INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Mother's Market 401(k) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Mother's Market 401(k) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements (the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements section*:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agreed to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of Mother's Market 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2019 as a defined contribution plan available to all eligible employees of Mother's Market & Kitchen, Inc. dba Mother's Market, (the "Company"). Charles Schwab Bank ("Charles Schwab") is the asset custodian of the Plan's investment assets. Standard Retirement Services, Inc. provides third party administration services for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company is the Plan's sponsor and serves as the Plan administrator.

Eligibility

Employees of the Company who have reached 21 years of age and have completed one year of service are eligible to participate in the Plan.

Participant Contributions

Participants may contribute up to the annual elective deferral limits ($23,500 in 2025) imposed by the Internal Revenue Service ("IRS"). Participants who have attained age 50 before the end of the Plan year are eligible to make additional catch-up contributions ($7,500 in 2025). There are two types of salary deferrals: Pre-Tax 401(k) deferrals and Roth 401(k) deferrals. Participants may also rollover amounts representing distributions from other qualified defined benefit or contribution plans.

Employer Contributions

The Company may elect to make a discretionary matching contribution to the Plan. The discretionary matching contributions will be allocated to all employees eligible to participate in the Plan at each payroll period based on eligible earnings within the computation period. All employer contributions are invested in the same manner that the participant directs his or her investments. For the year ended December 31, 2025, the Company did not make any discretionary matching contributions to the Plan.

1. Description of Plan (continued)

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions, qualified rollovers, the Company's discretionary matching contributions, if any, allocations of the participant's investment earnings or losses, and an allocation of certain transaction fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan administrator. Participants may change their investment options any time throughout the year.

Vesting

Participants are immediately vested in their salary deferral contributions plus actual earnings thereon.

The portion of the participant's account attributable to the Company's discretionary matching contributions plus actual earnings, becomes 25% vested following one year of service as defined, becomes 50% following two years of service, and becomes 100% vested after three years of service, attaining normal retirement age, death, or disability.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum amount equal to 50% of their vested account balance. All notes receivable from participants must be repaid over reasonable period of time. The notes receivable from participants are secured by the balance in the participant's account and bear fixed, reasonable rates of interest, as determined by the Plan administrator.

Payment of Benefits

Upon termination of employment due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan allows for in-service withdrawals due to attaining the age of 59 ½.

1. Description of Plan (continued)

Forfeitures

Forfeitures are the portion of the employer's discretionary matching contributions that are lost by a participant who terminates employment prior to becoming fully vested under the Plan's vesting schedule. Forfeited amounts are held by the Plan and are used to offset future employer discretionary matching contributions.

Income Tax Status

The Company adopted the prototype plan of Standard Retirement Services Inc. The prototype plan obtained its latest opinion letter dated June 30, 2020, in which the IRS stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan; however, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable provisions of the IRC and is therefore exempt from income taxes.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Contributions and Withdrawals

Contributions by the participants are recognized in the period the participants' contribution withholdings are remitted by the Company, and withdrawals from the Plan for participant distributions are recognized when the amounts are paid to the participant, except for cases where refunds are due to the participants in order for the Plan to conform to IRC provisions.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, the reported amounts of additions and deductions from net assets during the reporting period. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. The Plan's investments are governed by a trust agreement with Charles Schwab. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Investment income (loss) consists of realized and unrealized gains or losses in the fair value of investments, less investment expenses. Purchases and sales of securities are reflected on the settlement date.

Management fees and operating expenses charged to the Plan for its investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for applicable investments.

Concentration of Credit Risk

The Plan provides for various investment options in any combination of fixed income securities, mutual funds and other investment securities. These investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus the accrued but unpaid interest. Delinquent notes receivable from participants are recorded as deemed distributions based on the terms of the Plan. As of December 31, 2025, the interest rates on the outstanding notes receivable from participants ranged between 8.25% and 10.50%, with maturity through August 2030.

Administrative Expenses

Certain administrative expenses associated with the Plan are deducted from the Plan's assets, as the Company does not pay these expenses. These expenses are allocated proportionately based on the value of the participants' account balances. The Company pays for expenses such as other administration costs and periodic financial reporting.

2. Summary of Significant Accounting Policies (continued)

Income Taxes

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

3. Summary of Investment Data Certified by the Plan Asset Custodian

The Plan's investments were held by Charles Schwab at December 31, 2025 and 2024 and the following investment information was certified to be complete and accurate within the meaning of 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024.
- Investment income and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2025.
- Investment information included in Schedule H, Line 4i schedule of assets (held at end of year) as of December 31, 2025, as shown on the ERISA-required supplemental schedule.

4. Fair Value

U.S. GAAP establishes a framework for measuring fair value and defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. U.S. GAAP also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The three levels of inputs that may be used to measure fair value are:

Level 1: Quoted prices for identical assets or liabilities in active markets.

4. Fair Value (continued)

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The following is a description of the valuation methodologies used for the Plan's assets measured at fair value:

Mutual funds: Such investments are valued at the daily closing price as reported by the respective fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the valuation methodologies used during the years ended December 31, 2025 and 2024.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,591,757	$ -	$ -	$ 3,591,757
Total investments at fair value				$ 3,591,757

	2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,919,672	$ -	$ -	$ 2,919,672
Total investments at fair value				$ 2,919,672

5. Stable Value Fund

The Plan offers the stable value fund into which the participants may elect as an investment option. The stable value fund complies with Financial Accounting Standards Board's fully benefit-responsive requirements and is reported at contract value in the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024. Contract value, as reported by Standard Insurance Company, is the beginning balance plus any deposits and credited interest, less any withdrawals, charges or expenses.

The stable value fund seeks to provide liquidity and safety of principal, along with a competitive, guaranteed rate of return. Standard Insurance Company invests the deposits of plan participants as part of its general account assets, which include its fixed income securities portfolio and its commercial mortgage loan portfolio. A participant's return is determined by a declared interest rate, which is accrued daily and compounded quarterly.

Participants receive a direct guarantee of principal and accrued interest from Standard Insurance Company. That guarantee is backed by the full faith and creditworthiness of Standard Insurance Company. Deposits made to the stable value fund from Standard Insurance Company are deposited into Standard Insurance Company's general account. Guarantees are based on the claims-paying ability of Standard Insurance Company and not on the value of the securities within the general account.

Standard Insurance Company sets crediting rates using a process that is similar to that of other providers of similar products. Among the many factors the Standard Insurance Company's management team considers when setting rates are projected investment earnings on investments held in the general account, projected cash flow, the interest rate at which new investments can be made, investment and interest-rate risk, investment management expenses, liquidity needs and the competitive environment. Once the crediting rate is announced, that rate is guaranteed not to change during the set period (quarterly). That annualized net effective crediting rate is then converted into a daily equivalent and applied daily to all balances in the stable value fund for every day until the quarter ends and a new rate becomes applicable. Crediting rates for the subsequent periods can be higher or lower. The stable value fund's declared crediting rate will never be below 1.00% annually.

The crediting rates, calculated as the percentage increase in the fund's NAV of the stable value fund over the plan year ending on December 31, 2025 and 2024, are as follows:

	2025	2024
The stable value fund's crediting rate	3.15%	3.04%

6. Party-in-Interest Transactions

Plan investments include the stable value fund managed by Standard Retirement Services, Inc. During the year ended December 31, 2025, certain administrative functions were performed by officers or employees of the Company and the Plan did not compensate such individuals for their services. Also, as discussed in Note 2, the Company pays certain costs of administering the Plan. The Plan issues loans to participants. These transactions qualify as exempt party-in-interest transactions.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the Plan's financial statements to the Form 5500 as of December 31:

	2025	2024
Net assets available for benefits per the financial statements	$ 4,107,879	$ 3,329,243
Less: transfer of assets from this plan	(4,107,879)	-
Net assets available for benefits per the Form 5500	$ -	$ 3,329,243

8. Subsequent Events

Effective January 1, 2026, the Plan merged into Access Pooled Employer Plan – Series II ("PEP Plan"). Alerus Retirement and Benefits will provide plan administration and recordkeeping services for the PEP Plan. In accordance with the merger, all participant accounts and related Plan assets were transferred to the PEP Plan.

As of December 31, 2025, the Plan's investments remained with the custodian, Charles Schwab. The related investments were liquidated and the cash transfer to the PEP Plan was completed on January 2, 2026. All participant account balances were subsequently included in the PEP Plan as of the effective merger date.

The Plan Sponsor has evaluated subsequent events through October 13, 2026, the date the financial statements were available to be issued and determined that no additional events requiring recognition or disclosure occurred other than the Plan merger described above.
