INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Wayne Automatic Fire Sprinklers, Inc. Employee Stock Ownership Plan

Opinion on the Financial Statements

We have audited the financial statements of the Wayne Automatic Fire Sprinklers, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2025, and the related statement of changes in net assets (deficit) available for benefits for the year then ended and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2025, and the changes in net assets (deficit) available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

"Doeren Mayhew" is the brand name under which Doeren Mayhew Assurance, PC and Doeren Mayhew Advisors, LLC and its subsidiary entities provide professional services. Doeren Mayhew Assurance, PC and Doeren Mayhew Advisors, LLC (and its subsidiary entities) practice as an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations and professional standards. Doeren Mayhew Assurance, PC is a licensed independent CPA firm that provides attest services to its clients, and Doeren Mayhew Advisors, LLC and its subsidiary entities provide tax and business consulting services to their clients. Doeren Mayhew Advisors, LLC and its subsidiary entities are not licensed CPA firms.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 – Description of the Plan

General

The Wayne Automatic Fire Sprinklers, Inc. Employee Stock Ownership Plan (the "Plan") is a defined contribution plan that was established on January 1, 2024 by Wayne Holdings, Inc., the parent company of Wayne Automatic Fire Sprinklers, Inc. (the Company). The Plan is a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following description of the Plan is provided for general information purposes only. Participants should refer to the Summary Plan Description or the Adoption Agreement, including amendments thereto, for a complete description of the Plan's provisions.

Administration

The Plan Sponsor and named Plan Administrator is Wayne Holdings, Inc., which includes Wayne Automatic Fire Sprinklers, Inc. as a participating employer. The Plan Administrator is responsible for managing, controlling the operation and administration of the Plan and oversees the reasonableness of plan expenses and fees. The Company entered into a trust agreement with an independent trustee, Aegis Trust Company, LLC (the Trustee). The Company's Board of Directors and Trustee are the named fiduciaries under the Plan. The Company has also retained Blue Ridge Associates to provide participant recordkeeping and administration services.

Eligibility

Employees of the Company are generally eligible to participate in the Plan following completion of one year of service providing they worked at least 1,000 hours by the end of their first twelve consecutive months of employment and all eligible employees must be 18 years of age. Participants who are not employed on the last day of the Plan year or who have not worked at least 1,000 hours of service during the Plan year are generally not eligible for an allocation of Company contributions or a reallocation of forfeitures for such year. Employees that are employed under a collective bargaining agreement, employees that are paid through a temp or staffing agency or their compensation for services on behalf of the Company is paid by someone other than the Company, independent contractors, and non-resident aliens are not eligible to participate in the Plan. When a loan is outstanding, the Company will make contributions to the Plan in cash each year at least equal to the amount of interest and principal payments due on the loan.

Contributions to the Plan

The Company may make, at the discretion of its Board of Directors, annual contributions to the Plan in cash or shares of company stock. Any shares of company stock contributed to the Plan are valued at their fair market value as at the date of contribution. Contributions are due by the last day of that plan year and are paid to the Trustee not later than the date for the filing of the Company's federal income tax return.

Allocations are based on a proportion of eligible compensation earned for that year by a participant to the total eligible compensation by all participants who are eligible to share in the allocations for that year. Participants must complete 1,000 hours of service during the plan year and must be employed on the last day of the plan year in order to share in allocations except for those who have reached normal retirement age or who died or became disabled during the plan year.

Continued

The Plan may not accept rollover contributions from other plans.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Administrative Fees and Expenses

As provided in the plan agreement, administrative expenses may be paid either by the Plan or by the Company.

Voting Rights

The Trustee shall vote the shares of company stock held in the Plan with respect to all matters in its discretion. However, each participant or their beneficiary is entitled to direct the Trustee as to how to vote those shares allocated to his or her account with respect to any proposed merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all the assets of the business or any similar transaction.

Participant Accounts

Individual accounts are maintained for each plan participant to reflect the participant's entire interest under the Plan. Each participant's account is credited as of the last day of each plan year with: a) an allocation of shares of the company stock purchased or contributed by the Company to the Trust Fund for that year, b) allocation of shares of the Company's common stock released by the Trustee from the unallocated suspense account, c) the participant's allocable share of contributions made in that year in cash or property other than company stock that is not used by the Trustee to purchase company stock, d) forfeitures of terminated participants' non-vested accounts, e) any cash distributions paid during the year on company stock credited to the participant's account, other than distributions paid directly to the participant and f) the allocable share of the Plan's net income or loss.

Vesting

Contributions are subject to a graded vesting schedule based on years of service at a rate of 20% per year after two full years of credited service. A participant is 100% vested after six years of credited service. A year of service is earned when a participant works more than 1,000 hours in a calendar year starting January 1, 2025, in which the Plan was established. However, a special eligibility rule is applied to anyone who worked for the Company in 2024. If a participant were at least age 18 as of December 31, 2024, worked at least 1,000 Hours of Service for the Company in 2024 and was employed by the Company on December 31, 2024, they entered the Plan on January 1, 2024, or their date of hire, if later.

Diversification

Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Continued

Terminated participants who elect to diversify will receive a cash distribution. Participants eligible to diversify make their election after year-end based on the number of shares of employer's stock held in their account at year-end.

Active participants will be able to elect to diversify through cash distribution or rollover into the participant's account in the Company's 401(k) plan.

Forfeitures

Forfeitures of non-vested participant balances may be used to pay administrative expenses of the Trust, reduce the Company contributions, or be allocated to eligible participants.

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. There were no unallocated forfeitures as of December 31, 2025.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase over a period not to exceed five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). Contributions and earnings are recorded when they are earned. Expenses are recorded in the accounting period in which they are incurred.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Allocations

The financial statements present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Continued

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The

shares of company common stock are valued based upon an independent appraisal. See Note 4 for a discussion of the fair value measurements. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The common stock of the Company is valued by independent appraisals on an annual basis. The fair value at December 31, 2025 was $235.37 per share. For purposes of determining basis for realized and unrealized gains and losses, fair value at the beginning of the period is used. See fair value measurements disclosure.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including the date noted on the independent auditor's report, which is the date the financial statements were available to be issued.

Note 3 – Investments

The Plan provides that, to the extent the Plan Administrator and Trustee deem practicable, the Trustee shall use all available cash, as directed by the Plan Administrator and Trustee, to buy company stock. If no company stock is available for purchase, and the Plan Administrator and Trustee determine that the purchase of additional company stock is not practicable, the Custodian may invest in other securities or property as directed by the Plan Administrator and Trustee.

The investment in company common stock is recorded at its estimated fair value at year end, as determined by an annual independent appraisal as of the Company's fiscal year end. The independent appraised fair value of the company common stock at December 31, 2025 was $235.37 per share.

All investments of the Plan are nonparticipant-directed. Investments at December 31, 2025 are as follows:

	December 31, 2025	
	Allocated	Unallocated
Number of shares	28,745	301,255
Cost	$ 8,831,852	$ 92,558,932
Estimated fair value	$ 6,765,788	$ 70,906,312

Continued

Note 4 – Fair Value Measurements

Generally accepted accounting principles (GAAP) establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted

quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement).

The three levels of the fair value hierarchy under GAAP are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to its fair value measurement.

The following is a description of the valuation methods used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025.

Level 3 Fair Value Measurements

Sponsor Company Common Stock: The fair value of the sponsor company common stock is determined by an annual valuation performed by an independent appraiser. These valuations were based on a combination of the market and income valuation approaches consistent with prior years. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparables, and applicable discounts and premiums.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025:

	As of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Sponsor Company common stock	$ -	$ -	$ 77,672,100	$ 77,672,100
Investments, at fair value	$ -	$ -	$ 77,672,100	$ 77,672,100

Continued

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the Plan year ended December 31, 2025, there were no significant transfers between levels 1 and 2 and no transfers into or out of Level 3.

The following table represents changes in the Plan's Level 3 investment assets measured at fair value on a recurring basis for the Plan year ending December 31, 2025.

	Employer Securities
Balance, beginning of year	$ -
Purchase of Wayne Holdings, Inc. common stock	101,390,784
Total losses included in changes in net assets available for benefits	(23,718,684)
Balance, end of year	$ 77,672,100

Gains and losses included in changes in net assets available for benefits for the Plan year ended December 31, 2025 are reported in net appreciation (depreciation) in fair value of investments.

Note 5 – Loan Payable

On July 31, 2025, the Plan entered into a $101,390,784 term loan agreement with a related party. The proceeds of the loan were used to purchase the Plan Sponsor Company's common stock. The loan is payable in annual installments of approximately $6,928,767 including interest at 4.90% per annum through December 31, 2046.

Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants when principal and interest payments are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments, divided by the total of this year's payments, plus all future years' principal and interest payments. For the Plan year ended December 31, 2025, 28,745 shares were released and allocated to participants.

The schedule of maturities of the loan for each of the Plan years ending December 31:

Year Ending December 31st	
2026	$ 2,542,235
2027	2,666,805
2028	2,797,478
2029	2,934,554
2030	3,078,348
Thereafter	75,501,640
	$ 89,521,060

Continued

Note 6 – Party-in-Interest Transactions

The Plan invests in company stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described in Note 1, the Company may pay plan expenses and has a number of service providers. Such providers are parties-in-interest under ERISA.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts and the interest of each participant in the trust fund will be distributed to such participant or his/her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Trustees will pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account, if any, to the extent it determines such sale to be necessary in order to repay the loan.

Note 8 – Plan Amendment and Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 17, 2026, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate section of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. As of December 31, 2025, the Plan Administrator believes that the Plan has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently being examined.

Note 9 – Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rates, market and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with investment in common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 – Significant Concentration

Investments representing ten percent or more of the Plan's net assets (deficit) are considered to be a significant concentration and are as follows:
