Independent Auditor's Report

To the Plan Administrator
Xavier University Defined Contribution
Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We were engaged to perform audits of the financial statements of Xavier University Defined Contribution Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025 and 2024 and the related statement of changes in net assets available for benefits for the year ended December 31, 2025 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024 and for the year ended December 31, 2025 stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

As described in Note 3, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan has not maintained sufficient accounting records and supporting documents relating to these annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficiently to determine the extent to which the financial statements may have been affected by these conditions.

PRAXITY™
Empowering Business Globally

To the Plan Administrator
Xavier University Defined Contribution
Retirement Plan

Emphasis of Matter

As explained in Note 7, the financial statements include investments valued at approximately $80,845,000 (18 percent of net assets) at December 31, 2025 and $79,250,000 (19 percent of net assets) at December 31, 2024, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF). Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Our responsibility is to conduct the audits of Xavier University Defined Contribution Retirement Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at end of year as of December 31, 2025 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Note 1 - Plan Description

The following description of Xavier University Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Xavier University (the "University"). The Plan, in existence since January 1, 1974, as amended, was effective January 1, 2009. The audit and risk management committee of the board of trustees of the University controls and manages the operation and administration of the Plan. Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF) currently serve as recordkeeper, as well as agent for TIAA Trust, N.A. (Trust Company), a custodian of the Plan, or its affiliates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

From February 1, 2022 through September 30, 2023, eligible employees who were exempt were required to contribute 5.00 percent of their pretax compensation, while eligible employees who were nonexempt were required to contribute 2.00 percent of their pretax compensation (excluding bonuses, overtime, and faculty summer teaching compensation) to the Plan. For eligible employees, the University increased contributions based on an amount equal to a specified percentage of a participant's compensation based on the participant's years of service as follows: 8.50 percent for 0 to 4 years of service, 9.00 percent for more than 5 up to 9 years of service, 9.50 percent for more than 10 up to 19 years of service, and 10.00 percent for 20 or more years of service. Effective October 1, 2023, the mandatory employee contribution is 2.00 percent of their pretax compensation and the mandatory employer contribution for eligible employees is 5 percent. Employees hired on or after October 1, 2023 will have a 1-year waiting period. Employees with an original hire date prior to October 1, 2023 who are rehired on or after October 1, 2023 will not have a 1-year waiting period. They will re-enter the Plan on the rehire date.

Participants attaining at least age 50 during the plan year are eligible to contribute additional catch-up contributions to the Plan. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Participant Notes Receivable

Participants may borrow from their accounts subject to certain maximum and minimum amounts prescribed in the Plan and in the Internal Revenue Code. Notes receivable bear interest at a market rate.

Participant Accounts

Individual accounts are maintained for each plan participant. Participants may direct the investments of their account balances into various investment options offered by the Plan. Each participant's account is credited with the participant's contribution, the University's contributions, and an allocation of plan earnings and charged with withdrawals and an allocation of plan losses and administrative expenses. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants hired prior to October 1, 2023 are vested immediately in all contributions plus actual earnings thereon. Participants hired on or after October 1, 2023 are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the University's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants become immediately vested in contributions made by the University after three years of service.

Note 1 - Plan Description (Continued)

Benefit Payments

Upon termination of service due to severance of employment, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account or annual installments over a period elected by the participant, not exceeding his or her life expectancy. Upon termination of service due to retirement or disability, a participant's account balance will be paid in the form of an annuity unless an optional form of benefit is selected. Optional forms of benefit include either a lump-sum amount equal to the value of the participant's account or annual installments over a period elected by the participant, not exceeding the participant's life expectancy. If the participant's benefit does not exceed $5,000, such benefit may be paid in the form of a lump sum as soon as administratively practical after the time of his or her termination.

Redemption Restrictions

Certain contracts under the TIAA Traditional Annuity investment option have limits on the ability of the participant to transfer or withdraw from the fund. Transfers from the Retirement Annuity (RA), Group Retirement Annuity (GRA), and Transfer Payout Annuity (TPA) contracts must be paid out in 10 annual installments. Withdrawals from the RA contracts must be paid out in 10 annual installments. Withdrawals from the GRA contracts are available within 120 days after termination of employment subject to 2.5 percent surrender charge; otherwise, they must be paid over 10 annual installments. The remaining contracts under the TIAA Traditional Annuity investment do not have restrictions related to transfers and withdrawals.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by TIAA-CREF and TIAA Trust, N.A. or their affiliates. TIAA-CREF is a service provider of the Plan, and TIAA Trust, N.A. is a custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

The University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA or amend the Plan at any time. The University has not expressed any intent to discontinue or terminate the Plan. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Plan Loans

The Plan contains provisions allowing participants to take out loans against their account balances if certain conditions are met. An amount equivalent to 110 percent of the loan amount is reserved or held in collateral from the participant's TIAA Traditional Annuity account to cover the outstanding loan amount for the period of time the loan is outstanding. Interest rates on loans and subsequent interest rate changes depend on how the participant's retirement balance is invested. Principal and interest are paid by the participants directly to TIAA-CREF. When TIAA-CREF receives the loan repayment, the amount is deposited back into the Plan. The amounts of these outstanding loans were $43,610 and $45,927 as of December 31, 2025 and 2024, respectively. These loans are not included as assets in the accompanying financial statements. At December 31, 2025 and 2024, plan loan balances totaling $38,560 and $36,583, respectively, were in default.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except as noted below.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investments in registered investment companies are valued at net asset value per share (NAV) of the funds (or its equivalent), which is based on the fair value of the funds' underlying net assets. There are no redemption restrictions or unfunded commitments on these investments. The pooled separate account (TIAA Real Estate X1) is valued at net asset value per share or its equivalent of the fund, which is based on the fair value of the fund's underlying assets, which consist primarily of rental property subject to long-term leases, and has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with risks involved. There are no redemption restrictions or unfunded commitments on this investment.

The TIAA Traditional Annuity is a guaranteed annuity contract issued by TIAA that invests in the general assets of TIAA. TIAA considers the following contracts to be benefit responsive: Supplemental Retirement Annuity (SRA), Group Supplemental Retirement Annuity (GSRA), and Retirement Choice Plus (RCP). TIAA considers the following contracts to be non-benefit responsive: Retirement Annuity, Group Retirement Annuity, Interest Payment (IP), and Transfer Payout Annuity. The non-benefit-responsive portion is recorded at fair value. The benefit-responsive portion is recorded at contract value. Since there are no specific securities in TIAA's general account related to these contracts, contract value approximates fair value for the non-benefit-responsive contracts. The fair value of the non-benefit-responsive contracts was determined by discounting the related cash flows based on current yields or similar instruments with comparable durations and taking into consideration the creditworthiness of the issuer. For all portions, contract value represents principal invested, plus interest earned, less any withdrawals.

All other investments are valued based on quoted market prices. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

See Note 7 for additional information.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefit payments to participants are recorded upon distribution. There were benefit payments requested but not paid (due to redemption restrictions) totaling $3,500,481 and $3,159,137 as of December 31, 2025 and 2024, respectively.

Administrative Expenses

Investment-related and administrative expenses are paid from the plan assets, with the plan administrator paying a portion of the fees to service providers at its discretion. Investment income in the accompanying statement of changes in net assets available for benefits is reported net of investment-related expenses.

Allocated Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact, and additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments, including mutual funds and investment contracts. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 5, 2026, which is the date the financial statements were available to be issued.

Note 3 - Excluded Investments

Accounting principles generally accepted in the United States of America require that annuity and custodial accounts issued to current and former employees and the related income and distributions be included in the accompanying financial statements. However, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*, the Plan has excluded from investments, as reported on the accompanying statement of net assets available for benefits, certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. The investment income and distributions related to these accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable.

Note 4 - Certified Information

TIAA-CREF holds the Plan's investments, except mutual funds, and executes related transactions. TIAA Trust, N.A. holds the mutual fund investments and executes all related transactions. TIAA has the authority to certify the investment balances and related investment activity on behalf of TIAA Trust, N.A. The investment balances and related investment income and losses included in the accompanying financial statements and the supplemental schedule of assets held at end of year are based solely on information certified by TIAA-CREF and TIAA, as agent for TIAA Trust, N.A.

The Plan has excluded certain assets from the statement of net assets available for benefits at December 31, 2025 and 2024 (see Note 3).

Note 5 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS. The Plan has not individually sought its own determination letter.

Note 6 - Investment Contracts

Based on the terms of the contracts, a portion of the TIAA Traditional Annuity is considered benefit responsive. The total balance in the TIAA Traditional Annuity was $91,854,631 and $91,963,446 at December 31, 2025 and 2024, respectively. The benefit-responsive portion of the TIAA Traditional Annuity totaled $18,592,686 and $20,647,542 at December 31, 2025 and 2024, respectively. The contract issuers maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a vintage approach. Under this methodology, TIAA groups the dollars it receives over defined time periods into vintages and determines a crediting rate for the applicable vintage. Interest crediting rates are determined during the accumulation phase of the applicable declaration year. When establishing interest crediting rates for this product, TIAA considers any administrative expenses during the time period and required contingency reserves. The minimum crediting rate for the benefit-responsive contracts is generally 3.00 percent; however, in some recent contracts, it has been between 1.00 and 3.00 percent.

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

As described in Note 2, because a portion of the contract is fully benefit responsive, contract value is the relevant measurement attribute for the portion of the net assets attributable to the investment contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Note 7 - Fair Value Measurements

Accounting standards generally accepted in the United States require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs. Level 3 fair value measurements are based primarily on estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. For the group annuity contract, significant inputs include the credit rating of the issuer, discount rates, deposits made to the contracts, earnings at guaranteed crediting rates, withdrawals, and fees.

Note 7 - Fair Value Measurements (Continued)

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan has excluded certain assets from the statement of net assets available for benefits at December 31, 2025 and 2024 (see Note 3). The following tables present information about the included plan assets measured at fair value on a recurring basis at December 31, 2025 and 2024:
