ADVISORY TAX AUDIT

Independent Auditor's Report

To the Plan Administrator of
Retirees of The Goodyear Tire & Rubber Company Health Care Plan and Trust:

Opinion

We have audited the financial statements of Retirees of The Goodyear Tire & Rubber Company Health Care Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits and of benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and of benefit obligations of Retirees of The Goodyear Tire & Rubber Company Health Care Plan and Trust as of December 31, 2025 and 2024, and the changes in its net assets available for benefits and changes in its benefit obligations for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Retirees of The Goodyear Tire & Rubber Company Health Care Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Retirees of The Goodyear Tire & Rubber Company Health Care Plan and Trust's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Retirees of The Goodyear Tire & Rubber Company Health Care Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Retirees of The Goodyear Tire & Rubber Company Health Care Plan and Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule H, Line 4i - Schedule of Assets (Held at End of Year), and Schedule H, Line 4j - Schedule of Reportable Transactions, as of or for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following description of Retirees of The Goodyear Tire & Rubber Company Health Care Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established by the Committee for the Retirees of The Goodyear Tire & Rubber Company Health Care Trust (the “Committee”) pursuant to the Settlement Agreement between The Goodyear Tire & Rubber Company (“Goodyear”), the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO, CLC (“USW”) and representatives of plaintiff class members in Redington et al. v. The Goodyear Tire & Rubber Company, Civ. Act. No.5:07-cv-1999 (N.D.Ohio). The Settlement Agreement dated October 29, 2007, was approved by the Federal District Court on August 22, 2008, and the Trust Agreement became effective August 25, 2008. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan provides certain health benefits to current and future USW-represented Goodyear retirees, surviving spouses and other spouses and dependents who may be entitled to such benefits through their relationship with the retirees and surviving spouses, as may be determined from time to time by the Committee.

Administration of the Trust

The administration of the Plan is the responsibility of the Committee. The Plan trustee is PNC Bank, National Association (the “Trustees”).

Benefits

The Plan provides health benefits (hospital, medical, surgical, dental, Medicare Part B reimbursement and prescription drug) to retirees and surviving spouses, and to their covered dependents.

Funding Policy

The Plan is funded as follows:

Initial Contribution

Pursuant to the Settlement Agreement, Goodyear agreed to contribute $1 billion to the Plan. This amount was increased by cost of living allowance (“COLA”) deferrals and offset by premium charges and a contribution to the EPD Trust (currently known as Retirees of Veyance Technologies, Inc. Health Care Trust). On August 27, 2008, the Plan received $984,641,760.

Profit Sharing Deferrals

The Plan is entitled to receive annual variable cash contributions representing a portion of profit sharing amounts earned by USW-represented active employees pursuant to the 2013 and 2017 collective bargaining agreements (“CBAs”) between Goodyear and the USW, up to a maximum cap as stated in the applicable CBA. The 2013 CBA expired on July 29, 2017, and was replaced by the 2017 CBA, which expired on July 29, 2022. The 2017 CBA was replaced by the 2022 CBA, which expires on July 29, 2026. The CBAs provide for profit sharing deferrals for the years beginning January 1, 2014, and forward, subject to an annual maximum cap. For the years ended December 31, 2025 and 2024, the annual maximum profit sharing cap of $5,000,000 was contributed.

The Trust is also entitled to receive a portion of profit sharing amounts pursuant to an agreement with Sumitomo Rubber Industries, Ltd. (“SRI”), up to a maximum cap as stated in the applicable agreement which expired on July 29, 2022. The CBA was replaced by the 2022 CBA, which expired on December 31, 2025. This agreement provided for profit sharing deferrals for the year beginning January 1, 2016, and forward, subject to an annual maximum cap of $3,500,000. For the year ended December 31, 2025, the annual maximum cap of $3,500,000 was not contributed. For the year ended December 31, 2024, the annual maximum cap of $3,500,000 was not contributed.

COLA Deferrals
During the terms of the 2013, 2017 and 2022 Goodyear CBAs and the 2016 and 2022 Sumitomo CBAs, the Trust is entitled to receive contributions representing a portion of the amount of COLA adjustments to which USW-represented active employees are entitled under these CBAs. For the years ended December 31, 2025 and 2024, COLA deferrals of $10,693,226 and $15,215,388, respectively, were contributed to the Plan.

Contributions
Contributions by retirees are determined by the Committee, subject to certain restrictions contained in the Settlement Agreement and vary based on year of retirement and family status. For the years ended December 31, 2025 and 2024, participants contributed $23,534,570 and $24,579,207, respectively.

2. Summary of Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and Trustees. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. In accordance with the policy of stating investments at fair value, net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period. Certain investment related expenses are included in net appreciation in fair value of investments and are not readily determinable.

Employer Contributions Receivable
Contributions are accrued based upon analysis of employer remittance reports and subsequent cash receipts. The carrying amount of employer contributions receivable is reduced by an allowance for credit losses that reflects management’s best estimate of the amounts that will not be collected. Factors which influence management’s judgement in determining the appropriate allowance for credit losses include past collection experience, industry standards, current economic conditions, and expected future economic conditions. As of December 31, 2025 and 2024, the allowance for credit losses was $0.

Prescription Rebates Receivable and Income
Prescription rebates from the Plan’s prescription benefits managers are recorded when the related prescription benefits are paid. Rebates due at year-end are recorded as prescription rebates receivable on the statements of net assets available for benefits with the offset being recorded as other income on the statements of changes in net assets available for benefits.

The carrying amount of prescription rebates receivable is reduced by an allowance for credit losses that reflects management’s best estimate of the amounts that will not be collected. Factors which influence management’s judgement in determining the appropriate allowance for credit losses include past collection experience, industry standards, current economic conditions, and expected future economic conditions. As of December 31, 2025 and 2024, the allowance for credit losses was $0.

Subsidies Income
Subsidies are recognized as other income on the statements of changes in net assets available for benefits when the related benefits are paid.

Claims Payable and Amounts Incurred But Not Reported
Amounts currently payable to or for participants, beneficiaries and dependents represent actual and estimated amounts paid or payable after year end for all reported claims for benefits occurring during the respective accounting periods, and other miscellaneous benefits related to services performed in those respective periods. These amounts are reported as part of the postretirement benefit obligation.

Postretirement Benefit Obligations
Postretirement benefit obligations represent the total actuarial present value of those estimated future benefits that are attributed to employee service rendered through December 31. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired employees, their beneficiaries and dependents and (2) active employees, their beneficiaries and dependents after retirement. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to the employee's service in the industry rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligation is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Recognition of Benefits
Benefits are recognized when paid by, and reimbursable to, service providers, except for Medicare Part B reimbursements, which are recognized in the period the benefit is earned by the participant.

Subsequent Events
In preparing these financial statements, management of the Plan has evaluated events and transactions that occurred after December 31, 2025 for potential recognition or disclosure in the financial statements. These events and transactions were evaluated through October 9, 2026, the date that the financial statements were available to be issued, and no items have come to the attention of management that require recognition or disclosure.

3. Postretirement Benefit Obligations

As of December 31, 2025 and 2024 , the actuarial present value of accumulated postretirement benefit obligations was as follows:

	2025	2024
Postretirement benefit obligations		
Basic		
Retired participants and spouses	$ 542,260,375	$ 530,396,475
Other participants fully eligible for benefits	194,325,345	183,489,615
Participants not yet fully eligible for benefits	181,615,679	183,998,285
Total benefit obligations	$ 918,201,399	$ 897,884,375

Information regarding the changes in benefit obligations for the years ended December 31, 2025 and 2024 is shown below.

	2025	2024
Balance at beginning of year	$ 897,884,375	$ 1,159,931,690
Change during year attributable to		
Service and interest costs	67,147,473	88,450,903
Actuarial assumption loss (gain)	75,363,570	642,644
Expected benefits paid	(45,262,721)	(54,454,099)
Actuarial experience gain	(76,931,298)	(231,564,778)
Change due to Buffalo plant closure and Danville buyouts	-	(65,121,985)
Net change	20,317,024	(262,047,315)
Total benefit obligations	$ 918,201,399	$ 897,884,375

The Plan had a deficiency of net assets over benefit obligations at December 31, 2025 and 2024 related primarily to the postretirement benefit obligation, the funding of which is not covered by the contribution rate provided by the current bargaining agreements. However, the obligation of the Plan is to provide benefits only to the extent of the assets available in the Trust. If the deficiency is not funded through future increases in the collectively bargained contribution rates, the Committee has the authority to reduce benefits.

The postretirement benefit obligation of the Plan is reflected net of projected retiree contributions. The retiree contributions are set by the Committee and ranged from $65 to $448 per month for 2025 and 2024 based upon Medicare eligibility, family status and date of retirement. There was no change in the retiree contribution rates effective January 1, 2026 based on Committee approval made in 2025.

The weighted-average health care cost-trend rate assumptions have a significant effect on the amounts reported in the accompanying financial statements. If the assumed rates increased by one percentage point in each year, it would increase the postretirement benefit obligation as of December 31, 2025 and 2024 by $136,636,788 and $122,564,509, respectively.

Freedom Blue Premiums have been updated and accounted for with the rate remaining unchanged until 2027. This change decreased the liability by approximately $65.1 million in 2024.

The following were significant assumptions used in the valuations as of December 31, 2025 and 2024:

	2025	2024
Discount rate	5.50%	5.75%
Mortality rates	PRI-2012 headcount-weighted, blue collar mortality table with fully generational projection using the Buck-modified 2021 projection scale.	PRI-2012 headcount-weighted, blue collar mortality table with fully generational projection using the Buck-modified 2021 projection scale.

Representative values of the assumed annual rates of retirement at December 31, 2025 and 2024 are as follows:

Age	Less Than 30 Years of Service	30 or More Years of Service
50-54	0.0	5.0
55-58	2.0	8.0
59	2.0	10.0
60	4.0	12.0
61	6.0	31.0
62	45.0	45.0
63	45.0	45.0
64	55.0	55.0
65 and older	100.0	100.0

The following were health care trend rates used in the valuations as of December 31, 2025:

	Pre-Medicare	Medicare	Prescription Drug
2026	9.80	0.00	11.45
2027	8.50	5.00	9.60
2028	7.35	5.00	8.05
2029	6.35	5.00	6.75
2030	5.50	5.00	5.65
2031+	4.75	5.00	4.75

The following were health care trend rates used in the valuations as of December 31, 2024:

	Pre-Medicare	Medicare	Prescription Drug
2025	8.50		11.00
2026	7.55		9.30
2027	6.70	5.00	7.85
2028	6.00	5.00	6.65
2029	5.35	5.00	5.60
2030+	4.75	5.00	4.75

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodology used at December 31, 2025 and 2024.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. For the years ended December 31, 2025 and 2024, there were no transfers into or out of Level 3.

Investments are presented at fair value, and are determined as follows:

The *registered investment company* is valued using quoted market price.

Money market funds are shares of a money market portfolio. They are considered cash equivalents and are valued at their carrying amount due to their short-term nature.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total Fair Value**
Registered investment company	$ 2,701,420	$ -	$ -	$ 2,701,420
Money market funds	29,399,542	-	-	29,399,542
Total investments in the fair value hierarchy	32,100,962	-	-	32,100,962
Investments measured at net asset value*	-	-	-	924,603,629
Total investments	$ 32,100,962	$ -	$ -	$ 956,704,591

	December 13, 2024			
	Level 1	**Level 2**	**Level 3**	**Total Fair Value**
Registered investment company	$ 4,008,526	$ -	$ -	$ 4,008,526
Money market funds	23,839,048	-	-	23,839,048
Total investments in the fair value hierarchy	27,847,574	-	-	27,847,574
Investments measured at net asset value*	-	-	-	837,135,772
Total investments	$ 27,847,574	$ -	$ -	$ 864,983,346

* In accordance with FASB ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statements of net assets available for benefits.

The fair values of the following investments have been determined using the NAV per unit of the investment as of December 31, 2025 and 2024:

	2025	**2024**
Common Collective Trusts	$ 800,598,091	$ 721,392,571
103-12 Investment Entities	98,157,239	93,069,588
Partnerships	25,848,299	22,673,613
	$ 924,603,629	$ 837,135,772

These commingled funds are managed by three different advisors, State Street Global Advisors (“State Street”), Loomis, Sayles and Company (“Loomis Sayles”), and IFM Investors (“IFM”). The investments held by State Street have daily redemptions with a 2-day trade date notice and the liquidation of the funds will occur 3 days after the trade date. State Street requests notice 15 days in advance of the trade date for all contributions or redemptions that are of significant size, as determined by State Street. All investments held by Loomis Sayles can be redeemed on the first and 15th of each month with a 15-day notification. The investment held by IFM may be redeemed as of the end of each calendar quarter, with a minimum withdrawal amount of $1,000,000. IFM requests notice no later than 90 days prior to the end of the calendar quarter as of which the withdrawal is to occur. The objective of the IFM fund is to acquire and maintain a diversified portfolio of global infrastructure investments that realizes a 10% annual return over the long term (10+ years). There are no other restrictions on redemption and there are no unfunded commitments for any of these funds.

5. Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Plan by a letter dated June 30, 2009, that the Plan and the related Trust that holds the Plan's assets, as then designed, were designed in accordance with applicable sections of the Internal Revenue Code (the “IRC”) and the Trust was exempt from federal income taxation under Section 501(a) of the IRC, as described at Section 501(c)(9). The Plan has been amended since receiving the letter; however, the Committee believes that the Trust is designed and is currently being operated in compliance with the applicable provisions of the IRC and the Trust remains exempt from federal income tax.

Accounting principles generally accepted in the United States of America require management of the Plan to evaluate tax positions taken and recognize a tax liability if the Trust has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has evaluated the tax positions taken by the Trust and concluded that as of December 31, 2025 and 2024 there are no uncertain positions taken or expected to be taken that would require recognition in the financial statements. The Plan is subject to routine audits by taxing and regulatory jurisdictions; however, there are currently no audits for any tax periods in progress. In addition, there have been no tax related interest or penalties for the periods presented in these financial statements.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

7. Priorities Upon Termination

It is the intent of the Committee to continue the Plan in effect so long as the Trust has assets; however, to safeguard against any unforeseen contingencies, the right to discontinue the Plan is reserved to the Committee Members. In the event of termination, the Committee Members shall first satisfy the obligations of the Plan to the extent of the assets in the Trust. Termination shall not permit any part of the Plan to be used for, or diverted to, purposes other than the exclusive benefit of the participants.

8. Concentrations

As of December 31, 2025 and 2024, six investments each represented a concentration of greater than 10% of the Plan's net assets available for benefits.
