Independent Auditor's Report

Trustees
Biosynth International 401(k) Plan
Gardner, Massachusetts

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Biosynth International 401(k) Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Biosynth International 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Biosynth International 401(k) Plan's ability to continue as a going concern for one year after the date of the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Biosynth International 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of Plan Provisions

The following description of the Biosynth International 401(k) Plan (Plan) provides only general information. The Plan was formerly known as Vivitide, LLC 401(K) Plan and was renamed effective January 1, 2023. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan established April 1, 2000 and was amended and restated as of November 17, 2023. Effective October 1, 2022, the Plan was amended to allow eligibility to employees of Biosynth International Inc. that were not previously part of the former Vivitide plan. The Plan also acknowledges years of service with the following employers: New England Peptide, Inc., Peptides International, Inc., and NE Peptide, LLC. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974*, as amended by subsequent legislation (ERISA).

Effective August 1, 2025, the Plan's trustee and recordkeeper changed from John Hancock Life Insurance Company (U.S.A.) (John Hancock) to Ascensus Trust Company and Newport Trust Company, LLC (Ascensus). Ascensus serves as the Plan's recordkeeper, and the Plan's investment options are made available through the retirement plan platform of The Vanguard Group, Inc. (Vanguard).

Eligibility

Employees who have completed two months of service and have attaining age 18 are eligible to participate in the Plan. Prior to September 1, 2025, employees were eligible upon completing forty-five days of service and attaining age 18.

Contributions

Employees can elect to make pre-tax or Roth contributions through payroll deductions up to 100% of their annual compensation but not more than the government-imposed limit established each year. Participants who are age 50 or older before the close of the Plan year may also elect to make catch-up contributions, subject to certain Internal Revenue Code (IRC) limitations. Participants may also roll over amounts representing distributions from other qualified benefit plans or certain Individual Retirement Accounts into the Plan. The match contributions begin with the participant's first deferred contribution. Effective January 1, 2023, the Plan requires the Plan Sponsor to make safe harbor matching contributions for eligible participants equal to 100% of the first 3% of eligible participant compensation contributed to the plan plus 50% of the amount of contributions between 3% and 5% of eligible participant compensation. The Company may also make nonelective contributions at their discretion. The Plan no longer permits other employer matching effective January 1, 2023.

Investment Options

Upon enrollment into the Plan, participants may direct the investment of their contributions and all matching contributions into various mutual funds or a money market account offered by the Plan. Prior to August 1, 2025, the Plan's investment options were previously invested in various pooled separate accounts offered by the Plan.

Withdrawals

In the event of retirement (as defined), death, permanent disability, termination of employment, or financial hardship (as defined), the balances in the participants' accounts may be distributed to the participants or the participants' beneficiaries in a lump sum or through payments in such other forms as may be available under the Plan. The participant is also entitled to receive the "vested percentage" of his or her matching contribution. The amount of the participants' hardship distribution may not be in excess of the amount of the participants' financial hardship, as specified in the Plan.

Vesting

Participants are immediately and fully vested in employee contributions, safe harbor match contributions, and rollover contributions plus actual income or loss thereon.

The Plan provides that the Company's other contributions, including earnings thereon, vest fully at the end of five years of service, as defined by the Plan, upon termination of employment due to death or permanent disability, with partial vesting as follows:

Years of Service	Percentage Vested
1	20%
2	40%
3	60%
4	80%
5	100%

Notes Receivable from Participants

Employees may request loans for allowable uses which are repaid through payroll deductions. The minimum loan amount is $1,000 up to a maximum of the lesser of $50,000 reduced by the highest outstanding loan balance during the 12-month period prior to the date of the participant's request or 50% of the participant's vested account balance. The loans are secured by the balance in the participant's account, bear interest at prime plus 1% at the time the loans are made and are to be repaid over a period not to exceed five years, except as related to the purchase of a personal residence in which case the loan repayment may be a longer term. Loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. As of December 31, 2025, the interest rates on the outstanding notes receivable from participants ranged from 6.50% to 9.50% per annum.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocation of associated employer's contributions, Plan earning and losses, and charged with withdrawals and allocations of administrative fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeiture Amounts

As of December 31, 2025 and 2024, forfeited non-vested accounts totaled approximately $9,400 and $4,200 respectively. Forfeitures of the employer's contributions may be used to pay Plan expenses or to reduce amounts otherwise required to be contributed to the Plan. During 2025, approximately $2,100 of plan expenses were paid from forfeiture account balances.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. There were no amounts payable to participants who elected to withdraw from the Plan but had not been paid at December 31, 2025 and 2024.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 and 2024.

Administrative Fees

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2026, which is the date the financial statements were available to be issued.

Note 3. Plan Amendments

Effective January 1, 2025, the Plan was amended and restated, and a new administrator of the Plan was appointed.

Effective August 1, 2025, a new trustee and custodian of the Plan was appointed under the same administrator. In connection with the transition, participant account balances and related records were transferred to Ascensus and mapped into investment options deemed comparable to those previously offered under the Plan.

The conversion initiated a blackout period beginning July 20, 2025 and continuing through August 17, 2025, during which participants were unable to direct investments, request distributions, or change their account elections while participant data and balances were transferred and reconciled. Employee contributions continued to be remitted through payroll deductions during the blackout period and were invested in accordance with the transition procedures established for the conversion. Upon completion of the blackout period, participant accounts were made available through Vanguard and invested based on each participant's elections. In addition, the Plan was amended to provide additional investment funds in which participant contributions to the Plan may be invested.

Note 4. Information Certified by the Trustees

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock, trustee of the Plan as of December 31, 2024 and for the period through July 31, 2025, and Ascensus, trustee of the Plan as of December 31, 2025 and for the period from August 1, 2025 through December 31, 2025, qualified institutions, have certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments, at fair value, and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024.
- Investment income and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2025
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2025

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 5. Fair Value Measurement

The Financial Accounting Standards Board's Accounting Standards Codification established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

During 2025, the Plan changed trustees and recordkeepers, resulting in a change in the Plan's investment options from pooled separate accounts and interest-bearing cash to mutual funds and money market funds. There were no changes in the valuation methodologies applied within each respective asset class at December 31, 2025 and 2024.

- Mutual funds (2025) are valued at the quoted net asset value (NAV) of shares held by the Plan at year-end in active markets and are classified within Level 1 of the fair value hierarchy.
- Money market fund (2025) is valued at a stable net asset value of $1.00 per share in an active market and are classified within Level 1 of the fair value hierarchy.
- Pooled separate accounts (2024) are valued using Level 2 inputs. Each pooled separate account invests in a respective mutual fund and the fair value is based upon the underlying fair value of the mutual fund as determined by quoted market prices in an active market.
- Interest-bearing cash (2025 and 2024) is valued using Level 1 inputs valued daily at the closing price as reported by the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 4,130,127	$ -	$ -	$ 4,130,127
Interest-bearing cash	2,993	-	-	2,993
Money market	12,889	-	-	12,889
Total Investments at Fair Value	$ 4,146,009	$ -	$ -	$ 4,146,009

	2024			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 4,626,179	$ -	$ 4,626,179
Interest-bearing cash	4,281	-	-	4,281
Total Investments at Fair Value	$ 4,281	$ 4,626,179	$ -	$ 4,630,460

Note 6. Plan Termination

Although it has not expressed any intention to do so, the plan sponsor has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, affected participants who are actively employed by the Company at the time of termination shall be fully vested in their employer contributions.

Note 7. Income Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by Hub International Limited. This prototype plan document has been filed with the appropriate agency and received a favorable determination letter on June 30, 2020. The Plan has been amended since this determination letter, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS. The Plan's management and its tax counsel have analyzed the tax positions taken by the Plan, and have concluded that as of both December 31, 2025 and 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's management and its tax counsel believe it is no longer subject to income tax examinations for years prior to 2022.

Note 8. Risks and Uncertainties

The Plan invests in funds that invest in investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.

Note 9. Party-in-Interest Transactions

John Hancock served as the recordkeeper for the Plan through July 31, 2025 and Ascensus is the custodian and recordkeeper for the Plan effective August 1, 2025, as appointed by a service agreement with Vanguard Group, Inc (Vanguard) and, therefore, transactions with these parties and Vanguard qualify as party-in-interest transactions. Total fees paid to John Hancock and Vanguard during 2025 were $26,500.

Global Retirement Partners is an investment advisor for the Plan. Fees paid during 2025 were $3,060.

The Plan allows participants to receive loans under Section 72(p) of the IRC. Participant loans are considered to be permitted party-in-interest transactions.
