INDEPENDENT AUDITOR'S REPORT

Verizon Employee Benefits Committee
The Verizon Retiree Group Health Plan for West Associates

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of The Verizon Retiree Group Health Plan for West Associates (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and benefit obligations as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits and changes in benefit obligations for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 1 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

MITCHELL TITUS

- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions,

misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

MITCHELL TITUS

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2025 and of reportable transactions for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The accompanying notes are an integral part of these financial statements.

1. Plan Description

The following description of The Verizon Retiree Group Health Plan for West Associates (the "Plan") provides only general information on the Plan's provisions. Participants should refer to the applicable summary plan description and plan document for a complete description of the Plan's provisions. The Plan is an employee welfare benefit plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Benefits

The Plan was established on January 1, 2011 to provide benefits to retired West Associate employees and eligible dependents and beneficiaries of retired employees with a retirement effective date on or before December 31, 2010. The Plan covers eligible retired West Associates as defined in the applicable plan document of Verizon Communications Inc. or its subsidiaries (the "Company" or "Plan Sponsor"). The Plan provides medical and vision benefits to eligible retired employees and their eligible dependents and beneficiaries.

Current medical claim payments of participants, their dependents and beneficiaries may be fully insured under group insurance contracts with multiple Health Maintenance Organizations (the "HMOs") including Medicare Advantage plans in different geographic regions or a national Group Medicare Advantage PPO. The Plan transfers 100% of the risk of payment for services to the national Group Medicare Advantage PPO insurer or these individual HMOs. Certain medical plans are self-insured. The retirees and their dependents are eligible for a discount vision program unless otherwise covered by their union agreement. Participants' benefits are based on their union contract.

In the collective bargaining agreements ratified in June 2016, Verizon's annual postretirement benefit obligation ("PBO") for retiree healthcare remains capped at the levels established by the previous contracts ratified in 2012. Effective January 2016, certain retirees began to pay for the costs of retiree healthcare in accordance with the provisions relating to caps in the previous contracts. In reaching new collective bargaining agreements in 2016, there is a mutual understanding that the substantive postretirement benefit plans provide that Verizon's annual PBO for retiree healthcare is capped and, accordingly, the Plan began accounting for the contractual healthcare caps in June 2016.

Funding Policy

The Company and participants make contributions to the Plan on a monthly basis. Contributions to the Plan are established by the Company and are based upon the number of dependents covered and the level of coverage selected. Employer contributions are made each year, in addition to retiree contributions to cover current benefit payments. Retiree contributions vary by bargaining contract and are based on year of retirement and service at retirement (or age at retirement in certain contracts).

Retiree contributions were as follows:

West Associates, Pre-2011 Retirees (Subject to the 1995 and 1996 subsidy caps), West Associates, Pre-2011 and Post-12/31/88 Retirees (Not subject to a subsidy cap), West Associates, Pre-2011 and Pre-1/1/89 Retirees (Not subject to a subsidy cap)	Varies by multiple factors such as collective bargaining agreement, contract effective date, years of service, age, age at retirement and Medicare eligibility. Company subsidy ranges from a monthly fixed rate to a service subsidy rate ranging from 20% to 100%.

Retiree contributions were approximately $10.7 million for the year ended December 31, 2025.

Plan Assets

Voluntary Employees' Beneficiary Association Trust ("VEBA"), as defined in Section 501(c)(9) of the Internal Revenue Code (the "IRC"), is the vehicle through which the Company funds certain benefits of the Plan.

The Plan is funded through the Welfare Trust for the GTE Bargained Retired Group Insurance Plan (the "Bargained Retired Trust" or the "Trust"), which was established as a VEBA. The Bank of New York (the "Trustee") is the trustee of the Trust.

Information Certified by the Trustee

As of December 31, 2025 and 2024, and for the year ended December 31, 2025, the investments in the Trust and the related investment income or loss, which are disclosed in the accompanying financial statements and supplemental schedules, have been obtained or derived from information certified as complete and accurate by the Trustee.

Plan Termination

Although it has not expressed any intention to do so, the Verizon Employee Benefits Committee or the Company reserves the right to amend or terminate the Plan subject to the provisions of ERISA and the collective bargaining agreements. No amendment to or termination of the Plan shall cause or permit the assets of the Plan held in the Trust, including company contributions, to be used for any purpose other than the defrayal of administrative expenses and payments of benefits on behalf of participants. Upon termination, the assets of the Plan shall be used to pay benefits that participants have become entitled to receive and pay administrative expenses incurred by the Plan and Trust in connection with the termination.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting and in conformity with generally accepted accounting principles in the United States ("U.S. GAAP").

Use of Estimates

U.S. GAAP requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative Expenses

Administrative expenses are paid either out of the Plan's assets or by the Company.

Payment of Benefits and Premiums

Benefits and premiums are recorded when paid.

Claims Incurred But Not Reported

Plan obligations at year end for claims incurred but not reported ("IBNR") are estimated by the Plan's actuary in accordance with generally accepted actuarial principles based on existing Plan provisions and claims data provided by the Plan's third-party claims administrators. IBNR claims represent estimated benefits that have been earned by participants but not yet received, processed, or paid on behalf of the Plan.

Investment Valuation and Income Recognition

The Statement of Changes in Net Assets Available for Benefits reflects the net investment income (loss) from the Plan's interest in the Trust, which consist of the realized gains or losses and the unrealized appreciation/(depreciation) in fair value of those investments, as well as interest and dividends earned. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation/(depreciation) includes gains and losses on investments bought and sold, as well as held during the year.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

4. Postretirement Benefit Obligations

A PBO has been recognized for retiree welfare benefits for eligible participants and their dependents upon retirement. The PBO, which is determined by an actuary, represents the actuarial present value of those estimated future benefits, net of retiree contributions, which are attributed to employee service rendered. Postretirement benefits include future benefits expected to be paid to retired or terminated employees and their dependents or beneficiaries. The PBO is the portion of the expected PBO that is attributed to that employee's service with the Company rendered to the valuation date.

The PBO is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual claims-costs per participant adjusted for the time value of money and the probability of payment between the valuation date and the expected date of payment.

The gross medical cost trend rates in 2025 for postretirement benefits were approximately 8.80% (pre-65) and 10.50% (post-65). The rates are assumed to decrease to an ultimate rate of 4.50% by 2034 for pre-65 and post-65.

The gross medical cost trend rates in 2024 for postretirement benefits were approximately 7.80% (pre-65) and 9.70% (post-65). The rates in 2024 were assumed to decrease to an ultimate rate of 4.50% by 2034 for pre-65 and post-65.

A one-percentage point increase in the assumed healthcare cost trend rates for each future year would have decreased the accumulated PBO by approximately $(1.6) million and $(2.4) million as of December 31, 2025 and 2024, respectively.

The assumed discount rate used to measure the accumulated PBO was 5.19% and 5.54% as of December 31, 2025 and 2024, respectively.

The mortality table used for the December 31, 2025 PBO was the PRI-2012 fully generational table with a blue collar version for associates and a white collar version for managers. The projection scale used was the MP-2021, with a long-term COVID-19 adjustment.

The mortality table used for the December 31, 2024 PBO was the PRI-2012 fully generational table with a blue collar version for associates and a white collar version for managers. The projection scale used was the MP-2021, with a long-term COVID-19 adjustment.

When necessary, the Company contributes to the Plan an amount sufficient to provide for the Plan benefit obligations as they become due.

The foregoing assumptions are based on the presumption that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the PBO.

5. The Bargained Retired Trust

The Plan has 100% interest in the Bargained Retired Trust's investments and investment activities as of December 31, 2025 and 2024. The fair value of the investments of the Trust, a portion of which were held in a Non-taxable Limited Partnership (the "NLP") at December 31, 2025 and 2024, was as follows (in thousands):

	2025	2024
Commingled fund - Cash and cash equivalents	$ 3,646	$ 1,558
Interest in NLP	495,620	464,320
Plus: Net receivables	13	15
Total net assets at fair value	**$ 499,279**	**$ 465,893**

The Trust had a net investment gain of $71.7 million for the year ended December 31, 2025, which includes interest and the allocated share of NLP investment activity. The commingled fund is measured under the fair value guidance at Level 2.

6. Limited Partnership

Certain VEBAs formed a NLP to enhance investment returns. Each participating VEBA has a partnership interest in proportion to its VEBA assets held by the NLP. The Plan's interest in the NLP was approximately $495.6 million and $464.3 million as of December 31, 2025 and 2024, respectively.

The Plan's interest in the fair value of the investments in the NLP and the related investment gains or losses are reported in "Investments, at fair value" and "Investment income (loss)", in the Statements of Net Assets Available for Benefits and in the Statement of Changes in Net Assets Available for Benefits, respectively.

The accounting records of the NLP are maintained in U.S. dollars. Foreign currency denominated assets and liabilities are translated into U.S. dollars at the prevailing rates of exchange at the end of each accounting period, with the impact of fluctuations in foreign exchange rates reflected as an unrealized gain or loss in the fair value of the investments.

Cash receipts and payments derived from investment trades involving foreign currency denominated investments are translated into U.S. dollars at the prevailing exchange rate on the respective transaction date. Net realized gains and losses on foreign currency transactions result from the disposition of foreign currency denominated investments that arise from fluctuations in foreign exchange rates between the trade and settlement dates and the difference between the amount of net investment income accrued and the U.S. dollar amount actually received.

The foreign exchange effect on foreign currency denominated investments is not segregated from the impact of changes in market prices in the Statement of Changes in Net Assets Available for Benefits.

Valuation of Investments

Cash and cash equivalents include short-term investment funds (less than 90 days to maturity), primarily in diversified portfolios of investment grade money market instruments and are valued using quoted

market prices or other valuation methods. The carrying value of cash equivalents approximates fair value due to the short-term nature of these investments.

Investments in securities traded on national and foreign securities exchanges are valued by the custodian at the last reported sale prices on the last business day of the year or, if no sales were reported on that date, at the last reported bid prices.

Government obligations, corporate bonds and international bonds are valued using matrix prices with input from independent third-party valuation sources. Over-the-counter securities are valued at the bid and ask prices or the average of the bid and ask prices on the last business day of the year from published sources or, if not available, from other sources considered reliable such as multiple broker quotes.

Commingled funds not traded on national exchanges are valued by the custodian or fund administrator at their NAV. Commingled funds held by third-party custodians appointed by the fund managers provide the fund manager with a NAV. The fund managers have the responsibility for providing this information to the custodian of the respective plan. Commingled funds for which fair value is measured using the NAV per share as a practical expedient are not leveled within the fair value hierarchy and are included as a component of the total investments in the NLP.

The following table sets forth by level, within the fair value hierarchy, the NLP's investments at fair value as of December 31, 2025 (in thousands):

	Assets at Fair Value at December 31, 2025		
	Level 1	**Level 2**	**Total**

Interest and dividend income for the NLP was $20.9 million for the year ended December 31, 2025. The total net appreciation of $81.3 million for the year ended December 31, 2025 includes gains and losses on investments bought and sold as well as held during the year for all the NLP investments.

The following table summarizes redemption restrictions for investments in the NLP for which fair value is estimated using NAV per share as of December 31, 2025 (in thousands):

Commingled funds:				
Hedge funds	$ 12,065	N/A	Monthly	10 days
Total	**$ 12,065**			

The Plan's principal financial instruments subject to credit risk are the investments in the NLP. The degree and concentration of credit risk varies by investment depending upon the type and diversity.

The following table sets forth by level, within the fair value hierarchy, the NLP's investments at fair value as of December 31, 2024 (in thousands):

In the normal course of operations, the NLP's assets may include derivative financial instruments. Derivatives are synthetic instruments used to get various market exposures with limited margin requirements and therefore with leverage risk involved. The notional amounts disclosed in this footnote provide a measure of the NLP's involvement in such instruments but are not indicative of potential exposure. The intent is to use derivative financial instruments to gain market exposure or as economic hedges to manage various risks associated with the NLP's investment assets or to express investment managers' views of future market movements efficiently.

At December 31, 2025 and 2024, the NLP utilized futures and forwards derivatives to manage risks such as price risk and foreign currency exchange rate risk. At December 31, 2025 and 2024, the gross notional value of the derivative instruments was $313.9 million and $245.8 million, respectively. At December 31, 2025 and 2024, the fair value of the derivative instruments, and the related gains/losses, were not significant.

7. Securities Lending

The NLP maintains a Securities Lending Agreement (the "Agreement") with the Trustee. The Agreement permits the Trustee to loan certain domestic and international securities held by the NLP to borrowing counterparties who provide collateral for the loans. There is generally no stated repayment term for such loans and either party can terminate the loans at any time. Upon loan termination, the loan securities are returned to the NLP and the collateral is paid back to the borrowing counterparty.

Risk of credit loss from securities lending is mitigated by obtaining sufficient collateral, transacting only with borrowing counterparties of high credit quality and being indemnified against borrowing counterparty default by the Trustee. During the years ended December 31, 2025 and 2024, the NLP did not experience any losses arising from securities lending transactions.

The securities on loan may be sold at the manager's discretion, in which case the Trustee will reallocate or recall positions in order to satisfy sale delivery. Securities on loan may not be re-pledged by the NLP.

Securities on loan continue to be recorded as assets in the Trust and are included in the listing of investments in Note 5. The Trust recognizes loan collateral, held in separate accounts managed by the Trustee, as an asset and also recognize an equal and offsetting liability, representing their obligation to return the collateral upon termination of the loan. The collateral and offsetting liability are not reflected in the Trust listing of investments but are detailed below. Loan collateral can be in the form of cash equivalents or non-cash assets. Collateral in cash equivalents can be invested and reinvested in approved investments by the Trustee according to guidelines set forth in the Agreement. Non-cash collateral is held in the form received and not subject to investing activities by the Trustee. Collateral received are not sold or pledged as loaned securities. Investment gains are shared amongst the NLP, Trustee and borrowing counterparties based on an agreed allocation. Investment losses, if any, arising from such investing activities are borne by the NLP.

The Agreement requires collateral ranges from an amount equal to or greater than 102% to 105% of the fair value of the securities loaned for U.S. and non-U.S. securities, respectively. Additional collateral is required if the fair value of the borrowed securities increase.

The NLP fees earned from this Agreement amounted to approximately $22,042 and $25,984 for the years ended December 31, 2025 and 2024, respectively. The Plan's portion of fees earned amounted to approximately $15,870 and $18,926 for the years ended December 31, 2025 and 2024, respectively. These earnings are included in the Statement of Changes in Net Assets in the Net investment activities for the Trust.

Total securities on loan were approximately $3.7 million and $7,300,000.0 million as of December 31, 2025 and 2024, respectively. Total collateral assets to repay borrowing counterparties were approximately $3.8 million and $7,600,000.0 million as of December 31, 2025 and 2024, respectively. The percentage of collateral was approximately 105% and 104% of the fair value of securities on loan as of December 31, 2025 and 2024. As of December 31, 2025 and 2024, total fair value of collateral included cash equivalents of $1.6 million and $2.5 million, of which $1.1 million and $1.9 million, respectively, represents the Plan's estimated allocated interest. Cash equivalents collateral is generally held in U.S. and foreign currency denominations and non-cash collateral is generally held in U.S. and international fixed income securities. Cash equivalents collateral assets are classified as Level 2 fair value measurements.

8. Related-Party Transactions

Verizon Investment Management Corp. ("VIMCO"), an indirect, wholly-owned subsidiary of Verizon Communications Inc., qualifies as a related party. VIMCO is the investment advisor for certain investment funds and received no compensation from the Plan other than reimbursement of certain expenses directly attributable to its investment advisory and investment management services rendered to the Plan.

The Company is the Plan Sponsor. The Company employs the administrator of the Plan and members of the administrator's staff. The Company received no compensation from the Plan other than reimbursement of certain expenses directly attributable to administrative services rendered to the Plan.

The Trustee rendered various trustee services to the Trust for which it was compensated in accordance with its agreements with the Company and VIMCO.

The related-party transactions described in this section are exempt from the prohibited transaction rules.

9. Income Tax Status

The Company has received a tax determination letter from the Internal Revenue Service ("IRS") dated June 15, 1993, stating that the Trust which holds the Plan's assets is exempt from federal income tax under the IRC for a qualifying VEBA. The Plan and the Trust are required to operate in conformity with the IRC to maintain the tax-exempt status of the Trust. The Plan Administrator believes the Plan is operating in compliance with the applicable requirements of the IRC, and therefore, believes that the related trust is tax-exempt.

U.S. GAAP requires the Plan's management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are

no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2022.

10. Risks and Uncertainties

Plan contributions and the Plan benefit obligations are determined based on certain actuarial assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the financial statements.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported and disclosed in the financial statements and notes.

11. Subsequent Events

Management has evaluated subsequent events for the Plan through October 12, 2026, the date the financial statements were available to be issued.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2025 and 2024 (in thousands):

	2025	2024
Net assets available for benefits per the financial statements	$ 499,279	$ 465,893
Less: Claims incurred but not reported	(2,327)	(2,832)
Net assets available for benefits per the Form 5500	**$ 496,952**	**$ 463,061**

Claims incurred but not reported are not considered liabilities under U.S. GAAP and therefore are not presented as benefits paid in the accompanying financial statements, but are recorded on the Form 5500 as benefits claims payable.

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the year ended December 31, 2025 (in thousands):

	2025
Benefits paid per the financial statements	$ 71,959
Add: Claims incurred but not reported as of December 31, 2025	2,327
Less: Claims incurred but not reported as of December 31, 2024	(2,832)
Total benefits paid per the Form 5500	**$ 71,454**
