INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
Insurance Welfare Benefit Plan Southwest Gas Corporation

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Insurance Welfare Benefit Plan Southwest Gas Corporation (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and plan benefit obligations as of December 31, 2025, and 2024, the related statements of changes in net assets available for benefits and changes in plan benefit obligations for the year ended December 31, 2024, and the related notes to the financial statements (collectively, the financial statements).

Plan management (Management), having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (US GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that Management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect Management's responsibility for the financial statements.

In preparing the financial statements, Management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions , including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Plan. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability of the Plan to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of US GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with US GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental information in the accompanying Schedule of Assets (Held at End of Year) as of December 31, 2025 and Schedule of Reportable Transactions for the year ended December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of Management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that is agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

McConnell Jones

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that is agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that Management determined meets the requirements of ERISA Section 103(a)(3)(C).

The accompanying notes are an integral part of these statements.

Note 1 - Description of the Plan

The following description of the Insurance Welfare Benefit Plan Southwest Gas Corporation (the "Plan"), as amended, provides only general information. Participants should refer to the retiree handbook for a more complete description of the Plan provisions.

a. General

The Plan was established in 1998 by Southwest Gas Corporation (the "Company") to provide postretirement life insurance coverage to retired employees who meet the Company's retirement requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

In March and April 2025, management amended and restated the Trust Agreement in order to align certain provisions with the trustee's current requirements for the trustee's services.

b. Benefits

The Plan, as of December 31, 2025, provides group life insurance coverage to retired employees provided they have attained age 65 with 5 or more years of service or age 55 with 10 or more years of service. The life insurance benefit for retired employees is based on their annual base salary as follows:

Retirement Year	Initial Insurance Amount
Pre-1989	3.0 times annual base salary
1989	2.5 times annual base salary
1990	2.0 times annual base salary
1991	1.5 times annual base salary
1992 through 2008	1.0 times annual base salary (maximum $50,000)
2009 through 2012	$10,000
2013 and later*	None

The initial life insurance benefit amount for retirees age 65 and over is reduced as follows:

Retirement Year	Age 65 or Over Insurance Amount
Pre-1988	Initial insurance amount at 65 will be reduced to 90% (maximum benefit $90,000); additional reduction of 10% each year until age 69 (maximum benefit $50,000).
1988-1991	Initial insurance amount at 65 will be reduced to 92% (maximum benefit $92,000); additional reduction of 8% each year until age 69 (maximum benefit $60,000).
1992 through 2012*	No reduction to initial insurance amount.

Note 1 - Description of the Plan (Continued)

b. Benefits (Continued)

* The Company does not provide life insurance coverage for employees who retired after December 31, 2012.

The Company purchased life insurance policies for retired employees who became eligible to receive postretirement benefits prior to January 2013, and the related ongoing premiums are paid by the Plan. Benefit payments under the Plan are made directly to the beneficiaries of the policies from the insurance company, which issues the insurance policies.

c. Plan Expenses

Certain legal, management, and administrative expenses are paid by the Company. Actuarial, advisory, and all other administrative expenses are paid from Plan assets, to the extent not paid by the Company.

d. Plan Administration

The Company's Benefits Committee (the "Committee") is the administrator for all activities of the Plan, and The Bank of New York Mellon/BNY Mellon, N.A. ("BNY"), a subsidiary of The Bank of New York Mellon, was the Plan's trustee.

Note 2 - Summary of Accounting Policies

The following represents the significant accounting policies followed by the Plan.

a. Basis of Accounting

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Accrued expenses are expenses that were incurred prior to the end of the Plan year, but invoiced after the Plan year end; expenses include trustee and consulting fees.

b. Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, the disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefit obligations at the date of the financial statements, as well as the reported amounts of changes in net assets and benefit obligations during the reporting period. Actual results could materially differ from those estimates.

Note 2 - Summary of Accounting Policies (continued)

c. Investment Valuation

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments are valued at the net asset value ("NAV"), which is the total value of the securities in the funds less the amount of any liabilities outstanding. However, as these investments are exchange-traded at this value, they are deemed to be at fair value, and the NAV is not being utilized as a practical expedient to fair value. Investments also include short-term securities that are carried at amortized cost, which approximates fair value.

d. Postretirement Benefits

The amount reported as the postretirement benefit obligation represents the actuarial present value, as of the date of the financial statements, of future periodic benefit payments under the Plan provisions. These benefit payments primarily consist of insurance premium payments. Postretirement benefit obligations include benefits expected to be paid to or for retired employees and their beneficiaries.

The actuarial present value of the expected postretirement benefit obligation, as determined by the Plan's actuary, is the amount that results from applying actuarial assumptions regarding:

	December 31,	
Actuarial Assumption	2025	2024
Mortality rate	Pri-2012 Private Retirement Plan Mortality Table for Employees and Healthy Annuitants without collar adjustments, and with fully generational mortality projection using the Mortality Improvement Scale MP-2021	Pri-2012 Private Retirement Plan Mortality Table for Employees and Healthy Annuitants without collar adjustments, and with fully generational mortality projection using the Mortality Improvement Scale MP-2021
Weighted average discount rate	5.50%	5.75%
Average retirement age (years)	N/A	N/A
Actuarial cost method	Projected unit credit	Projected unit credit

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

e. Risk and Uncertainties

The Plan invests in registered investment company mutual funds and short-term investments (money market funds). Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the

Note 2 - Summary of Accounting Policies (continued)

Statement of Changes in Net Assets Available for Benefits. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults, credit rating downgrades, and for other reasons.

As of December 31, 2025 and 2024, approximately 99.3% and 99.5% of the Plan's investments were invested in a single mutual fund. While this mutual fund maintains a diversified portfolio of equity and debt securities, the Plan remains exposed to risk. A significant decline in the value of this mutual fund could materially impact the overall value of the Plan's investments.

The actuarial present value of benefit obligations is calculated based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

f. Contributions

Due to the suspension of the life insurance benefit and the adequacy of Plan funding, no contributions were made during 2025 and, at this time, none are expected to be necessary to be made in the future. Any funding contributions to the Plan by the Company, if determined necessary to be made, would be reflected as employer contributions in the accompanying Statement of Changes in Net Assets Available for Benefits.

Note 3 - Benefit Obligations

Benefits for participants and their beneficiaries are covered by insurance contracts maintained by the Plan. It is the present intention of the Company and the Plan to continue maintaining insurance coverage for benefits. Insurance premiums for future years with respect to the Plan's postretirement benefit obligation will be funded by the Plan.

Note 4 - Trust

The Plan's investments are in the Southwest Gas Corporation 501(c)(9) Voluntary Employees' Beneficiary Association Trust (the "Trust") which was established in October 1998 to invest the assets of the Plan. The assets of the Trust were held by BNY.

Note 5 - Plan Termination

The Company has the right to terminate the Plan at any time. In the event of termination, the trustee shall liquidate the Plan and all funds shall be used until exhausted to pay benefits to participants in the order of entitlement under ERISA.

Note 6 - Income Taxes

The Trust established under the Plan to hold the Plan's assets is intended to qualify pursuant to Section 501(c)(9) of the Internal Revenue Code, and, accordingly, the Trust's net investment income is exempt from income taxes. The Trust previously obtained a favorable tax determination letter from the Internal Revenue Service, and the Plan sponsor believes that the Trust, as amended, continues to qualify and to operate in accordance with applicable provisions of the Internal Revenue Code. U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements.

Note 7 - Party-in-Interest

The Company, a related party of the Plan, provides to the Plan certain accounting and administrative services for which no fees are charged. In addition, the Plan held investments in pooled funds and mutual funds of $283,327 and $177,206 as of December 31, 2025 and 2024, respectively, which were money market funds managed by The Bank of New York Mellon, the Plan's Trustee, and/or its affiliates. As described in Note 1, the Plan also pays The Bank of New York Mellon trustee fees, which are customary in relation to plan operations. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rules of ERISA.

Note 8 - Information Certified by the Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information included in the financial statements, accompanying footnotes, and supplemental schedules certified by the trustee. The Plan Administrator has obtained a certification from the trustee that the information provided to the Plan Administrator is complete and accurate. Such information includes:

- Investments at fair value
- Net appreciation (depreciation) in fair value of investments
- Dividends and interest income
- Information included in the Supplemental Schedules
- Accrued income receivable

Note 9 - Fair Value Measurements

In accordance with the Financial Accounting Standards Board Accounting Standards Codification, a fair value measurement should be based on the assumptions that market participants would use in pricing the asset or liability. A fair value hierarchy ranks the inputs used to measure fair value by their reliability. The three levels of the fair value hierarchy are as follows:

Note 9 - Fair Value Measurements (continued)

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities that a company has the ability to access at the measurement date.

Level 2 - inputs other than quoted prices included within Level 1 that are observable for assets or liabilities, either directly or indirectly. Level 2 inputs include quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3 - unobservable inputs for the assets or liabilities. Unobservable inputs are used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the assets or liabilities at the measurement date.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the measurement. The following table sets forth, by level within the fair value hierarchy, the Plan's assets that were accounted for at fair value. No financial assets or liabilities fell within Level 2 or Level 3 of the fair value hierarchy.

	December 31,	
	2025	2024
Level 1 - Quoted Prices in Active Markets for Identical Financial Assets		
Assets at fair value:		
Mutual funds [1]	$ 40,789,910	$ 36,951,088
Short-term securities [2]	283,327	177,206
Net assets	$ 41,073,237	$ 37,128,294

[1] The Mutual funds category is a balanced fund that invests in a diversified portfolios of common stocks, preferred stocks, and fixed income securities. Under normal circumstances, the fund invests between 25% and 75% of its total assets in equity securities and at least 25% in fixed-income investments. It may also invest up to 30% in non-U.S. securities. The fund seeks regular income, conservation of principal, and an opportunity for long-term growth of principal and income.

[2] The Short-term securities consist of money market funds, used as a temporary cash repository.

Note 10 - Subsequent Events

Management of the Plan monitors significant events occurring after the Statement of Net Assets Available for Benefits date and prior to the issuance of the financial statements to determine the impacts, if any, of events on the financial statements to be issued. All subsequent events of which management is aware were evaluated through October 9, 2026, the date these financial statements were available to be issued. Effective January 1, 2026, the Bank of New York Mellon/BNY Mellon, N.A was replaced by U.S. Bank as the Trustee.

Note 10 - Subsequent Events (continued)

Subsequent to December 31, 2025, the Benefits Committee approved proceeding with a process to transfer the financial obligations and associated retiree life insurance benefits of the Plan to a third-party insurance carrier. Management is currently completing contract negotiations with the selected vendor, and the final transaction amount has not yet been determined. In addition, the disposition of the remaining VEBA Trust assets is under evaluation. Accordingly, the financial impact of the proposed transaction, if any, cannot presently be determined. As of the date the financial statements were available to be issued, neither the transaction closing date nor the formal termination date of the Plan had been established.
