Independent Auditors' Report

To the Participants and Plan Administrator of
Pathfinder International Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of the Pathfinder International Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, (1) Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025 and (2) Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

PATHFINDER INTERNATIONAL RETIREMENT PLAN

Notes to Financial Statements

Note 1 - Description of the Plan

The following description of the Pathfinder International Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan covering all employees, upon date of hire, of Pathfinder International (the "Employer"), except for non-resident aliens ("Participants"). The Plan was restated and amended as of March 1, 2020. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All investments are participant-directed.

Participant Contributions

Each year, participants may elect to defer up to the dollar limit set by Federal law. The Plan utilizes the auto-enrollment process whereby eligible employees that do not make an affirmative election nor elect to waive participation will be enrolled with a 6% pre-tax deferral rate with 1% annual increases up to a maximum of 10%. Participants can also make "after-tax" contributions to the Plan. Participants who have reached the age of 50 before the end of the Plan year are eligible to make additional catch-up contributions. Subject to approval by the Plan administrator, participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans ("Participant Rollovers").

Employer Non-Elective Contributions

The Employer makes a fixed non-elective contribution of 9% of eligible compensation for all eligible participants, as defined in the Plan agreement. In order to receive an Employer contribution, a participant must work at least 1,000 hours during the Plan year. For the Plan year ended December 31, 2025, the Employer non-elective contribution amounted to $533,368.

Participant Accounts

Each participant's account is credited with the Employer and participant contributions and related investment earnings/losses and charged with loan processing fees, if applicable. Allocations are based on participant account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the Participant's vested account balance.

Vesting

Participants are immediately vested in their participant contributions and employer non-elective contributions plus earnings thereon.

Note 1 - Description of the Plan (Continued)

Payment of Benefits

A participant may elect to withdraw any portion of their distributable vested interest in their account in the form of a lump-sum distribution or through installments. In-service withdrawals are permitted for emergency personal expenses, qualified disaster recovery distributions, and distributions to victims of domestic abuse. The Plan also permits certain recontributions of amounts previously withdrawn for the purchase or construction of a principal residence in a federally declared disaster area. Participants also may elect to withdraw their vested balance for any of the following events: termination of service, death, becomes disabled, or retirement. Upon reaching age 59½, a participant may take a distribution from any of his/her accounts. Hardship withdrawals are available from the Participant's elective deferral account in order to meet a participant's immediate and heavy financial need. If a participant's vested interest in their account is $1,000 or less, the Plan administrator will distribute the account in the form of a lump sum to the participant after the participant's severance from employment. If a participants' account is greater than $1,000 and up to $5,000, the Plan administrator will distribute the entire balance to the participant in the form of an IRA rollover.

Notes Receivable from Participants

Participants may borrow a minimum of $1,000 up to the lesser of $50,000 or 50% of the vested account balance. Loan terms range from one to five years (or up to thirty years for the purchase of a primary residence). Participants may have only one loan outstanding at a time. The loans are secured by the balance in a participant's vested account and bear interest at the Prime rate plus 1%. Principal and interest are paid ratably through payroll deductions.

Participants are permitted to obtain loans directly from TIAA and CREF. Participants must transfer an amount equal to 110% of their outstanding loan balances from their fund accounts to the TIAA Traditional Fund to be held as collateral for the loans. These loans bear interest at rates determined by TIAA and CREF and are not considered assets of the Plan. The outstanding participant loan balance of $10,996 at December 31, 2024 was offset and deemed distributed during 2025. As a result, no participant loans were outstanding at December 31, 2025. Principal and interest payments are made directly by participants to TIAA.

Plan Administration

The Employer is the Plan administrator and has the authority to appoint persons or entities to carry out the operation of the Plan. Certain expenses related to the administration of the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of notes receivable from Participants are charged directly to the participant's account and are included in administrative fees. Investment-related expenses charged to participants' accounts are included in administration fees.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments, Investment Valuation and Income Recognition

Investments other than fully benefit-responsive investment contracts, which are reported at contract value, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement for the portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded when earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan has benefit-responsive investment contracts and non-benefit-responsive investment contracts with TIAA and CREF and a stable value fund benefit-responsive contract with TFLIC. TIAA and CREF and TFLIC maintain the contributions in a general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Unit Values

Individual participant accounts for the pooled separate investment account are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds but do have an interest therein represented by units which are valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Contributions

Contributions from Plan participants and contributions from the Employer are recorded in the year in which the contributions are withheld from compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could vary from the estimates that were used.

Subsequent Events

The Plan administrator has evaluated subsequent events through October 7, 2026, the date that the financial statements were available to be issued.

Note 3 - Information Certified by the Custodians

Plan investments are held in mutual funds, variable rate annuities, self-directed brokerage, fixed rate annuities, a pooled separate investment account and a guaranteed pooled fund (Stable Value) by the following Plan custodians, TIAA and CREF, Transamerica Financial Life Insurance Company ("TFLIC") and State Street (the "Custodians"). The fair and contract values of certain investments as of December 31, 2025 and 2024, and investment transactions for the year ended December 31, 2025 of TFLIC, TIAA and CREF and State Street, including interest and dividends and net appreciation in fair values are reported to the Plan and certified as complete and accurate by the Custodians. Information included in the supplemental Schedule of Assets (Held at End of Year) and notes receivable from participants have also been derived from information provided by the Custodians. American Century also serves as a custodian for certain plan assets. However, these assets and the related investment income are not covered by the certifications described above.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities that the Plan can access at the measurement date.

Level II – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III – Inputs that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 or 2024.

Mutual Funds and Mutual Funds in Self-Directed Brokerage

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

TIAA Real Estate Account

The account generally invests in real estate properties and real estate-related investments. The account's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on a professional's opinion. The account sometimes holds securities as well, and these securities are generally priced using values obtained from independent pricing sources.

Note 4 - Fair Value Measurements (Continued)

TIAA Real Estate Account (Continued)

The fair value of the Plan's interest in the TIAA Real Estate Account is based on the fund's daily NAV, which is considered by Plan management to be the best approximation of fair value. The NAV is based on the fair values of the underlying investments held by the fund less its liabilities. The unit value of the fund is calculated daily and available to Plan administrators and client investors on TIAA and CREF's website. There are no unfunded commitments from participants in the Plan who invest in this account. The pooled separate account may be redeemed quarterly with one day's notice.

CREF Variable Annuities

The accounts invest principally in equity securities, fixed income instruments and short-term investments in accordance with each portfolio's investment objectives. Account investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing.

The fair values of accumulation units held by the Plan are based on each account's daily NAV, which is considered by Plan management to be the best approximation of the fair value. The NAV is based on the fair values of the underlying investments held by the fund less its liabilities. Data for NAVs are available daily to Plan administrators and client investors on TIAA and CREF's website and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. There are no unfunded commitments from participants in the Plan who invest in these accounts. The variable annuities may be redeemed daily with one day's notice.

TIAA Traditional Annuity

The TIAA Traditional Annuity is a fixed rate guaranteed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity is offered through a variety of contract types, including Group Retirement Annuities (GRA). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

GRA contracts are non benefit-responsive, and accordingly, are reported at fair value. The value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals.

Note 4 - Fair Value Measurements (Continued)

TIAA Traditional Annuity (Continued)

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claim-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years.

Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. The redemption provisions of the fixed rate annuities vary depending on the nature of the contract option chosen by the participant.

The GRA contract does not allow lump-sum cash withdrawals, and transfers must be spread over 10 annual installments. All other withdrawals and transfers from GRA contracts must be spread over 10 annual installments (five annual installments for withdrawals after termination of employment). When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the Statement of Changes in Net Assets Available for Benefits.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	Investments at Fair Value as of December 31, 2025			
Description	***Level I***	***Level II***	***Level III***	***Total***

(a) In accordance with ASC Subtopic 820-10, *Fair Value Measurements*, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified within the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy amounts to amounts presented in the Statements of Net Assets Available for Benefits.

There were no purchases or transfers into or out of Level III investments for the years ended December 31, 2025 and 2024.

Quantitative Information about Significant Unobservable Inputs Used in Level III Fair Value Measurements

The following table as of December 31, 2025 and 2024 represents the Plan's Level III financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the range of values for those inputs:

Description	***Fair Value 12/31/2025***	***Fair Value 12/31/2024***	***Principal Valuation Techniques***	***Unobservable Inputs***	***Significant Input Values***

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is based on NAV per share practical expedient as of December 31, 2025 and 2024, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable to the Plan.

Investments	*Fair Value 12/31/2025*	*Fair Value 12/31/2024*	*Unfunded Commitments*	*Redemption Frequency*	*Redemption Notice Period*

Note 5 - Fully Benefit-Responsive Investment Contracts

Following is a description of the investments and valuation methodologies for fully benefit-responsive investment contracts:

TIAA Traditional Annuity

GSRA contracts are also traditional annuity contracts as discussed in Note 4. However, GSRA contracts do not have liquidity restrictions and are therefore fully benefit-responsive contracts reported at contract value. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the Statement of Changes in Net Assets Available for Benefits.

Guaranteed Pooled Fund

Additionally, the Plan offers participation in a guaranteed pooled fund through units of participation in a pooled separate investment account. These contracts are credited with an interest rate, which is determined at the beginning of each calendar year.

Because the guaranteed interest contract and guaranteed pooled fund are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to these guaranteed investments. The guaranteed interest contract contains unallocated funds (forfeitures) which may be withdrawn or applied at contract value and therefore are presented on the Statements of Net Assets Available for Benefits at contract value.

Note 5 - Fully Benefit-Responsive Investment Contracts (Continued)

Guaranteed Pooled Fund (Continued)

The guaranteed pooled fund is presented on the face of the Statements of Net Assets Available for Benefits at contract value. Contract value, as reported to the Plan by TFLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligation may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Employer or other Employer events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan Participants are probable of occurring.

The following are the contract values of the Plan's fully benefit-responsive investment contracts at December 31:

	2025	***2024***
Fully Benefit-Responsive Investment Contracts at contract value:		
TIAA Traditional (GSRA fixed rate annuities)	$ 303,852	$ 445,608
Transamerica Financial Life Ins. Co. Guaranteed Pool Fund	155,831	154,243
	$ 459,683	**$ 599,851**

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events such as an international conflict, which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 7 - Related-Party and Party-In-Interest Transactions

Plan investments are managed by TIAA and CREF, American Century, State Street and TFLIC, the custodians of the Plan. These transactions qualify as party-in-interest transactions. Notes receivable from participants are also deemed to be party-in-interest transactions. Transactions with these parties-in-interest are exempt from the prohibited transaction rules, as defined by ERISA. In addition, certain expenses totaling $40,314 paid to Transamerica and the prior recordkeepers for the Plan are deemed exempt party-in-interest transactions.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Employer may determine.

During 2025, the Company terminated employment in excess of 20% of the plan participants due to USAID funding cuts, which was deemed to be a partial plan termination under the IRC. Accordingly, the affected participants' account balances became 100% vested at the time of termination

Note 9 - Tax Status

Effective March 1, 2020, the Plan adopted the Transamerica Retirement Solutions, LLC Volume Submitter 403(b) Tax Deferred Annuity Plan document that received an opinion letter on March 31, 2017 and, accordingly, has been deemed acceptable under Section 403(b) of the IRC for use by eligible Employers for the benefit of their employees. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of Plan net assets available for benefits per the financial statements to Form 5500 as of December 31:

		2025		*2024*
Net assets available for benefits per the financial statements statements at December 31	$	27,316,915	$	31,944,432
Other receivable reported on Form 5500, not reported on financial statements		1,041		870
Net assets available for benefits per Form 5500	**$**	**27,317,956**	**$**	**31,945,302**

The following is a reconciliation of the net decrease in net assets available for benefits per the financial statements to net loss per Form 5500 for the year ended December 31, 2025:

Net decrease in net assets available for benefits per the financial statements	$	(4,627,517)
Change in accounts receivable		171
Net loss per Form 5500	**$**	**(4,627,346)**

The accompanying Statements of Net Assets Available for Benefits and Statement of Changes in Net Assets Available for Benefits have been prepared in accordance with accounting principles generally accepted in the United States of America. The information listed on Schedule H of Form 5500 has been prepared in accordance with procedures established by the third-party administrator; therefore, some items may have been classified differently.

Note 11 - Delinquent Participant Contributions

Under U.S. Department of Labor Regulation Section 2510.3-102, participant contributions and loan repayments withheld from employees' paychecks must be deposited into the Plan as soon as such contributions can reasonably be segregated from the Employer's general assets. When this regulation is not satisfied, the Employer has engaged in a prohibited transaction. While the Employer remitted all participant contributions to the Plan, contributions of $35,251 were not remitted within the required time period during the year ended December 31, 2025. As reflected in the accompanying Schedule of Delinquent Participant Contributions, the Employer corrected the contributions along with lost earnings during 2026.
