Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed audits of the accompanying financial statements of Port Erie Plastics, Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA
The supplemental schedule of Schedule H, Line 4(i)-Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Port Erie Plastics, Inc. Retirement Plan
Notes to Financial Statements
December 31, 2025

1. Description of Plan

The following description of the Port Erie Plastics, Inc. Retirement Plan (the Plan) provides only general information. Interested parties should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible full-time employees of Port Erie Plastics, Inc. (the Company/Plan Sponsor) who have six months of service and are age nineteen or older. In order for the employee to receive a portion of the Company's discretionary nonelective contribution they must have one year of service. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan allows for participant contributions of up to 25% of compensation subject to limitations of the Internal Revenue Code. Plan Sponsor contributions are determined each year at the discretion of the Board of Directors. The Plan Sponsor has two separate discretionary contributions. One is a non-elective contribution allocated based on employee compensation, the other is a match of employee contributions to the Plan.

Eligible participants who have attained age fifty by the end of the calendar year are permitted to defer additional amounts (catch-up contributions) subject to limitations imposed by the Internal Revenue Service (IRS).

Participants may also elect to make Roth 401(k) contributions.

During 2024, the Plan Sponsor failed to remit certain Plan Sponsor contributions to the Plan in accordance with requirements in the Plan document. The Plan Sponsor made a corrective contribution totaling $377 to the respective participants' accounts during April 2025. These matters were deemed to be "self-corrected" under the IRS Employee Plans Compliance Resolution System (EPCRS) Self-Correction Program (SCP); therefore, no formal corrective notification to the Internal Revenue Service or the Department of Labor (DOL) was required.

Notes Receivable from Participants

Eligible participants have the ability to borrow from $1,000 to $50,000, up to a maximum of 50% of their vested account balance. All loans accrue interest at a reasonable rate at the time of the loan.

Eligible participants are allowed a maximum of two loans outstanding at one time. The loans are subject to certain limitations and conditions, as specified by the Plan Loan Policy.

Participant Accounts

Each participant's account is credited with their own contribution and the participant's allocation of the (1) Plan Sponsor contributions, (2) Plan earnings, and (3) forfeitures of terminated participants' non-vested accounts. Allocations are based on participant compensation, employee contributions or account balances, as defined in the Plan document.

As part of the cash or deferred arrangement (401(k) plan), the employees are allowed to choose between investment alternatives offered by the trustee for both the employee contribution and the employer matching contribution.

1. Description of Plan – (continued)

Forfeitures

Forfeitures may be used to pay plan expenses, reduce non-elective contributions or to reduce the Plan Sponsor matching contributions.

Vesting

Vesting is based on years of continuous service. A participant becomes 100 percent vested after six years of credited service. All monies contributed by the employees are fully vested upon contribution.

Participants are required to forfeit any amounts in which they are not vested at the earlier of the date of distribution of their vested balance or the date they have incurred five consecutive one-year breaks in service.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Payment of Benefits

On termination of service, a participant is entitled to the vested portion of his or her account. Payment is normally made in a lump sum, although provisions can be made for installment payments.

All vested balances from $1,000 to $7,000 are required to be automatically rolled over to an individual rollover retirement account for all terminated employees who do not formally elect otherwise. The terminated employees will be responsible for the related fees.

Hardship Distributions

Participants are permitted to take hardship withdrawals for qualified reasons related to immediate and heavy financial need. Loans and other available forms of financial assistance available under the Plan must be utilized prior to taking a hardship distribution.

Reclassifications

Certain reclassifications have been made to the prior year financial statements to conform to the current year presentation.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accounting records are maintained on the accrual method of accounting.

Preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies – (continued)

Valuation of Investments and Income Recognition

Investments are valued at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value) determined in accordance with the provisions of the *Fair Value Measurements and Disclosures* topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) (see Note 4). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, wrapper fees, and administrative expenses.

Purchases and sales of investments are recorded on the trade date. Income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments purchased and sold, as well as held during the year.

Subsequent Events

The Plan has evaluated subsequent events through July 2, 2026, the date the financial statements were available to be issued.

3. Investments

As of and for the years ended December 31, 2025 and 2024, the Plan Administrator elected the method of compliance permitted under ERISA Section 103 (a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) rules and regulation for reporting and disclosure under ERISA. Accordingly, as permitted under this election, all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2025 and 2024, and net realized and unrealized appreciation in the fair value of investments, interest and dividend income, and administrative expenses for the years ended December 31, 2025 and 2024, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the trustee, Empower Trust Company, LLC.

4. Fair Value Measurements

Investments are recorded at estimated fair value, in accordance with FASB ASC's *Fair Value Measurements and Disclosures* topic. This topic establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC's *Fair Value Measurements and Disclosures* topic are described as follows:

4. Fair Value Measurements - (continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables summarize instruments measured at fair value on a recurring basis for the Plan:

	Investments at Fair Value as of December 31, 2025

Investments measured at net asset value (a)				10,807,506
Total investments at fair value				$ 15,959,982

4. Fair Value Measurements - (continued)

(a) Certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds – registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Equity Securities – common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Collective trust funds – Putnam Retirement Advantage Trust Funds: Valued by the trustee using the NAV of the common/collective trust times the number of units held by the Plan. The NAV is used as a practical expedient to estimate fair value and is based on the fair value of the underlying assets held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. There are no unfunded commitments or significant restrictions on redemptions. The Plan may redeem its investment on a daily and immediate basis.

Investments Measured Using NAV per Share Practical Expedient

The following tables summarizes investments for which fair value is measured using NAV per share practical expedient as of December 31, 2025 and 2024. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

5. Guaranteed Investment Contract

The Plan is invested in a Guaranteed Interest Fund (the Fund), a fully benefit-responsive investment contract through Empower Annuity Insurance Company of America. The Fund invests primarily in stable value products, such as traditional guaranteed investment funds (GIFs), separate account GIFs, and synthetic GIFs.

The key difference between a synthetic investment contract and a traditional investment contract is that the Plan owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With traditional investment contracts, the Plan owns only the contract itself. Synthetic and traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers. The contract held by the Plan is considered a traditional investment contract.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan’s ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer’s ability to meet its financial obligations. The issuer’s ability to meet its contractual obligations may be affected by future economic and regulatory developments.

5. Guaranteed Investment Contract – (continued)

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of plan sponsor or other plan sponsor events (for example, divestitures or spinoff of a subsidiary) that significantly affect the Plan's normal operations.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer.

Certain events limit the ability of the Plan to transact at contract value, allow the issuer to terminate the contract, or require the Plan Sponsor to settle at an amount different than the contract value. Such events include the following: (1) mergers, (2) mass layoffs, (3) Plan terminations, (4) implementation of early retirement incentive programs, or (5) other events within the control of the Fund or Plan Sponsor resulting in a material and adverse financial impact on the issuer's obligations under the GICs. The Plan's management has no knowledge that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Distributions to the Funds' unit holders are declared daily from the net investment income and automatically reinvested in the Funds on a monthly basis, when paid.

6. Administrative Expenses

During 2025 and 2024, certain administrative expenses were paid by the Plan. These expenses include fiduciary fees and Plan administration fees. Certain administrative expenses, which are not material to the Plan, are paid by the Plan Sponsor.

7. Tax Status

The trust established under the Plan to hold the Plan's assets is qualified under the applicable section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan was established as a prototype plan which has attained a pre-approved letter from the IRS. The Plan has been amended since receiving the pre-approved letter. However, the Plan Administrator believes that the Plan, as currently designed, is being operated in compliance with the applicable requirements of the Internal Revenue Code.

The FASB issued guidance on accounting for uncertainty in income taxes. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements.

7. Tax Status - (continued)

During 2024, the Plan Sponsor failed to calculate and remit amounts to certain plan participant accounts (see Note 1). Accordingly, the Plan Sponsor made corrective contributions inclusive of lost earnings, as applicable, during 2025.

The Plan Sponsor is of the opinion that these matters have been resolved, and accordingly, the Plan will retain its tax-exempt status. Therefore, no provision or liability for income taxes has been included in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes it is no longer subject to income tax examinations for years prior to 2022.

8. Company Contributions

During the years ended December 31, 2025 and 2024, the Company did not make a discretionary non-elective contribution. The Company made a $0.50 matching contribution in 2025 and 2024 for each dollar of participant deferral up to 8% of compensation.

9. Related Party Transactions

Certain Plan investments are managed by Empower Trust Company, LLC. This entity represents the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $59,768 and $52,203 in 2025 and 2024, respectively.

The Plan believes these fees are not prohibited as they represent payments for reasonable compensation for the operation of the Plan.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
