, of his or her eligible pay. Participants were also able to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participant contributions during any calendar year are subject to an IRC limitation. The limitations were $23,500 and $23,000 for the years ended December 31, 2025 and 2024, respectively. Participants who were age 50 or older during 2025 and 2024 could contribute an additional $7,500 in catch-up contributions. In addition, participants who were aged 60 to 63 during 2025 could contribute an additional $11,250 in catch-up contributions. Effective January 1, 2017, the Company's matching contribution to the Plan is equal to 100% of the employee's contributions up to 6% of the employee's pretax annual compensation.

The Company also funds a discretionary supplemental annual retirement contribution of 2% for each associate over the age of 40 with 5 or more years of service as of December 31, 2008, who have continuing employment with the Company. The annual retirement contributions for the years ended December 31, 2025 and 2024, were $820,861 and $888,293, respectively.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and earnings (losses) thereon and the Company's contributions and earnings (losses) thereon, and charged with benefit payments, transaction fees relating to notes receivable from participants and distributions plus a quarterly administrative fee; in prior years, an allocation of administrative fee was charged to the participant's account. The Company-funded discretionary contributions are deposited to each participant's account as soon as administratively possible following the last day of the applicable Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participant account balances relating to employee voluntary contributions plus actual earnings (losses) thereon are fully vested at all times.

Effective January 1, 2017, a 3-year credited service vesting period was eliminated and participants actively employed on or after January 1, 2017, became 100% vested in the Company's matching contributions and the annual retirement contributions.

In addition, participants become 100% vested in the Company's matching contributions and the annual retirement contributions upon death or the attainment of normal retirement age.

(e) Investment Options

Upon enrollment in the Plan, a participant may direct contributions into various investment options offered by the Plan, which currently offers mutual funds, common collective trust funds and a stable value collective trust fund as investment options for participants. Participants may change their investment allocation at any time.

(f) Payment of Benefits

On termination of service due to death, disability, or retirement, a participant (beneficiary, in case of death) may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may also receive the value of the vested interest in his or her account as a lump-sum distribution. Vested amounts contributed other than the Company's annual retirement contributions may only be withdrawn upon demonstration of financial hardship or after the participant reaches the age of 59.5 years.

(g) Notes Receivable from Participants

Normally, a participant may borrow a minimum of $1,000, up to a maximum equal to the lesser of (i) $50,000 or (ii) 50% of his or her vested account balance in the Plan, excluding the retirement contribution account, Roth salary reduction contribution account or Roth rollover account. Only one loan maximum per participant is allowed. A loan's term may not exceed five years unless the proceeds are used exclusively to purchase a principal residence, in which case the term may not exceed ten years. The loan is secured by the balance in the participant's account. The interest rate charged is the prime rate plus 1.00%. During the year ended December 31, 2025, the interest rate on new loans issued ranged from 8.00% to 8.75%. During the year ended December 31, 2024, the interest rate on new loans issued ranged from 8.75% and 9.50%. Principal and interest are paid ratably through payroll deductions or paid directly to the trustee.

(h) Termination of Plan

Although the Company has not expressed any intention to do so, it has the right to terminate the Plan at any time subject to the provisions set forth in ERISA. In the event of termination, the accounts of each participant shall become fully vested and the accounts shall be paid to the participant or beneficiary in a lump sum as soon as is practicable after the termination.

(2) Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

(a) Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP"). Accordingly, contributions to the Plan and interest income are recognized as earned including any formal commitments as well as legal or contractual requirements, and appreciation and depreciation in the fair value of investments are recognized as they occur. Distributions of plan benefits and withdrawals are recognized when paid.

(b) Fair Value of Financial Instruments

Due to the short-term nature associated with these financial instruments, the carrying value of the Plan's contributions receivable approximates fair value. The Plan's investments in the mutual funds and collective trust funds are carried at fair value. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the trustee. See Note 3 for further discussion.

(c) Notes Receivable from Participants

Notes receivable from participants represent loans to participants made against their vested balances as permitted by the Plan. Notes receivable from participants are valued at the principal amount outstanding plus accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

(d) Investment Activity

Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recognized when earned and appreciation and depreciation of investments (including realized and unrealized) are recognized as they occur. The cost basis of securities used in the determination of net appreciation or depreciation in the fair value of investments, including investments sold during the year, is determined through the use of the weighted average cost method.

The Plan's investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. In addition, due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

(e) Use of Estimates

The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates and assumptions.

(f) Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. A quarterly recordkeeping fee is charged directly to the participant's account. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account.

(3) Fair Value Measurements (See Note 5)

Fair value, as defined under GAAP, is the exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, if none exists, the most advantageous market at the measurement date. The fair value should be based on assumptions that market participants would use, including a consideration of nonperformance risk. GAAP establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value.

The Company assesses the inputs used to measure fair value using the three-tier hierarchy described below. The hierarchy indicates the extent to which inputs used in measuring fair value are observable in the market. These tiers include:

Level 1 Inputs include unadjusted quoted prices in active markets for identical assets or liabilities that we can access at the measurement date.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets in active markets, quoted prices from identical or similar assets in inactive markets and observable inputs such as interest rates and yield curves.

Level 3 Inputs that are significant to the measurement that are not observable in the market and include management's judgments about the assumptions market participants would use in pricing the asset or liability (including assumptions about risk).

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The Company's fair value processes include controls that are designed to ensure that fair values are appropriate. Such controls include model validation, review of key model inputs, analysis of period-over-period fluctuations and reviews by senior management.

There have been no changes in methodologies used at December 31, 2025 and 2024. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds. Investments in mutual funds are stated at fair value based on quoted active market prices for identical assets as of the last business day of the plan year and are classified as Level 1.

Stable value collective trust fund. The Plan invests in a stable value collective trust fund for which quoted prices are not available in active markets for identical assets. The Plan utilizes the Net Asset Value ("NAV")

provided by the trustee as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the stable value collective trust fund, the issuer reserves the right to require 12 months written notice in order to ensure that securities liquidations will be carried out in an orderly business manner. The stable value collective trust fund is not required to be classified within a level on the fair value hierarchy.

Common collective trust funds. These funds are measured at the NAV of units of the collective fund. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the funds will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 30 days notification in order to ensure that securities liquidations will be carried out in an orderly business manner. The common collective trust funds are not required to be classified in the fair value hierarchy.

The following table represents the financial instruments carried at fair value on a recurring basis by the hierarchy levels described above:

	December 31	
	2025	**2024**
Mutual funds (Level 1)	$ 149,518,134	$ 124,756,271
Investments measured at net asset value (a)	1,935,254,245	1,628,710,832
Total investments, at fair value	$2,084,772,379	$1,753,467,103

(a) In accordance with GAAP, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items in the statements of net assets available for benefits. There were no investments classified as level 2 or 3 in the fair value hierarchy.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2025 and 2024. There are no participant redemption restrictions for these investments; any redemption notice period would be applicable only to the Plan.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(4) Federal Income Taxes

The Internal Revenue Service ("IRS") has informed the Company by a letter dated June 1, 2017, the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP requires the Company to recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by applicable taxing authorities. The Company believes that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(5) Unaudited Information Certified by Trustee

The Plan Sponsor has elected the alternative method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the information certified by the trustee was not audited by the Plan's independent auditors, except for comparing such information to the related information included in the accompanying financial statements. With respect to the Plan, the trustee certified all information over which it has fiduciary responsibility, including:

(a) The following information in the accompanying statements of net assets available for benefits.

	2025	2024
Total investments	$2,084,772,379	$ 1,753,467,103
Notes receivable from participants	54,401,398	50,629,191
Total investments and notes receivable	$2,139,173,777	$ 1,804,096,294

(b) The following information in the accompanying statements of changes in net assets available for benefits.

	2025	2024
Net appreciation in fair value of investments	$ 289,202,471	$ 221,055,543
Dividends	$ 6,539,059	$ 4,404,462
Interest income on notes receivable from participants	$ 4,333,993	$ 3,785,126

(c) All amounts in Note 3.

(6) Related-Party Transactions

The Plan does not consider employer contributions to the Plan or benefits accrued or paid by the Plan for participants as party-in-interest transactions. Certain plan investments are shares of collective trust funds and mutual funds managed by T. Rowe Price Associates, Inc., an affiliate of T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee, and therefore, these transactions are party-in-interest transactions. Fees paid by the Plan for investment management services amounted to $1,033,175 and $989,355 for the years ended December 31, 2025 and 2024, respectively.

(7) Subsequent Events

We have evaluated subsequent events for potential recognition and/or disclosure through 10/08/2026, the date the financial statements were issued.

(8) Exempt Party-in-Interest

Fees paid to other service providers for the administration of the Plan were approximately $55,300 and $53,299 for the years ended December 31, 2025 and 2024, respectively. These transactions qualify as exempt party-in-interest transactions under ERISA.
