INDEPENDENT AUDITORS' REPORT

Plan Committee
First National of Nebraska, Inc. Welfare Benefit Plan
Omaha, Nebraska

Opinion
We have audited the financial statements of First National of Nebraska, Inc. Welfare Benefit Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and plan benefit obligations as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits and changes in plan benefit obligations for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and plan benefit obligations of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits and changes in plan benefit obligations for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

1. Plan Description

The following brief description of the First National of Nebraska, Inc. Welfare Benefit Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit health and welfare plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established to provide health benefits covering substantially all active and eligible retired employees of First National of Nebraska, Inc. and its Affiliates (the Sponsors). The restated Plan and related Trust were established effective January 1, 2009. The liability for plan obligations under the predecessor plan was transferred into this Plan effective in January 2009.

Benefits

The Plan provides self-insured health benefits (medical, hospital, surgical, major medical, prescription, dental and short-term disability) to eligible participants and covered dependents. Employees are eligible to participate on the first day of the month that coincides with or follows the employee's date of hire or change to an eligible status. The Plan also provides fully insured benefits (vision, life insurance, accidental death and dismemberment insurance and long-term disability) to eligible employees. The Plan also provides continuation of certain benefits upon termination of employment through the Consolidated Omnibus Budget Reconciliation Act (COBRA). Benefits are recorded when paid.

Stop Loss Coverage

The Plan maintains a stop-loss insurance policy with Sun Life Assurance Company of Canada (Sun Life) whereby maximum Plan benefit payments per participant are $500,000, after which the insurance provider reimburses the Plan for covered benefit payments.

Contributions

The Plan's benefit payments, premiums and other costs are funded through a combination of employer and participant contributions. Participants pay an annually predetermined premium for coverage. The Sponsors pay the cost of the coverage in excess of the employee contributions.

Other

Although it has not expressed any intention to do so, the Sponsors have the right under the Plan to modify the benefits provided and to terminate the Plan subject to the provisions set forth in ERISA.

Upon termination of the Plan, claims incurred prior to the termination date will be settled. The remaining or deficient funds, if any, will be returned to or paid for by the Sponsors.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, benefit obligations and changes therein, claims incurred but not reported, claims payable, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments

Investments are stated at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Interest income is recorded on the accrual basis.

Postretirement Benefits

The postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to employees' rendered service. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired employees and their beneficiaries and dependents and (2) active employees and their beneficiaries and dependents after retirement from service with the Sponsors. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

Prior to January 1, 2015, retirees were eligible to receive postretirement benefits if they were age 55, had completed 10 years of service and were hired prior to July 1, 2006 or if they were age 65, had completed 5 years of service and were hired prior to July 1, 2006. Effective January 1, 2015, the Plan was amended whereby employees that were not age 60 by January 1, 2015 will no longer be eligible to receive postretirement benefits from the Plan. Retirees with a retirement date prior to January 1, 2015 are not affected by this amendment. Additionally, the Plan no longer covers retirees who are eligible for Medicare.

The actuarial present value of the expected postretirement benefit obligation is the amount that results from applying certain assumptions to historical claims-cost data to estimate future annual incurred claims costs per retiree and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The following were significant assumptions used in the valuations as of December 31, 2025 and 2024:

Health Care Cost-Trend Rate	5.00% in 2025 and 5.25% in 2024
Weighted-Average Discount Rate	5.00%
Average Retirement Age	63
Mortality	Pri-2012 total employee and retiree mortality tables projected with the 2024 Adjusted MP-2021 improvement scale.

As of December 31, 2025 and 2024, the Plan's estimated liability for postretirement benefits was $12,967 and $74,101, respectively. If the assumed health care cost-trend rate increased by one percentage point, it would increase the obligation as of December 31, 2025 and 2024, by $1,060. The obligation considers Medicare Part D Federal subsidies expected to be received on prescription expenditures.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Expenses

Claim administration fees are paid by the Plan. Investment management, actuarial and other fees are paid by the Sponsors.

Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued and may require potential recognition or disclosure in the financial statements. Management has considered such events or transactions through October 1, 2026, noting that the Plan switched its medical claims processor from Aetna Life Insurance Company to Blue Cross and Blue Shield of Nebraska, Inc. and its pharmacy benefits claims processor from CaremarkPCS Health, L.L.C. to Blue Cross and Blue Shield of Nebraska, Inc. effective January 1, 2026.

3. Interest in Master Trust

The Plan's investment assets are held in a trust account at First National Bank of Omaha (FNBO) and consist of an interest in an investment account of the First National of Nebraska, Inc. Welfare Plan Trust (the Master Trust), which is a master trust established by the Sponsors and administered by FNBO. Use of the Master Trust permits the commingling of trust assets of the Plan and the Lauritzen Corporation Welfare Benefit Plan (a related party, see Note 7) for investment and administrative purposes. The net investment income of the investment assets is allocated by FNBO to each participating Plan based on the relationship of each interest of each individual Plan to the total of the interests of the participating plans.

The net assets available in the Master Trust as of December 31, 2025, are summarized as follows:

	Master Trust Balances	Plan's Interest in Master Trust Balances
Investments:		
Money Market Fund	$ 2,040,377	$ 2,040,377
Receivables:		
Participant Contributions	183,759	32,507

Total Liabilities	1,594,992	936,220
Net Assets Available in the Master Trust	$ 796,615	$ 796,615

The net investment income of the Master Trust for the years ended December 31 is summarized as follows:

	2025	2024
Interest from Investments	$ 73,601	$ 132,991

4. Benefit Obligations

Plan benefit obligations at December 31, 2025 and 2024, for health claims incurred by active participants and their covered dependents, reported at that date to the plan administrator or claims processor have been accrued and recorded as health claims payable in the accompanying statements of plan benefit obligations. Also, plan benefit obligations for health claims incurred by active participants, and their covered dependents, but not reported at December 31, 2025 and 2024, have been reported in the accompanying statements of plan benefit obligations as estimated by the Sponsors taking into consideration prior claims history and the expected time period from the date such claims are incurred to the date that the related claims are submitted and paid.

5. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs, other than quoted prices, that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Money Market Fund: Valued at the daily closing price as reported by the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2025.

	Level 1	Level 2	Level 3	Total
Money Market Fund	$ 2,040,377	$ -	$ -	$ 2,040,377

The following table presents by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2024.

	Level 1	Level 2	Level 3	Total
Money Market Fund	$ 1,132,174	$ -	$ -	$ 1,132,174

6. Tax Status

The Trust established under the Plan to hold the Plan's assets is intended to qualify pursuant to Section 501(c) of the Internal Revenue Code (IRC), and, accordingly, is exempt from income taxes. The Sponsors believe that the Plan and related Trust, as amended, continue to qualify and to operate in accordance with applicable provisions of the Internal Revenue Code.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

7. Related Party Transactions

A certain Plan investment in the Master Trust is a money market fund managed by FNBO. FNBO is the custodian and a sponsor of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Additionally, included in other receivables are amounts due from the Lauritzen Corporation Welfare Benefit Plan to cover the Plan's shortfall in its interest in the Master Trust balance of the money market fund (related to claims payments primarily) totaling approximately $710,000 and $490,000 as of December 31, 2025 and 2024, respectively. As this Plan is included in the same Master Trust, the amounts qualify as party-in-interest transactions.
