Report of Independent Auditor

To the Retirement Plan Committee
The Retirement Plan for Associates of Metromont LLC
Greenville, South Carolina

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of The Retirement Plan for Associates of Metromont LLC (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2025 and Schedule of Delinquent Participant Contributions) – Form 5500, Schedule H, Part IV, Line 4a for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The accompanying notes to the financial statements are an integral part of these statements.

Note 1—Description of the Plan

The following description of The Retirement Plan for Associates of Metromont LLC (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all full-time employees of Metromont LLC (the "Company") who have completed at least 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration – Overall responsibility for administering the Plan rests with the Company. Participant accounts are administrated by Empower Trust Company, LLC and Empower Annuity Insurance Company of America (the "Trustees" of the Plan). The Trustees are considered parties in interest. Certain administrative functions are performed by employees of the Company, who receive no compensation from the Plan.

Contributions – Each year, participants may make elective contributions to the Plan in the form of salary deferrals, not to exceed the maximum contribution as defined by the Plan. The Plan allows for Roth elective deferrals. The Roth deferrals are included in an employee's ordinary taxable income and are maintained in a separate account from pre-tax deferrals. Earnings on a participant's Roth account accumulate on a tax-free basis. Plan participants may elect all pre-tax, all Roth, or a combination of elective deferrals each pay period. The Plan has an automatic enrollment feature with a deferral percentage equal to 4% of participant's compensation. The automatic deferral provision applies to all eligible participants hired on or after January 1, 2017. Eligible employees can decline enrollment, automatically enroll at 4% of Plan compensation, or enroll at a chosen deferral rate. An automatic deferral increase of 1% will occur annually until a deferral rate of 15% is reached.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Such contributions, if any, are recorded as rollover contributions in the accompanying financial statements. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

The Company has elected a safe harbor plan and has selected to contribute 100% of a participant's elective deferrals up to 4% of compensation, as outlined in the Plan agreement. Additional matching contributions may be contributed at the discretion of the Company. There were no such discretionary matching contributions for the year ended December 31, 2025.

Investment Options – Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their allocations to the various investment options at any time.

Participant Accounts – Each participant's account is credited with the participant's contributions and allocations of Company contributions and Plan earnings or losses. Participant accounts are charged for withdrawals and an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are vested immediately in their contributions, employer safe harbor matching contributions, employer discretionary contributions, if any, and actual earnings thereon.

Note 1—Description of the Plan (continued)

Notes Receivable from Participants – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms cannot exceed five years unless the proceeds are used to acquire a principal residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.50%, which are commensurate with local prevailing rates as determined periodically by the Company. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits – Upon termination of service for reasons other than death, a participant may receive a lump sum equal to the value of the participant's vested interest in his or her account. Upon death, a participant's vested interest will be distributed to an elected beneficiary as soon as administratively feasible in a lump sum or substantially equal payments for a specified period of time. All fully vested balances are available for distribution after the participant reaches the age of 59½ or upon normal retirement age. A participant who is experiencing a financial hardship, as defined in the Plan document, may request a withdrawal of all or any portion of such participant's salary deferral contributions, excluding earnings and Rollovers, if any.

Forfeitures – At December 31, 2025 and 2024, forfeited nonvested amounts were $538 and $484, respectively. Forfeited nonvested accounts are used first to reduce Plan administrative expenses and then to reduce future employer matching contributions. For the year ended December 31, 2025, the Plan did not use any forfeited amounts to reduce Plan administrative expenses or employer contributions.

Note 2—Summary of significant accounting policies

Basis of Accounting – The accompanying financial statements have been prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could vary from the estimates that were used.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment of Benefits – Benefits paid to participants are recorded when paid.

Administrative Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

Investment related expenses are included in net appreciation in fair value of investments.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2—Summary of significant accounting policies (continued)

Investment Valuation and Income Recognition – Investments in the Plan are reported at fair value, expect for the fully benefit-responsive investment contract ("FBRIC"), which is reported at contract value. U.S. GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to the FBRIC because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Reclassifications – Certain investments presented as Level 2 investments in the prior year have been reclassified to investments measured at contract value in accordance with the Plan's current year presentation. Additional investments presented as Level 2 investments in the prior year have been reclassified to investments measured using the net asset value ("NAV") per share practical expedient. This reclassification relates solely to financial statement presentation and had no effect on net assets available for benefits or net increase (decrease) in net assets available for benefits.

Note 3—Information prepared and certified by the qualified institutions

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Empower Trust Company, LLC and Empower Annuity Insurance Company of America (the "Qualified Institutions" or "Trustees"), have certified the following data included in the accompanying financial statements and supplemental schedule as complete and accurate:

- Investments, at fair value, and investments, at contract value, and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024.

- Net appreciation in fair value of investments, including realized and unrealized gains and losses, interest and dividends, and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2025.

- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2025.

Note 4—Fair value measurements

U.S. GAAP defines three levels of inputs that may be used to measure fair value as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Note 4—Fair value measurements (continued)

Other than those listed below, there have been no significant changes in the methodologies used at December 31, 2025 or 2024. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used to measure the Plan's investments at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds – These public investment vehicles are valued using NAV provided by the administrator of the fund. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. NAV is classified within Level 1 of the valuation hierarchy based on the underlying assets of the account, which are traded on an active market.

Pooled Separate Account – These investments are valued based upon the units of such pooled separate accounts held by the Plan at year-end multiplied by the respective unit value. These investments are valued at their "accumulation unit value" (AUV). These are valued daily as the number of accumulation units held multiplied by the AUV. The AUV is determined daily based on the net asset value of shares of the underlying fund, the fund's dividends and the contract's separate account charges. Investments in the pooled separate accounts are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient.

Common Collective Trust Fund – These investments are valued based on NAV of units of the common collective trust. NAV, as provided by the Qualified Institutions, is used as a practical expedient to estimating fair value. NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. The funds' principal objective is to pool assets from multiple tax-qualified retirement plans or fiduciary accounts into a single portfolio, leveraging economies of scale to lower administrative and management costs, provide professional management, and achieve broad asset diversification.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31:

	2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 75,918,153	$ -	$ -	$ 75,918,153
Total investments at fair value	$ 75,918,153	$ -	$ -	75,918,153
Common collective trust fund and pooled separate account measured at NAV [(a)]				8,575,006
Total investments at fair value				$ 84,493,159

Note 4—Fair value measurements (continued)

December 31:

	2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 64,717,226	$ -	$ -	$ 64,717,226
Total investments at fair value	$ 64,717,226	$ -	$ -	64,717,226
Common collective trust fund and pooled separate account measured at NAV [(a)]				7,364,932
Total investments at fair value				$ 72,082,158

[(a)] In accordance with Subtopic 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Note 5—Investments measured using NAV per share practical expedient

The following tables summarize certain information about investments measured at fair value based on NAV per share, which is not readily determinable, as of December 31:

	As of December 31, 2025			
	Fair Value	**Unfunded Commitments**	**Redemption Frequency**	**Redemption Notice Period**
Common collective trust fund	$ 4,273,026	N/A	Daily	12 months
Pooled separate account	$ 4,301,980	N/A	Daily	12 months

	As of December 31, 2024			
	Fair Value	**Unfunded Commitments**	**Redemption Frequency**	**Redemption Notice Period**
Common collective trust fund	$ 3,595,076	N/A	Daily	12 months
Pooled separate account	$ 3,769,856	N/A	Daily	12 months

Note 6—Guaranteed investment contract

During 2025 and 2024, the Plan held an interest in the EI Fixed Account ("EIFA"), a stable value fund (“SVF”) that is a pooled account with Empower Annuity Insurance Company of America (“EAICA”), made available to participating plans through a group annuity contract. Contributions to the SVF are directed to EAICA that invests primarily in a diversified portfolio of high-quality, fixed income securities, which are owned by EAICA. The SVF is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer, EAICA, is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 6—Guaranteed investment contract (continued)

The SVF is a fully benefit-responsive investment contract and is reported at contract value in the statements of net assets available for benefits. The statement of changes in net assets available for benefits is also prepared on a contract value basis. Benefit responsiveness is defined as the extent to which a contract's terms and the Plan permit or require participant-initiated withdrawals at contract value.

Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. EAICA reports the contract value to the Qualified Institution to include in the certification over the schedule of assets held. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Certain events limit the ability of the Plan to transact at contract value with the issuer of the SVF. Such events include but may not be limited to the following: (1) temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the Plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan Sponsor's business; (5) removal from the Plan of one or more groups or classifications of participants; (6) partial or complete Plan termination; or (7) Plan disqualification. The Plan administrator is not aware of the occurrence or probable occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants.

The crediting interest rate for the SVF is reset daily by the issuer but cannot be less than zero. The crediting interest rate is based upon a formula and is a function of timing of the cash flow activity, overall interest rates, the reinvestment of maturing proceeds, and the impact of credit losses and impairments.

Note 7—Party-in-interest transactions

Certain Plan investments are managed by the Trustees and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services totaled $131,745 for the year ended December 31, 2025, and are included in the statement of changes in net assets available for benefits. Notes receivable from participants also qualify as a party-in-interest transaction.

Note 8—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event such discontinuance results in termination of the Plan, the Plan provides that the assets be allocated among the participants and beneficiaries in the amounts credited to each participant's respective account at the effective date of such termination.

Note 9—Tax status

The Plan adopted a volume submitter profit sharing plan which received a favorable opinion letter from the IRS on November 14, 2022, which stated that the prototype Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2025. The Plan sponsor believes the Plan has no income subject to unrelated business income tax.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10—Subsequent events

Effective April 21, 2026, the Plan was amended to include the participants of the Company's December 2025 acquisition. Plan year compensation for acquired participants will be included for Plan year end December 31, 2025. Additionally, effective April 21, 2026, the Plan was amended to permit in-plan Roth transfers and in-plan Roth transfers with the exception of loan balances.

The Plan administrator has evaluated subsequent events for potential recognition and for disclosure in the December 31, 2024, financial statements through October 7, 2026, the date the financial statements were available to be issued.
