INDEPENDENT AUDITOR'S REPORT

To the Plan Participants and Plan Administrator of Buckle 401(k) Plan

Opinion

We have audited the financial statements of Buckle 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years ended December 31, 2025 and 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF THE PLAN

The following description of the Buckle 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan provisions.

General - Established effective February 1, 1986, the Plan is a defined contribution plan covering, with certain specified exclusions, all employees working 1,000 hours or more per year who have one year of service and are at least age twenty. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan administrator is The Buckle, Inc. (the "Company"). The Plan recordkeeper is Principal Financial Group ("Principal") and the Plan trustee is Principal Trust Company. The Plan has adopted Principal's preapproved ESOP/KSOP plan document.

Contributions - Participants may contribute from 1% to 75% of their eligible pay, as defined under the Plan. The Plan provides for the automatic enrollment of eligible participants at a deferral rate of 3% of eligible pay, unless the participant affirmatively elects otherwise. The Plan also provides for an automatic 1% annual increase in the deferral rate (up to a maximum deferral of 10% of eligible pay) for all participants who have been automatically enrolled in the Plan, unless the participant affirmatively elects otherwise. Participants are allowed to designate all or a portion of their contributions as Roth contributions. The Company may contribute to the Plan at its discretion. In fiscal 2025 and 2024, the Company contributed 50% of employees' contributions on deferrals up to 6% of their eligible pay. The Company contributions to the Plan were $3,069,397 for the year ended December 31, 2025 and $2,803,192 for the year ended December 31, 2024. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant Accounts - Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and an allocation of the Company's discretionary contribution and Plan earnings (losses) and is charged with withdrawals and administrative expenses. Allocations are based on participant earnings or account balances, as defined under the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investments - Participants direct the investment of all contributions into various investment options offered by the Plan.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings (losses) thereon. The Company's discretionary contributions vest over a six-year period, which is as follows:

Years of Service	Percent Vested
Less than two	0 %
Two	20 %
Three	40 %
Four	60 %
Five	80 %
Six or more	100 %

Notes Receivable from Participants - Participants may borrow from their individual accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to thirty years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate established quarterly by the Plan administrator based on the published prime rate plus 1%. At December 31, 2025, participant loans have various maturities through May 2044 at interest rates ranging from 4.25% to 9.50%. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits - On termination of service, a participant may elect to receive a lump-sum amount equal to the value of their vested account, or may elect to receive his or her vested account balance through installment distributions over a specified period. Participants are also eligible to make hardship withdrawals from their deferred contributions in the event of certain financial hardships.

Forfeited Accounts - At December 31, 2025 and 2024, forfeited non-vested account balances were $188,740 and $385,632, respectively. Forfeitures of terminated participants' non-vested account balances are utilized to offset the Company's discretionary matching contributions made during the plan year and to pay certain administrative expenses for the Plan. The amount utilized to fund a portion of the Company's matching contribution was $300,000 for fiscal 2025 and $200,000 for fiscal 2024.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan utilizes various investment instruments, including mutual funds, common/collective investment trusts, and common stock. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

The Plan provides participants the ability to direct their account balances among multiple investment options, including actively and passively managed funds covering multiple asset classes. The underlying investments within these options are generally diversified among various financial instruments. Accordingly, the Plan's exposure to investment concentrations is mitigated by the availability of participant-directed diversification.

The Plan also permits investment in The Buckle, Inc. common stock. Participants electing this investment option are exposed to risks associated with changes in the value of The Buckle, Inc. common stock

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year-end. Common/collective trusts ("CCTs") are valued at the NAV per share, which is based on the fair value of the underlying net assets. Buckle common stock is valued at the quoted market price as of the last trading day of the Plan year.

Shares in the Putnam Stable Value Fund are valued at NAV, which is based on the fair value of the underlying investments as determined by Putnam. The Putnam Stable Value Fund invests in a diversified portfolio including cash alternatives, traditional guaranteed investment contracts, and wrapped actively managed strategies which seeks to preserve principal and achieve high current income. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Putnam Stable Value Fund at contract value. Contract value represents contributions made to the fund, plus credited earnings, less participant withdrawals and administrative expenses.

The net appreciation (depreciation) in fair value of investments is based on the fair value of the investments at the beginning of the year or cost, if purchased during the year. Net appreciation (depreciation) includes the Plan's gains or losses on investments bought and sold as well as held during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in registered investment companies are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan Agreement.

Administrative Expenses - Administrative expenses are paid by either the Company or the Plan, in accordance with the terms of the Plan Agreement.

Payment of Benefits - Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid, as of December 31, 2025 or December 31, 2024.

Recently Issued Accounting Pronouncements - The Plan has considered all recent accounting pronouncements and concluded that there are no recent accounting pronouncements that may have a material impact on the Plan's financial statements, based on current information.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024:

Common stock - Buckle common stock is valued at the quoted market price as of the last trading day of the Plan year and is categorized as Level 1.

Mutual funds - Shares of mutual funds are valued at quoted prices that represent the NAV of shares held on the last day of the plan year and are categorized as Level 1. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts - CCTs are public investment vehicles valued using a NAV provided by the manager of each fund. The NAV is based on the underlying net assets owned by the fund divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active. However, the NAV is based on the fair value of the underlying securities within the fund, which are traded on an active market and valued at the closing price reported on the active market on which those individual securities are traded. These investments are priced daily and have no redemption restrictions.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis as of December 31, 2025 and 2024:

	As of December 31, 2025			
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Common stock	$ 20,579,144	$ —	$ —	$ 20,579,144
Mutual funds	6,509,070	—	—	6,509,070
Total assets in fair value hierarchy	$ 27,088,214	$ —	$ —	$ 27,088,214
Investments at net asset value:				
Common/collective trusts				198,883,571
Investments at fair value				$ 225,971,785

	As of December 31, 2024			
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Common stock	$ 20,612,346	$ —	$ —	$ 20,612,346
Mutual funds	6,648,654	—	—	6,648,654
Total assets in fair value hierarchy	$ 27,261,000	$ —	$ —	$ 27,261,000
Investments at net asset value:				
Common/collective trusts				169,082,988
Investments at fair value				$ 196,343,988

Transfers Between Levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2025 and 2024, there were no transfers between levels.

4. FEDERAL INCOME TAX STATUS

The Internal Revenue Service ("IRS") issued an opinion letter dated June 30, 2020 indicating that the preapproved ESOP/KSOP plan adopted by the Plan, as then designed, was in compliance with applicable sections of the Internal Revenue Code ("IRC"). The Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

The Plan's management is aware of certain operating or administrative issues that, if not corrected, could affect the tax qualified status of the Plan and its related trust and is in the process of correcting the matters identified. Accordingly, Plan management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC to maintain its tax-exempt status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. The Company may direct the trustee either to distribute the Plan's assets to the participants or to continue the trust and distribute benefits as though the Plan had not been terminated.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Plan investments include The Buckle Stock Fund, which is invested in the stock of The Buckle, Inc., the Plan sponsor, and, therefore, these investments and actual transactions qualify as party-in-interest. The Plan held 385,233 shares of The Buckle, Inc. common stock at December 31, 2025 and 405,675 shares at December 31, 2024, which had a cost basis of $10,856,836 and $8,813,616, respectively. Dividend income received by the Plan from its investment in the stock of The Buckle, Inc. was $1,552,244 for the year ended December 31, 2025 and $1,547,555 for the year ended December 31, 2024.

Principal serves as recordkeeper for the Plan and manages certain Plan investments. Therefore, these transactions qualify as party-in-interest.
