Independent Auditors' Report

To the Trustees of the
Great Lakes Dental Technologies, Ltd.
Employee Stock Ownership Plan
Tonawanda, New York

Opinion

We have audited the accompanying financial statements of the Great Lakes Dental Technologies, Ltd. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Great Lakes Dental Technologies, Ltd.
Employee Stock Ownership Plan
Notes to Financial Statements

1. Description of the Plan

The following description of the Great Lakes Dental Technologies, Ltd. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – Great Lakes Dental Technologies, Ltd. ("Plan Administrator") established the Great Lakes Orthodontics, Ltd. Employee Stock Ownership Plan effective as of January 1, 1990. Effective January 1, 2020, the Plan was renamed the Great Lakes Dental Technologies, Ltd. Employee Stock Ownership Plan to conform with the Plan Administrator's name change. The Plan operates as an employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) and the regulations there under of the Internal Revenue Code of 1986, as amended ("Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by a committee appointed by the Plan Administrator's Board of Directors. The Plan's assets are held in the Great Lakes Dental Technologies, Ltd. Employee Trust.

Eligibility – Employees of the Plan Administrator are generally eligible to participate in the Plan after they have attained age 18 and completed one year of service, as long as they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Plan Administrator contributions for such year.

Funding Policy – The Plan Administrator may make discretionary contributions of cash or shares of the Plan Administrator's common stock. The contributions are then allocated to the participant accounts based on eligible compensation. Employee contributions are not permitted.

Participant Accounts – The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Plan Administrator's stock contributions and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Plan Administrator as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance. The Plan was restated and amended as of January 1, 2022 to change the timing of the allocations of plan earnings to after the forfeitures were applied which were previously allocated prior to forfeitures being applied.

1. Description of the Plan (continued)

Vesting – If a participant's employment with the Plan Administrator ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Plan Administrator. Participants vest 20 percent per year of credited service, as defined in the Plan document, commencing upon completion of their second year of service and are 100 percent vested after six years of service. Vesting is immediate upon death, termination of employment due to disability, or attainment of retirement age, as defined in the Plan document.

Put Option – Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trade limitations, includes a put option. The put option is a right to demand that the Plan Administrator buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Payment of Benefits – The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. For accounts less than $10,000, a lump-sum distribution is made, while accounts in excess of $10,000 are paid in five annual installments. Benefits are provided for normal retirement at attained age of 65, upon death (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), and termination of employment with the Plan Administrator. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash.

Under the provision of the Plan, the Plan Administrator is obligated to repurchase participant shares that have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations.

Diversification – Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Plan Administrator stock into investments which are more diversified.

Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may elect annually to diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

1. Description of the Plan (continued)

Participants who are at least age 45 with at least 10 years of participation in the Plan and do not terminate before March of the current Plan year may elect to diversify a portion of their accounts. Participants may elect to distribute up to 25 percent of the total number of shares of Plan Administrator stock allocated to the participant's account as of the end of the Plan year immediately preceding the participant's first year of eligibility for the diversification. The Plan limits the amount of this election in a Plan year.

Forfeitures – The non-vested balances of participants who have ceased employment with the Plan Administrator are forfeited upon the occurrence of a five-year break in service. Forfeited accounts shall be allocated in the same manner as employer contributions.

Voting Rights – Trustees are entitled to exercise voting rights attributable to shares of Plan Administrator stock, except for certain Plan Administrator matters such as merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of the trade or business, or such similar truncations. For these certain Plan Administrator matters, each participant is entitled to direct the Trustees to exercise voting rights attributable to the shares allocated to his or her accounts. In addition, for these certain Plan Administrator matters, the Trustees exercise voting rights attributable to shares for which the Trustees do not receive direction from the participant.

Tax Status - The Plan Administrator has adopted the Principal Financial Group ESOP/KSOP Pre-Approved Plan. Principal Financial Group obtained a letter dated June 30, 2020, in which the Internal Revenue Service stated that the Plan document satisfies the applicable provisions of the Code. Although the plan has been amended since the preapproved plan received the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Code and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Plan Termination – Although it has not expressed any intent to do so, the Plan Administrator reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to each participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Employee Benefits Administration Committee shall direct the Trustees to pay all liabilities and expenses of the trust fund.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Valuation of Investment and Income Recognition – The investment is stated at fair value as determined by an annual independent valuation. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation or depreciation includes the Plan's gains and losses on shares bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Plan expenses are paid by the Plan Administrator.

Use of Estimates – The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events – The Plan has evaluated subsequent events, for recognition or disclosure, through September 28, 2026, the date the accompanying financial statements were available to be issued.

3. Investment

The Plan's investment in Great Lakes Dental Technologies, Ltd. common shares at December 31, is as follows:

	2025	2024
Number of Shares	3,155.05	3,451.39
Cost	$ 21,619,653	$ 28,218,571
Fair Value	$ 21,660,054	$ 25,339,070
Fair Value per Share	$ 6,865.20	$ 7,341.70

4. Fair Value Measurements

ASC 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

- **Level 1** – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date. There were no assets of the Plan that were valued at Level 1 inputs at December 31, 2025 and 2024.

- **Level 2** – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. Also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security. There were no assets of the Plan that were valued at Level 2 inputs at December 31, 2025 and 2024.

- **Level 3** – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value:

Great Lakes Dental Technologies, Ltd. Common Stock: The fair value of the Plan Administrator's common stock held by the Plan is valued at fair value based upon an annual independent appraisal on a going concern basis.

There have been no changes in the methodology used at December 31, 2025 and 2024.

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	2025	2024
Level 1:	$ 0	$ 0
Level 2:	0	0
Level 3:		
Common stock	21,660,054	25,339,070
Total assets in the fair value hierarchy	21,660,054	25,339,070
Total investments valued at fair value	$ 21,660,054	$ 25,339,070

4. Fair Value Measurements (continued)

The following table presents information about the Plan's investment in Plan Administrator common stock. The valuation was based upon weighted average of income and asset valuation techniques consistent with prior years as illustrated in the following table:

Instrument	Fair Value at December 31, 2025	Principal Valuation Technique	Unobservable Inputs
Great Lakes Dental Technologies, Common Stock	$21,660,054	Income – debt-free discounted cash flow	Forecasted cash flows Weighted average cost of capital Build-up discount rate Excess and non-operating assets Weighted average value Discount for lack of marketability
		Income – debt-free capitalization of income	Debt-free operating income Weighted average cost of capital Build-up capitalization rate Long-term growth rate Excess and non-operating assets Weighted average value Discount for lack of marketability
		Asset	Adjusted book values Weighted average value Discount for lack of marketability

The valuation process involves the selection of an independent appraiser on an annual basis. Plan management accumulates the data for the appraiser from historical and projected financial information of the Plan Administrator. The appraiser prepares a report of estimated per-share value that a participant will receive upon distribution. The appraiser's report is reviewed and approved by Plan management, the Trustees and the Board of Directors.

The methods described in the table above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at December 31, 2025.

4. Fair Value Measurements (continued)

The following table presents the changes in the above Level 3 investment measured on a recurring basis for the year ended December 31, 2025:

6. Related-Party and Party-in-Interest Transactions

The Plan invests in Plan Administrator stock. In addition, the Plan Administrator performs various administrative functions for the Plan. These are related-party and party-in-interest transactions.

7. Risks and Uncertainties

The Plan's investment consists of Plan Administrator common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with investment in the common stock and to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in the value of the common stock will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
