Independent Auditor's Report

To the Participants and Plan Administrators of the
Hercules Industries, Inc. Employee Stock Ownership Plan
Denver, Colorado

Opinion

We have audited the financial statements of Hercules Industries, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Hercules Industries, Inc. Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hercules Industries, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hercules Industries, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hercules Industries, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hercules Industries, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following brief description of the Hercules Industries, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Hercules Industries, Inc. (the Company or Hercules) established the Plan effective as of January 1, 2019. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (the ERISA). The Plan is administered by the ESOP committee of the Company (the Committee), and an independent third-party serves as the Plan's trustee (the Trustee).

In September 2019, the Plan purchased 1,000,000 shares of Hercules common stock using the proceeds of a note payable (Note 6) and holds the common stock in a trust established under the Plan (the Trust). As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of stock and is guaranteed by the Company. The lender has no rights against shares of the stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

- Accounts of employees with vested rights in allocated common stock (allocated).
- Common stock not yet allocated to employees (unallocated).

Eligibility

Employees are eligible to participate in the Plan if they have completed one year of service and are 18 years of age or older. A year of service for purposes of eligibility is a consecutive 12-month period during which the employee has 1,000 or more hours of service. Leased employees, collective bargaining employees (excluding Hercules Production Union employees), and non-resident aliens are not eligible to participate in the Plan.

Entry Date

Employees may enter the Plan on the first day of each calendar quarter after they satisfy the Plan's eligibility requirements.

Contributions

The Company is obligated to make contributions in cash to the Plan which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted. In 2025, the Company made a discretionary contribution of $187,786.

Voting Rights

The Trustee will vote shares of Company Stock as directed by the Committee. With respect to shares of Company stock allocated to participant accounts, participants also have the right to direct the Trustee as to the manner in which to respond to an offer to purchase shares of Company stock held in the Trust.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year, or those who have attained normal retirement age, death or disability during the plan year, will receive an allocation. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation. Plan earnings and losses are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

Vesting in the participants' accounts and related earnings thereon is based on years of credited services in the plan as set forth in the following table:

Participant's Years of Service	Vesting Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5	100%

Participants are 100% vested in their account balances upon death, disability or achieving normal retirement age.

Forfeitures

At December 31, 2025 and 2024, there was no balance in the forfeited non-vested account as all forfeitures are used in the same year they are forfeited. Forfeited accounts are used to reduce employer contributions or allocated to eligible participants. During the years ended December 31, 2025 and 2024, forfeited non-vested accounts totaling $59,699 and $76,784, respectively, were allocated to eligible participants and cash forfeitures totaled $9 and $12,498, respectively. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation.

Payment of Benefits

Participants may elect to receive a distribution in the amount equal to the value of their vested interest as defined in the Plan document upon retirement, termination of employment, death or disability. If a participant's distribution is for disability or death, the participant's distribution is made as soon as administratively possible after the close of the Plan year in which the participant becomes disabled or deceased and is made over a three-year period. If a participant's distribution is for retirement, the participant's distribution is made over a five-year period. If the participant's distribution is for a reason other than death, disability, or retirement, the distribution is delayed until 5 years after the close of the Plan year in which the participant terminates and then payment is made over a five-year period. If the participant's account balance is less than $7,000, a mandatory distribution will occur after the Plan year end in which the employee terminates. In the event of a mandatory distribution greater than $1,000 to a participant without the participant's consent, the Plan Administrator will pay the distribution in a direct rollover to an individual retirement plan designated by the Plan Administrator, unless otherwise directed by the participant.

Distributions can be made in a single lump sum payment, stock distributions or in substantially equal annual installments over five years if the vested account balance is equal to or less than $1,415,000. For vested balances over $1,415,000 the Company may extend the payment out for an additional year over the 5 years for every $280,000 over the $1,415,000 up to an additional 5 years.

A participant's distribution can be deferred, and the participant's account balance shall be treated as an "inactive participant account". Depending on a participant's termination event, these deferrals can range from 1 to 10 years per the plan document. In any year that a participant maintains an inactive participant account, the Plan Administrator may exchange any cash or other liquid assets held in the other investments accounts of participants who are actively employed by the Company for the shares of Company stock held in the inactive participant account, at an exchange rate determined based on the most recent appraised fair market value of Company stock. To the extent an inactive participant account is exchanged for cash, such account will be treated as an other investments account, and at the discretion of the Plan Administrator, in a uniform and nondiscriminatory manner shall be invested in a "segregated account" or transferred to a 401(k) plan sponsored by the employer and invested pursuant to such participant's investment elections made thereunder.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account.

Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify have their diversified shares liquidated and transferred to the Hercules Industries, Inc. 401(k) Profit Sharing Plan if it exists at the time of election. Otherwise, the liquidated shares are distributable in cash. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end. During 2025, there were no participants eligible for diversification.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the ERISA. In the event of Plan termination, participants would become 100% vested in their account. Upon termination of the Plan, the ESOP committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale will be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Note 2 - Significant Accounting Policies and Use of Estimates

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year. The Committee determines the Plan's valuation policies utilizing information provided by the investment trustee.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payment of Benefits

Benefits payments to participants are recorded when paid.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net asset available for benefits. In addition, certain investment related expenses are included in net depreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Subsequent Events

The Plan sponsor has evaluated subsequent events through October 8, 2026, the date which the financial statements were available to be issued.

Note 3 - Investments

The Plan's investment in Plan Sponsor common stock as of December 31, 2025 and 2024, are as follows:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Plan Sponsor Common Stock				
Number of shares	198,128	801,872	170,666	829,334
Cost	$ 15,498,726	$ 62,727,096	$ 13,350,488	$ 64,875,334
Fair Value	$ 16,206,744	$ 65,593,189	$ 18,141,768	$ 88,158,232

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There has been no change in the methodologies used at December 31, 2025 and 2024.

Common stock – The fair value of the Company common stock held in the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities, including certain discounts.

Money market mutual fund – Valued at the daily closing price as reported by the fund. The mutual fund held by the Plan is an open-ended mutual fund that is registered with the Securities and Exchange Commission. The fund is required to publish their daily net asset value (NAV) and to transact at that price. The mutual fund held by the Plan is deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	2025			
	(Level 1)	(Level 2)	(Level 3)	Total
Common stock	$ -	$ -	$ 81,799,933	$ 81,799,933
Money market mutual fund	1,307,058	-	-	1,307,058
Total investments at fair value	$ 1,307,058	$ -	$ 81,799,933	$ 83,106,991

	2024			
	(Level 1)	(Level 2)	(Level 3)	Total
Common stock	$ -	$ -	$ 106,300,000	$ 106,300,000
Money market mutual fund	1,254,856	-	-	1,254,856
Total investments at fair value	$ 1,254,856	$ -	$ 106,300,000	$ 107,554,856

Changes in Fair Value of Level 3 Assets

The table below sets forth certain changes in the fair value of the Plan's Level 3 asset for the year ended December 31, 2025:

	Common Stock
Transfer in	$ -
Transfers out	-
Purchases	-
Issuance/Distribution of shares	-

Note 5 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 14, 2020, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Subsequent to the issuance of the determination letter, the Plan was amended. However, the Company and Plan management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and therefore believe the Plan is qualified and the related trust continues to be tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Note Payable

In February 2020, the Plan entered into an amended $78,225,822 term loan agreement with the Company in exchange for 1,000,000 shares of Company common stock, to be repaid over a period of 45 years. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 27,462 shares being released and allocated for the Plan year ended December 31, 2025.

The balance due on the note payable as of December 31, 2025 and 2024, was $66,435,504 and $68,184,080 respectively. The loan agreement bears interest at 2.21% and provides for the loan to mature on December 31, 2064. The scheduled amortization of the loan for the next five years and thereafter is as follows:

Years Ended December 31,	Amount
2026	$ 1,748,643
2027	1,748,643
2028	1,748,643
2029	1,748,643
2030	1,748,643
Thereafter	57,692,222
	$ 66,435,437

Interest expense paid to the Company totaled $1,506,868 for the year ended December 31, 2025.

Note 7 - Related Party and Party-In-Interest Transactions

The Plan invests in Company common stock and has indebtedness with or guaranteed by the Company. These are related party and party-in-interest transactions.

As described in Note 2, the Plan paid certain administrative expenses related to Plan operations to various service providers. These transactions are exempt party-in-interest transactions under the ERISA.

Note 8 - Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Market risks include global events which could impact the value of investments, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9 - Right of First Refusal

Company stock that has been allocated to a participant and not immediately repurchased by the Company or Trust may be subject to a right of first refusal determined by the Company. Prior to any subsequent transfer, the shares must first be offered by written offer to the Company, and then, if refused by the Company, to the Trust at fair market value as determined by an independent appraiser appointed by the ESOP Committee.
