INDEPENDENT AUDITOR'S REPORT

To the Plan Trustees and Administrator of the
Florida Roads Employee Stock Ownership Plan
Jacksonville, Florida

Opinion

We have audited the accompanying financial statements of the Florida Roads Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets (deficit) available for benefits for the year then ended, and the related notes to the financial statements. In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of Florida Roads Employee Stock Ownership Plan as of December 31, 2025 and the changes in its net assets (deficit) available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis of Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Florida Roads Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Florida Roads Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists.

MEMBERS OF THE AMERICAN AND FLORIDA INSTITUTES OF CERTIFIED PUBLIC ACCOUNTANTS

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Florida Roads Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Florida Roads Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS
Years Ending December 31, 2025 and 2024

A. Description of the Plan:

The following brief description of the Florida Roads Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for complete information.

Florida Roads Contracting, Inc. (the "Company") established the Plan effective January 1, 2024 and operates the Plan as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Company, an independent third-party is the Plan's trustee.

On November 30, 2024, the Plan purchased 1,000,000 shares of the Company's common stock with loans of $41,000,000 from the shareholders (the "Sellers") and holds the common stock in a trust established under the Plan.

The borrowing is collateralized by the unallocated shares of common stock. The Sellers have no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to

a) The accounts of employees with rights in allocated common stock (allocated), and

b) Common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company and its participating subsidiaries who have attained the age of 18 are generally eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump sum in the Plan year following the event. Distributions for other separations from service commence in the fifth Plan year following the separation from service and are made in five annual installments. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form

A. Description of the Plan (continued):

Payment of Benefits (continued)

of Company common stock plus cash for any fractional share of common stock, except that any distribution eligible for floor price protection are distributed in shares only. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20 percent per year of service beginning after the 2nd year and vest ratably and are fully vested after 6 years of service.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

A. Description of the Plan (continued):

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution, unless eligible for floor price protection, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during December 31, 2025, totaled $0. Forfeited non-vested accounts to be allocated to participant accounts in future years as of December 31, 2025 and 2024, were $0.

B. Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (*a*) the accounts of employees with rights in allocated stock ("allocated") and (*b*) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See note D. for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

B. Summary of Significant Accounting Policies (continued):

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through the date the financial statements were available to be issued which is the date of the independent auditor's report.

C. Investments:

D. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

D. Fair Value Measurements (continued):

Level 2 - Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025:

	Level 3	Total
Investment in Florida Roads Contracting, Inc common stock	$ 220,000	$ 220,000
Total assets at fair value	$ 220,000	$ 220,000

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

	Level 3	Total
Investment in Florida Roads Contracting, Inc common stock	$ 1,460,000	$ 1,460,000
Total assets at fair value	$ 1,460,000	$ 1,460,000

D. **Fair Value Measurements (continued):**

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2025

	2025
Balance, beginning of year	$ 1,460,000
Additions	-
Unrealized depreciation in estimated fair value	$ (1,240,000)
Balance, end of year	$ 220,000
The amount of total gains or (losses) for the period included in the changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ (1,240,000)

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets (Deficit) Available for Benefits.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025.

The Company common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with standard industry practice.

Instrument	Fair Value	Principle Valuation Technique	Unobservable Inputs
Company stock	$ 220,000	Income	EBITDA Net income Weighted average cost of capital Discount rate Discount for lack of marketability
		Market	Public comparable Revenue multiple EBITDA multiple Discount for lack of marketability

D. **Fair Value Measurements (continued):**

The valuation process involves the selection of an appraiser under contract for a term of three years with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

E. **Notes Payable:**

On November 30, 2024, the Plan acquired 1,000,000 shares of Florida Roads Contracting, Inc. common stock for $41,000,000. The acquisition was initially financed through notes issued to the selling shareholders. As part of the closing transaction, those obligations were assumed by the Company and replaced by a single Company ESOP Note payable by the Plan to the Company. The Company ESOP Note bears interest at a fixed annual rate of 4.15% and provides for 70 annual installments of principal and interest beginning December 31, 2025. Prepayments are permitted without penalty and are applied first to accrued interest and then to principal, with the remaining principal amortized over the remaining term. The note is secured by the unallocated shares acquired with the loan proceeds. Recourse is limited to the collateral and other amounts permitted under the loan agreement, including designated employer contributions and related earnings. Allocated participant shares are not available to satisfy the loan obligation.

Shares are released from collateral based on the ratio of principal and interest payments attributable to the current plan year to the total of those payments and all future scheduled principal and interest payments. For the plan years ended December 31, 2025 and 2024, respectively, 14,053 and 16,297 shares were released and allocated to participant accounts. At December 31, 2025 and 2024, outstanding principal was $39,144,511. Accrued interest payable at December 31, 2025 was $1,624,497. Interest expense for the years ended December 31, 2025 and 2024 was $1,624,497 and $144,511, respectively.

The scheduled amortization of the loans for the next 5 years and thereafter is as follows:

2026	$	104,281
2027		108,608
2028		113,116
2029		117,810
2030		122,699
Thereafter		38,577,997
Total	$	39,144,511

F. **Company Contribution:**

The Company contributed to the ESOP $1,724,623 during the year ended December 31, 2025. The contribution was applied to debt service which resulted in a reduction of principal and the amount of $100,125 and the recognition of interest expense in the amount of $1,624,497. Employer contributions and related interest expense are reported in the unallocated column of the Statement of Changes in Net Assets (Deficit) Available for Benefits. Shares released for allocation to participant accounts during 2025 are reflected as a $3,092 transfer from unallocated to allocated accounts.

G. **Related Party and Party of Interest Transactions:**

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party in interest transactions. As described in note A., the Company pays all plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

H. **Risks and Uncertainties:**

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

I. **Plan Termination:**

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Employee Benefits Administration Committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

J. **Tax Status:**

The Plan has received a determination letter from the IRS dated April 1, 2026 stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

K. Post Closing Event:

Subsequent to the closing of the stock purchase transaction on November 30, 2024, a post-closing adjustment was made pursuant to Section 2.4 of the Stock Purchase Agreement. Based on the actual net working capital of $6,750,957 (compared to the target of $5,000,000) and actual net cash of $319,940 (compared to the target of $0) as of the closing date, the ESOP purchase price was increased by $2,070,897, resulting in a revised total purchase price of $43,070,897. This adjustment was formalized in an Amendment and Computational Agreement executed on April 18, 2025 and increased the principal amounts of the Company Seller Notes issued to the former shareholders. Interest on the adjusted principal accrues from March 1, 2025, with amended and restated notes executed effective April 1, 2025. This event has been reflected as an adjustment to the cost basis of the employer securities held by the Plan and does not effect the Plan's loan payable from the Company pursuant to Section 2.4(a)(iv) of the ESOP Purchase Agreement.
