Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of GNB Bancorporation Employee Stock Ownership Plan with 401(k) Provisions (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of Plan

The following brief description of the GNB Bancorporation Employee Stock Ownership Plan with 401(k) Provisions (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

GNB Bancorporation (the Company) established the Plan effective as of January 1, 1988. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) with 401(k) provisions and is designed to comply with Section 4975(e)(7) and as a stock bonus plan under Section 401(a) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was amended and restated effective January 1, 2022, in order to consolidate previous amendments, clarify certain definitions and to align the Plan with applicable guidelines. The Plan is administered by the KSOP Committee (the Committee) appointed by the Company's Board of Directors.

In 2018, the Plan purchased additional Company common stock using the proceeds of a loan (Note 6) and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

1. Accounts of employees with vested rights in allocated common stock (allocated).
2. Common stock not yet allocated to employees (unallocated).

In addition, the Plan has a 401(k) component, where the participant can elect to make a contribution to investment options available at the participant's discretion. The investment options selected are those provided by the Plan.

Eligibility

All employees are eligible to defer from their salary immediately upon hire. Employees must complete 90 days of service and be at least 21 years old before becoming eligible for employer matching contributions and any other employer contributions. The Plan has established an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 6% and will increase by 1% each Plan year up to 10%. Effective January 1, 2026, the Plan was amended to increase the automatic escalation limit to 15%.

Entry Date

Newly eligible employees may only enter the Plan on the first day of January or July coinciding with or following the date they satisfy the Plan's eligibility requirements.

Contributions

Participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan, subject to certain IRC limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows participants to designate contributions as Roth 401(k) contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Additionally, participants can direct their elective contributions to purchase Company shares based on an aggregate cost basis. Participants purchased 1,373 shares for $240,236 during 2025, and 650 shares for $113,734 during 2024.

The Company may contribute to the Plan matching contributions in such amount as may be determined at the discretion of the employer. In no event will the Company match exceed an amount equal to 100% of each participant's eligible contributions. Discretionary employer matching contributions were $410,682 for the year ended December 31, 2025.

Additional contributions may also be contributed by the Company at the discretion of the Company's Board of Directors. The discretionary non-elective contribution can be made in cash or shares of the Company common stock. In 2025, the Company did not make a discretionary non-elective contribution.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is permitted to vote any allocated share for which voting instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period not to exceed five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with the participant's contribution and the Company's matching contribution, as well as an allocation of the Company's discretionary contribution and Plan earnings. Each eligible participant's account is credited as of the last day of the Plan year with an allocation of shares of the Company's common stock released by the Plan trustees from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on a participant's eligible compensation, account balances or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Upon enrollment in the Plan, a participant may direct employee and employer contributions to any of the funds offered by the Plan, including employer common stock. Participants may change their investment options daily for certain investments.

Vesting

Participants are vested immediately in their contributions, and related employer matching contributions, plus actual earnings thereon. Vesting in the Company's non-elective contribution is based on years of continuous service as set forth in the following table:

Participant's Years of Service	Vesting Percentage
0 - 1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

At December 31, 2025 and 2024, there were no forfeited non-vested balances. During the year ended December 31, 2025, approximately 63 shares of forfeited employer stock were allocated among eligible participants. When there are amounts remaining in forfeiture accounts, they are first used to pay administrative expenses, with any remainder available to reduce employer contributions. During the year ended December 31, 2025, administrative expenses were reduced by $7,218 for forfeited non-vested accounts.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a period not to exceed the lesser of five years or the participant's life expectancy, as defined in the Plan document. Participants with balances below $1,000, who terminate employment for reasons other than retirement, death, or disability, will receive their vested account balance as soon as administratively feasible. Those with balances greater than $1,000 but below $5,000 can still be automatically paid out if their balance is rolled into a qualified Individual Retirement Account. Subject to available liquidity, restrictions imposed by applicable laws or regulations, or Plan provisions, all distributions of $50,000 or less will be paid as soon as administratively feasible after the aggregate distributions for the current quarter are determined.

Subject to the above restrictions and conditions, if a participant's benefits exceed $50,000, the Company will distribute the benefit in substantially equal annual installments over a period of years not to exceed five years with a minimum annual installment equal to the lesser of $50,000 or the remaining balance in the participant's Company Stock Account and Cash Account.

For ESOP accounts with vested balances of not more than $800,000, the distribution will be made in substantially equal annual installments over a period of five years with the first installment being paid one year after the close of the Plan year in which the participant terminates employment. For ESOP accounts with vested balances in excess of $800,000, the five-year installment period may be extended as defined in the Plan document. The dollar limits shall be adjusted at the same time and in the same manner as provided in Code Section 415(d).

Distributions are made in cash or, if the ESOP Administrative Committee elects, in the form of Company common stock, of at least 1,000 shares, or a number of shares greater than 1,000, if approved by the ESOP Administrative Committee, plus cash for any fractional share of common stock. Distributions may be made at the participant's election prior to termination upon attainment of age 59 1/2 or hardship as defined in the Plan document. In the event of the participant's death, the designated beneficiary is entitled to a death benefit distribution equal to the participant's vested account balance.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company common stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of their accounts which are invested in shares of employer stock, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution or other investments, as determined by the Committee. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant’s account at year-end.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts and the assets would be distributed in accordance with the plan agreement.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (“allocated”) and (b) stock not yet allocated to employees (“unallocated”), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid**.**

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation (depreciation) in the fair value of investments consists of the realized gains or losses on investments sold and the change in unrealized appreciation (depreciation) on held investments. The Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, trustees, and other third parties.

The classification of investment earnings (losses) reported in the statement of changes in net assets available for benefits may differ from the classification of earnings (losses) on Form 5500 due to different reporting requirements on Form 5500.

Contributions

Participant contributions and the related Company matching contributions are recorded in the year in which the employee contributions are withheld from compensation. Employer discretionary contributions are recorded in the period in which the Company has committed to make such contributions.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Subsequent Events

The Plan sponsor has evaluated subsequent events through October 8, 2026, the date which the financial statements were available to be issued.

Note 3 - Investments

The Plan's investments in Company common stock are as follows as of December 31, 2025 and 2024:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Plan Sponsor Common Stock				
Number of shares	71,360	5,878	67,774	9,664
Cost	$ 8,535,245	$ 1,028,661	$ 7,895,978	$ 1,691,230
Fair value	14,272,034	1,175,613	12,877,072	1,836,192

During the year ended December 31, 2025, 200 shares valued at $38,200 were distributed, and no shares were purchased by the Plan.

Information about the net assets and the significant components of the changes in net assets relating to the non-participant directed investments as of December 31, 2025 and 2024, and for the year ended December 31, 2025, is as follows:

	2025	2024
GNB Bancorporation common stock	$ 15,447,647	$ 14,713,264
Common collective fund	720,217	198,095
Pooled separate accounts	404,395	952,674
Mutual funds	895,571	1,265,403
	$ 17,467,830	$ 17,129,436

Interest and dividends	$ 707,233
Net appreciation in fair value of investments	899,096
Benefits paid to participants	(864,152)
Administrative expenses	(1,896)
Interest paid	(74,213)
Transfers to participant-directed funds	(327,674)
	$ 338,394

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Common stock: The fair value of the Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparables, and estimated fair value of company assets and liabilities, including discounts for lack of control and lack of marketability.

Mutual funds: The mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts (PSA): The PSAs are valued at fair value based on the NAV of the units held in the account. The NAV, as provided by the custodian is used as a practical expedient to estimate fair value. The NAV is based on the observable market prices of the underlying investments within the account less liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Common collective fund: The common collective funds are valued at fair value based on the NAV of the units held of the collective fund. The NAV, as provided by the trustee/ custodian is used as a practical expedient to estimate fair value. The NAV is based on the observable market prices of the underlying investments within the fund less liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	2025			
	Level 1	Level 2	Level 3	Total

Investments at net asset value (a)				10,135,690
Total investments at fair value				$ 37,679,370

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the tables below are intended to permit reconciliation of the fair values to the line items presented in the statement of net assets available for benefits.

The following table sets forth the disclosure for the fair value measurement of investments in certain entities that calculate NAV per share as a practical expedient as of December 31, 2025 and 2024:

	Fair Value December 31, 2025	Fair Value December 31, 2024	Unfunded Commitments	Redemption Frequency	Redemption Notice Period

Issuance/distribution of 200 shares	(38,200)

Note 5 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 8, 2014, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Subsequent to the issuance of the determination letter, the Plan was amended. However, the Company and Plan management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified and the related trust continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Note Payable

In 2018, the Plan sponsor entered into a $4,637,500 term loan agreement with GNB Bank, a subsidiary of the Company. The proceeds of the loan were used to purchase 26,500 shares of the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 3,786 shares being released and allocated for the Plan year ended December 31, 2025.

The balance due on the note payable as of December 31, 2025 and 2024, was $1,028,661 and $1,691,230, respectively. The loan is due on demand. Absent demand, the agreement provides for the loan to be repaid over ten years. As of March 28, 2024, the interest rate was fixed at 5.25% for the remaining life of the loan. Prior to that date, the interest was at a variable interest rate of 0.25% over the Wall Street Journal Prime Rate Index with a floor of 5.25% and a ceiling of 11.25%. Management believes the unpaid principal on the loan approximates fair market value. This loan was assigned to the Company with no changes to the terms of the loan.

The scheduled amortization of the loan for the next five years and thereafter is as follows:

Years Ended December 31,	Amount
2026	$ 513,383
2027	515,278
	$ 1,028,661

Interest expense paid to the Company totaled $66,593 for the year ended December 31, 2025.

Note 7 - Line of Credit

The Plan entered into a $3,000,000 line of credit with First State Bank that expired on June 30, 2025, and was subsequently renewed through June 30, 2026. During 2025, there was no activity drawn on the line of credit. For the year ended December 31, 2025, the loan interest rate averaged 7.37%.

Note 8 - Certified Information

The Plan administrator has elected the method of compliance permitted by the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company and Principal Life Insurance Company.

Other than the investment in GNB Bancorporation common stock and the related dividends and net appreciation in fair value of the investment and the ESOP loan, certain information related to investments disclosed in the accompanying financial statements and the supplemental schedules, including investments held at December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company and Principal Life Insurance Company, the custodians of the Plan. GNB Bancorporation common stock of $15,447,647 and $14,713,264 and the ESOP loan of $1,028,661 and $1,691,230 as of December 31, 2025 and 2024, respectively, and all related investment and loan activity for the year ended December 31, 2025 was not certified.

Note 9 - Related Party and Party-In-Interest Transactions

The Plan invests in Company common stock and has indebtedness with or guaranteed by the Company. These are related party and party-in-interest transactions.

Certain Plan investments also consist of pooled separate accounts and common/collective funds managed by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company and Principal Life Insurance Company, the custodians as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

The Plan offers shares of common stock in the Company as an investment alternative. During the year ended December 31, 2025, dividends received from the Plan sponsor totaled $677,133 and 200 shares of Company stock valued at $38,200 were distributed as directed by participants. As described in Note 6, the Plan has a loan payable to the Company for the purchase of ESOP shares. Interest charged on this loan totaled $66,593 during the year ended December 31, 2025. These transactions are exempt party-in-interest transactions under ERISA.

Note 10 - Risks and Uncertainties

The Plan's investments consist primarily of investment securities and the Company's common stock, which are exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Market risks include global events which could impact the value of investments, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 11 - Right of First Refusal

Company stock that has been distributed to a participant and not immediately repurchased by the Company or Trust, may be subject to a right of first refusal as determined by the Company. Prior to any subsequent transfer, the shares must first be offered by written offer to the Company, and then, if refused by the Company, to the Trust at fair market value as determined by an independent appraiser appointed by the ESOP Committee.
