INDEPENDENT AUDITORS' REPORT

To the Trustees of
KB&R 401k Profit Sharing Plan and Trust
New York, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of KB&R 401k Profit Sharing Plan and Trust (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of KB&R 401k Profit Sharing Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of KB&R 401k Profit Sharing Plan and Trust and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about KB&R 401k Profit Sharing Plan and Trust's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of KB&R 401k Profit Sharing Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about KB&R 401k Profit Sharing Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) Description of the Plan

The following description of the KB&R 401(K) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution prototype non-standardized 401(k) profit sharing plan of Kaufman Borgeest & Ryan, LLP (the "Partnership") established under the provision of Section 401(a) of the Internal Revenue Code (IRC), which included a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Partnership. All eligible employees of the Partnership who have completed one year of service with 1,000 or more hours and have reached age 21 upon applicable entry date are eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year participants may contribute up to 100% of their pre-tax annual compensation as defined in the Plan, but the total contribution cannot exceed the IRC limitation of $23,500 for 2025. Participants who are age 50 or older are eligible to make catch-up contributions up to $7,500. Participants also may contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Partnership may make a discretionary matching contribution equal to a percentage of the participants' contributions. This percentage is determined each year by the Partnership. The Partnership may also make a discretionary profit sharing contribution with the exception that the participant must be actively employed on the last day of the Plan year.

Participant Accounts - Each participant's account is credited with the participant's contributions and the Partnerships' matching contributions, as well as allocations of the Partnerships' profit sharing contribution and Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on the proportion that each participant's compensation bore to the compensation of all participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Elections - Participant contributions and the Partnerships' matching contributions are allocated to the various investment options offered by the Plan as the participant directs.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting of the Partnerships' matching contributions and discretionary profit sharing is based on vesting years of service. A participant is vested in employer contributions and earnings or losses thereon according to the following schedule:

Years of Vesting Service	0-1	2	3	4	5	6
Vested Portion:	0%	20%	40%	60%	80%	100%

Notes Receivable from Participants - Notes receivable from participants will be granted with a minimum of $1,000 and a maximum amount equal to 50% of a participant's vested account balance, but not more than $50,000, reduced by the participant's highest loan balance, if any. Notes are secured by the participant's account and bear interest at the prime rate as published by the Wall Street Journal plus 1%. Principal and interest payments must be made at least quarterly and in equal amounts and the note term may not exceed five years.

(1) Description of the Plan (Continued)

Payment of Benefits - Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, as described in the Plan provisions. For termination of service for other reasons, participants will receive only their vested percentage of their account balance. In addition, participants are entitled to hardship withdrawals for participants incurring an immediate and heavy financial need, as defined by the Plan and in accordance with IRC regulations.

Forfeitures - Upon termination of employment, participants forfeit their unvested balances. Forfeited balances of terminated employees' nonvested accounts can be used to reduce future Partnership matching contributions or to pay administrative expenses of the Plan, as determined by the Partnership at its sole discretion. Forfeitures of $31,015 were used to reduce employer contributions for the 2025 plan year. The amount of nonallocated forfeitures at December 31, 2025 was $43,579.

(2) Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value (except for the guaranteed income fund which is a fully benefit-responsive investment contract reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian, as described in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2025 and 2024. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contributions - Contributions from Plan participants and the matching contributions from the employer are recorded in the year in which the employee contributions are withheld from compensation.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Administrative expenses of the Plan including trustee and custodian fees were paid by the Plan to the extent such fees are not paid by the Partnership. Certain expenses of maintaining the Plan are paid directly by the Partnership and are excluded from these financial statements. Certain investment related expenses are included in net appreciation of fair value of investments.

(2) Summary of Significant Accounting Policies (Continued)

Reclassifications - Certain reclassifications were made to the 2024 financial statement presentation to correspond to the current year's format. Total net assets available for benefits and net increase in net assets available for benefits were unchanged due to these reclassifications.

Subsequent Events - The Plan has evaluated subsequent events through September 21, 2026, the date the financial statements were available to be issued

(3) Information Certified and Provided by Voya Retirement Insurance and Annuity Company (Unaudited)

The following is a summary of the Plan's asset information as of December 31, 2025 and 2024, and for the year ended December 31, 2025, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by Voya Retirement Insurance and Annuity Company, the custodian and furnished to the plan administrator. The Plan administrator has obtained certifications from the custodian that information provided to the Plan administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4,5, and supplemental schedule which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2025	2024
Investments at Fair and Contact Value:		
Pooled Separate Accounts, At Fair Value	$ 61,056,283	$ 52,621,307
Guaranteed Income Funds, At Contract Value	6,204,105	6,812,496
Receivable:		
Notes Receivable from Participants	325,616	265,156

Voya Retirement Insurance and Annuity Company also certified to the completeness and accuracy of $8,671,079 of net appreciation in the fair value of investments, and $210,836 of dividends related to the aforementioned plan assets, including interest income on notes receivable from participants of $23,627, for the year ended December 31, 2025.

(4) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(4) Fair Value Measurements (Continued)

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Pooled Separate Accounts: Valued at the net asset value (NAV) of units of insurance company trusts. The NAV, as provided by the custodian is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

In accordance with FASB Accounting Standards Codification Subtopic 820-10 Fair Value Measurement, investments that are measured at net asset value per share (or its equivalent) are not classified in the fair value hierarchy. For the years ended December 31, 2025 and 2024, the NAV of Plan investments in pooled separate accounts were $61,056,283 and $52,621,307, respectively.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with FASB Accounting Standards Codification Subtopic 820-10 Fair Value Measurement, investments that are measured at net asset value per share (or its equivalent) are not classified in the fair value hierarchy. For the years ended December 31, 2025 and 2024, the NAV of Plan investments in pooled separate accounts were $61,056,283 and $52,621,307, respectively.

Transfers Between Levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

(4) Fair Value Measurements (Continued)

The following table sets forth additional disclosures of Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2025 and 2024:

(a) Assets are invested in conservative investment options that seek, but not necessarily guarantee, to hold the principal value of an investment stable through all market conditions. These options may credit a stated rate of return or minimum periodic interest rate that may vary. Dividend rates and income levels fluctuate with market conditions and are not guaranteed. These investment options, including money market portfolios, are neither insured nor guaranteed by the U.S. government.

(b) Assets are invested fixed income securities that have been determined to be appropriate for its investment goal. Investors here are primarily seeking income or growth of income, with less emphasis on capital appreciation. Funds in this asset class vary greatly in their risk profiles. The issuer, credit quality of the underlying investments, and the average duration of the portfolio play important roles in determining the risk profile of the fund. Fixed-income funds are those that have significant investments in below-investment grade bonds ("junk bonds") or bonds of foreign issuers would be categorized as high yield or international bonds. Portfolios consisting of investment grade corporate bonds, mortgages, government bonds and, to a lesser degree, preferred stock, foreign or convertible bonds typically land in the intermediate term bond category. Shorter duration and high credit quality funds are typically categorized as short term bond or short term government funds.

(4) Fair Value Measurements (Continued)

(c) These funds are also known as "LifeStyle" or "LifeCycle" funds. They invest in a combination of assets such as aggressive stocks, international stocks, large-company stocks, government bonds, foreign bonds or money markets. The allocation percentage to each asset type may be fixed, bounded by a range, or determined at the discretion of the manager. Managers of these funds review market conditions regularly and refine the asset allocation mixture they believe will achieve the best risk adjusted performance based on the stated objectives and "target" allocations of the particular fund. Different constructs can be based on risk tolerance or length of time to investment goal.

(d) These funds seek to "balance" growth of principal and current income by investing in a combination of stocks and bonds (generally holding 60-70% equity and 30-40% fixed income). The investment style used here is either moderate allocation or conservative allocation. Some funds have fixed asset allocations and others allow managers discretion to allocate between equities and bonds, depending on their view of return and risk.

(e) Funds seek long-term growth of capital or a combination of growth and income by investing primarily in stocks of larger, mature companies. The investment styles exhibited are value and "blend." Stocks are selected for price appreciation and for the value of the current income provided through dividends. These funds generally exhibit a lower level of price volatility, due to the types of companies they favor, such as those able to pay dividends along with more older, mature companies.

(f) Large cap growth funds invest primarily in stocks of larger U.S. companies employing an investment style of growth. A growth fund invests in the stocks of companies that are growing rapidly. Growth companies tend to reinvest all or most of their profits for research and development rather than pay dividends. Growth funds are focused on generating capital gains rather than income. Funds emphasizing growth stocks will typically have higher price/earnings ratios and make little or no dividend payments. Large capitalization companies tend to be more established, with lower relative volatility, than more aggressive small and mid-cap stock funds.

(g) Small cap, mid cap and "specialty" funds are in this category, employing investment styles of growth, value, or a blend of growth and value. These funds seek capital appreciation by investing primarily in stocks of small-and medium-sized companies. Generally, these companies are striving to develop new products or markets and have above-average earnings growth potential. Because of their smaller size, these companies may face greater business risk, and investments in these funds generally carry much higher risk than other domestic equity funds. "Specialty" or "sector" funds invest in stocks of companies in a particular industry. This narrow focus can significantly increase the risk and volatility of such funds.

(h) There are three main types of funds in this category. International funds can have an investment style of Foreign Large Value, Foreign Large Blend, Foreign Large Growth, Foreign Small/Mid Value or Foreign Small/Mid Growth. These funds invest in stocks of companies outside of the United States. Global funds have an investment style of World Stock. These funds invest in stocks of companies in the United States and developed countries outside of the United States. Emerging Markets funds invest in securities of developing countries and demonstrate the greatest volatility of performance due to the unstable nature of their economies, political structures and currencies. International investing may provide greater diversification benefits to a U.S.-based portfolio than investing in domestic securities alone. However, foreign investing does involve additional risks not present in U.S. securities.

(5) Group Annuity Contracts With National Insurance Companies

The Plan has traditional fully benefit-responsive guaranteed investment contracts with Voya Retirement and Insurance Annuity Company ("VIRAC") and Metropolitan Life Insurance Company ("MetLife") totaling $6,204,105 for 2025 and $6,812,496 for 2024. VIRAC and MetLife maintain the contributions in general accounts. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuers but may not be less than 1%. The crediting rate is reviewed on a semi-annual basis for resetting. The guaranteed investment contracts do not permit the insurance companies to terminate the agreements prior to the scheduled maturity date.

This contracts meet the fully benefit-responsive investment contract criteria and are therefore reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by VIRAC and MetLife, represents contributions made under the contracts, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The concept of a value other than contract value does not apply to these insurance company issued general accounts backed evergreen (no maturity date) group annuity spread product. Upon a discontinuance of the contracts, contract value would be paid no later than 90 days from the date notice of discontinuance is provided. These contracts' operation does not have provisions to contract at a value other than contract value. The funds are not backed by specific securities but instead backed by VRIAC's and MetLife's general accounts.

The Plan's ability to receive amounts due is dependent on the issuers' ability to meet its financial obligations. The issuers' ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuers. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuers.

(6) Related-Party and Party-in-Interest Transactions

Certain Plan investments are pooled separate accounts managed by Voya Retirement Insurance and Annuity Company ("Voya"). Voya is the custodian as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for Voya management services are included in net appreciation in fair value of the investments rather than a direct payment. Certain administrative fees paid by the Plan directly to Voya were $7,868 for the year ended December 31, 2025. The Partnership pays all other expenses of the Plan.

(7) Plan Termination

Although they have not expressed any intent to do so, the Partnership has the right under the Plan agreement, subject to the provisions of ERISA, to discontinue their contributions, amend or modify the Plan at any time. In the event of the Plan termination, all participants will become 100 percent vested in the Partnership's contributions.

(8) Tax Status

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service ("IRS") states that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Risks and Uncertainties

Plan participants' invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances, either positively or negatively and the amounts reported in the Statement of Net Assets Available for Benefits.
