INDEPENDENT AUDITORS' REPORT

October 9, 2026

Trustee and Plan Participants
Employee Stock Ownership Plan and Trust for the Employees of
Quality Manufacturing Services, Inc.
Lake Mary, Florida

Opinion

We have audited the financial statements of the ***Employee Stock Ownership Plan and Trust for the Employees of Quality Manufacturing Services, Inc.*** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements (the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis of Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The December 31, 2025 supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST FOR THE EMPLOYEES OF QUALITY MANUFACTURING SERVICES, INC.

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN

The following brief description of the ***Employee Stock Ownership Plan and Trust for the Employees of Quality Manufacturing Services, Inc.*** (the "Plan" or "ESOP") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Quality Manufacturing Services, Inc. (the "Company") established the Plan effective as of January 1, 2007. The Plan operates as a leveraged employee stock ownership plan ("ESOP"), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the "Code") of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company retained the services of an independent third party as the Plan's trustee (the "Trustee").

During 2007, the Plan purchased the initial 1,803,600 shares of Company common stock using the proceeds from stockholder financing and bank debt. On July 1, 2014, the ESOP purchased the remaining 1,796,400 shares of common stock outstanding through financing from the former stockholders via Seller Notes.

Effective June 30, 2017, the Company assumed all payment obligations of the Seller Notes in exchange for the Trust's Subordinated Note in the amount of $8,042,605 (see Note 5). At such time, 1,579,433 shares of common stock had not been released. The borrowing is to be repaid over a period of 16 years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of Company Stock and is guaranteed by the Company. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

a) The accounts of employees with vested rights in allocated shares (allocated); and
b) Shares not yet allocated to employees (unallocated).

Eligibility

Employees of the Company aged 21 or older are generally eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during such period. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Notes to Financial Statements

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on the term loan. Participants are not permitted to make contributions to the Plan.

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with allocations of (a) shares of the Company's common stock released by the Trustee from the unallocated account and (b) forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's credited points, relative to the total points of all eligible participants. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Plan forfeitures are eligible for allocation at the earlier of (a) distribution of the entire vested portion of the terminated participant's account balance or (b) the last day of the Plan year in which a terminated participant incurs five consecutive one year breaks in service. Terminated participants with no vested account balance are deemed distributed at the date of termination. Upon distribution of benefits and diversifications, shares distributed from participant accounts are not returned to the Plan's pool of available shares for reallocation to participants. Accordingly, distributed shares reduce the number of total shares under the Plan. Plan forfeitures are allocated to each participant's account based upon the relation of the participant's total credited points to the total points of all eligible participants for the Plan year. Forfeitures allocated to participants during 2025 totaled 2,418 shares. There were no forfeited nonvested accounts as of December 31, 2025.

Vesting

A participant's interest in the Plan is fully vested after six years of credited service or when they reach the normal retirement date (65 years of age), permanent disability, or death. Employees who terminate before vesting forfeit their nonvested interest in the Plan after a five year break in service. Participants terminating from the Plan receive no allocation of employer contributions or forfeitures in the year they terminate from the Plan; however, they do receive an allocation of interest and other Plan income in accordance with normal Plan provisions.

Notes to Financial Statements

Payment of Benefits

No distributions from the Plan will be made until a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Distributions are made in cash or, if a participant elects, in the form of Company Stock plus cash for any fractional share. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. Notwithstanding the foregoing, no distribution of Company Stock that was acquired with the proceeds of an "exempt" loan will be made until the close of the Plan year in which the loan is fully repaid.

If a participant's benefit payment does not exceed $25,000, the participant will be entitled to a distribution of a lump-sum payment as soon as administratively feasible in the Plan year after the participant has terminated service. If the participant's account balance exceeds $25,000, the participant may elect to receive a single lump-sum cash payment on or after the close of the Plan year after the Plan year of termination of employment or installment payments over a period not to exceed the participant's life expectancy or five years.

Voting Rights

All Company stock held by the trust shall be voted by the Trustee. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee shall vote any unallocated shares held by the trust, as well as any allocated shares for which a participant has failed to give timely voting direction for the collective best interest of the Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the Company Stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its common stock distributed to participants for which there is no market. The put price is intended to be representative of the fair market value of the Company's common stock. The Company can finance any common stock repurchase with interest over a period not exceeding five years. The purpose of the put option is to ensure that the participants have the ability to ultimately obtain cash for the value of their shares.

Notes to Financial Statements

Diversification

Diversification is offered to participants close to retirement age so that they may have the opportunity to direct part of the value of their investment in Company Stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the value of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. The election to diversify is made subsequent to year end based upon the shares of Company Stock in the participant's account at year end.

Administration of Plan Assets

The Plan's assets, which consist of a portion of the Company's common shares, are held by the Trustee of the Plan.

Corporate contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loans, which are reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses are paid directly by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. The fair value of the Company's common stock is one such significant estimate. Actual results could differ from those estimates.

Notes to Financial Statements

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Cash and cash equivalents

Cash and cash equivalents consists of demand deposits in banks and treasury bills recorded at amortized cost with original maturities when purchased of less than three months. The Company has not experienced any credit losses and does not believe it is exposed to any significant credit losses on these investments. The Company maintains its deposits in amounts which, at times, may exceed federally insured limits, in one financial institution. Management does not believe the Company is exposed to any significant interest rate or other financial risk as a result of these deposits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Trustee and appraiser. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net change in fair value of investments includes the Plan's aggregate gains and losses on investments bought and sold as well as held during the year.

Contributions

Employer contributions are recorded in the period in which they become the obligations of the Company.

Benefits Paid to Participants

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Plan's administrative expenses, including an allocation of salaries related to Plan administration, audit and legal costs, are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Expenses that are paid directly by the Company are excluded from these financial statements. Interest expense was paid by the Plan.

Notes to Financial Statements

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to the most recent statement of net assets available for benefits presented herein, through the date these financial statements were available to be issued.

3. INVESTMENTS

The following tables present the Plan's investment in the Company's common stock at December 31:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	1,524,111	754,578	1,454,653	859,879
Cost	$ 6,777,412	$ 4,825,086	$ 6,241,249	$ 5,361,249
Estimated fair value	$11,735,651	$ 5,810,256	$11,666,319	$ 6,896,232

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Quality Manufacturing Services, Inc. common stock : The fair value of Quality Manufacturing Services, Inc. common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal is based upon a combination of several different approaches for valuation of the common stock, specifically, income based, asset based, and market based approaches. The appraiser considered historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP Trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the Plan fiduciary. The fair value of Company Stock as of December 31, 2025 and December 31, 2024, was $7.70 and $8.02 per share, respectively.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value at December 31:

2025	Level 1	Level 2	Level 3	Total
Quality Manufacturing Services, Inc. common stock	$ -	$ -	$17,545,907	$17,545,907

2024	Level 1	Level 2	Level 3	Total
Quality Manufacturing Services, Inc. common stock	$ -	$ -	$18,562,551	$18,562,551

Notes to Financial Statements

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers of assets into or out of Level 3 in 2025 or 2024.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets invested in Company common stock for the year ended December 31, 2025:

Balance, beginning of year	$18,562,551
Stock redemptions	(287,464)
Unrealized losses relating to stock held at the reporting date	(729,180)
Balance, end of year	**$17,545,907**

5. LOAN PAYABLE

In 2017, the Plan entered into a $8,402,065 term loan agreement with the Company. The proceeds of the loan were used to purchase 1,579,433 shares of Company Stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made.

The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future year's principal and interest payments. This resulted in 105,301 shares being released and allocated for the Plan year ended December 31, 2025.

The loan bears interest at 2.78% per annum. The agreement provides for the loan to be repaid over a period of 16 years.

Notes to Financial Statements

The scheduled amortization of the loan at December 31, 2025, is as follows:

Year	Amount
2026	$ 543,664
2027	558,972
2028	574,469
2029	590,886
2030	607,524
Thereafter	1,375,103
Total	**$ 4,250,618**

6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock, which is a related party and party-in-interest transaction. The Plan also has a number of service providers, which are also parties-in-interest under ERISA. As described in Note 1, the Company pays all Plan expenses. Certain administrative functions are also performed by officers or employees of the Company, who do not receive compensation from the Plan.

7. TAX STATUS

The Plan has received a favorable determination letter dated June 27, 2014, from the IRS, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's legal counsel believe that the Plan is designed in compliance with the applicable requirements of the Code. Additionally, the Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. While the Plan may be subject to routine audits by taxing jurisdictions, there are currently no audits for any tax periods in progress.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the Code. Upon termination of the Plan, the Plan's Administrative Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund.

Notes to Financial Statements

9. RISKS AND ECONOMIC UNCERTAINTIES

The Plan invests in common stock of the Plan Sponsor. The Plan Sponsor common stock is exposed to various risks, such as interest rate, market and credit risks as well as valuation assumptions based on earnings, cash flows, recent transactions, and other such techniques. Market risks include global events which could impact the value of the Plan's investment, such as a pandemic or international conflict. Due to the level of interest rate, market, and credit risks inherent with the Plan's investment, including uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the fair value of investment will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.
